

UFO congress

LONDON: UFO-spotters from all over the world will attend Britain's biggest congress of enthusiasts next month.

Speakers and delegates from Britain, the United States, Australia, Spain, Belgium, Norway, France and Africa will swap stories and theories at the three-day conference at Sheffield's Library Theatre between August 16 and 18.

Two of the speakers will be Catherine Howard, of the US, who claims she was snatched by a UFO, and Charles Hickson, who will tell how he was taken aboard a flying saucer in 1973.
