

# Object in sky over Aldingham!

**A** N object in the sky was seen hovering over Aldingham by a Barrow woman late last night.

The woman told a friend she was on her way along the Coast Road at about 11 p.m. when she saw an object suddenly appear in the sky, hover for a minute just above Aldingham, then fly off fast.

She described the object as round and said it left a trail of smoke. The object was also surrounded with coloured lights. It was definitely not a plane she said.

A spokesman for Air Traf-

fic Control, Preston, said today: "We have heard nothing about this. Aldingham is just below one of the major areas where there is considerable air-traffic.

"It could have been a plane. When the light only falls on the wing or some part of it, you cannot see the full configuration."
