19TH FEB 1998

# K FILES LAND IN WALES

**you sure  
is don't exist?  
ause an awful  
of very sane  
ple have seen,  
inge sights in  
rth Wales...**

**HAVE you ever seen  
bright like 'spacraft'  
be one right, terrifying  
sacraft?**

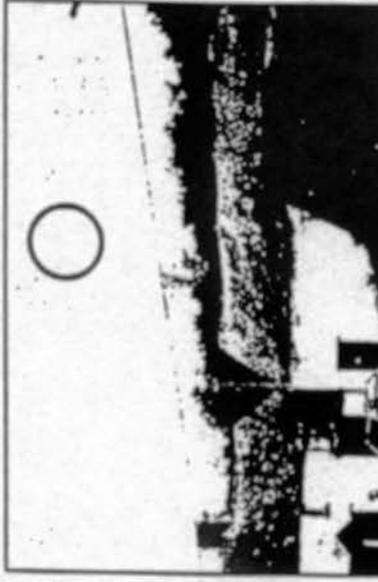

a larger cigar-shaped  
with a red centre like the  
pointed by two men near  
rth on January 4, 1967  
with Wales members of  
act International, which  
and takes statements from  
in who have seen,  
certified flying object,  
eye-witness accounts of  
encounters of the third  
the strongest of them all is  
Pwllheli Aberystwyth, Ceredigion  
near 15 years ago a teenager  
out 15 years ago a teenager  
in the countryside  
by. As he walked home in  
early hours of the morning  
saw something in a field by  
side of the road, and as he  
ed up a ridge (see page 10) he felt a

**Spacrafters** A reconstruction of the Pwllheli 'abduction'.  
probe discovered that there are  
in fact 13 moons.  
He hadn't been drinking, a  
fact averred by the policeman  
who found him and took him  
back to the hamlet where he  
lived.  
He arrived home in such a  
state of shock that his mother,  
after hearing his story, went to  
the local library the next  
morning and found the address  
of the Contact International  
be adequate.  
Despite the fact that the ground  
was thick snow on the night  
she drove her son all the way to  
Cardiff to see a UFO  
expert. The teenager was still  
- some time before an American  
certified that he returned to get

**They's the limits** A classic picture of a classic UFO, left, and ... good grief, what's that in the sky above Llanonnoct? Is it a bird, is it a plane?  
even more remarkable was that  
the pouches all seemed that the  
other cows in the field were  
completely immobilised.  
The craft sped off and the  
incident might never have been  
heard of had not one of them  
mentioned it to a girlfriend  
some time later and she in turn  
contacted a reporter friend.  
Other sightings seem to have  
been alerted by perfectly  
rational people going about  
their daily business, people such  
as Keith Jones who saw a  
bizarre shaped object by a pub  
near Durbach.  
He rubbed inside and told the  
booth, who went outside and  
witnessed the craft taking off.

**'solidified'** into a grey orb, and  
among the witnesses were a  
group of 14 Venturer Scouts  
camping nearby.  
-The Army came and I was  
woken up in the middle of the  
night by a huge yellow  
helicopter disgorging soldiers,  
said an eyewitness. "They said  
they were looking for old  
rockets."  
Stranger still is the case of  
Min W of Penryn Halbury who,  
while reading late at night in her  
spare bedroom in 1962,  
suddenly saw a motor-like  
object hurtling towards her.  
She rushed outside and saw a  
huge object over her bonaglow,  
and as in the Carrig-y-Drudon

incident, her dog behaved quite  
oddly. The 'spacraft'  
gradually rounded and she went  
to bed, but in the middle of the  
night she woke up and saw a  
man at her window.  
She described him as "a quite  
size looking man with olive skin  
and short brown hair".  
The next second he appeared  
by her bedside and also said: "I  
wonder if I'm dreaming you".  
As she put out her hand to  
test whether he had any  
substance he made a gesture  
with his hand and she knew no  
more - other than to receive  
spacraft 'messages' from the  
beyond.

One of those messages told  
her that the aliens had left three  
tripped marks on Halbury  
Mountain and she started  
exploring the area.  
"This area is very dangerous,  
with many mine fields, but she  
eventually found three perfect  
squares in the ground, believing  
soon them I have to be here  
ben", said the Contact  
International member. "They  
were right on the edge of a shaft  
and so surely they could have  
left such perfect indications so  
close to a hole without slipping  
in or corrupting the ground  
around."  
She added: "This woman is in  
her mid-fifties, is very honest  
and is completely sane".

One couple from Dyarth  
gave chase to a UFO in their car  
but were fitted when the craft  
landed in a field and "literally  
went out like a light".
