UFOs zap belief in Almighty

More people believe in UFOs, aliens and ghosts than those who believe in God.

UK researchers found that 54 per cent of us believed the Almighty exists, but 58 per cent accepted the supernatural.

Women are more likely to

believe in the supernatural and visit a medium than men.

Almost a quarter of the 3000 respondents claimed they'd had a paranormal encounter.

The findings were released to mark the DVD release of *The X-Files: I Want to Believe*.
