

The Bush TELEGRAPH

By Jodie Hamilton

BETTER LATE THAN NEVER: The art of borrowing and returning friends' belongings has been perfected by a local man.

The fellow visited a friend a couple of weeks ago to return a surfboard he had borrowed.

The gentleman he was returning the board to wasn't sure that the board was his as he did not recognise the groovy 60s style yellow board complete with a large heart graphic.

And no wonder, the board had been borrowed 30 years ago, and the man just never got around to returning it until this year.

CLOSE ENCOUNTER: Police were mystified about two separate reports of lights above Point Bolingbroke and west of Winter Hill at about 3.20am on Sunday morning.

On investigation even more mystifying was the description of the Unidentified Flying Objects given to the police.

The callers reported seeing blue lights, shaped like diamonds darting through the sky.

Not that unusual, but one of the caller's description of the craft and its number plate, make and model was astounding.

The police were told the craft had S % ANDHJ

The police were told the craft had S % ANDHJ & % URTJ of Galaxy 94 Starsystem 5 written on its side.

The UFO had apparently decamped before the police could see it, and its whereabouts remain unknown.
