MP to probe more than 50 reports of UFO sightings

CLAIMS that UFOs have been spotted are to be investigated by an MP.

Swansea-based UFO researcher Neil Spring says he has received more than 50 different claims of UFO sightings relating to strange lights and objects in the sky last Thursday.

Mr Spring said the reports centred around objects seen over the Mumbles and West Swansea area about 8pm.

Many of the reports said grey, wingless objects were seen flying at extremely high speeds.

Although Swansea Airport has since reported that a number of De Havilland aircraft were flying over Swansea on Thursday, Mr Spring said the aircraft had landed at Swansea by 6.30pm.

Gower MP Martin Caton has now told Mr Spring he will make further inquiries regarding last Thursday's sightings.

He said, "Clearly people saw something."
