

**JOHN RAMIREZ**

**CIA - RET**

1  
00:00:09,669 --> 00:00:06,950  
uh we there you know you've you've come

2  
00:00:12,230 --> 00:00:09,679  
out of nowhere and and i think the

3  
00:00:14,150 --> 00:00:12,240  
biggest the biggest fear and i know this

4  
00:00:15,829 --> 00:00:14,160  
is one of michael's biggest fears is

5  
00:00:17,990 --> 00:00:15,839  
nobody wants to be made of full of

6  
00:00:20,790 --> 00:00:18,000  
nobody wants to look like a fool nobody

7  
00:00:22,710 --> 00:00:20,800  
wants to over believe anything and in

8  
00:00:24,630 --> 00:00:22,720  
this field it's rampant with sort of

9  
00:00:27,750 --> 00:00:24,640  
people making claims that they can't

10  
00:00:29,830 --> 00:00:27,760  
back up and so i think the biggest thing

11  
00:00:31,669 --> 00:00:29,840  
with the john ramirez story and sort of

12  
00:00:34,069 --> 00:00:31,679  
the lore that you've just thrown in here

13  
00:00:36,389 --> 00:00:34,079

in the last two months is there like is

14

00:00:38,790 --> 00:00:36,399

this guy really from the cia how do we

15

00:00:40,549 --> 00:00:38,800

know this right we've seen a paperwork

16

00:00:42,950 --> 00:00:40,559

but that could be photoshopped we've

17

00:00:45,270 --> 00:00:42,960

heard him explain it and it's sort of

18

00:00:47,590 --> 00:00:45,280

the catch-22 or the double-edged sword

19

00:00:48,869 --> 00:00:47,600

of of of you know if if he shows you a

20

00:00:50,630 --> 00:00:48,879

picture of getting the medal well i

21

00:00:52,549 --> 00:00:50,640

could have photoshopped this it's a

22

00:00:55,029 --> 00:00:52,559

never-ending story of

23

00:00:57,430 --> 00:00:55,039

how we cannot confirm this so the the

24

00:00:59,670 --> 00:00:57,440

one thing that rather up here i can see

25

00:01:01,750 --> 00:00:59,680

his face already rather was like well if

26

00:01:03,670 --> 00:01:01,760

he got a medal why doesn't he show us

27

00:01:06,469 --> 00:01:03,680

the medal that could that could easily

28

00:01:09,030 --> 00:01:06,479

solve a lot of these problems uh and so

29

00:01:11,109 --> 00:01:09,040

i wrote john and i was like hey john

30

00:01:12,550 --> 00:01:11,119

just want to give you the heads up uh

31

00:01:14,070 --> 00:01:12,560

because it was a courtesy of rather

32

00:01:15,990 --> 00:01:14,080

rather just we didn't want to catch

33

00:01:18,070 --> 00:01:16,000

anybody from left field and this is not

34

00:01:19,910 --> 00:01:18,080

gotcha journalism we're not 60 minutes

35

00:01:22,789 --> 00:01:19,920

and we don't want to appear rude and

36

00:01:25,270 --> 00:01:22,799

question the validity of who you are

37

00:01:27,190 --> 00:01:25,280

you know it's it's a it's a it's a fine

38

00:01:29,510 --> 00:01:27,200

tap dance that we have to do to sort of

39

00:01:31,749 --> 00:01:29,520

ask this question but the question from

40

00:01:33,270 --> 00:01:31,759

rather was well let's see the metal

41

00:01:36,550 --> 00:01:33,280

let's see the metal that he claims he

42

00:01:38,950 --> 00:01:36,560

got when he was in the cia and so john

43

00:01:40,950 --> 00:01:38,960

you want to show us the medal absolutely

44

00:01:43,670 --> 00:01:40,960

this is exclusive for you because no one

45

00:01:47,109 --> 00:01:43,680

ever asks me to show anything on the air

46

00:01:51,590 --> 00:01:49,510

so i got the uh career intelligence

47

00:01:53,510 --> 00:01:51,600

medal um

48

00:01:54,950 --> 00:01:53,520

actually after i retired because it

49

00:01:56,789 --> 00:01:54,960

takes a while to do the paperwork to

50

00:01:59,749 --> 00:01:56,799

catch up with you so they delivered it

51  
00:02:04,389 --> 00:01:59,759  
to me after i retired but it was for

52  
00:02:05,830 --> 00:02:04,399  
service up through 30 to 30 september 19

53  
00:02:07,910 --> 00:02:05,840  
2009

54  
00:02:09,589 --> 00:02:07,920  
and so it came in a box i don't know if

55  
00:02:11,750 --> 00:02:09,599  
you can see that

56  
00:02:14,150 --> 00:02:11,760  
but it's it's going to be like reversed

57  
00:02:15,830 --> 00:02:14,160  
because of the camera there's the cia's

58  
00:02:17,030 --> 00:02:15,840  
well it's upside down it's upside down

59  
00:02:20,070 --> 00:02:17,040  
there you go yeah

60  
00:02:22,070 --> 00:02:20,080  
yeah now you can see it okay yeah and uh

61  
00:02:24,550 --> 00:02:22,080  
so the career intelligence medal

62  
00:02:26,229 --> 00:02:24,560  
uh actually

63  
00:02:29,110 --> 00:02:26,239

looks like that

64

00:02:31,670 --> 00:02:29,120

there you go and you put it over there

65

00:02:33,830 --> 00:02:31,680

there you go rather right

66

00:02:36,949 --> 00:02:33,840

for honorable service john f ramirez

67

00:02:41,430 --> 00:02:38,949

so they're also how do you know i didn't

68

00:02:43,030 --> 00:02:41,440

get this on ebay

69

00:02:43,990 --> 00:02:43,040

fabricated

70

00:02:46,630 --> 00:02:44,000

i think

71

00:02:49,350 --> 00:02:46,640

it's a lot harder to take back enough

72

00:02:51,830 --> 00:02:49,360

edf dock right here we go

73

00:02:53,750 --> 00:02:51,840

i appreciate that uh this is the uh

74

00:02:56,229 --> 00:02:53,760

career intelligence metal uh

75

00:02:58,550 --> 00:02:56,239

certification it's signed by leon

76

00:03:00,790 --> 00:02:58,560

panetta who was the director of central

77

00:03:03,430 --> 00:03:00,800

intelligence agency uh the year i

78

00:03:06,309 --> 00:03:03,440

retired and of course it's dated 2010 as

79

00:03:08,390 --> 00:03:06,319

i said it followed me after i retired so

80

00:03:09,990 --> 00:03:08,400

there it is

81

00:03:11,990 --> 00:03:10,000

yeah that's all i i do you know just

82

00:03:13,430 --> 00:03:12,000

have one follow-up question do i

83

00:03:14,949 --> 00:03:13,440

that that's certainly proof enough for

84

00:03:16,710 --> 00:03:14,959

me but you know why would you post the

85

00:03:18,710 --> 00:03:16,720

uh the unsigned you know digital

86

00:03:21,670 --> 00:03:18,720

document as as proof

87

00:03:23,190 --> 00:03:21,680

well that was in reference to uh someone

88

00:03:24,869 --> 00:03:23,200

asked about ballistic missiles and they

89

00:03:26,869 --> 00:03:24,879

had a lot of uh

90

00:03:28,869 --> 00:03:26,879

um questions about ballistic missiles

91

00:03:30,390 --> 00:03:28,879

and so i opined about what i know about

92

00:03:33,270 --> 00:03:30,400

ballistic missiles

93

00:03:36,470 --> 00:03:33,280

uh particularly uh as you might have

94

00:03:39,110 --> 00:03:36,480

seen there's a ballistic missile test

95

00:03:40,550 --> 00:03:39,120

which went awry and the pictures are of

96

00:03:44,470 --> 00:03:40,560

this uh

97

00:03:46,630 --> 00:03:44,480

blue spiral in the sky over scandinavia

98

00:03:48,949 --> 00:03:46,640

and a lot of folks said oh that's a ufo

99

00:03:50,949 --> 00:03:48,959

you know that's a uap this and i said no

100

00:03:53,509 --> 00:03:50,959

no what's going on is

101

00:03:55,830 --> 00:03:53,519

it's the bulova uh

102

00:03:57,750 --> 00:03:55,840

submarine launch ballistic missile

103

00:03:58,830 --> 00:03:57,760

they launch it from the barren sea the

104

00:04:01,910 --> 00:03:58,840

missile's

105

00:04:04,470 --> 00:04:01,920

design to have its warhead land in

106

00:04:05,429 --> 00:04:04,480

kamchatka clear across the russian land

107

00:04:07,990 --> 00:04:05,439

mass

108

00:04:10,949 --> 00:04:08,000

and this missile is directional and it

109

00:04:11,910 --> 00:04:10,959

had something called a gimbaled nozzle

110

00:04:15,830 --> 00:04:11,920

and

111

00:04:17,430 --> 00:04:15,840

when they failed the gimbal nozzle just

112

00:04:18,710 --> 00:04:17,440

went wacky

113

00:04:22,629 --> 00:04:18,720

and so

114

00:04:24,629 --> 00:04:22,639

the missile itself has aluminum oxide as

115

00:04:27,270 --> 00:04:24,639

a major fuel component

116

00:04:29,830 --> 00:04:27,280

and aluminum oxide guess what sci-fi

117

00:04:31,990 --> 00:04:29,840

sapphire is mostly on lumin oxide

118

00:04:34,150 --> 00:04:32,000

sapphire is blue so this thing was

119

00:04:36,550 --> 00:04:34,160

literally

120

00:04:38,550 --> 00:04:36,560

outputting sapphire

121

00:04:41,189 --> 00:04:38,560

aluminum oxide and so it's spiraling

122

00:04:42,950 --> 00:04:41,199

spiral inspiron so you get this spiral

123

00:04:44,790 --> 00:04:42,960

in the sky but that's what it was it

124

00:04:47,430 --> 00:04:44,800

wasn't exactly

125

00:04:51,110 --> 00:04:47,440

uh a uf ufo or uap

126  
00:04:52,390 --> 00:04:51,120  
and so you have guys like james uh

127  
00:04:55,830 --> 00:04:52,400  
auberg

128  
00:04:57,830 --> 00:04:55,840  
who is known to be a uh

129  
00:05:00,150 --> 00:04:57,840  
debunker i would say and you have guys

130  
00:05:01,990 --> 00:05:00,160  
like mike west who say no that's not a

131  
00:05:04,310 --> 00:05:02,000  
uap it's this and that and so in that

132  
00:05:05,670 --> 00:05:04,320  
instance i agree with them that how they

133  
00:05:07,670 --> 00:05:05,680  
describe

134  
00:05:10,150 --> 00:05:07,680  
that spiral is exactly what they say it

135  
00:05:11,909 --> 00:05:10,160  
was was not a ufo uap and just because

136  
00:05:15,189 --> 00:05:11,919  
it looks strange in the sky

137  
00:05:16,710 --> 00:05:15,199  
doesn't necessarily make it a ufo or uap

138  
00:05:19,029 --> 00:05:16,720

so because of that

139

00:05:20,790 --> 00:05:19,039

explanation and how do you know i said

140

00:05:22,790 --> 00:05:20,800

well

141

00:05:24,469 --> 00:05:22,800

my job was one of the jobs was ballistic

142

00:05:27,830 --> 00:05:24,479

missile analysis

143

00:05:30,870 --> 00:05:27,840

and uh the certification said that

144

00:05:32,710 --> 00:05:30,880

i was known at cia for being an expert

145

00:05:34,870 --> 00:05:32,720

on worldwide ballistic missiles and

146

00:05:36,830 --> 00:05:34,880

that's how i know about what happened to

147

00:05:39,510 --> 00:05:36,840

the bulova

148

00:05:40,710 --> 00:05:39,520

tests and so that's yeah i think

149

00:05:42,310 --> 00:05:40,720

in hindsight if you would have posted

150

00:05:43,909 --> 00:05:42,320

that a picture of the metal under the

151  
00:05:46,310 --> 00:05:43,919  
sign document i think we could have

152  
00:05:48,390 --> 00:05:46,320  
avoided so yeah but it wasn't in context

153  
00:05:50,310 --> 00:05:48,400  
of that i just said okay this is how i

154  
00:05:51,830 --> 00:05:50,320  
know about ballistic missiles well you

155  
00:05:53,749 --> 00:05:51,840  
know what's funny is we got we got

156  
00:05:55,510 --> 00:05:53,759  
witness citizen who he who interviewed

157  
00:05:58,629 --> 00:05:55,520  
you a few weeks ago saying it's a

158  
00:06:02,870 --> 00:06:01,270  
can we see you bite it no give me a

159  
00:06:04,830 --> 00:06:02,880  
break rather can we

160  
00:06:07,909 --> 00:06:04,840  
fight it i'm

161  
00:06:09,430 --> 00:06:07,919  
joking oh man that's funny okay well i'm

162  
00:06:11,189 --> 00:06:09,440  
glad we got that out of the way and i'm

163  
00:06:13,029 --> 00:06:11,199

sure i mean rather i'm sure that goes a

164

00:06:14,950 --> 00:06:13,039

long way making you feel better as far

165

00:06:16,309 --> 00:06:14,960

as what we'll be talking about going

166

00:06:18,230 --> 00:06:16,319

forward right i mean that goes that

167

00:06:19,590 --> 00:06:18,240

that's huge he's definitely yeah totally

168

00:06:21,189 --> 00:06:19,600

you know you know i've listened to all

169

00:06:22,629 --> 00:06:21,199

of your interviews and you sound like

170

00:06:24,150 --> 00:06:22,639

you know what you're talking about but

171

00:06:25,749 --> 00:06:24,160

you know i don't whether it comes to the

172

00:06:27,749 --> 00:06:25,759

cia and the foyer and these government

173

00:06:29,110 --> 00:06:27,759

agencies so right so yeah that does go a

174

00:06:30,710 --> 00:06:29,120

long way to you know

175

00:06:31,749 --> 00:06:30,720

backing up your claims and i really

176

00:06:33,029 --> 00:06:31,759

appreciate it

177

00:06:35,270 --> 00:06:33,039

and uh by the way i don't have a

178

00:06:38,309 --> 00:06:35,280

doctorate in anything i um i think what

179

00:06:40,550 --> 00:06:38,319

i said was i was with the director

180

00:06:42,070 --> 00:06:40,560

directorate of intelligence directorate

181

00:06:43,670 --> 00:06:42,080

and the director of science and

182

00:06:46,230 --> 00:06:43,680

technology i don't have a doctor i just

183

00:06:48,629 --> 00:06:46,240

have a bachelor's of art yeah i missed i

184

00:06:51,990 --> 00:06:48,639

misread that john because i was rushing

185

00:06:55,749 --> 00:06:52,000

to find your bio as i was calling uh and

186

00:06:57,430 --> 00:06:55,759

i was like oh you did a good job yeah

187

00:06:59,589 --> 00:06:57,440

yeah sometimes we hide your acting

188

00:07:01,270 --> 00:06:59,599

skills came to play there you go i was

189

00:07:02,870 --> 00:07:01,280

curious where i could get a doctorate in

190

00:07:05,589 --> 00:07:02,880

science and technology that sounds like

191

00:07:07,110 --> 00:07:05,599

an awesome doctor

192

00:07:09,909 --> 00:07:07,120

uh well thank you for clearing that up

193

00:07:12,070 --> 00:07:09,919

okay so let's dive right into it and one

194

00:07:13,510 --> 00:07:12,080

of the one of the i mean we've all of us

195

00:07:15,670 --> 00:07:13,520

it was the homework assignment for the

196

00:07:17,589 --> 00:07:15,680

whole crew go listen to these interviews

197

00:07:19,270 --> 00:07:17,599

with john ramirez let's try and get some

198

00:07:21,189 --> 00:07:19,280

really great questions for him based off

199

00:07:22,950 --> 00:07:21,199

some of the stuff he said so where i

200

00:07:25,990 --> 00:07:22,960

want to start with you is this pave

201  
00:07:28,790 --> 00:07:26,000  
pause radar oh yeah yeah yeah

202  
00:07:32,469 --> 00:07:28,800  
okay um so the thing that stuck out to

203  
00:07:33,510 --> 00:07:32,479  
me here was that you said this radar

204  
00:07:35,350 --> 00:07:33,520  
system

205  
00:07:37,589 --> 00:07:35,360  
