Flying tonight

WHAT has Venezuela got that Barrow hasn't? At the end of last month, a Barrow man saw 'between four and six' mysterious lights hovering in the sky beyond the Abbey Road baths and wrote to us asking if these were UFOs.

Here we are at the beginning of a new month, and we find a Venezuelan radio station has been flooded with calls from people saying they have seen five mysterious lights in the sky . . .

Have we been visited by some inter-galactic coach-party? Are they beaming up rear window stickers ('We've seen the Abbey Road baths')?

Sadly they have disappeared again and our questions may never be answered.
