

Police warn of danger

Although Len Quick and his neighbors can see a funny side to their strange encounter with a garbage bag, Victor Harbor police are not taking the matter lightly.

They too, have uncovered the truth behind the rash of sightings.

And they are appealing to anyone with any information on who sent up the balloon/bags to contact them.

“For sure it’s dangerous,” a police spokesman said.

It’s a really silly act.

“For one, it’s stirred up all this UFO talk but more importantly if one of these devices landed in a field or something they could create a bushfire.

“Because of the danger we would recommend that people not try to undertake any similar activity.”