it's it's pointed southward over the

206  
00:07:40,469 --> 00:07:37,599  
pacific ocean with the primary purpose

207  
00:07:41,909 --> 00:07:40,479  
of locating submarine ballistic missiles

208  
00:07:44,790 --> 00:07:41,919  
and you said it also has got the

209  
00:07:48,710 --> 00:07:44,800  
capability of tracking things that are

210  
00:07:51,670 --> 00:07:48,720  
going 8 000 meters per second and when i

211  
00:07:54,629 --> 00:07:51,680  
did the math that's mach 24

212  
00:07:57,350 --> 00:07:54,639  
yeah what moves at mach 24 that we're

213  
00:07:58,550 --> 00:07:57,360

tracking reentry vehicles of ballistic

214

00:08:00,950 --> 00:07:58,560

missiles

215

00:08:03,510 --> 00:08:00,960

um if you look up return vehicles and i

216

00:08:05,510 --> 00:08:03,520

i tell people you know i use a lot of

217

00:08:07,670 --> 00:08:05,520

terms like rvs instead of saying

218

00:08:09,589 --> 00:08:07,680

re-entry vehicles and they go rv that

219

00:08:11,589 --> 00:08:09,599

recreational vehicle

220

00:08:12,390 --> 00:08:11,599

to a missile scientist or a missile

221

00:08:14,150 --> 00:08:12,400

analyst

222

00:08:15,589 --> 00:08:14,160

it's a reentry vehicle you look them up

223

00:08:17,589 --> 00:08:15,599

they look like

224

00:08:18,950 --> 00:08:17,599

sugar cones basically they're cones and

225

00:08:21,830 --> 00:08:18,960

inside there's something called a

226  
00:08:24,629 --> 00:08:21,840  
physics package the thing that goes boom

227  
00:08:27,189 --> 00:08:24,639  
and they get released uh in the exo

228  
00:08:29,110 --> 00:08:27,199  
atmosphere outside the atmosphere they

229  
00:08:31,990 --> 00:08:29,120  
sit on something called a post-boost

230  
00:08:33,750 --> 00:08:32,000  
vehicle and they get popped out one by

231  
00:08:35,110 --> 00:08:33,760  
one and they're maneuverable

232  
00:08:37,269 --> 00:08:35,120  
independently

233  
00:08:39,589 --> 00:08:37,279  
and they once they pop out and they go

234  
00:08:41,990 --> 00:08:39,599  
in they're not powered in any way it's

235  
00:08:42,630 --> 00:08:42,000  
just the force of gravity pulling them

236  
00:08:44,949 --> 00:08:42,640  
in

237  
00:08:46,389 --> 00:08:44,959  
and they go up about 700 miles up and

238  
00:08:49,829 --> 00:08:46,399

then they come down

239

00:08:52,389 --> 00:08:49,839

and when they come down they go 8 000

240

00:08:53,269 --> 00:08:52,399

meters per second that's how fast they

241

00:08:55,509 --> 00:08:53,279

go

242

00:08:57,430 --> 00:08:55,519

and uh as you can see them as streaks in

243

00:08:58,710 --> 00:08:57,440

the sky the blink of an eye i mean

244

00:09:02,070 --> 00:08:58,720

they're they're done you know they're

245

00:09:05,030 --> 00:09:02,080

already hit yeah um and so

246

00:09:07,910 --> 00:09:05,040

these radars are designed to track

247

00:09:09,910 --> 00:09:07,920

something that fast right and also

248

00:09:11,670 --> 00:09:09,920

satellites too they track satellites

249

00:09:14,150 --> 00:09:11,680

when they're not doing anything like you

250

00:09:17,190 --> 00:09:14,160

know we're not going to get missile

251  
00:09:19,350 --> 00:09:17,200  
missiles launched at us on 24 7 bases so

252  
00:09:21,670 --> 00:09:19,360  
when they're not working to look for

253  
00:09:24,550 --> 00:09:21,680  
ballistic missile

254  
00:09:26,710 --> 00:09:24,560  
um there are tracking satellites and as

255  
00:09:28,870 --> 00:09:26,720  
they're tracking satellites in space uh

256  
00:09:31,829 --> 00:09:28,880  
they see things that don't match what we

257  
00:09:34,070 --> 00:09:31,839  
know as the two-line ephemeris it's it's

258  
00:09:35,590 --> 00:09:34,080  
two lines of math basically you put it

259  
00:09:37,350 --> 00:09:35,600  
into a uh

260  
00:09:40,230 --> 00:09:37,360  
algorithm and you split it into a

261  
00:09:42,870 --> 00:09:40,240  
computer and it plots using kepler's

262  
00:09:44,949 --> 00:09:42,880  
laws of motion it plots satellite

263  
00:09:46,310 --> 00:09:44,959

trajectories so we can predict you know

264

00:09:47,509 --> 00:09:46,320

where all the satellites are and there's

265

00:09:51,670 --> 00:09:47,519

like

266

00:09:55,110 --> 00:09:51,680

pieces of junk up there including real

267

00:09:56,790 --> 00:09:55,120

satellites but 29 object 29 000 objects

268

00:09:58,550 --> 00:09:56,800

with these two line element sets that

269

00:10:01,910 --> 00:09:58,560

norad tracks

270

00:10:03,350 --> 00:10:01,920

and sometimes you see things that hey

271

00:10:05,269 --> 00:10:03,360

it's not a

272

00:10:07,829 --> 00:10:05,279

in a database what is it so they can

273

00:10:10,710 --> 00:10:07,839

really remove all of that

274

00:10:12,870 --> 00:10:10,720

data and just track what's of interest

275

00:10:15,430 --> 00:10:12,880

and that's when you see the uaps

276

00:10:17,430 --> 00:10:15,440

as i said flying in formation under

277

00:10:18,710 --> 00:10:17,440

intelligent control with intent to go to

278

00:10:21,269 --> 00:10:18,720

a destination

279

00:10:23,269 --> 00:10:21,279

so these two radars one is pointing

280

00:10:25,269 --> 00:10:23,279

towards the south atlantic one's

281

00:10:28,630 --> 00:10:25,279

pointing toward the south pacific

282

00:10:31,030 --> 00:10:28,640

there's two up north north atlantic and

283

00:10:33,350 --> 00:10:31,040

north pacific over the poles

284

00:10:35,590 --> 00:10:33,360

the ones up north are doing most of the

285

00:10:39,110 --> 00:10:35,600

work because if we get a ballistic

286

00:10:40,710 --> 00:10:39,120

missile attack from china or russia

287

00:10:42,389 --> 00:10:40,720

they're going to follow the arctic

288

00:10:44,150 --> 00:10:42,399

circle route

289

00:10:46,710 --> 00:10:44,160

but submarines they'll launch from the

290

00:10:49,110 --> 00:10:46,720

ocean and so those two that i mentioned

291

00:10:51,190 --> 00:10:49,120

are uh watching for any kind of missile

292

00:10:51,910 --> 00:10:51,200

attacks from the ocean otherwise they're

293

00:10:53,350 --> 00:10:51,920

just

294

00:10:54,870 --> 00:10:53,360

tracking satellites and the russians

295

00:10:56,630 --> 00:10:54,880

have them too

296

00:10:59,509 --> 00:10:56,640

well the thing well just because you

297

00:11:00,870 --> 00:10:59,519

said sat uh submarines and what i'm

298

00:11:04,389 --> 00:11:00,880

gathering

299

00:11:05,910 --> 00:11:04,399

kind of based off what you said is that

300

00:11:07,910 --> 00:11:05,920

we have filter systems on these

301  
00:11:09,590 --> 00:11:07,920  
satellite systems that can see through

302  
00:11:11,910 --> 00:11:09,600  
water so essentially these submarines

303  
00:11:14,310 --> 00:11:11,920  
can't hide and like if if you're a

304  
00:11:16,949 --> 00:11:14,320  
submarine and an adversarial submarine

305  
00:11:18,870 --> 00:11:16,959  
off of the coast of california we see

306  
00:11:19,829 --> 00:11:18,880  
you no matter what

307  
00:11:21,269 --> 00:11:19,839  
um

308  
00:11:22,790 --> 00:11:21,279  
it's kind of what i got from what you

309  
00:11:25,030 --> 00:11:22,800  
were saying am i wrong on that or is

310  
00:11:27,829 --> 00:11:25,040  
that a simplification it is a simple

311  
00:11:30,710 --> 00:11:27,839  
simplification okay um the way we track

312  
00:11:32,790 --> 00:11:30,720  
submarines is because something of that

313  
00:11:35,509 --> 00:11:32,800

big that metallic

314

00:11:37,190 --> 00:11:35,519

uh will create a disturbance in the uh

315

00:11:38,230 --> 00:11:37,200

gravitational and magnetic fields of the

316

00:11:41,030 --> 00:11:38,240

earth

317

00:11:43,590 --> 00:11:41,040

and so we have airplanes um the newest

318

00:11:46,790 --> 00:11:43,600

one is called the p8 poseidon they used

319

00:11:48,389 --> 00:11:46,800

to be called the p3 orion but the p3

320

00:11:51,030 --> 00:11:48,399

orion if you see those they're more

321

00:11:52,949 --> 00:11:51,040

commonly known they have something on

322

00:11:55,990 --> 00:11:52,959

the stern or the back of the airplane

323

00:11:58,150 --> 00:11:56,000

called a stinger it's like a like a pole

324

00:12:01,110 --> 00:11:58,160

with a device at the end and that's

325

00:12:02,790 --> 00:12:01,120

known as a magnetic anomaly detector so

326

00:12:04,629 --> 00:12:02,800

they fly over the ocean and they can

327

00:12:06,230 --> 00:12:04,639

detect disturbances in the earth's

328

00:12:08,069 --> 00:12:06,240

magnetic field

329

00:12:09,269 --> 00:12:08,079

that points to something underneath the

330

00:12:11,269 --> 00:12:09,279

water

331

00:12:15,430 --> 00:12:11,279

the only way a satellite can see a

332

00:12:17,350 --> 00:12:15,440

submarine is if it pops up its periscope

333

00:12:19,350 --> 00:12:17,360

and most submarines don't do that

334

00:12:21,110 --> 00:12:19,360

especially ballistic missile submarines

335

00:12:23,269 --> 00:12:21,120

the whole intent of a ballistic missile

336

00:12:26,069 --> 00:12:23,279

submarine is to stay hidden

337

00:12:28,470 --> 00:12:26,079

so for i mean you've seen uh it's a

338

00:12:30,629 --> 00:12:28,480

great movie um for red october hunt for

339

00:12:33,430 --> 00:12:30,639

red october i was thinking about the

340

00:12:35,350 --> 00:12:33,440

crimson tide is a good one okay crimson

341

00:12:36,629 --> 00:12:35,360

tide you know you have the uss alabama

342

00:12:39,829 --> 00:12:36,639

which is a real ballistic missile

343

00:12:42,790 --> 00:12:39,839

submarine and uh it goes out somewhere

344

00:12:44,389 --> 00:12:42,800

and uh just hovers basically

345

00:12:46,790 --> 00:12:44,399

stations itself

346

00:12:48,550 --> 00:12:46,800

and that location is secret and it

347

00:12:50,710 --> 00:12:48,560

doesn't want to move very much because

348

00:12:52,550 --> 00:12:50,720

once it moves our adversary knows that

349

00:12:55,030 --> 00:12:52,560

there's something there so it stays

350

00:12:56,470 --> 00:12:55,040

there waiting for a uh emergency action

351  
00:12:59,110 --> 00:12:56,480  
message which is basically national

352  
00:13:01,190 --> 00:12:59,120  
command authority saying we're at war

353  
00:13:03,509 --> 00:13:01,200  
and you know you can authenticate the

354  
00:13:05,990 --> 00:13:03,519  
codes and you've seen the movie right

355  
00:13:08,710 --> 00:13:06,000  
right the movie actually

356  
00:13:10,069 --> 00:13:08,720  
accurately portrays what it takes to

357  
00:13:12,069 --> 00:13:10,079  
launch a ballistic missile from a

358  
00:13:13,509 --> 00:13:12,079  
submarine and you don't want to show

359  
00:13:16,230 --> 00:13:13,519  
yourself so you you know you're not

360  
00:13:18,949 --> 00:13:16,240  
going to pop up periscope fast attacks

361  
00:13:21,350 --> 00:13:18,959  
which are uh tactical more they don't

362  
00:13:23,350 --> 00:13:21,360  
carry ballistic missiles but they can't

363  
00:13:26,310 --> 00:13:23,360

carry uh cruise missiles

364

00:13:28,150 --> 00:13:26,320

uh shot out of its torpedo tubes

365

00:13:30,230 --> 00:13:28,160

it can also be considered a strategic

366

00:13:32,230 --> 00:13:30,240

weapon uh they're more likely to pop up

367

00:13:34,230 --> 00:13:32,240

their periscopes and when they do

368

00:13:36,389 --> 00:13:34,240

uh they're not up there for long um

369

00:13:38,870 --> 00:13:36,399

because they're just doing a look-see

370

00:13:40,230 --> 00:13:38,880

um in fact you know they may at that

371

00:13:42,870 --> 00:13:40,240

point um

372

00:13:45,189 --> 00:13:42,880

they put up what's known as the ecm mast

373

00:13:47,670 --> 00:13:45,199

they look for electromagnetic emanations

374

00:13:49,910 --> 00:13:47,680

around and they come right back down and

375

00:13:52,470 --> 00:13:49,920

they go down and off they go they're

376

00:13:54,710 --> 00:13:52,480

hidden right um so

377

00:13:56,150 --> 00:13:54,720

you can't see a submarine from a

378

00:13:57,990 --> 00:13:56,160

satellite

379

00:13:59,110 --> 00:13:58,000

however suppose you have a radar

380

00:14:02,949 --> 00:13:59,120

satellite

381

00:14:05,350 --> 00:14:02,959

there's some

382

00:14:09,269 --> 00:14:05,360

limited degree of penetration of the

383

00:14:09,279 --> 00:14:13,350

electromagnetic waves are kind of

384

00:14:17,189 --> 00:14:15,670

bouncing off water because is opaque to

385

00:14:19,509 --> 00:14:17,199

it but certain frequencies it can

386

00:14:21,509 --> 00:14:19,519

penetrate the water to a certain degree

387

00:14:23,590 --> 00:14:21,519

but unless the submarine is at periscope

388

00:14:24,550 --> 00:14:23,600

depth you won't see it

389

00:14:26,790 --> 00:14:24,560

at all

390

00:14:28,629 --> 00:14:26,800

and having said that the secret part is

391

00:14:31,189 --> 00:14:28,639

they might be something under the water

392

00:14:33,590 --> 00:14:31,199

that's pre-placed pre-positioned so we

393

00:14:36,629 --> 00:14:33,600

can track things and that's the the navy

394

00:14:37,430 --> 00:14:36,639

doesn't want me to talk about that

395

00:14:39,269 --> 00:14:37,440

okay

396

00:14:41,030 --> 00:14:39,279

well so one more question i'm going to

397

00:14:43,110 --> 00:14:41,040

open it up to the rest of you guys you

398

00:14:44,470 --> 00:14:43,120

did say that we were catching formations

399

00:14:46,629 --> 00:14:44,480

of uap

400

00:14:48,310 --> 00:14:46,639

on satellite systems and also a

401  
00:14:49,350 --> 00:14:48,320  
trajectory could you tell us where they

402  
00:14:50,949 --> 00:14:49,360  
were going

403  
00:14:52,710 --> 00:14:50,959  
uh see

404  
00:14:54,870 --> 00:14:52,720  
one thing everyone should know is that

405  
00:14:56,550 --> 00:14:54,880  
the united states intelligence community

406  
00:14:59,750 --> 00:14:56,560  
does not

407  
00:15:01,829 --> 00:14:59,760  
conduct operations over u.s airspace

408  
00:15:04,790 --> 00:15:01,839  
not the intelligence community not to

409  
00:15:06,470 --> 00:15:04,800  
what i call title 50 what the odni

410  
00:15:09,670 --> 00:15:06,480  
