**Mystery UFOs  
explained by jets**

TWO jets flying at high altitude over Swansea may have been responsible for a series of UFO reports, it emerged yesterday.

Swansea coastguard was inundated with reports of lights in the sky at around 8pm last Thursday but Swansea Airport aircraft controller David Healey said two De Havilland planes had returned to Swansea from Cardiff at around 8pm on Thursday. He said, "They are silver, and unusually shaped with a short wingspan."
