Trauma after alien landing

A school staged a mock alien crash landing and abduction of a teacher, leaving traumatised pupils in tears.

Kids as young as seven screamed when a spacecraft appeared to crash near classrooms and aliens grabbed a staff member.

The event at Southway Junior School in Burgess Hill, West Sussex, was designed to fire children's imaginations and boost their writing skills as part of an "Everyone Writes Day".

But up to 370 pupils were left traumatised by the UFO.
