Truckie duo in in UFO drama

AN unidentified flying object has been sighted by truckies near Dalby on the Darling Downs and has prompted UFO Research Queensland Inc to apply to view Department of Defence radar tapes for identification.

Karim Hashim-Jones of UFO Research Queensland said there had been some spectacular unexplained sightings around Dalby.

Two truckies watched the object, one with his son, while it was travelling slowly like a normal aircraft, but without normal aircraft lighting. One said two F111 aircraft circled the facility afterwards.
