## UFOverture

A CLAIRVOYANT who believes she received the power to heal after an experience with a UFO while on a visit to Mid Wales now says a popular attraction in the area has inspired her to write music.

Heleneia Brierley, who said she was given healing powers two years ago near Welshpool, claims a visit to Water-Break-Its-Neck, a waterfall near New Radnor, has led to her composing music on the piano, even though she had never before played a note in her life.

She will be giving a recital of her compositions at the Assembly Rooms in Presteigne next month.
