THE first UFO and Crop Circle Conference is destined to leave a lasting impression on Wales later this summer.

A group of experts on mysterious crop circles and UFOs will descend on Cardiff to discuss sightings of flying saucers.

South Wales UFO group investigator Tom Blower is co-ordinating the conference on August 13.

Presentations, video footage and slide projections will attempt to answer "the most perplexing mysteries today".

The conference, from 9am to 5pm, will be held at the PowerHouse, Llanederyn.