controls

411  
00:15:12,389 --> 00:15:09,680  
she doesn't spy over the u.s she doesn't

412  
00:15:15,990 --> 00:15:12,399  
spy against our partners the other four

413  
00:15:17,509 --> 00:15:16,000

eyes australia canada uk new zealand

414

00:15:19,590 --> 00:15:17,519

we don't look at that we look at russia

415

00:15:21,829 --> 00:15:19,600

so when i say we saw

416

00:15:23,189 --> 00:15:21,839

uaps in formation i'm saying over

417

00:15:24,629 --> 00:15:23,199

russian airspace

418

00:15:25,910 --> 00:15:24,639

got it

419

00:15:27,430 --> 00:15:25,920

but

420

00:15:29,990 --> 00:15:27,440

you said they had a trajectory what was

421

00:15:31,590 --> 00:15:30,000

the trajectory can you give us a clue is

422

00:15:33,910 --> 00:15:31,600

where they were he's flying

423

00:15:36,470 --> 00:15:33,920

from the arctic circle

424

00:15:38,870 --> 00:15:36,480

over the russian landmass

425

00:15:42,389 --> 00:15:38,880

wow and can you give us an idea of what

426

00:15:44,470 --> 00:15:42,399

the formation or what the objects um

427

00:15:46,550 --> 00:15:44,480

what the objects look like or what what

428

00:15:49,590 --> 00:15:46,560

the sensors were able to detect of those

429

00:15:52,230 --> 00:15:49,600

objects uh the sensors at the time

430

00:15:54,150 --> 00:15:52,240

were um and here again

431

00:15:56,230 --> 00:15:54,160

i can talk about the defense support

432

00:15:58,710 --> 00:15:56,240

program because that's an old program

433

00:16:00,310 --> 00:15:58,720

it's been up there since 1970

434

00:16:01,430 --> 00:16:00,320

um

435

00:16:04,470 --> 00:16:01,440

without

436

00:16:06,470 --> 00:16:04,480

encroaching on the nda which means that

437

00:16:08,949 --> 00:16:06,480

you know i have to still protect sources

438

00:16:10,470 --> 00:16:08,959

and methods of what we still have

439

00:16:13,110 --> 00:16:10,480

operational up there

440

00:16:15,670 --> 00:16:13,120

so i can't talk about specifically

441

00:16:17,430 --> 00:16:15,680

but let's say a satellite with an ir

442

00:16:19,110 --> 00:16:17,440

capability

443

00:16:21,350 --> 00:16:19,120

can see these

444

00:16:23,030 --> 00:16:21,360

and so when you see these they're

445

00:16:26,069 --> 00:16:23,040

basically like what people see on the

446

00:16:28,710 --> 00:16:26,079

ground i mean people have shot video

447

00:16:30,949 --> 00:16:28,720

of these orange orbs and it doesn't look

448

00:16:32,870 --> 00:16:30,959

any different than that

449

00:16:34,069 --> 00:16:32,880

they look like mars orbs

450

00:16:35,670 --> 00:16:34,079

can you say anything about like the

451  
00:16:37,269 --> 00:16:35,680  
flight characteristics are what makes

452  
00:16:39,590 --> 00:16:37,279  
you think that they're not just prosaic

453  
00:16:40,949 --> 00:16:39,600  
you know drones or something like that

454  
00:16:42,389 --> 00:16:40,959  
speed

455  
00:16:45,269 --> 00:16:42,399  
they were flying that

456  
00:16:46,870 --> 00:16:45,279  
tremendous speed um

457  
00:16:49,350 --> 00:16:46,880  
changing of directions or just just a

458  
00:16:51,590 --> 00:16:49,360  
speed no no i mean they were exhibiting

459  
00:16:53,590 --> 00:16:51,600  
like the five properties that

460  
00:16:56,069 --> 00:16:53,600  
lou always likes to talk about

461  
00:16:58,310 --> 00:16:56,079  
the five properties of uaps and the

462  
00:16:59,670 --> 00:16:58,320  
ability to like maneuver

463  
00:17:02,470 --> 00:16:59,680

in an instant

464

00:17:04,069 --> 00:17:02,480

uh the ability the speed itself

465

00:17:07,270 --> 00:17:04,079

uh the characteristics of signature

466

00:17:09,029 --> 00:17:07,280

management of being able to um change

467

00:17:11,110 --> 00:17:09,039

its um

468

00:17:14,069 --> 00:17:11,120

massive signature its ir

469

00:17:16,390 --> 00:17:14,079

reflectivity characteristics

470

00:17:18,949 --> 00:17:16,400

trans uh transmission characteristics it

471

00:17:20,789 --> 00:17:18,959

looks like light but it's like changing

472

00:17:25,029 --> 00:17:20,799

shape size

473

00:17:27,270 --> 00:17:25,039

and also um 600 nanometers it's orange

474

00:17:29,830 --> 00:17:27,280

they were orange so

475

00:17:31,190 --> 00:17:29,840

that cued us into the fact that there

476

00:17:33,029 --> 00:17:31,200

was something up there

477

00:17:34,630 --> 00:17:33,039

that's highly unusual

478

00:17:37,510 --> 00:17:34,640

and we didn't know i mean people are

479

00:17:40,070 --> 00:17:37,520

seeing orbs all the time right but from

480

00:17:40,950 --> 00:17:40,080

a intelligence community perspective

481

00:17:42,390 --> 00:17:40,960

um

482

00:17:44,310 --> 00:17:42,400

there were anecdotes

483

00:17:46,870 --> 00:17:44,320

right and so until we put the sensors up

484

00:17:48,070 --> 00:17:46,880

there in space that can actually look at

485

00:17:50,070 --> 00:17:48,080

these things

486

00:17:51,750 --> 00:17:50,080

and as we improve the sensors and that's

487

00:17:53,830 --> 00:17:51,760

where i'm going toward nda because the

488

00:17:55,029 --> 00:17:53,840

dsp is a crappy sensor it's being

489

00:17:57,270 --> 00:17:55,039

replaced

490

00:18:00,230 --> 00:17:57,280

it's basically you know oh yeah somebody

491

00:18:01,669 --> 00:18:00,240

you know launched a missile uh big deal

492

00:18:03,110 --> 00:18:01,679

you know

493

00:18:05,830 --> 00:18:03,120

yeah we know there's a launch but the

494

00:18:07,830 --> 00:18:05,840

newer sensors they can actually do uh

495

00:18:09,990 --> 00:18:07,840

measurements of you know what like

496

00:18:11,510 --> 00:18:10,000

spectrum it's in and other types of

497

00:18:15,190 --> 00:18:11,520

characteristics

498

00:18:18,230 --> 00:18:15,200

um so they were hyper they were no

499

00:18:20,390 --> 00:18:18,240

multi-spectral meaning they had four ir

500

00:18:23,029 --> 00:18:20,400

bands

501  
00:18:25,669 --> 00:18:23,039  
and so we can divide up the ir uh

502  
00:18:27,590 --> 00:18:25,679  
spectrum into four bins and so you give

503  
00:18:29,750 --> 00:18:27,600  
it a little bit more resolution

504  
00:18:32,230 --> 00:18:29,760  
and because we had those types of

505  
00:18:33,430 --> 00:18:32,240  
sensors flying that's when we detected

506  
00:18:35,190 --> 00:18:33,440  
these orbs

507  
00:18:37,830 --> 00:18:35,200  
and the first thing of course

508  
00:18:39,190 --> 00:18:37,840  
uh we thought was oh my gosh the

509  
00:18:40,630 --> 00:18:39,200  
russians have this

510  
00:18:43,110 --> 00:18:40,640  
super secret weapon we didn't know about

511  
00:18:44,789 --> 00:18:43,120  
and we need to find out what they have

512  
00:18:47,029 --> 00:18:44,799  
and what year was this what what are you

513  
00:18:48,390 --> 00:18:47,039

referring um

514

00:18:57,510 --> 00:18:48,400

the

515

00:19:03,830 --> 00:18:57,520

wikipedia

516

00:19:05,750 --> 00:19:03,840

okay so the canon kh-11 block two

517

00:19:08,710 --> 00:19:05,760

the second in the series of kh-11

518

00:19:11,750 --> 00:19:08,720

satellites carried an ir payload

519

00:19:13,750 --> 00:19:11,760

and that was launched in the early 90s

520

00:19:16,870 --> 00:19:13,760

and i'll say that much

521

00:19:19,110 --> 00:19:16,880

so when we had that type of capability

522

00:19:21,510 --> 00:19:19,120

uh beyond the dsp

523

00:19:23,510 --> 00:19:21,520

uh when we had a better capability look

524

00:19:25,430 --> 00:19:23,520

at the ir spectrum that's when we

525

00:19:26,630 --> 00:19:25,440

started noticing that there were these

526

00:19:28,870 --> 00:19:26,640

orbs

527

00:19:30,870 --> 00:19:28,880

this was really nice

528

00:19:31,830 --> 00:19:30,880

well you know speaking of the the dsp uh

529

00:19:33,029 --> 00:19:31,840

you know

530

00:19:35,669 --> 00:19:33,039

you mentioned in a previous interview

531

00:19:37,590 --> 00:19:35,679

that the bob fish emails and him uh

532

00:19:39,590 --> 00:19:37,600

where he came out of a ship and someone

533

00:19:41,590 --> 00:19:39,600

came out and said hey i saw something on

534

00:19:44,150 --> 00:19:41,600

the dsp that was zooming and made a 30

535

00:19:45,909 --> 00:19:44,160

degree turn and you know they called it

536

00:19:47,270 --> 00:19:45,919

a fast walker and i think you said that

537

00:19:49,830 --> 00:19:47,280

they're just from the tv

538

00:19:52,230 --> 00:19:49,840

i'll be able to do that um dsps that

539

00:19:54,230 --> 00:19:52,240

basically um

540

00:19:55,669 --> 00:19:54,240

they actually had a blink on blink off

541

00:19:57,430 --> 00:19:55,679

kind of

542

00:19:58,950 --> 00:19:57,440

of uh duty cycle

543

00:20:01,270 --> 00:19:58,960

they weren't persistent collectors and

544

00:20:03,430 --> 00:20:01,280

that's why we flew so many of them

545

00:20:05,029 --> 00:20:03,440

they didn't last long i mean

546

00:20:07,270 --> 00:20:05,039

we had to keep replacing the

547

00:20:08,230 --> 00:20:07,280

constellation over and over and over

548

00:20:11,029 --> 00:20:08,240

again

549

00:20:13,510 --> 00:20:11,039

and they were basically um just like

550

00:20:15,510 --> 00:20:13,520

looking for like instances of light

551  
00:20:16,549 --> 00:20:15,520  
of something that looked like a launch

552  
00:20:18,710 --> 00:20:16,559  
you know like

553  
00:20:20,549 --> 00:20:18,720  
uh the boost vehicle the first stage of

554  
00:20:23,190 --> 00:20:20,559  
a missile launch and they're looking at

555  
00:20:26,149 --> 00:20:23,200  
specific areas where we knew already

556  
00:20:29,110 --> 00:20:26,159  
there were ballistic missile sites silos

557  
00:20:31,270 --> 00:20:29,120  
in the uh in the soviet union so that

558  
00:20:33,830 --> 00:20:31,280  
was their primary focus

559  
00:20:36,710 --> 00:20:33,840  
and back then china didn't have

560  
00:20:38,549 --> 00:20:36,720  
silo-based missiles like they do now

561  
00:20:40,630 --> 00:20:38,559  
so we're primarily focused on that area

562  
00:20:43,029 --> 00:20:40,640  
of the world

563  
00:20:46,470 --> 00:20:43,039

i would say the eastern hemisphere

564

00:20:49,029 --> 00:20:46,480

they would not be looking over

565

00:20:49,909 --> 00:20:49,039

anything near us territory

566

00:20:51,750 --> 00:20:49,919

at all

567

00:20:53,110 --> 00:20:51,760

as much because we want to look at that

568

00:20:54,630 --> 00:20:53,120

side of the world

569

00:20:55,669 --> 00:20:54,640

does that make you question his story do

570

00:20:57,990 --> 00:20:55,679

you think that maybe it's right there's

571

00:21:01,029 --> 00:20:58,000

a lot of things in the fish story that

572

00:21:02,710 --> 00:21:01,039

seems to me like as told to about fish

573

00:21:04,230 --> 00:21:02,720

by someone else

574

00:21:06,149 --> 00:21:04,240

uh the fact that he mentioned there was

575

00:21:06,950 --> 00:21:06,159

a top secret sci cafeteria i've been

576

00:21:08,789 --> 00:21:06,960

there

577

00:21:11,510 --> 00:21:08,799

cafeteria is in boeing it's an el

578

00:21:13,190 --> 00:21:11,520

segundo and it's not top secret sei

579

00:21:14,710 --> 00:21:13,200

anybody can go in there as long as you

580

00:21:16,390 --> 00:21:14,720

had a badge

581

00:21:18,390 --> 00:21:16,400

so it was one of the better cafeterias

582

00:21:20,149 --> 00:21:18,400

in el segundo and so we had guys from

583

00:21:21,270 --> 00:21:20,159

aerospace and northwest ramen and

584

00:21:23,110 --> 00:21:21,280

everybody else

585

00:21:24,630 --> 00:21:23,120

there because they had like the best

586

00:21:27,909 --> 00:21:24,640

food ever i mean

587

00:21:30,310 --> 00:21:27,919

i recommend the pasta bar

588

00:21:33,270 --> 00:21:30,320

so when i went there uh we went there

589

00:21:36,390 --> 00:21:33,280

specifically to talk about those space

590

00:21:38,310 --> 00:21:36,400

radars that i told you about

591

00:21:40,549 --> 00:21:38,320

um and so boeing actually built the

592

00:21:43,510 --> 00:21:40,559

space radar for the us because they

593

00:21:46,549 --> 00:21:43,520

screwed up the electrical optical system

594

00:21:49,350 --> 00:21:46,559

they had a giant contract to completely

595

00:21:52,149 --> 00:21:49,360

refurbish and renovate the entire us

596

00:21:54,630 --> 00:21:52,159

imagery constellation it was called the

597

00:21:56,870 --> 00:21:54,640

future imagery architecture

598

00:21:58,310 --> 00:21:56,880

and before we had a company that really

599

00:22:00,149 --> 00:21:58,320

knew what they were doing and they were

600

00:22:01,830 --> 00:22:00,159

called like lockheed martin

601  
00:22:04,149 --> 00:22:01,840  
they knew how to build satellites for

602  
00:22:05,830 --> 00:22:04,159  
that but back then congress thought oh

603  
00:22:07,990 --> 00:22:05,840  
we need to compete

604  
00:22:10,870 --> 00:22:08,000  
and so boeing put the best proposal

605  
00:22:13,270 --> 00:22:10,880  
together and they lost lockheed lost the

606  
00:22:14,950 --> 00:22:13,280  
contract so boeing was responsible for

607  
00:22:17,110 --> 00:22:14,960  
building all these satellites

608  
00:22:19,510 --> 00:22:17,120  
and they built the radar satellite

609  
00:22:21,029 --> 00:22:19,520  
called topaz t-o-p-a-z

610  
00:22:24,230 --> 00:22:21,039  
and i could say that folks it's on

611  
00:22:26,950 --> 00:22:24,240  
wikipedia so don't arrest me um

612  
00:22:29,750 --> 00:22:26,960  
so topaz was boeing's bird and of the

613  
00:22:31,909 --> 00:22:29,760

entire fia constellation topaz was the

614

00:22:34,149 --> 00:22:31,919

only one that survived the rest was

615

00:22:40,870 --> 00:22:34,159

shikkan literally i mean can i say that

616

00:22:45,430 --> 00:22:42,789

billions of taxpayers money went down

617

00:22:47,990 --> 00:22:45,440

the drain yeah uh oh boy the boeing

618

00:22:50,230 --> 00:22:48,000

would be pissed now uh but they built

619

00:22:54,470 --> 00:22:50,240

great topaz radar satellites so i give

620

00:22:58,630 --> 00:22:56,070

and so we were there to get a briefing

621

00:23:00,470 --> 00:22:58,640

