The Saucerers and their earthly apprentices — or to much UFOria?

FLYING SAUCERS Have Landed, announced George Adamski 35 years ago. And 60 per cent of the British public believe they still are landing.

Not only that, a book published this month says they are picking up passengers. To prove it, it offers some 200 case histories of earthlings abducted by aliens.

Well it's been happening for centuries. But years ago we blamed the "Little People" and it's clear that incidents from folklore and UFOlogy have a lot in common. Or uncommon.

As the new book, *Abduction*, and another best seller in America revive interest, we take a three-part look at the Saucerers and their earthly apprentices.

Are YOU a believer? Perhaps an experience in your life has made you one..? As the UFO mystery continues to fascinate we'd like to hear your story — write to the Echo Features Department.
