MRS. PLATE

3404 SAW A

'SAUCER'

JERSEY CITY, Monday.
Something that looked like a "flying saucer" and about twice the size of a jet fighter plane was seen hovering 150 feet above the ground and about 300 feet from the tower of a radio station at Franklin, New Jersey, at the weekend.

Louis Vander Plate, owner of the station, said, "My wife heard a deep rumbling sound like thunder and looked out and saw this object hovering right above the treetops."

He said the rumbling appeared to come from engines in the craft. The object was at first white in colour, then it turned pink and from pink it turned to light green.

"When it was green she said she could see three port holes in the side of it," Vander Plate said. "Then it zoomed off very fast."—BUP.
