

UFO sighting in Port Lincoln

PORT Lincoln resident Russell King could not believe his eyes on Sunday when he saw an unidentified flying object (UFO).

Mr King, who lives on Flinders Highway, said his daughter first noticed the light on Sunday night at 7.45pm when she was sitting out on the patio, and subsequently called her mother and father to

clarify what she was seeing.

Mr King said the object had an indistinguishable shape but was a moving bright orange light between North Shields and Point Bolingbroke in the middle of Boston Bay.

A Port Lincoln Police spokesperson said there was one other separate report of the UFO sighting on Sunday.
