## Demons in devilish UFOs

27/4 A WELSH-BORN Baptist minister has uncovered a new theory linking UFOs with demonic activity in the "last days." All is revealed in Dr I.D.E. Thomas's latest book *The Omega Conspiracy*. Apparently 8,000 copies have been spoken for even before publication - by Americans, ever receptive to such weird and wonderful things.

Dr Thomas, a native of Rhandirmwyn in Dyfed, has lived in the US for some years and is senior minister of the First Baptist Church of Maywood, California. Until 1968 he travelled throughout the United States and Canada as a mission preacher and went on to become a part-time minister at Los Angeles Welsh Presbyterian Church.

He has been interested in demonology and Ufology for years and says, "The impetus for writing *The Omega Conspiracy* was the result of my finding a key verse in the book of Genesis."