on on the status of topaz

622

00:23:03,909 --> 00:23:00,480

they wanted to build more

623

00:23:05,510 --> 00:23:03,919

and i was there as representing the

624

00:23:07,029 --> 00:23:05,520

national counter proliferation center

625

00:23:09,909 --> 00:23:07,039

which is all about

626

00:23:12,710 --> 00:23:09,919

uh nuclear biological and chemical

627

00:23:14,390 --> 00:23:12,720

weapons foreign operations uh foreign

628

00:23:16,470 --> 00:23:14,400

activities related to that

629

00:23:17,909 --> 00:23:16,480

and we're thinking that these satellites

630

00:23:20,549 --> 00:23:17,919

would be very useful

631

00:23:22,390 --> 00:23:20,559

to um to monitor

632

00:23:23,669 --> 00:23:22,400

uh nbc

633

00:23:25,590 --> 00:23:23,679

because it's

634

00:23:30,390 --> 00:23:25,600

electromagnetic waves

635

00:23:33,270 --> 00:23:30,400

it'll hit hits the um

636

00:23:34,870 --> 00:23:33,280

the so-called uh baby formula factory

637

00:23:37,110 --> 00:23:34,880

they bounce back signals that look like

638

00:23:40,149 --> 00:23:37,120

this isn't a baby formula factory

639

00:23:42,149 --> 00:23:40,159

because we can tell what's in the

640

00:23:44,710 --> 00:23:42,159

in the air atmosphere around yeah yeah

641

00:23:46,870 --> 00:23:44,720

yeah that's really getting close to nda

642

00:23:48,950 --> 00:23:46,880

um so anyway that's why i was there and

643

00:23:50,310 --> 00:23:48,960

so we went down to the cafeteria

644

00:23:52,870 --> 00:23:50,320

and there were other people there and

645

00:23:54,310 --> 00:23:52,880

the boeing sponsors for us yeah you know

646

00:23:55,510 --> 00:23:54,320

this is the cafeteria where everybody

647

00:23:57,350 --> 00:23:55,520

comes to

648

00:23:59,669 --> 00:23:57,360

and there were people there that were

649

00:24:01,029 --> 00:23:59,679

like custodial staff and

650

00:24:03,350 --> 00:24:01,039

everybody can eat there as long as you

651  
00:24:05,669 --> 00:24:03,360  
had a badge yeah so you showed the badge

652  
00:24:07,190 --> 00:24:05,679  
to the guy at the uh front door

653  
00:24:08,710 --> 00:24:07,200  
that you're going to the cafeteria and

654  
00:24:11,590 --> 00:24:08,720  
they'll let you in so it's not a top

655  
00:24:13,750 --> 00:24:11,600  
secret sei and in fact you get fired if

656  
00:24:16,070 --> 00:24:13,760  
you talk top secret sei

657  
00:24:17,590 --> 00:24:16,080  
in the open area like that you'll be

658  
00:24:18,390 --> 00:24:17,600  
gone in a heartbeat your clearances will

659  
00:24:19,510 --> 00:24:18,400  
be pulled

660  
00:24:20,950 --> 00:24:19,520  
so what you know

661  
00:24:23,029 --> 00:24:20,960  
that you know this is not a top-secret

662  
00:24:24,789 --> 00:24:23,039  
sci cafeteria

663  
00:24:28,630 --> 00:24:24,799

and the pasta was excellent they

664

00:24:30,230 --> 00:24:28,640

actually made the pasta from flour

665

00:24:32,390 --> 00:24:30,240

i was gonna say so

666

00:24:34,390 --> 00:24:32,400

they made the pasta noodles by hand

667

00:24:35,909 --> 00:24:34,400

the odds of getting into this pasta bar

668

00:24:37,269 --> 00:24:35,919

you're saying i got a chance there's a

669

00:24:39,269 --> 00:24:37,279

chance you've got a chance to work for

670

00:24:41,110 --> 00:24:39,279

one of those uh

671

00:24:42,390 --> 00:24:41,120

all right all right so yeah that's

672

00:24:48,950 --> 00:24:42,400

probably the biggest nugget of

673

00:24:53,590 --> 00:24:50,950

a little bit on the atmospheric readings

674

00:24:56,390 --> 00:24:53,600

and that is cool that is very cool um

675

00:24:58,070 --> 00:24:56,400

but yeah real quick um

676  
00:24:59,430 --> 00:24:58,080  
i do want to know and then i'm going to

677  
00:25:00,950 --> 00:24:59,440  
get to these super chat questions you

678  
00:25:02,470 --> 00:25:00,960  
guys i said in here trust me we'll get

679  
00:25:03,750 --> 00:25:02,480  
to them um

680  
00:25:06,710 --> 00:25:03,760  
but

681  
00:25:08,549 --> 00:25:06,720  
were these orbs basically seen as soon

682  
00:25:11,029 --> 00:25:08,559  
as these satellite systems were put into

683  
00:25:12,710 --> 00:25:11,039  
place i mean how often how often does

684  
00:25:16,390 --> 00:25:12,720  
this happen where we see these

685  
00:25:19,669 --> 00:25:16,400  
formations and uh usos and uap flying in

686  
00:25:22,789 --> 00:25:19,679  
the atmosphere uh i can't say usos uh

687  
00:25:24,549 --> 00:25:22,799  
because what we saw were orbs okay not

688  
00:25:26,390 --> 00:25:24,559

something coming out of the ocean

689

00:25:28,230 --> 00:25:26,400

um there were things flying from the

690

00:25:29,669 --> 00:25:28,240

north pole

691

00:25:31,110 --> 00:25:29,679

um

692

00:25:33,350 --> 00:25:31,120

they will

693

00:25:36,710 --> 00:25:33,360

i'll just say they were flying in the

694

00:25:39,350 --> 00:25:36,720

vicinity of the arctic circle

695

00:25:42,149 --> 00:25:39,360

because i'm working on a foia to let me

696

00:25:44,789 --> 00:25:42,159

say exactly where they came from and

697

00:25:46,870 --> 00:25:44,799

where they went uh that would like burst

698

00:25:48,710 --> 00:25:46,880

open the entire field what's your

699

00:25:51,909 --> 00:25:48,720

current maneuverability like how do you

700

00:25:53,190 --> 00:25:51,919

what is it what is your nda based on

701  
00:25:54,710 --> 00:25:53,200  
like what are you allowed to say what

702  
00:25:56,470 --> 00:25:54,720  
are you not allowed to say i'm allowed

703  
00:25:59,029 --> 00:25:56,480  
to say uh well

704  
00:26:00,710 --> 00:25:59,039  
nda protects sources of methods so i

705  
00:26:02,230 --> 00:26:00,720  
know how the us intelligence community

706  
00:26:05,350 --> 00:26:02,240  
collects data

707  
00:26:07,430 --> 00:26:05,360  
i know how we extract data

708  
00:26:08,630 --> 00:26:07,440  
from a hard target hard target meaning

709  
00:26:11,029 --> 00:26:08,640  
like

710  
00:26:13,430 --> 00:26:11,039  
china or russia which has its own

711  
00:26:14,549 --> 00:26:13,440  
counter intelligence operations to

712  
00:26:17,750 --> 00:26:14,559  
prevent

713  
00:26:19,029 --> 00:26:17,760

their people from talking to our people

714

00:26:21,350 --> 00:26:19,039

so i know how

715

00:26:24,070 --> 00:26:21,360

we extract that data safely that

716

00:26:26,149 --> 00:26:24,080

protects the lives of our officers and

717

00:26:27,909 --> 00:26:26,159

protects the lives of our sources the

718

00:26:30,070 --> 00:26:27,919

real agents

719

00:26:31,830 --> 00:26:30,080

um and so i have to protect that and so

720

00:26:34,390 --> 00:26:31,840

they're like technical capabilities

721

00:26:36,789 --> 00:26:34,400

their human capabilities are related to

722

00:26:38,870 --> 00:26:36,799

that and i will always protect those and

723

00:26:40,870 --> 00:26:38,880

so when for example when luz asks

724

00:26:42,950 --> 00:26:40,880

certain questions that's what's in the

725

00:26:45,430 --> 00:26:42,960

back of his mind that i got to protect

726  
00:26:47,430 --> 00:26:45,440  
those sources of massive methods because

727  
00:26:48,549 --> 00:26:47,440  
they're still in use even though we're

728  
00:26:50,950 --> 00:26:48,559  
retired

729  
00:26:54,149 --> 00:26:50,960  
uh if we blurt out oh this is how we do

730  
00:26:55,750 --> 00:26:54,159  
it it might literally put a perishable

731  
00:26:58,390 --> 00:26:55,760  
source at risk and when i mean

732  
00:27:01,110 --> 00:26:58,400  
perishable that source might die

733  
00:27:03,350 --> 00:27:01,120  
and fragile methods we'll never be able

734  
00:27:06,549 --> 00:27:03,360  
to use that extraction method again so

735  
00:27:09,430 --> 00:27:06,559  
it will completely be gravely damaging

736  
00:27:12,390 --> 00:27:09,440  
to u.s national security so that's what

737  
00:27:14,789 --> 00:27:12,400  
i'm protecting the information uh

738  
00:27:17,510 --> 00:27:14,799

is not so unless the information points

739

00:27:20,950 --> 00:27:17,520

to how i got the information

740

00:27:23,110 --> 00:27:20,960

well do you see a path uh of

741

00:27:25,269 --> 00:27:23,120

or a route for this information to

742

00:27:26,789 --> 00:27:25,279

eventually trickle its way to

743

00:27:28,950 --> 00:27:26,799

the american people the american attack

744

00:27:31,750 --> 00:27:28,960

absolutely absolutely that's why the

745

00:27:34,310 --> 00:27:31,760

gilbran amendment to the ndaa

746

00:27:36,470 --> 00:27:34,320

and also just it's not just the ndaa we

747

00:27:38,870 --> 00:27:36,480

have a intelligence authorization app

748

00:27:42,470 --> 00:27:38,880

iaa which also has uap language in the

749

00:27:43,750 --> 00:27:42,480

legislation they must pass intact with

750

00:27:47,909 --> 00:27:43,760

no

751

00:27:49,990 --> 00:27:47,919

got to pass because that what that

752

00:27:52,149 --> 00:27:50,000

provides us people like me people like

753

00:27:54,950 --> 00:27:52,159

lou people still in government it

754

00:27:56,470 --> 00:27:54,960

provides us with what we call top cover

755

00:27:57,669 --> 00:27:56,480

we have a law

756

00:28:00,549 --> 00:27:57,679

of the land

757

00:28:02,389 --> 00:28:00,559

and now because we have a law of land mr

758

00:28:04,470 --> 00:28:02,399

contractor defense contractor you're

759

00:28:06,389 --> 00:28:04,480

hiding all of these secrets when you get

760

00:28:07,990 --> 00:28:06,399

called before congress and congress asks

761

00:28:10,950 --> 00:28:08,000

you yeah you can it can be closed

762

00:28:12,230 --> 00:28:10,960

session but you can't say i refuse to

763

00:28:13,750 --> 00:28:12,240

testify

764

00:28:15,590 --> 00:28:13,760

because the next thing you know the u.s

765

00:28:17,590 --> 00:28:15,600

marshals will be knocking on your door

766

00:28:19,830 --> 00:28:17,600

because refusing to testify before

767

00:28:21,990 --> 00:28:19,840

congress is considered an obstruction of

768

00:28:24,070 --> 00:28:22,000

justice right and the department of

769

00:28:26,389 --> 00:28:24,080

justice will indict you and prosecute

770

00:28:28,070 --> 00:28:26,399

you for obstructing justice

771

00:28:30,470 --> 00:28:28,080

because it is a legal function

772

00:28:32,950 --> 00:28:30,480

constitutional function of the congress

773

00:28:35,269 --> 00:28:32,960

to have oversight over the defense

774

00:28:37,430 --> 00:28:35,279

community intelligence community and our

775

00:28:40,149 --> 00:28:37,440

contractors once you accept money from

776

00:28:42,230 --> 00:28:40,159

the government by extension you are the

777

00:28:44,149 --> 00:28:42,240

government you just don't do government

778

00:28:46,549 --> 00:28:44,159

functions there's a clause in most

779

00:28:48,470 --> 00:28:46,559

contracts that say that a contractor

780

00:28:50,549 --> 00:28:48,480

shall not have inherent government

781

00:28:52,870 --> 00:28:50,559

functions or responsibilities

782

00:28:54,630 --> 00:28:52,880

but otherwise for by extension you are

783

00:28:55,590 --> 00:28:54,640

the government so they need to come

784

00:28:57,430 --> 00:28:55,600

clean

785

00:28:58,789 --> 00:28:57,440

and it could be behind closed doors but

786

00:28:59,990 --> 00:28:58,799

somebody needs to know what's exactly

787

00:29:01,590 --> 00:29:00,000

what's going on

788

00:29:03,750 --> 00:29:01,600

and that gets reported

789

00:29:05,909 --> 00:29:03,760

got it and so you're no longer under

790

00:29:08,070 --> 00:29:05,919

government contract at all absolutely

791

00:29:09,269 --> 00:29:08,080

not absolutely not i i

792

00:29:11,110 --> 00:29:09,279

my uh

793

00:29:13,190 --> 00:29:11,120

my retirement is handled by the office

794

00:29:14,870 --> 00:29:13,200

of personnel management which is the

795

00:29:18,389 --> 00:29:14,880

personnel office for the entire us

796

00:29:22,149 --> 00:29:18,399

government so i got transfer from cia to

797

00:29:24,470 --> 00:29:22,159

opm my only contact with cia is when i

798

00:29:27,029 --> 00:29:24,480

do things like that presentation

799

00:29:30,710 --> 00:29:27,039

or i'm working on like

800

00:29:33,590 --> 00:29:30,720

uh getting my medical records from cia

801

00:29:36,789 --> 00:29:33,600

right now um i need to go back to cia

802

00:29:38,070 --> 00:29:36,799

um i have a uh number it's not double o

803

00:29:40,230 --> 00:29:38,080

seven

804

00:29:42,630 --> 00:29:40,240

but there is a number um of several

805

00:29:44,470 --> 00:29:42,640

digits and i give them that number and

806

00:29:46,470 --> 00:29:44,480

they have my name

807

00:29:47,830 --> 00:29:46,480

and being cia i mean they know where i

808

00:29:49,110 --> 00:29:47,840

live they know my phone number they know

809

00:29:50,630 --> 00:29:49,120

my email address they know my social

810

00:29:53,190 --> 00:29:50,640

security number i give them all that but

811

00:29:55,029 --> 00:29:53,200

that proves to them that i am who i am

812

00:29:56,310 --> 00:29:55,039

yeah and now they really know who i am

813

00:29:57,909 --> 00:29:56,320

because i've been out on all these

814

00:29:59,830 --> 00:29:57,919

interviews just say have you gotten any

815

00:30:00,870 --> 00:29:59,840

calls from the cia since then since the

816

00:30:02,549 --> 00:30:00,880

interview

817

00:30:04,789 --> 00:30:02,559

i've been i've been contacting them back

818

00:30:06,630 --> 00:30:04,799

and forth because it's a dialogue i have

819

00:30:09,590 --> 00:30:06,640

when i do these things i need to let

820

00:30:12,230 --> 00:30:09,600

them know that if i provide new

821

00:30:13,750 --> 00:30:12,240

information i need to vet them vet that

822

00:30:15,350 --> 00:30:13,760

information through them

823

00:30:17,190 --> 00:30:15,360

so far i haven't

824

00:30:18,950 --> 00:30:17,200

done so because that presentation is

825

00:30:21,110 --> 00:30:18,960

basically intact

826

00:30:24,470 --> 00:30:21,120

the front part of that presentation was

827

00:30:25,909 --> 00:30:24,480

uh done in about two 2015 to 2016.

