

Russell Crowe's UFO

Actor Russell Crowe says he's caught a UFO on camera. The usually publicity-shy *Gladiator* star said he captured what appears to be several flying objects whizzing over Sydney's Botanical Gardens earlier this week and he's posted the results on YouTube. "A friend and I set camera to capture fruit bats rising from Botanic Gardens. This was a big surprise," he tweeted on Wednesday. Crowe provided a link to the footage, which was posted online late on Tuesday from an account called ParallelUniverse1234.
