

rants and rubbish

uni students chew the crap with the kinky dominatrix

Dear Weekly UNSW News,

I have a problem. I have developed a terrible habit. Every time I go to uni I carry a pipe bomb. I really want to stick it down the pants of someone smarter than me. Because smart people are ruining my education. I entered this uni, just scraping by the cut-off for Arts. Now I've realized that I'm the dumbest kid here. Everyone else discusses Lacan and drinks lattes, when all I want to do is watch football and drink beer. What can I do?

Desperate Jock

Dear Jock

Dear Jock,

It's easy. Just move to college!
Or, after a year of piss easily

obtained credits, change to engineering. There you will find loads of people who seem to have been spawned in 20th century, but who in fact, are the closest living ancestors of wild monkeys.

Dear Weekly UNSW News,

I'm sick of being persecuted.
I'm a white heterosexual middle class male with a steady income, a good education and I get lots of holidays. Why is this paper full of stories on aliens, zombies and ghosts? It's about time we had some cultural diversity. How about a story on the neo-nazi faction of which I

the neo-nazi faction of which I
am president?
Hitler's Illegitimate Aryan Son

Dear Bigot,

I have it on good authority that
your great grandmother was an
alien. Sucked in.

Dear Weekly UNSW News,

I come from the planet Zolton
and I eat cats. No my name is
not ALF, quit if with that joke
already, ok? I was wondering
where I could get some quality
cat meat on campus?
Mr Alien Being.

Dear Alien,

There are plenty of stray cats
running around campus. On a

good night, the Roundhouse smells of the sweet stench of kitty urine. Since no one seems to want to call the RSPCA, and all the security guards are busy jingling keys and riding bikes, I suggest that you go the hell ahead and eat them all. There's a cute ginger one living under the Basser steps.

Dear Weekly UNSW News,

There are UFO's everywhere. Your paper may be a mock up but I can see them. I was in my

psychology class yesterday and I noticed antennas poking from the head of my lecturer. I think he's one of them. I don't know where else to turn! Paranoid.

Dear Undiagnosed Freak

Dear Undiagnosed Freak,

You are another good reason to turn to psychiatry as opposed to psychology- psychiatrists give you drugs. Which you either need more of, or a great deal less. And we know there are UFOs at uni, we called them here you goof. No-one in this solar system gives a crap about student welfare, now do they! GO VSU!

Dear Weekly UNSW News,

It is the 50th anniversary of the foundation of the university. That number fulfills the prophecy of the date of doom. The world will end on foundation day! Beware! All sinners will be burned!

Dear Hysterical,

Yeah yeah and JFK Jnr is gonna die in a plane crash with his wife and sister in law only to be found days later at the bottom of the sea. Right. The world will blow up this week. Whatever.