828

00:30:27,830 --> 00:30:25,919

so i have been sitting on the front part

829

00:30:30,070 --> 00:30:27,840

part one for a long time

830

00:30:31,590 --> 00:30:30,080

and two three four and five i did

831

00:30:34,070 --> 00:30:31,600

recently

832

00:30:35,909 --> 00:30:34,080

and so the entire package went to cia

833

00:30:37,990 --> 00:30:35,919

and they it came right back to me

834

00:30:40,070 --> 00:30:38,000

completely unredacted so i didn't do a

835

00:30:41,590 --> 00:30:40,080

very good job

836

00:30:42,789 --> 00:30:41,600

we talked about the the ndas and stuff

837

00:30:45,350 --> 00:30:42,799

you know i'm curious about how

838

00:30:46,870 --> 00:30:45,360

compartmentalized the cia is say you

839

00:30:48,310 --> 00:30:46,880

know you find you're studying the

840

00:30:50,950 --> 00:30:48,320

ballistic missiles and you find some

841

00:30:53,350 --> 00:30:50,960

weird things in the sky over russia and

842

00:30:55,430 --> 00:30:53,360

you know write up a report on that would

843

00:30:57,430 --> 00:30:55,440

the same people be investigating that on

844

00:30:59,110 --> 00:30:57,440

the ground or would they hand it off to

845

00:31:00,950 --> 00:30:59,120

you know another part of the agency that

846

00:31:02,710 --> 00:31:00,960

didn't go investigate and if they did

847

00:31:04,149 --> 00:31:02,720

hand it off would would they ever you

848

00:31:05,830 --> 00:31:04,159

know find out the results of that

849

00:31:07,669 --> 00:31:05,840

investigation well

850

00:31:10,149 --> 00:31:07,679

i would just use the general case of how

851  
00:31:12,789 --> 00:31:10,159  
we do intelligence and basically we have

852  
00:31:15,110 --> 00:31:12,799  
a source and in this case it was uh an

853  
00:31:16,870 --> 00:31:15,120  
nro source i can say that because i put

854  
00:31:20,710 --> 00:31:16,880  
it in my presentation and cia didn't

855  
00:31:22,950 --> 00:31:20,720  
redact it so the nro

856  
00:31:25,029 --> 00:31:22,960  
has space assets they fly

857  
00:31:28,789 --> 00:31:25,039  
and for various customers and they're

858  
00:31:31,110 --> 00:31:28,799  
basically two customers they fly for nga

859  
00:31:33,669 --> 00:31:31,120  
because nga wants pitchers

860  
00:31:35,110 --> 00:31:33,679  
and they fly for nsa because nsas wants

861  
00:31:37,269 --> 00:31:35,120  
signals

862  
00:31:38,950 --> 00:31:37,279  
and so in this case it was pictures it

863  
00:31:41,509 --> 00:31:38,960

was something in imagery

864

00:31:44,070 --> 00:31:41,519

and so when they see that in ga they're

865

00:31:45,750 --> 00:31:44,080

all like top secret sei clear

866

00:31:48,070 --> 00:31:45,760

and they may have compartments within

867

00:31:49,990 --> 00:31:48,080

nga but they're all cleared to work in

868

00:31:51,430 --> 00:31:50,000

nga basically everyone has the same

869

00:31:53,830 --> 00:31:51,440

level of clearance

870

00:31:56,070 --> 00:31:53,840

um and so they saw something right and

871

00:31:58,870 --> 00:31:56,080

so they said ah that's interesting and

872

00:32:01,110 --> 00:31:58,880

then they did exactly what i said in sly

873

00:32:03,430 --> 00:32:01,120

you know they went to cia they went to

874

00:32:05,269 --> 00:32:03,440

dia what do you guys know about what the

875

00:32:08,389 --> 00:32:05,279

russians have lying up in space because

876

00:32:11,110 --> 00:32:08,399

we saw this over russian airspace so

877

00:32:13,509 --> 00:32:11,120

dia does their thing we did our thing we

878

00:32:15,990 --> 00:32:13,519

got rs experts to look at it and they're

879

00:32:17,669 --> 00:32:16,000

all ts sci cleared

880

00:32:19,909 --> 00:32:17,679

for that data

881

00:32:22,070 --> 00:32:19,919

because to get an sci you're already

882

00:32:24,070 --> 00:32:22,080

like pretty high up

883

00:32:25,350 --> 00:32:24,080

in terms of eligibility to get other

884

00:32:28,389 --> 00:32:25,360

compartments

885

00:32:30,230 --> 00:32:28,399

um so we did the uh we did the analysis

886

00:32:32,230 --> 00:32:30,240

and it's still pretty much

887

00:32:33,190 --> 00:32:32,240

top secret sci like everyone has in the

888

00:32:35,190 --> 00:32:33,200

building

889

00:32:37,430 --> 00:32:35,200

and so there's no like special

890

00:32:39,909 --> 00:32:37,440

compartment yet

891

00:32:44,230 --> 00:32:39,919

and so when my engineers were done and

892

00:32:45,269 --> 00:32:44,240

they reported back to our

893

00:32:46,950 --> 00:32:45,279

principal

894

00:32:48,789 --> 00:32:46,960

who was tagged to

895

00:32:51,269 --> 00:32:48,799

represent

896

00:32:53,430 --> 00:32:51,279

this subject matter area he was the one

897

00:32:54,149 --> 00:32:53,440

guy that was the such man experts that

898

00:32:55,909 --> 00:32:54,159

then

899

00:32:59,509 --> 00:32:55,919

talked to other subject matter experts

900

00:33:02,710 --> 00:32:59,519

within his or her own agency our guy uh

901  
00:33:04,149 --> 00:33:02,720  
then took it back up to nga and nro

902  
00:33:05,430 --> 00:33:04,159  
and so everybody

903  
00:33:07,590 --> 00:33:05,440  
his counterparts throughout the

904  
00:33:09,669 --> 00:33:07,600  
intelligence community did the same

905  
00:33:11,590 --> 00:33:09,679  
and so at that point you know it's still

906  
00:33:14,230 --> 00:33:11,600  
top secret sci and they said we need a

907  
00:33:16,149 --> 00:33:14,240  
working group to look at this

908  
00:33:18,789 --> 00:33:16,159  
that's when the compartment started

909  
00:33:20,310 --> 00:33:18,799  
because in order to look at what

910  
00:33:23,430 --> 00:33:20,320  
we saw

911  
00:33:25,830 --> 00:33:23,440  
at the top secret sci level

912  
00:33:30,789 --> 00:33:25,840  
my engineers needed to be read into what

913  
00:33:35,909 --> 00:33:33,110

and that's when they got cleared into

914

00:33:37,110 --> 00:33:35,919

what we have

915

00:33:39,430 --> 00:33:37,120

and so

916

00:33:43,190 --> 00:33:39,440

then they got cleared into what we know

917

00:33:45,350 --> 00:33:43,200

about what we think ufos are really like

918

00:33:47,350 --> 00:33:45,360

so they got cleared into that and they

919

00:33:48,630 --> 00:33:47,360

got cleared all the way like i

920

00:33:50,630 --> 00:33:48,640

personally i think they went back to

921

00:33:54,149 --> 00:33:50,640

roswell

922

00:33:55,750 --> 00:33:54,159

um because um they they they had that

923

00:33:57,350 --> 00:33:55,760

compartment

924

00:34:01,750 --> 00:33:57,360

but were you cleared into this stuff as

925

00:34:07,590 --> 00:34:04,870

a smart cia officer will know this

926  
00:34:09,510 --> 00:34:07,600  
never ask for more compartments

927  
00:34:11,030 --> 00:34:09,520  
that you can work because the more

928  
00:34:13,510 --> 00:34:11,040  
compartments you have

929  
00:34:18,629 --> 00:34:13,520  
that's more work for you so i try to get

930  
00:34:18,639 --> 00:34:23,990  
any contract

931  
00:34:28,149 --> 00:34:25,669  
don't tell me if i don't know because i

932  
00:34:30,310 --> 00:34:28,159  
can function without it right i got read

933  
00:34:32,310 --> 00:34:30,320  
to a point it wasn't even a reading i

934  
00:34:34,550 --> 00:34:32,320  
mean it was like oh we need a couple of

935  
00:34:36,149 --> 00:34:34,560  
your engineers and i go why and so well

936  
00:34:37,589 --> 00:34:36,159  
here's why

937  
00:34:39,589 --> 00:34:37,599  
right so okay

938  
00:34:41,190 --> 00:34:39,599

now i didn't say anything about that for

939

00:34:43,349 --> 00:34:41,200

a long time

940

00:34:45,270 --> 00:34:43,359

until 2017

941

00:34:46,950 --> 00:34:45,280

until louis lozando until he started

942

00:34:49,270 --> 00:34:46,960

talking about orbs and people are

943

00:34:52,149 --> 00:34:49,280

talking about orbs and thick tack and go

944

00:34:53,909 --> 00:34:52,159

fast and gimbal and that all right okay

945

00:34:56,550 --> 00:34:53,919

now i can talk about yeah we saw these

946

00:34:59,030 --> 00:34:56,560

things like way back when because it's

947

00:35:02,470 --> 00:34:59,040

the cat's out of the bag right right and

948

00:35:04,550 --> 00:35:02,480

james lecasky wrote his book um skin

949

00:35:07,430 --> 00:35:04,560

walks was the pentagon

950

00:35:10,150 --> 00:35:07,440

and then he mentioned orbs and so like

951  
00:35:12,870 --> 00:35:10,160  
okay it's it's out of the bag right

952  
00:35:14,310 --> 00:35:12,880  
so i'm freer to talk about what we saw

953  
00:35:16,390 --> 00:35:14,320  
back then but

954  
00:35:19,270 --> 00:35:16,400  
back then i would have said a word

955  
00:35:21,030 --> 00:35:19,280  
even if i was uh retired at that point i

956  
00:35:22,310 --> 00:35:21,040  
couldn't have said anything about what i

957  
00:35:24,790 --> 00:35:22,320  
saw

958  
00:35:26,710 --> 00:35:24,800  
uh but thanks to the recent revelations

959  
00:35:28,069 --> 00:35:26,720  
i can so i'm not answering your question

960  
00:35:29,670 --> 00:35:28,079  
i know we're

961  
00:35:32,310 --> 00:35:29,680  
i think i lost your question somewhere

962  
00:35:34,710 --> 00:35:32,320  
and you were talking about compartments

963  
00:35:36,790 --> 00:35:34,720

well well yeah yeah it's kind of yeah if

964

00:35:37,750 --> 00:35:36,800

would you would you want to and i guess

965

00:35:38,870 --> 00:35:37,760

you know that kind of raises the

966

00:35:40,870 --> 00:35:38,880

question of

967

00:35:42,550 --> 00:35:40,880

there might be other people at the cia

968

00:35:44,630 --> 00:35:42,560

who might

969

00:35:46,310 --> 00:35:44,640

know what these are ufos or otherwise

970

00:35:49,670 --> 00:35:46,320

right but it wouldn't be you at this

971

00:35:54,230 --> 00:35:52,870

no no i have to i i make an informed

972

00:35:57,510 --> 00:35:54,240

speculation that's why i call it

973

00:36:00,550 --> 00:35:57,520

informed because i know what we saw

974

00:36:03,670 --> 00:36:00,560

and i have to speculate what it might be

975

00:36:05,430 --> 00:36:03,680

and so that's where uh my value comes in

976  
00:36:06,790 --> 00:36:05,440  
and that lou can also do an informed

977  
00:36:09,430 --> 00:36:06,800  
speculation

978  
00:36:11,270 --> 00:36:09,440  
right but he's also extremely informed

979  
00:36:12,470 --> 00:36:11,280  
and jim semivan and all these folks and

980  
00:36:14,150 --> 00:36:12,480  
i'm using their

981  
00:36:15,829 --> 00:36:14,160  
names without getting their permission

982  
00:36:17,829 --> 00:36:15,839  
but i mean there are public figures now

983  
00:36:20,150 --> 00:36:17,839  
right right so chris mel and all those

984  
00:36:22,630 --> 00:36:20,160  
guys they they know what's up there

985  
00:36:24,950 --> 00:36:22,640  
but they still have clearances

986  
00:36:26,550 --> 00:36:24,960  
i don't so they still have to protect

987  
00:36:28,310 --> 00:36:26,560  
what they know

988  
00:36:30,870 --> 00:36:28,320

i on the other hand can talk about

989

00:36:33,109 --> 00:36:30,880

something that happened decades ago

990

00:36:35,750 --> 00:36:33,119

because what happened decades ago is now

991

00:36:39,030 --> 00:36:35,760

in the public domain and released

992

00:36:41,430 --> 00:36:39,040

officially so i'm a little freer to put

993

00:36:44,550 --> 00:36:41,440

more context into what i say

994

00:36:46,790 --> 00:36:44,560

and so the compartment came later

995

00:36:48,710 --> 00:36:46,800

when the working group was started and

996

00:36:50,950 --> 00:36:48,720

um

997

00:36:53,109 --> 00:36:50,960

so

998

00:36:55,589 --> 00:36:53,119

at that point you know i was out of the

999

00:36:58,390 --> 00:36:55,599

picture i was i needed to be briefed to

1000

00:37:00,870 --> 00:36:58,400

a point where i had two of my engineers

1001  
00:37:02,950 --> 00:37:00,880  
i was responsible for writing

1002  
00:37:04,870 --> 00:37:02,960  
performance appraisal reports

1003  
00:37:06,870 --> 00:37:04,880  
we known them as pars

1004  
00:37:08,470 --> 00:37:06,880  
so i need to evaluate their work and how

1005  
00:37:10,069 --> 00:37:08,480  
can i evaluate the work unless i know

1006  
00:37:12,790 --> 00:37:10,079  
why they're flying to

1007  
00:37:13,670 --> 00:37:12,800  
and i'll say it st louis missouri nga

1008  
00:37:15,910 --> 00:37:13,680  
west

1009  
00:37:18,230 --> 00:37:15,920  
for these meetings

1010  
00:37:20,470 --> 00:37:18,240  
um so and then they came back and so i

1011  
00:37:22,630 --> 00:37:20,480  
had to sign their travel orders you know

1012  
00:37:24,870 --> 00:37:22,640  
sign for their airplane tickets and sign

1013  
00:37:27,190 --> 00:37:24,880

for their hotel accommodations right

1014

00:37:29,910 --> 00:37:27,200

and their uh what we call mie

1015

00:37:31,750 --> 00:37:29,920

uh meals and incidental expenses

1016

00:37:33,190 --> 00:37:31,760

um aside for all that i need to know

1017

00:37:36,069 --> 00:37:33,200

what they were doing and they also came

1018

00:37:37,670 --> 00:37:36,079

back say boss we need a safe

1019

00:37:39,589 --> 00:37:37,680

okay no i don't have to order why you

1020

00:37:41,190 --> 00:37:39,599

need to save well we got this super

1021

00:37:43,030 --> 00:37:41,200

secret compartment

1022

00:37:44,630 --> 00:37:43,040

and which you're not right into but we

1023

00:37:47,670 --> 00:37:44,640

need to throw things in there because we

1024

00:37:49,670 --> 00:37:47,680

can't put it in the regular safe so okay

1025

00:37:51,190 --> 00:37:49,680

so that's that's how i got to know what

1026  
00:37:53,750 --> 00:37:51,200  
they're doing so they were throwing

1027  
00:37:55,430 --> 00:37:53,760  
things in there left and right

1028  
00:37:57,190 --> 00:37:55,440  
they looked wide-eyed and scared when

1029  
00:37:58,470 --> 00:37:57,200  
they came back and talked to you yeah no

1030  
00:38:00,950 --> 00:37:58,480  
they basically they knew i was

1031  
00:38:02,630 --> 00:38:00,960  
interested in ufos because at my desk

1032  
00:38:04,790 --> 00:38:02,640  
back in the days when

1033  
00:38:06,150 --> 00:38:04,800  
uh monitors were not this like flat

1034  
00:38:08,230 --> 00:38:06,160  
panel i have in front of me but there

1035  
00:38:11,670 --> 00:38:08,240  
were these big ass crts

1036  
00:38:14,390 --> 00:38:11,680  
uh on this big ass crt um that says dell

1037  
00:38:15,670 --> 00:38:14,400  
um i had a ufo doll

1038  
00:38:17,349 --> 00:38:15,680

um

1039

00:38:19,910 --> 00:38:17,359

e.t doll

1040

00:38:22,230 --> 00:38:19,920

a gray which actually was colored green

1041

00:38:23,430 --> 00:38:22,240

it's gray and i used to set it on there

1042

00:38:24,790 --> 00:38:23,440

and everyone knew this i was interested

1043

00:38:26,630 --> 00:38:24,800

in ufos

1044

00:38:28,230 --> 00:38:26,640

and everyone knew that it was my hobby

1045

00:38:30,550 --> 00:38:28,240

and everyone knew i used to go to ufo

1046

00:38:32,790 --> 00:38:30,560

conferences on my own dime paying for my

1047

00:38:33,430 --> 00:38:32,800

own airplane tickets and conference fees

1048

00:38:36,069 --> 00:38:33,440

and

1049

00:38:37,829 --> 00:38:36,079

uh hotels so the interest in ufos was

1050

00:38:40,069 --> 00:38:37,839

well known and i connected with other

1051  
00:38:41,430 --> 00:38:40,079  
people at the agency who had this as a

1052  
00:38:43,510 --> 00:38:41,440  
hobby

1053  
00:38:45,190 --> 00:38:43,520  
we never studied it like

1054  
00:38:46,710 --> 00:38:45,200  
as a thing

1055  
00:38:49,349 --> 00:38:46,720  
but we had it as a hobby and it wasn't

1056  
00:38:51,430 --> 00:38:49,359  
really studied as a thing until you know

1057  
00:38:53,589 --> 00:38:51,440  
i described the orbs but i believe there

1058  
00:38:56,310 --> 00:38:53,599  
were people in the agency who already

1059  
00:38:58,790 --> 00:38:56,320  
knew what was going on

1060  
00:39:01,990 --> 00:38:58,800  
and that was slide 54

1061  
00:39:05,589 --> 00:39:02,000  
my infamous hybrid slide

1062  
00:39:09,990 --> 00:39:05,599  
and how i say that was told to me

1063  
00:39:14,390 --> 00:39:12,950

one of three briefings i got

1064

00:39:16,950 --> 00:39:14,400

on this phenomenon

1065

00:39:18,390 --> 00:39:16,960

that's related to ufos and uaps and who

1066

00:39:19,589 --> 00:39:18,400

might be driving them

1067

00:39:21,030 --> 00:39:19,599

so

1068

00:39:22,710 --> 00:39:21,040

i thought you weren't right into that

1069

00:39:24,870 --> 00:39:22,720

stuff i wasn't

1070

00:39:26,630 --> 00:39:24,880

somebody screwed up

1071

00:39:29,190 --> 00:39:26,640

or somebody i don't know what the

1072

00:39:30,390 --> 00:39:29,200

situation was i told cia that you know

1073

00:39:31,589 --> 00:39:30,400

there's going to be a slide about

1074

00:39:33,349 --> 00:39:31,599

hybrids

1075

00:39:35,829 --> 00:39:33,359

and here's how i knew

1076

00:39:38,630 --> 00:39:35,839

and i told cia directly the meeting i

1077

00:39:41,829 --> 00:39:38,640

was in about the time it occurred the

1078

00:39:42,950 --> 00:39:41,839

two senior senior officers who sponsored

1079

00:39:44,710 --> 00:39:42,960

a meeting

1080

00:39:46,950 --> 00:39:44,720

and other people who were there in the

1081

00:39:49,270 --> 00:39:46,960

bill in the in the meeting

1082

00:39:51,750 --> 00:39:49,280

which were ci officers maybe other

1083

00:39:53,349 --> 00:39:51,760

intelligence officers but i recognized

1084

00:39:55,270 --> 00:39:53,359

two ci officers

1085

00:39:57,030 --> 00:39:55,280

personally that i knew

1086

00:39:59,030 --> 00:39:57,040

plus a whole bunch of academics i didn't

1087

00:40:00,790 --> 00:39:59,040

know because we had a sign-in sheet and

1088

00:40:02,069 --> 00:40:00,800

when they signed in their uh email

1089

00:40:03,750 --> 00:40:02,079

addresses they had

1090

00:40:05,190 --> 00:40:03,760

edu after their

1091

00:40:08,870 --> 00:40:05,200

email address

1092

00:40:11,510 --> 00:40:08,880

the rest of us has have.gov

1093

00:40:13,750 --> 00:40:11,520

so i knew that you know okay

1094

00:40:15,349 --> 00:40:13,760

this was a interesting briefing

1095

00:40:16,950 --> 00:40:15,359

it was at a hotel

1096

