# POLICE IN 80 M.P.H. CHASE AFTER MYSTERIOUS 'FLYING OBJECT'

<sup>3404</sup>  
*Very big and  
cross-shaped*

**TWO** police constables had an 80 mph chase after what they described as an "unidentified flying object" over a Devon road today.

A spokesman for Devon and Cornwall Police said: "The constables said it was very large, bright and in the shape of a cross."

~~Later the~~ constables reported seeing the object again, and this time it was joined by a second, similar object.

P.C.s Roger Willey and Clifford Waycott were in a patrol car at about 4 a.m. when they first saw the object, on the Holsworthy to Hatherleigh road.

## *Treetop height*

The nearest they got to the object, they said, was about 40 yards. It was at about treetop height.

The spokesman said: "It followed a course over the road on which they were travelling, and they were doing 80 m.p.h. at one time. Then it left them. It appeared to stop in a field, and they stopped and got out—but it disappeared."

It was at 4.16 a.m. that the constables reported that they had been watching the object for about 15 minutes.

At 4.23 a.m. they reported that it had reappeared. This time a second object made its appearance.

They finally reported disappearance of the objects at 4.58 a.m.—nearly an hour after the first sighting.
