## Space sighting

BRICKIE Terry Thomas, of Maes-y-Deri, Winch Wen, claims he saw a spaceship cruising across the skies above Swansea.

The 57-year-old says he looked out of his home around 6.50am on Sunday and saw two bright lights moving slowly but steadily over Penlan and heading out towards Port Talbot.

Swansea Astronomical Society Secretary Dave Tovey said: "It may have been a satellite, possibly the Russian space station Mir."
