

four year period  
In 1980 Wales had the most National Health Service prescriptions per person issued by GPs - 8.7 a year. Wales also had the highest incidence of male deaths from heart disease the previous year.

## Lights in sky sighting confirmed

A FORMER aircraft engine fitter has confirmed a sighting of the UFO which was reported by a Gwent policeman last week.

P-c Stephen Gamlin reported seeing blue flashing lights circling low in the sky over Blackwood on Wednesday night. The mystery object turned towards Oakdale

Now Mr Fréderick Jackson, of Dorset Crescent, Liswerry, has added that he saw some lights as he was walking down Spytty Lane

The lights were red and white and green.

"I am no stranger to aircraft because I worked in the RAF for seven years and my son is a pilot," he said. "I am sure those lights were not from an aircraft and I am pretty sure they were the same lights seen over Blackwood."
