

● MEMO ONLINE

FBI believes alien crash

A memo that appears to confirm the FBI believes aliens did land in New Mexico in the late 1940s has been put online.

The FBI has made thousands of files available in a new resource called The Vault.

Among them is a memo from Guy Hottel, the agent in charge of the Washington field office in 1950.

In the memo, whose subject line is "Flying Saucers", Hottel says an Air Force investigator stated that "three so-called flying saucers had been recovered in New Mexico".

The memo will fuel long-held conspiracy theorists' beliefs of a government cover-up.
