

Mother and daughter shoot footage of UFOs over Cardiff home

Myfanwy (centre) with her friends Victoria and Lavinia is convinced these rapidly moving lights (circled) she caught on camera in the skies above Llandaff were UFOs

IS THIS proof of UFOs over South Wales? Mother and daughter Fiona and Myfanwy George-Veale certainly think there is something strange going on.

They spotted a series of lights in the sky over their home on Sunday night and say they have yet to find a satisfactory explanation of what the glowing objects might have been.

Mum Fiona, who lives in Llandaff, Cardiff, said: "It was about 10.30pm and my daughters called me to look at the object they could see in the sky.

"They were bright orange and some of them were pulsating red.

"Obviously, I have never seen a UFO before so I don't know what they look like, but I have also never seen anything like this before."

Fiona and her daughter Myfanwy, 15, rushed to get a camera to take pictures and shoot a video of the suspected UFOs.

The pictures they took did not process very well but they did manage to get a short film of the lights.

"There were between eight and 12 of these orange spheres in the sky one after each other," added Fiona, who saw the lights on Bank Holiday Sunday.

"We could see them moving off one by one in the same direction."

Her family were so shocked by what they had seen that Mrs George-Veale called the non-emergency police number to report the sighting and try to get an explanation.

Close encounter with eerie lights caught on film

She was told it was most likely to be Chinese lanterns - a paper globe with a candle in the middle which floats through the sky.

But Mrs George-Veale disagreed, saying: "We thought if it was a Chinese lantern they would be blowing around in the wind.

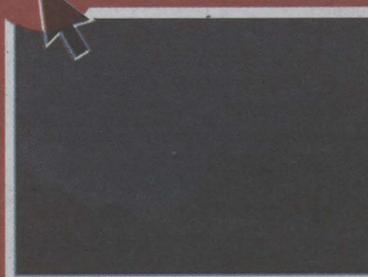

"The lights we saw had a very regimented movement and all went in the same way. They didn't seem to be floating.

"It could be nothing but we are a bit suspicious of it."

A spokeswoman for South Wales Police said there had been no further reports of any sightings of suspicious lights on Sunday night.