00:40:18,790 --> 00:40:16,960

a hotel

1097

00:40:20,630 --> 00:40:18,800

and identified the hotel the cia i was

1098

00:40:23,109 --> 00:40:20,640

at this hotel

1099

00:40:25,349 --> 00:40:23,119

and uh gave him the address and i as i

1100

00:40:26,790 --> 00:40:25,359

went upstairs there was no security

1101  
00:40:28,390 --> 00:40:26,800  
officer

1102  
00:40:30,309 --> 00:40:28,400  
no badges

1103  
00:40:31,829 --> 00:40:30,319  
and i could carry my cell phone into the

1104  
00:40:33,430 --> 00:40:31,839  
meeting

1105  
00:40:35,510 --> 00:40:33,440  
that tells you right there that that's

1106  
00:40:37,589 --> 00:40:35,520  
an unclassified meeting folks

1107  
00:40:39,750 --> 00:40:37,599  
and who are you introduced

1108  
00:40:41,270 --> 00:40:39,760  
who instructed you to attend the meeting

1109  
00:40:42,950 --> 00:40:41,280  
ah that's one of the names i can't

1110  
00:40:44,390 --> 00:40:42,960  
mention i don't have permission to meet

1111  
00:40:45,990 --> 00:40:44,400  
the media but you were but you were

1112  
00:40:49,510 --> 00:40:46,000  
instructed i was invited

1113  
00:40:51,750 --> 00:40:49,520

were invited you invited me i was

1114

00:40:54,230 --> 00:40:51,760

interested in ufos and that you know

1115

00:40:56,950 --> 00:40:54,240

they did they knew that interest all

1116

00:40:59,990 --> 00:40:56,960

right so the one tidbit i have is that

1117

00:41:01,990 --> 00:41:00,000

the folks who sponsor the meetings

1118

00:41:04,390 --> 00:41:02,000

uh

1119

00:41:07,589 --> 00:41:04,400

the office that sponsor them

1120

00:41:09,589 --> 00:41:07,599

is the same office that

1121

00:41:12,390 --> 00:41:09,599

was the successor to the office kick

1122

00:41:16,150 --> 00:41:13,589

okay

1123

00:41:17,750 --> 00:41:16,160

if this meeting wasn't development

1124

00:41:19,190 --> 00:41:17,760

go ahead if this meeting wasn't

1125

00:41:21,030 --> 00:41:19,200

classified though why can't you tell us

1126  
00:41:22,390 --> 00:41:21,040  
who arranged it and tell us more about

1127  
00:41:25,349 --> 00:41:22,400  
it because

1128  
00:41:27,349 --> 00:41:25,359  
again um when i name cia officers i need

1129  
00:41:28,630 --> 00:41:27,359  
to get cia's permission

1130  
00:41:29,990 --> 00:41:28,640  
there's a thing called the intelligence

1131  
00:41:31,829 --> 00:41:30,000  
yeah that makes sense

1132  
00:41:36,790 --> 00:41:31,839  
intelligence identities

1133  
00:41:38,710 --> 00:41:36,800  
iipa

1134  
00:41:41,190 --> 00:41:38,720  
you cannot

1135  
00:41:42,069 --> 00:41:41,200  
independently name a ci officer i can

1136  
00:41:43,510 --> 00:41:42,079  
self

1137  
00:41:45,589 --> 00:41:43,520  
proclaim sure no that makes sense you

1138  
00:41:47,270 --> 00:41:45,599

don't want to out via the exactly i

1139

00:41:50,230 --> 00:41:47,280

don't know what their clearance status

1140

00:41:51,910 --> 00:41:50,240

was at all

1141

00:41:53,190 --> 00:41:51,920

do you know why why they

1142

00:41:55,109 --> 00:41:53,200

set up this meeting though like what

1143

00:41:56,309 --> 00:41:55,119

context did they

1144

00:41:57,589 --> 00:41:56,319

were they telling you this information

1145

00:42:00,630 --> 00:41:57,599

were you were you researching something

1146

00:42:02,790 --> 00:42:00,640

that you needed to know

1147

00:42:03,910 --> 00:42:02,800

i don't know that's that's a mystery

1148

00:42:05,109 --> 00:42:03,920

sharing

1149

00:42:06,870 --> 00:42:05,119

that i don't

1150

00:42:08,550 --> 00:42:06,880

that's kind of a bizarre way to share

1151  
00:42:10,630 --> 00:42:08,560  
information because even if it was

1152  
00:42:12,470 --> 00:42:10,640  
shared at that level of what i think i

1153  
00:42:14,710 --> 00:42:12,480  
was told you would think there would be

1154  
00:42:16,309 --> 00:42:14,720  
a skiff it wasn't right

1155  
00:42:17,829 --> 00:42:16,319  
you think it's possible that they might

1156  
00:42:19,670 --> 00:42:17,839  
have been feeding you misinformation or

1157  
00:42:22,069 --> 00:42:19,680  
some other kind of weird thing going on

1158  
00:42:24,150 --> 00:42:22,079  
no because i reached back to other folks

1159  
00:42:27,190 --> 00:42:24,160  
and confirmed the fact that what they

1160  
00:42:29,589 --> 00:42:27,200  
knew was the actual truth and plus their

1161  
00:42:31,349 --> 00:42:29,599  
who they were

1162  
00:42:32,309 --> 00:42:31,359  
in the building

1163  
00:42:34,069 --> 00:42:32,319

yeah

1164

00:42:35,430 --> 00:42:34,079

did they provide any evidence that they

1165

00:42:36,950 --> 00:42:35,440

are that this was true or did they just

1166

00:42:38,390 --> 00:42:36,960

say that this is kind of the theory that

1167

00:42:40,390 --> 00:42:38,400

they were going with

1168

00:42:42,829 --> 00:42:40,400

no it's not a theory they actually

1169

00:42:45,030 --> 00:42:42,839

stated what they stated so

1170

00:42:48,470 --> 00:42:45,040

so and then i confirmed it later

1171

00:42:51,349 --> 00:42:48,480

they stated it to you as facts so the

1172

00:42:53,349 --> 00:42:51,359

your report that you shared was not your

1173

00:42:54,390 --> 00:42:53,359

speculation you're sharing what was

1174

00:42:56,550 --> 00:42:54,400

stated

1175

00:42:57,270 --> 00:42:56,560

to you in an open meeting

1176

00:42:59,750 --> 00:42:57,280

all

1177

00:43:01,430 --> 00:42:59,760

sly 54 right it was shared with that

1178

00:43:03,430 --> 00:43:01,440

group of people which i would say

1179

00:43:05,750 --> 00:43:03,440

numbered like

1180

00:43:07,589 --> 00:43:05,760

maybe three or four dozen at the most

1181

00:43:08,790 --> 00:43:07,599

but it was not held in the closed area

1182

00:43:10,790 --> 00:43:08,800

as you said

1183

00:43:13,589 --> 00:43:10,800

bring your own cell phone in with you

1184

00:43:14,710 --> 00:43:13,599

you weren't searched nothing like that

1185

00:43:16,470 --> 00:43:14,720

nope

1186

00:43:18,150 --> 00:43:16,480

and i mean it was presented as fact as

1187

00:43:20,470 --> 00:43:18,160

in it was just said as fact but there

1188

00:43:22,470 --> 00:43:20,480

was no proof or or anything to back up

1189

00:43:24,710 --> 00:43:22,480

that fact no because when you have

1190

00:43:27,270 --> 00:43:24,720

people at that level who they were

1191

00:43:29,270 --> 00:43:27,280

saying you do that yeah say officers

1192

00:43:30,309 --> 00:43:29,280

don't that's a pretty big claim

1193

00:43:32,790 --> 00:43:30,319

that is not

1194

00:43:34,870 --> 00:43:32,800

it is not you have to understand the

1195

00:43:35,670 --> 00:43:34,880

culture of cia

1196

00:43:38,710 --> 00:43:35,680

you know

1197

00:43:41,270 --> 00:43:38,720

when that lev that person at that level

1198

00:43:43,589 --> 00:43:41,280

says something like that

1199

00:43:45,829 --> 00:43:43,599

he can back it up and then i go back and

1200

00:43:46,950 --> 00:43:45,839

then ask

1201  
00:43:49,750 --> 00:43:46,960  
later

1202  
00:43:51,829 --> 00:43:49,760  
about this and then have that confirmed

1203  
00:43:55,349 --> 00:43:51,839  
and then this was before

1204  
00:43:58,550 --> 00:43:55,359  
the orb working group

1205  
00:44:00,950 --> 00:43:58,560  
orb working group yeah now since like

1206  
00:44:03,670 --> 00:44:00,960  
it's in the slides yeah yeah it's those

1207  
00:44:06,630 --> 00:44:03,680  
slides there was a working group that

1208  
00:44:10,069 --> 00:44:06,640  
occurred way before asap

1209  
00:44:11,750 --> 00:44:10,079  
osap was the after the title 50 civilian

1210  
00:44:13,430 --> 00:44:11,760  
side of the intelligence

1211  
00:44:15,589 --> 00:44:13,440  
was done with the orb working group and

1212  
00:44:16,950 --> 00:44:15,599  
there we don't look at at it like it's a

1213  
00:44:18,870 --> 00:44:16,960

threat

1214

00:44:22,150 --> 00:44:18,880

we look at the science and technology

1215

00:44:24,069 --> 00:44:22,160

aspects of our phenomena

1216

00:44:26,550 --> 00:44:24,079

and then we toss it over to title 10

1217

00:44:28,950 --> 00:44:26,560

which is dod and of course dld survives

1218

00:44:31,349 --> 00:44:28,960

on everything being a threat

1219

00:44:34,230 --> 00:44:31,359

right so you this was this was explained

1220

00:44:35,670 --> 00:44:34,240

to you as fact and did was this like i

1221

00:44:38,150 --> 00:44:35,680

guess i'm still trying i'm struggling to

1222

00:44:40,630 --> 00:44:38,160

understand the context of the briefing

1223

00:44:42,630 --> 00:44:40,640

and what was what was the goal was it

1224

00:44:45,030 --> 00:44:42,640

just to disseminate this information

1225

00:44:48,829 --> 00:44:45,040

throughout interested parties in the cia

1226

00:44:53,670 --> 00:44:51,750

intelligence there were three

1227

00:44:55,109 --> 00:44:53,680

items on the agenda

1228

00:44:57,109 --> 00:44:55,119

one was

1229

00:45:00,550 --> 00:44:57,119

a historical look back at cia's

1230

00:45:02,150 --> 00:45:00,560

relationship with ufos in general

1231

00:45:05,349 --> 00:45:02,160

and

1232

00:45:07,990 --> 00:45:05,359

that's where sly 53 was the mcminnville

1233

00:45:10,950 --> 00:45:08,000

ufo the famous one

1234

00:45:13,589 --> 00:45:10,960

uh in 1950 and that was briefed as this

1235

00:45:15,190 --> 00:45:13,599

is an authentic ufo

1236

00:45:17,109 --> 00:45:15,200

and because

1237

00:45:18,630 --> 00:45:17,119

then the reason why it's never been

1238

00:45:21,109 --> 00:45:18,640

successfully

1239

00:45:23,270 --> 00:45:21,119

debunked is because it is authentic and

1240

00:45:24,550 --> 00:45:23,280

we know it

1241

00:45:27,349 --> 00:45:24,560

that was there

1242

00:45:30,309 --> 00:45:27,359

number two was

1243

00:45:35,910 --> 00:45:32,630

and number three was

1244

00:45:37,349 --> 00:45:35,920

the future of information technology

1245

00:45:39,990 --> 00:45:37,359

will explode

1246

00:45:41,670 --> 00:45:40,000

we are working with a company

1247

00:45:44,630 --> 00:45:41,680

to disseminate

1248

00:45:49,510 --> 00:45:44,640

and allow a dialogue of information like

1249

00:45:52,390 --> 00:45:50,950

is google

1250

00:45:57,430 --> 00:45:52,400

google

1251

00:45:59,670 --> 00:45:57,440

we provided with earth viewer which

1252

00:46:01,589 --> 00:45:59,680

became google earth and we provided them

1253

00:46:03,910 --> 00:46:01,599

with search tools which became google

1254

00:46:05,990 --> 00:46:03,920

search is that different than the uh the

1255

00:46:09,270 --> 00:46:06,000

company the business or yeah the company

1256

00:46:11,430 --> 00:46:09,280

that you referenced last week on the uh

1257

00:46:12,790 --> 00:46:11,440

on your interview with uh i apologize

1258

00:46:14,870 --> 00:46:12,800

andy

1259

00:46:16,470 --> 00:46:14,880

mcgrillen

1260

00:46:17,990 --> 00:46:16,480

which company did i mention that you

1261

00:46:20,150 --> 00:46:18,000

said that you that after the interview

1262

00:46:23,829 --> 00:46:20,160

you were going to um discuss a company

1263

00:46:25,030 --> 00:46:23,839

via twitter oh that was cosmos id okay i

1264

00:46:27,510 --> 00:46:25,040

wasn't sure if you were referencing

1265

00:46:30,550 --> 00:46:27,520

google as that company oh that's cosmos

1266

00:46:32,870 --> 00:46:30,560

id that's a very interesting company

1267

00:46:34,390 --> 00:46:32,880

well i still hung up on the hybrids

1268

00:46:36,710 --> 00:46:34,400

right because you know if there were

1269

00:46:38,069 --> 00:46:36,720

aliens aliens intervening with our dna

1270

00:46:40,230 --> 00:46:38,079

there would be you know records of it

1271

00:46:41,990 --> 00:46:40,240

that's kind of a falsifiable thing and

1272

00:46:43,990 --> 00:46:42,000

when you go and you look at the biology

1273

00:46:45,750 --> 00:46:44,000

and you know the dna history and stuff

1274

00:46:47,190 --> 00:46:45,760

there there isn't any evidence of that

1275

00:46:49,910 --> 00:46:47,200

there is evidence that there are

1276

00:46:52,230 --> 00:46:49,920

reptilian uh there there's

1277

00:46:54,550 --> 00:46:52,240

science is now seeing

1278

00:46:57,030 --> 00:46:54,560

that there was a common reptilian

1279

00:46:58,550 --> 00:46:57,040

ancestors ancestors sure that's that's

1280

00:47:00,710 --> 00:46:58,560

right evolution right yeah that's

1281

00:47:03,510 --> 00:47:00,720

evolution right now

1282

00:47:04,630 --> 00:47:03,520

what i was told that

1283

00:47:07,510 --> 00:47:04,640

okay

1284

00:47:10,630 --> 00:47:07,520

one point that i will talk about

1285

00:47:12,550 --> 00:47:10,640

without getting ci's permission since

1286

00:47:13,829 --> 00:47:12,560

world war ii

1287

00:47:14,870 --> 00:47:13,839

we learned

1288

00:47:18,390 --> 00:47:14,880

that

1289

00:47:18,400 --> 00:47:22,870

an alien hybridization of humans

1290

00:47:27,829 --> 00:47:25,349

exclusively since world war ii

1291

00:47:28,790 --> 00:47:27,839

that's when the cra learned about it

1292

00:47:30,230 --> 00:47:28,800

okay

1293

00:47:31,910 --> 00:47:30,240

world war ii

1294

00:47:34,069 --> 00:47:31,920

that's what prompted me to look back at

1295

00:47:35,670 --> 00:47:34,079

world war ii and say okay where did this

1296

00:47:37,030 --> 00:47:35,680

information come from

1297

00:47:38,870 --> 00:47:37,040

but there's still it should be a dna

1298

00:47:40,549 --> 00:47:38,880

record of that we should be able to tell

1299

00:47:43,109 --> 00:47:40,559

absolutely and that's what's not

1300

00:47:44,710 --> 00:47:43,119

released that's still well but i mean

1301

00:47:46,549 --> 00:47:44,720

this is being done by academics it's you

1302

00:47:49,190 --> 00:47:46,559

know the government doesn't do the dna

1303

00:47:51,109 --> 00:47:49,200

research yeah exactly yes well sure but

1304

00:47:53,430 --> 00:47:51,119

i would there it's not private right

1305

00:47:56,150 --> 00:47:53,440

there's no classification of our dna

1306

00:47:58,230 --> 00:47:56,160

classified looking into our dna

1307

00:48:00,069 --> 00:47:58,240

you can classify our dna you think that

1308

00:48:00,870 --> 00:48:00,079

they're holding secrets of our dna from

1309

00:48:07,190 --> 00:48:00,880

us

1310

00:48:08,710 --> 00:48:07,200

law allows cia and the intelligence

1311

00:48:11,030 --> 00:48:08,720

community to do operations like that

1312

00:48:12,470 --> 00:48:11,040

because no one bothers to read

1313

00:48:13,829 --> 00:48:12,480

the law

1314

00:48:16,230 --> 00:48:13,839

so you think that they're going into

1315

00:48:18,230 --> 00:48:16,240

like the you know university biology

1316

00:48:19,430 --> 00:48:18,240

programs and

1317

00:48:20,710 --> 00:48:19,440

don't study this you know you can't

1318

00:48:21,990 --> 00:48:20,720

publish things

1319

00:48:23,589 --> 00:48:22,000

that's not the right wouldn't that mean

1320

00:48:25,589 --> 00:48:23,599

they're also redacting information from

1321

00:48:27,510 --> 00:48:25,599

organizations like 23 and me and

1322

00:48:29,829 --> 00:48:27,520

ancestry and those others once you give

1323

00:48:32,390 --> 00:48:29,839

your blood uh once you give your uh

1324

00:48:34,230 --> 00:48:32,400

saliva to 23andme these others

1325

00:48:37,030 --> 00:48:34,240

if you read the fine print you gave away

1326  
00:48:38,710 --> 00:48:37,040  
your dna for the purposes of you know

1327  
00:48:41,510 --> 00:48:38,720  
creating different research yeah it's

1328  
00:48:43,670 --> 00:48:41,520  
like big pharma

1329  
00:48:45,750 --> 00:48:43,680  
you can buy it it's it's it's it's for

1330  
00:48:46,470 --> 00:48:45,760  
sale but so

1331  
00:48:47,990 --> 00:48:46,480  
then

1332  
00:48:49,990 --> 00:48:48,000  
is the cia and other intelligence

1333  
00:48:51,670 --> 00:48:50,000  
organizations working directly with

1334  
00:48:53,589 --> 00:48:51,680  
these companies to

1335  
00:48:55,109 --> 00:48:53,599  
limit what information they put back out

1336  
00:48:56,150 --> 00:48:55,119  
to the populace

1337  
00:48:59,910 --> 00:48:56,160  
i don't know

1338  
00:49:03,670 --> 00:48:59,920

cosmos id

1339

00:49:06,309 --> 00:49:03,680

because there's a company involved in

1340

00:49:08,069 --> 00:49:06,319

the human genome involving involved in

1341

00:49:11,349 --> 00:49:08,079

bioinformatics

1342

00:49:13,109 --> 00:49:11,359

uh involved in um

1343

00:49:14,790 --> 00:49:13,119

dna

1344

00:49:17,109 --> 00:49:14,800

and then you look at the company and

1345

00:49:19,750 --> 00:49:17,119

then you look at who are the consultants

1346

00:49:21,030 --> 00:49:19,760

to that company it's a who's who of ic

1347

00:49:22,630 --> 00:49:21,040

officers

1348

00:49:25,349 --> 00:49:22,640

and the company was started by somebody

1349

00:49:27,670 --> 00:49:25,359

from the national science foundation

1350

00:49:29,510 --> 00:49:27,680

and so if you go back to foia and you go

1351  
00:49:31,510 --> 00:49:29,520  
back to national science foundation and

1352  
00:49:33,829 --> 00:49:31,520  
you research who these people are

1353  
00:49:36,069 --> 00:49:33,839  
all of a sudden you go oh my gosh these

1354  
00:49:39,190 --> 00:49:36,079  
guys are really well connected in fact

1355  
00:49:40,150 --> 00:49:39,200  
one of the officers was ceo

1356  
00:49:43,109 --> 00:49:40,160  
of

1357  
00:49:46,069 --> 00:49:43,119  
e g and g

1358  
00:49:47,109 --> 00:49:46,079  
eg g was the parking lot

1359  
00:49:49,109 --> 00:49:47,119  
where

1360  
00:49:51,510 --> 00:49:49,119  
eric w davis allegedly had his

1361  
00:49:53,990 --> 00:49:51,520  
conversation with admiral wilson he went

1362  
00:49:57,270 --> 00:49:54,000  
to the egmg facility

1363  
00:50:00,069 --> 00:49:57,280

in north las vegas and the guy who

1364

00:50:02,069 --> 00:50:00,079

was the ceo of that company

1365

00:50:04,790 --> 00:50:02,079

who is the uh operations maintenance

1366

00:50:05,910 --> 00:50:04,800

contractor area 51 is part of the

1367

00:50:07,270 --> 00:50:05,920

scientific

1368

00:50:09,750 --> 00:50:07,280

consultation

1369

00:50:15,920 --> 00:50:09,760

team for

1370

00:50:15,930 --> 00:50:21,190

[Laughter]

1371

00:50:25,829 --> 00:50:22,790

the university academics who you know

1372

00:50:27,430 --> 00:50:25,839

study records you know back in the day

1373

00:50:29,270 --> 00:50:27,440

there are other intelligent hominoid

1374

00:50:30,870 --> 00:50:29,280

species and that we you know killed them

1375

00:50:33,349 --> 00:50:30,880

all they can tell us fascinating things

1376

00:50:35,990 --> 00:50:33,359

with our dna history and right yeah the

1377

00:50:36,870 --> 00:50:36,000

dinosaurs and the neanderthals

1378

00:50:39,589 --> 00:50:36,880

yeah

1379

00:50:41,910 --> 00:50:39,599

the tragedy of that meeting was that not

1380

00:50:44,549 --> 00:50:41,920

only was the meeting unclassified

1381

00:50:46,150 --> 00:50:44,559

the agenda was unclassified and so was

1382

00:50:47,750 --> 00:50:46,160

the sign-up sheet

1383

00:50:49,510 --> 00:50:47,760

well say the real tragedy is that they

1384

00:50:52,069 --> 00:50:49,520

didn't actually provide any evidence for

1385

00:50:53,109 --> 00:50:52,079

their claims right oh no but you it's

1386

00:50:55,829 --> 00:50:53,119

it's

1387

00:50:57,349 --> 00:50:55,839

and

1388

00:50:58,790 --> 00:50:57,359

what was the last what was the third

1389

00:51:01,270 --> 00:50:58,800

before we go any further what was the

1390

00:51:03,270 --> 00:51:01,280

third you you had the history

1391

00:51:05,430 --> 00:51:03,280

right i mentioned that google uh uh

1392

00:51:07,270 --> 00:51:05,440

these they said that uh and if they

1393

00:51:08,630 --> 00:51:07,280

actually said in the future all this

1394

00:51:11,270 --> 00:51:08,640

information

1395

00:51:12,950 --> 00:51:11,280

will be searchable uh with a device that

1396

00:51:15,589 --> 00:51:12,960

you can hold in the palm of your hand we

1397

00:51:17,349 --> 00:51:15,599

are working toward that device

1398

00:51:19,670 --> 00:51:17,359

and their partner at the time was google

1399

00:51:21,109 --> 00:51:19,680

google

1400

00:51:24,309 --> 00:51:21,119

creators of

1401  
00:51:25,670 --> 00:51:24,319  
android the operating system so real

1402  
00:51:26,790 --> 00:51:25,680  
quick i just want to go back one more

1403  
00:51:28,950 --> 00:51:26,800  
time to

1404  
00:51:30,790 --> 00:51:28,960  
um the hybrids and the and so when they

1405  
00:51:32,950 --> 00:51:30,800  
spoke to you about this this was

1406  
00:51:35,670 --> 00:51:32,960  
something that they were saying they

1407  
00:51:38,950 --> 00:51:35,680  
did they say why they believe this or

1408  
00:51:42,950 --> 00:51:38,960  
what they discovered that points to this

1409  
00:51:45,750 --> 00:51:42,960  
idea of of human reptilian hybrids

1410  
00:51:48,069 --> 00:51:45,760  
i had to research that on my own

1411  
00:51:49,190 --> 00:51:48,079  
they didn't make that connection

1412  
00:51:50,549 --> 00:51:49,200  
did you research it and you know

1413  
00:51:53,109 --> 00:51:50,559

classified documents or just kind of

1414

00:51:54,230 --> 00:51:53,119

like online no online just just putting

1415

00:51:57,270 --> 00:51:54,240

it together

1416

00:51:59,030 --> 00:51:57,280

um but they said specifically that but

1417

00:52:01,430 --> 00:51:59,040

they didn't provide any evidence but

1418

00:52:03,190 --> 00:52:01,440

they said this after world war ii yes

1419

00:52:06,790 --> 00:52:03,200

that they discovered

1420

00:52:08,950 --> 00:52:06,800

that humans are hybrids

1421

00:52:11,030 --> 00:52:08,960

after world war ii so in my mind they

1422

00:52:13,349 --> 00:52:11,040

said okay

1423

00:52:16,150 --> 00:52:13,359

do we know of how we could have gotten

1424

00:52:18,950 --> 00:52:16,160

alien dna after world war two

1425

00:52:20,309 --> 00:52:18,960

and now go huh roswell

1426

00:52:23,829 --> 00:52:20,319

crash

1427

00:52:28,790 --> 00:52:26,790

were there actually bodies recovered did

1428

00:52:31,030 --> 00:52:28,800

we go back into the bodies and find

1429

00:52:32,309 --> 00:52:31,040

evidence of

1430

00:52:33,990 --> 00:52:32,319

our their humanization

1431

00:52:35,270 --> 00:52:34,000

and ours and ours and theirs i don't

1432

00:52:37,910 --> 00:52:35,280

know

1433

00:52:39,910 --> 00:52:37,920

but other officers who claim the other

1434

00:52:43,030 --> 00:52:39,920

officer who claimed that he saw the

1435

00:52:47,349 --> 00:52:43,040

roswell files uh chase brandon

1436

00:52:49,510 --> 00:52:47,359

uh said yep they were like non-human

1437

00:52:52,150 --> 00:52:49,520

intelligent intelligences recovered from

1438

00:52:53,750 --> 00:52:52,160

the roswell crash he said he saw it

1439

00:52:55,270 --> 00:52:53,760

and then he had to write a novel to

1440

00:52:57,510 --> 00:52:55,280

describe how

1441

00:53:00,390 --> 00:52:57,520

it goes all the way back

1442

00:53:01,990 --> 00:53:00,400

to the atlantean period

1443

00:53:04,230 --> 00:53:02,000

well yeah i'd say that you know if they

1444

00:53:06,950 --> 00:53:04,240

did find alien bodies that had you know

1445

00:53:08,630 --> 00:53:06,960

weird dna that is alien and ours

1446

00:53:11,190 --> 00:53:08,640

wouldn't the kind of obvious answer be

1447

00:53:13,510 --> 00:53:11,200

that those alien bodies are hybrids and

1448

00:53:15,430 --> 00:53:13,520

that like exactly

1449

00:53:20,950 --> 00:53:15,440

but you're saying that we're hybrids

1450

00:53:25,190 --> 00:53:22,630

all of us are hybrids

1451  
00:53:28,950 --> 00:53:25,200  
some are more more hybrid hybridized

1452  
00:53:33,270 --> 00:53:30,230  
one point

1453  
00:53:35,589 --> 00:53:33,280  
they told us that we know there are

1454  
00:53:37,030 --> 00:53:35,599  
certain families

1455  
00:53:40,069 --> 00:53:37,040  
that have been

1456  
00:53:44,309 --> 00:53:40,079  
hybridized to a great extent than others

1457  
00:53:45,349 --> 00:53:44,319  
and we will be following those families

1458  
00:53:47,030 --> 00:53:45,359  
that's where you know i think a lot of

1459  
00:53:48,790 --> 00:53:47,040  
people really take

1460  
00:53:50,950 --> 00:53:48,800  
a concern with this theory because right

1461  
00:53:53,190 --> 00:53:50,960  
that sounds a lot like david icke's uh

1462  
00:53:56,150 --> 00:53:53,200  
reptilian theory yeah but he's kind of

1463  
00:53:58,870 --> 00:53:56,160

anti-semitic right he's thinking like um

1464

00:54:01,430 --> 00:53:58,880

i i i really i've not read any of his

1465

00:54:02,870 --> 00:54:01,440

books i tried not to read because i want

1466

00:54:05,829 --> 00:54:02,880

to be unfiltered

1467

00:54:08,390 --> 00:54:05,839

um but if he's going with like this this

1468

00:54:10,549 --> 00:54:08,400

hybridization being part of a like a

1469

00:54:13,430 --> 00:54:10,559

plot to control the world and they're

1470

00:54:15,589 --> 00:54:13,440

evil and i don't buy that i just buy the

1471

00:54:16,950 --> 00:54:15,599

fact that you know that they're not

1472

00:54:19,430 --> 00:54:16,960

controlling family it's a powerful

1473

00:54:21,030 --> 00:54:19,440

family no no no no no no no but some

1474

00:54:23,030 --> 00:54:21,040

have

1475

00:54:25,030 --> 00:54:23,040

some an ancient past

1476  
00:54:27,510 --> 00:54:25,040  
some families are related to those

1477  
00:54:29,829 --> 00:54:27,520  
families who were enhanced a little more

1478  
00:54:31,589 --> 00:54:29,839  
than others

1479  
00:54:33,589 --> 00:54:31,599  
you know and so i'm going for that and

1480  
00:54:35,990 --> 00:54:33,599  
that's the hard way

1481  
00:54:37,829 --> 00:54:36,000  
right but i mean i can't swallow it

1482  
00:54:40,069 --> 00:54:37,839  
either i'm just telling you this is what

1483  
00:54:42,390 --> 00:54:40,079  
i was told and so that's a research

1484  
00:54:43,990 --> 00:54:42,400  
point for others to research or to

1485  
00:54:46,309 --> 00:54:44,000  
debunk or to

1486  
00:54:48,309 --> 00:54:46,319  
not believe i mean it's up to you from a

1487  
00:54:51,430 --> 00:54:48,319  
purely semantic standpoint i mean we do

1488  
00:54:53,910 --> 00:54:51,440

have dna variances across humanity so

1489

00:54:55,670 --> 00:54:53,920

even if it wasn't i mean not not to to

1490

00:54:58,069 --> 00:54:55,680

parse it too much but even if it wasn't

1491

00:55:00,230 --> 00:54:58,079

uh direct influence from

1492

00:55:01,430 --> 00:55:00,240

uh an extraterrestrial peoples of some

1493

00:55:03,510 --> 00:55:01,440

kind

1494

00:55:05,510 --> 00:55:03,520

we obviously know that different people

1495

00:55:06,630 --> 00:55:05,520

have different dna markers so it would

1496

00:55:10,150 --> 00:55:06,640

be

1497

00:55:11,829 --> 00:55:10,160

very analogous to identifying things

1498

00:55:14,150 --> 00:55:11,839

so when we talk about a group of

1499

00:55:15,510 --> 00:55:14,160

families it could it doesn't necessarily

1500

00:55:16,470 --> 00:55:15,520

have to be a specific ethnicity it

1501

00:55:18,789 --> 00:55:16,480

doesn't necessarily have to be a

1502

00:55:20,710 --> 00:55:18,799

specific religious group i mean it could

1503

00:55:22,870 --> 00:55:20,720

be across you know just

1504

00:55:24,870 --> 00:55:22,880

something that we treat as

1505

00:55:27,990 --> 00:55:24,880

genetic anomaly

1506

00:55:30,150 --> 00:55:28,000

you know we can't trace back that was

1507

00:55:32,069 --> 00:55:30,160

just introduced at world war ii

1508

00:55:34,069 --> 00:55:32,079

i would be shocked if academics would

1509

00:55:36,470 --> 00:55:34,079

overlook that or not right so

1510

00:55:38,870 --> 00:55:36,480

so that's what i'm curious because uh

1511

00:55:41,430 --> 00:55:38,880

john you had said ancient families but

1512

00:55:43,430 --> 00:55:41,440

then we also have the world war ii

1513

00:55:46,309 --> 00:55:43,440

so was it we found out during world war

1514

00:55:48,069 --> 00:55:46,319

ii and it had happened prior to that

1515

00:55:50,789 --> 00:55:48,079

but we didn't realize it till world war

1516

00:55:52,230 --> 00:55:50,799

ii somebody told us

1517

00:55:53,349 --> 00:55:52,240

okay

1518

00:55:55,030 --> 00:55:53,359

and so that's why you're kind of

1519

00:55:56,710 --> 00:55:55,040

relating it to rod well not so much

1520

00:55:59,670 --> 00:55:56,720

somebody told us but hey maybe we just

1521

00:56:02,470 --> 00:55:59,680

found out after this roswell crash after

1522

00:56:05,349 --> 00:56:02,480

doing a uh you know an autopsy

1523

00:56:07,589 --> 00:56:05,359

and it gets more complicated than that

1524

00:56:10,630 --> 00:56:07,599

um and that's what prompted lou to go in

1525

00:56:13,430 --> 00:56:10,640

a solitary i mean he did a very somber

1526

00:56:14,789 --> 00:56:13,440

solidly uh you guys probably remember

1527

00:56:16,789 --> 00:56:14,799

when he

1528

00:56:18,950 --> 00:56:16,799

did a really brilliant solitary about

1529

00:56:21,190 --> 00:56:18,960

suppose everything we've been taught in

1530

00:56:23,670 --> 00:56:21,200

schools by your parents by your churches

1531

00:56:26,630 --> 00:56:23,680

et cetera et cetera was wrong

1532

00:56:28,150 --> 00:56:26,640

we're wrong suppose all that

1533

00:56:31,270 --> 00:56:28,160

is wrong

1534

00:56:33,270 --> 00:56:31,280

and that and so i mean i urge people to

1535

00:56:35,030 --> 00:56:33,280

find that and actually listen to the

1536

00:56:37,589 --> 00:56:35,040

context of that

1537

00:56:40,230 --> 00:56:37,599

that's the closest he got

1538

00:56:41,750 --> 00:56:40,240

and that where he said uh our

1539

00:56:44,230 --> 00:56:41,760

there may have been an enhancement of

1540

00:56:46,470 --> 00:56:44,240

our dna 70 000 years ago he put seventy

1541

00:56:48,870 --> 00:56:46,480

thousand an actual year i never heard

1542

00:56:50,710 --> 00:56:48,880

seventy thousand until he said it

1543

00:56:51,670 --> 00:56:50,720

but i mean he

1544

00:56:54,069 --> 00:56:51,680

he's

1545

00:56:56,150 --> 00:56:54,079

i am very confident that the government

1546

00:56:58,950 --> 00:56:56,160

is sitting on this

1547

00:57:02,710 --> 00:56:58,960

and in order to understand

1548

00:57:04,710 --> 00:57:02,720

the uap in its entirety

1549

00:57:06,390 --> 00:57:04,720

where it came from why they're here

1550

00:57:08,150 --> 00:57:06,400

who's driving them

1551

00:57:09,510 --> 00:57:08,160

you have to go back to

1552

00:57:11,109 --> 00:57:09,520

like

1553

00:57:12,870 --> 00:57:11,119

what's our role why are they here

1554

00:57:13,829 --> 00:57:12,880

talking to us why they want to interact

1555

00:57:16,150 --> 00:57:13,839

with us

1556

00:57:18,549 --> 00:57:16,160

and you have to get past you got to

1557

00:57:20,710 --> 00:57:18,559

build that bridge to the fact that we

1558

00:57:23,109 --> 00:57:20,720

are hybrids and we may have been

1559

00:57:24,549 --> 00:57:23,119

hybridized by them and they themselves

1560

00:57:27,270 --> 00:57:24,559

may be hybrids

1561

00:57:29,910 --> 00:57:27,280

in order to get back to

1562

00:57:31,190 --> 00:57:29,920

the true uap story and why it's so

1563

00:57:33,190 --> 00:57:31,200

secret

1564

00:57:34,789 --> 00:57:33,200

because this will if the government

1565

00:57:36,470 --> 00:57:34,799

actually if the president biden actually

1566

00:57:38,710 --> 00:57:36,480

says we're all hybrids

1567

00:57:40,549 --> 00:57:38,720

and you know we're alien hybrids well

1568

00:57:42,150 --> 00:57:40,559

what would happen the stock market would

1569

00:57:44,230 --> 00:57:42,160

like plunge

1570

00:57:45,829 --> 00:57:44,240

i mean everything would just collapse

1571

00:57:47,750 --> 00:57:45,839

and that can't happen so you have to

1572

00:57:49,990 --> 00:57:47,760

have this what i call this controlled

1573

00:57:51,589 --> 00:57:50,000

dissemination a little of time let's

1574

00:57:54,390 --> 00:57:51,599

talk about we already know about the

1575

00:57:57,109 --> 00:57:54,400

craft okay this thing's in the air great

1576  
00:57:59,030 --> 00:57:57,119  
and now for the first time uh somebody

1577  
00:58:00,470 --> 00:57:59,040  
in position of authority like the dna

1578  
00:58:02,789 --> 00:58:00,480  
abraham said

1579  
00:58:03,670 --> 00:58:02,799  
uh that the extraterrestrial component

1580  
00:58:05,430 --> 00:58:03,680  
to this

1581  
00:58:07,829 --> 00:58:05,440  
that's the second thing that needs to be

1582  
00:58:09,990 --> 00:58:07,839  
talked about and go from there to go any

1583  
00:58:11,990 --> 00:58:10,000  
further than that you need the top cover

1584  
00:58:14,230 --> 00:58:12,000  
you need a law that says right people

1585  
00:58:15,030 --> 00:58:14,240  
can now talk about it and that's why

1586  
00:58:17,349 --> 00:58:15,040  
that

1587  
00:58:20,309 --> 00:58:17,359  
bill in congress the one in the senate

1588  
00:58:22,789 --> 00:58:20,319

the iaa the ndaa in the senate that is

1589

00:58:24,630 --> 00:58:22,799

so important because without that this

1590

00:58:27,109 --> 00:58:24,640

conversation stops and we're back to

1591

00:58:28,710 --> 00:58:27,119

where we are just speculating

1592

00:58:29,829 --> 00:58:28,720

when you're talking about the

1593

00:58:31,670 --> 00:58:29,839

sorry go ahead

1594

00:58:33,349 --> 00:58:31,680

well i was just saying oh sorry michael

1595

00:58:34,710 --> 00:58:33,359

i was just saying that just reminds me

1596

00:58:36,870 --> 00:58:34,720

you know you still got time to call your

1597

00:58:38,549 --> 00:58:36,880

congressman and senator use our website

1598

00:58:40,069 --> 00:58:38,559

the big phone home we've got templates

1599

00:58:42,390 --> 00:58:40,079

there if you guys don't know what to say

1600

00:58:44,870 --> 00:58:42,400

when you call and push for this ndaa

1601  
00:58:47,510 --> 00:58:44,880  
because it's important either way i mean

1602  
00:58:49,670 --> 00:58:47,520  
this legislation should be passed and so

1603  
00:58:50,789 --> 00:58:49,680  
just a quick reminder you still could

1604  
00:58:52,950 --> 00:58:50,799  
call your congressman you could still

1605  
00:58:54,150 --> 00:58:52,960  
email them to uh write them tweet them

1606  
00:58:56,470 --> 00:58:54,160  
uh whatever you gotta do sorry michael

1607  
00:58:58,069 --> 00:58:56,480  
you were saying well i was gonna say um

1608  
00:59:01,589 --> 00:58:58,079  
you know just a question for you

1609  
00:59:03,589 --> 00:59:01,599  
regarding your experience in the cia and

1610  
00:59:04,390 --> 00:59:03,599  
your experience in this particular

1611  
00:59:05,589 --> 00:59:04,400  
meeting

1612  
00:59:07,270 --> 00:59:05,599  
i think one of the things that i'm

1613  
00:59:08,549 --> 00:59:07,280

noticing is that you you know it's a

1614

00:59:10,789 --> 00:59:08,559

foregone conclusion that we're being

1615

00:59:13,270 --> 00:59:10,799

visited it's a foregone conclusion that

1616

00:59:15,990 --> 00:59:13,280

we've been manipulated um by these

1617

00:59:20,150 --> 00:59:16,000

beings but that being said

1618

00:59:23,670 --> 00:59:20,160

if you don't have specific evidence from

1619

00:59:27,349 --> 00:59:23,680

the cia in their communication with you

1620

00:59:28,789 --> 00:59:27,359

what level of skepticism do you hold um

1621

00:59:31,430 --> 00:59:28,799

when it comes to

1622

00:59:33,589 --> 00:59:31,440

believing what you know a higher up in

1623

00:59:35,109 --> 00:59:33,599

the government tells you like i'd always

1624

00:59:37,030 --> 00:59:35,119

be extremely skeptical i don't know if

1625

00:59:38,870 --> 00:59:37,040

i'd ever if i'm ever going to be all in

1626  
00:59:40,150 --> 00:59:38,880  
100 believe anybody when it comes to

1627  
00:59:40,950 --> 00:59:40,160  
this topic

1628  
00:59:42,309 --> 00:59:40,960  
but

1629  
00:59:44,470 --> 00:59:42,319  
i think it's important to keep an open

1630  
00:59:48,630 --> 00:59:44,480  
mind so i'm trying to gauge your your

1631  
00:59:53,270 --> 00:59:51,670  
i came in as a believer so i would admit

1632  
00:59:54,549 --> 00:59:53,280  
that i was biased

1633  
00:59:56,549 --> 00:59:54,559  
toward

1634  
00:59:58,150 --> 00:59:56,559  
holding that

1635  
01:00:00,870 --> 00:59:58,160  
before i walked into the building for

1636  
01:00:03,510 --> 01:00:00,880  
the first time in 1984. due to all the

1637  
01:00:05,589 --> 01:00:03,520  
experiences that i've had as experiencer

1638  
01:00:08,390 --> 01:00:05,599

so i came into the building

1639

01:00:10,390 --> 01:00:08,400

as a believer not as a skeptic

1640

01:00:12,710 --> 01:00:10,400

and in the building i met other

1641

01:00:14,789 --> 01:00:12,720

believers i met more believers than

1642

01:00:16,150 --> 01:00:14,799

skeptics in the building

1643

01:00:17,910 --> 01:00:16,160

and

1644

01:00:19,750 --> 01:00:17,920

i know that there are people there who

1645

01:00:22,950 --> 01:00:19,760

actually know

1646

01:00:25,670 --> 01:00:22,960

the truth about what's going on

1647

01:00:31,349 --> 01:00:25,680

but again that's

1648

01:00:33,990 --> 01:00:32,710

yeah if you don't know the truth how can

1649

01:00:36,150 --> 01:00:34,000

you know that other people know the

1650

01:00:38,630 --> 01:00:36,160

truth

1651

01:00:45,510 --> 01:00:41,990

there is a cold within cia that we do

1652

01:00:49,190 --> 01:00:47,589

we do not lie to each other so at the

1653

01:00:51,589 --> 01:00:49,200

very least hard to describe what they

1654

01:00:53,030 --> 01:00:51,599

were telling you

1655

01:00:54,950 --> 01:00:53,040

so at the very least they believed what

1656

01:00:56,870 --> 01:00:54,960

they were telling you

1657

01:00:57,829 --> 01:00:56,880

even if what they believed may not have

1658

01:00:59,510 --> 01:00:57,839

been

1659

01:01:01,430 --> 01:00:59,520

and some of them are informed i know

1660

01:01:02,789 --> 01:01:01,440

that some of them are informed i know

1661

01:01:05,430 --> 01:01:02,799

that because of their position and what

1662

01:01:06,470 --> 01:01:05,440

they analyze that they are informed

1663

01:01:11,030 --> 01:01:06,480

um

1664

01:01:15,030 --> 01:01:12,870

no chance for them being mistaken i

1665

01:01:18,470 --> 01:01:15,040

think i

1666

01:01:19,990 --> 01:01:18,480

i think they have access to

1667

01:01:21,349 --> 01:01:20,000

compartment

1668

01:01:23,430 --> 01:01:21,359

intelligence

1669

01:01:25,190 --> 01:01:23,440

that i don't and others don't i think

1670

01:01:26,789 --> 01:01:25,200

they're people who actually know what's

1671

01:01:28,950 --> 01:01:26,799

going on

1672

01:01:30,950 --> 01:01:28,960

and that they're holding it

1673

01:01:33,910 --> 01:01:30,960

tightly now some of that is being

1674

01:01:36,630 --> 01:01:33,920

released some of that's loosening up

1675

01:01:38,390 --> 01:01:36,640

um and i think we're on the road for

1676

01:01:39,990 --> 01:01:38,400

that to occur

1677

01:01:41,910 --> 01:01:40,000

we you know because now we can talk

1678

01:01:44,950 --> 01:01:41,920

about who's driving when you say

1679

01:01:46,390 --> 01:01:44,960

extraterrestrial at that dni level now

1680

01:01:47,910 --> 01:01:46,400

you're talking about not the crap but

1681

01:01:49,670 --> 01:01:47,920

the drivers

1682

01:01:51,750 --> 01:01:49,680

that's the next step so i think slowly

1683

01:01:54,150 --> 01:01:51,760

but surely that

1684

01:01:55,510 --> 01:01:54,160

that realization will come to fruition

1685

01:01:56,710 --> 01:01:55,520

it's interesting because one of the

1686

01:01:58,150 --> 01:01:56,720

things that you mentioned earlier

1687

01:02:00,230 --> 01:01:58,160

something that you had direct contact

1688

01:02:02,150 --> 01:02:00,240

with and that was these orbs um but

1689

01:02:05,510 --> 01:02:02,160

you're also alluding to

1690

01:02:07,910 --> 01:02:05,520

um you know physical um

1691

01:02:09,990 --> 01:02:07,920

biological beings as well as and i'm

1692

01:02:10,950 --> 01:02:10,000

curious what your take is on

1693

01:02:13,670 --> 01:02:10,960

um

1694

01:02:15,589 --> 01:02:13,680

uh ufos or uaps that are believed to be

1695

01:02:17,270 --> 01:02:15,599

structured like the tic tac so what's

1696

01:02:20,789 --> 01:02:17,280

the relationship in your mind between

1697

01:02:24,470 --> 01:02:20,799

the orbs that you had direct uh evidence

1698

01:02:26,950 --> 01:02:24,480

of and these other uh objects the orbs

1699

01:02:29,109 --> 01:02:26,960

uh that we saw through uh the infrared

1700

01:02:31,109 --> 01:02:29,119

sensors in space they're flying really

1701

01:02:33,829 --> 01:02:31,119

fast and when they go through the upper

1702

01:02:35,829 --> 01:02:33,839

atmosphere they're gonna cause

1703

01:02:38,069 --> 01:02:35,839

i'm not a physicist but i'll say it's a

1704

01:02:40,390 --> 01:02:38,079

plasma feel or some kind of field

1705

01:02:41,910 --> 01:02:40,400

which envelops them into

1706

01:02:44,069 --> 01:02:41,920

that type of

1707

01:02:46,150 --> 01:02:44,079

manifestation

1708

01:02:48,470 --> 01:02:46,160

what we saw was slow

1709

01:02:51,910 --> 01:02:48,480

tic tac was slow i mean

1710

01:02:53,990 --> 01:02:51,920

the f a-18 as fast as his flies

1711

01:02:56,950 --> 01:02:54,000

those tic-tacs can go fly probably a lot

1712

01:02:59,270 --> 01:02:56,960

faster um because there's been evidence

1713

01:03:01,430 --> 01:02:59,280

that they can like climb to

1714

01:03:03,750 --> 01:03:01,440

one thing i heard was like 80 000 feet

1715

01:03:05,270 --> 01:03:03,760

in like a second or something like that

1716

01:03:07,430 --> 01:03:05,280

so they can go fast but they were they

1717

01:03:10,390 --> 01:03:07,440

were almost like putting on a show

1718

01:03:13,349 --> 01:03:10,400

slowing it down so that we can see them

1719

01:03:14,950 --> 01:03:13,359

um and lou says that there's a 23-minute

1720

01:03:17,430 --> 01:03:14,960

video

1721

01:03:19,910 --> 01:03:17,440

where um

1722

01:03:22,950 --> 01:03:19,920

it was great detail

1723

01:03:24,870 --> 01:03:22,960

and that the dod is sitting on it

1724

01:03:27,829 --> 01:03:24,880

and that's like they're posing for

1725

01:03:30,069 --> 01:03:27,839

pictures uh the uap task force report

1726

01:03:31,510 --> 01:03:30,079

says that they had an interest in our

1727

01:03:35,910 --> 01:03:31,520

sensor systems

1728

01:03:38,549 --> 01:03:35,920

intelligence sensors and imagery

1729

01:03:39,829 --> 01:03:38,559

intelligence sensors and mazen ir

1730

01:03:41,670 --> 01:03:39,839

sensors

1731

01:03:43,349 --> 01:03:41,680

and if they have an interest in them

1732

01:03:45,510 --> 01:03:43,359

that means that

1733

01:03:47,589 --> 01:03:45,520

they slow down enough for us to like

1734

01:03:49,430 --> 01:03:47,599

sense them and take pictures

1735

01:03:50,710 --> 01:03:49,440

that's probably you previously said that

1736

01:03:52,390 --> 01:03:50,720

they're going really fast so you say

1737

01:03:53,670 --> 01:03:52,400

that they would like go slow and then

1738

01:03:56,470 --> 01:03:53,680

zoom off

1739

01:03:58,150 --> 01:03:56,480

yeah and when we saw them close to the

1740

01:04:00,470 --> 01:03:58,160

surface of the water where when the navy

1741

01:04:02,630 --> 01:04:00,480

saw them they're flying a lot slower

1742

01:04:04,870 --> 01:04:02,640

than they can go it's almost like

1743

01:04:06,950 --> 01:04:04,880

okay yeah we know the f-18 go flat

1744

01:04:09,270 --> 01:04:06,960

flight this fast and we'll just

1745

01:04:11,029 --> 01:04:09,280

keep pace with you and just follow us

1746

01:04:13,029 --> 01:04:11,039

it's almost like you know that's

1747

01:04:15,510 --> 01:04:13,039

i call it a demonstration

1748

01:04:18,069 --> 01:04:15,520

yeah um more than anything it's an

1749

01:04:20,470 --> 01:04:18,079

airshow but then there are orbs that um

1750

01:04:23,029 --> 01:04:20,480

that people see that are mysterious you

1751

01:04:24,950 --> 01:04:23,039

know that they see over their homes or

1752

01:04:27,510 --> 01:04:24,960

in the sky near you know where they're

1753

01:04:29,190 --> 01:04:27,520

at driving in the car they may see them

1754

01:04:31,829 --> 01:04:29,200

and they're zipping across or sometimes

1755

01:04:33,109 --> 01:04:31,839

they stop they make maneuvers

1756

01:04:35,029 --> 01:04:33,119

um

1757

01:04:36,789 --> 01:04:35,039

well the secretary secretary or former

1758

01:04:38,549 --> 01:04:36,799

secretary of the navy said echoed

1759

01:04:40,470 --> 01:04:38,559

something very similar where you know

1760

01:04:41,910 --> 01:04:40,480

we've got all of these

1761

01:04:44,870 --> 01:04:41,920

real world legitimate threats north

1762

01:04:47,029 --> 01:04:44,880

korea south korea uh you know um not

1763

01:04:48,150 --> 01:04:47,039

south korea or or not south korea excuse

1764

01:04:50,549 --> 01:04:48,160

me but

1765

01:04:52,390 --> 01:04:50,559

these this idea of nuclear threat from

1766

01:04:55,270 --> 01:04:52,400

north korea you've got the chinese

1767

01:04:57,430 --> 01:04:55,280

you've got um all sorts of

1768

01:04:59,910 --> 01:04:57,440

stuff going on in africa and then you've

1769

01:05:01,910 --> 01:04:59,920

got this uap thing where

1770

01:05:04,549 --> 01:05:01,920

they they're out there we know they're

1771

01:05:05,510 --> 01:05:04,559

out there it's kind of like they know we

1772

01:05:06,950 --> 01:05:05,520

know

1773

01:05:10,950 --> 01:05:06,960

right because they're not they're not

1774

01:05:12,710 --> 01:05:10,960

doing anything and so therefore the the

1775

01:05:14,549 --> 01:05:12,720

the importance of them goes way down

1776

01:05:15,829 --> 01:05:14,559

because they don't seem to be a threat

1777

01:05:17,349 --> 01:05:15,839

they're not afraid

1778

01:05:18,630 --> 01:05:17,359

yeah they don't they don't act in a

1779

01:05:20,390 --> 01:05:18,640

threatening way

1780

01:05:23,510 --> 01:05:20,400

um what we perceive as a threat is

1781

01:05:25,109 --> 01:05:23,520

basically i think you know beneficial

1782

01:05:29,029 --> 01:05:25,119

um

1783

01:05:31,109 --> 01:05:29,039

if you review robert uh

1784

01:05:32,630 --> 01:05:31,119

saw his

1785

01:05:34,630 --> 01:05:32,640

revelations about what happened at

1786

01:05:37,029 --> 01:05:34,640

milestone air force base with the

1787

01:05:38,630 --> 01:05:37,039

minuteman twos you know they they did

1788

01:05:39,349 --> 01:05:38,640

humanity a favor

1789

01:05:42,870 --> 01:05:39,359

uh

1790

01:05:45,910 --> 01:05:42,880

enabled

1791

01:05:47,029 --> 01:05:45,920

the launch and us they disabled the

1792

01:05:49,190 --> 01:05:47,039

launch

1793

01:05:51,029 --> 01:05:49,200

and by the way the nukes were never at

1794

01:05:52,069 --> 01:05:51,039

jeopardy i mean the nukes were still

1795

01:05:53,910 --> 01:05:52,079

nukes

1796

01:05:55,029 --> 01:05:53,920

if you understand what how

1797

01:05:57,430 --> 01:05:55,039

um

1798

01:05:58,870 --> 01:05:57,440

nuclear weapons inside a missile how

1799

01:06:01,510 --> 01:05:58,880

they operate

1800

01:06:03,589 --> 01:06:01,520

and uh you you realize that

1801

01:06:05,430 --> 01:06:03,599

they didn't disable the nukes

1802

01:06:08,069 --> 01:06:05,440

yeah they disable the ability to launch

1803

01:06:10,069 --> 01:06:08,079

the missile right which basically you're

1804

01:06:12,870 --> 01:06:10,079

disabling the offensive capability in

1805

01:06:14,150 --> 01:06:12,880

our s on our uh

1806

01:06:15,829 --> 01:06:14,160

scheme of things it was the counter

1807

01:06:17,829 --> 01:06:15,839

strike capability that we had as a

1808

01:06:19,910 --> 01:06:17,839

policy we wouldn't fire first and then

1809

01:06:21,910 --> 01:06:19,920

unless the russians did and then we'll

1810

01:06:24,230 --> 01:06:21,920

fire second that's counter strike they

1811

01:06:25,910 --> 01:06:24,240

had a first strike so first strike you

1812

01:06:27,990 --> 01:06:25,920

want to like turn them on

1813

01:06:29,750 --> 01:06:28,000

and say how does that feel you know

1814

01:06:32,069 --> 01:06:29,760

does that make you uncomfortable to have

1815

01:06:33,829 --> 01:06:32,079

all your missiles turned on right and

1816

01:06:35,430 --> 01:06:33,839

then for us how does it feel not to

1817

01:06:36,710 --> 01:06:35,440

respond

1818

01:06:39,270 --> 01:06:36,720

to an attack

1819

01:06:40,870 --> 01:06:39,280

when you can't launch in response

1820

01:06:42,710 --> 01:06:40,880

and sure enough it's almost like they

1821

01:06:44,390 --> 01:06:42,720

played on their worst fears

1822

01:06:47,029 --> 01:06:44,400

sure enough you know like a few months

1823

01:06:49,670 --> 01:06:47,039

late later uh lbj

1824

01:06:51,589 --> 01:06:49,680

and uh his counterpart

1825

01:06:53,510 --> 01:06:51,599

alexi cosigan got together and that's

1826

01:06:55,990 --> 01:06:53,520

the first time that both sides talked

1827

01:06:57,510 --> 01:06:56,000

about in earnest reducing the amount of

1828

01:06:58,710 --> 01:06:57,520

nuclear weapons we have in our

1829

01:07:01,750 --> 01:06:58,720

inventories

1830

01:07:03,829 --> 01:07:01,760

and that's happened like months after

1831

01:07:05,510 --> 01:07:03,839

that incident

1832

01:07:07,750 --> 01:07:05,520

so i have to believe that that's that's

1833

01:07:09,270 --> 01:07:07,760

the message they wanted us to understand

1834

01:07:10,950 --> 01:07:09,280

john that makes me think back to

1835

01:07:12,470 --> 01:07:10,960

something i've heard you say on other

1836

01:07:14,309 --> 01:07:12,480

interviews where you talk about the

1837

01:07:15,910 --> 01:07:14,319

deliberate dissemination of some of this

1838

01:07:18,870 --> 01:07:15,920

information through things like

1839

01:07:21,270 --> 01:07:18,880

hollywood or science fiction

1840

01:07:22,549 --> 01:07:21,280

so given your belief that there are

1841

01:07:24,390 --> 01:07:22,559

individuals in the intelligence

1842

01:07:27,190 --> 01:07:24,400

community that have

1843

01:07:29,670 --> 01:07:27,200

a closer or a more broad understanding

1844

01:07:31,750 --> 01:07:29,680

of what the actual agenda is do you

1845

01:07:34,390 --> 01:07:31,760

think that that dissemination is to lead

1846

01:07:37,029 --> 01:07:34,400

to things like nuclear proliferation and

1847

01:07:40,829 --> 01:07:37,039

as well as um i mean or maybe something

1848

01:07:45,829 --> 01:07:43,349

um there's two levels of that one of

1849

01:07:48,870 --> 01:07:45,839

this pretty mundane uh the mundane one

1850

01:07:51,029 --> 01:07:48,880

is that we just cia definitely and the

1851

01:07:53,190 --> 01:07:51,039

defense department definitely want to

1852

01:07:54,470 --> 01:07:53,200

put their best

1853

01:07:56,390 --> 01:07:54,480

feet forward

1854

01:07:58,230 --> 01:07:56,400

in the public perception so a lot of it

1855

01:08:00,230 --> 01:07:58,240

is like uh you know

1856

01:08:01,430 --> 01:08:00,240

tell us you know portray us in a good

1857

01:08:05,109 --> 01:08:01,440

light

1858

01:08:07,430 --> 01:08:05,119

um but the other part is as you say uh

1859

01:08:10,309 --> 01:08:07,440

some dissemination through entertainment

1860

01:08:11,829 --> 01:08:10,319

means of this information so there ha

1861

01:08:13,589 --> 01:08:11,839

there has been

1862

01:08:15,430 --> 01:08:13,599

that going on

1863

01:08:18,390 --> 01:08:15,440

in fact i i point out to the men in

1864

01:08:21,829 --> 01:08:18,400

black the two movies um

1865

01:08:26,630 --> 01:08:24,309

will smith and

1866

01:08:28,630 --> 01:08:26,640

tommen lee jones tommy lee jones first

1867

01:08:30,789 --> 01:08:28,640

cousin as i stated before was chase

1868

01:08:33,269 --> 01:08:30,799

brandon the guy who wrote kryptos

1869

01:08:35,030 --> 01:08:33,279

conundrum the guy who said i saw the

1870

01:08:37,269 --> 01:08:35,040

roswell files

1871

01:08:38,630 --> 01:08:37,279

and so i mean

1872

01:08:40,870 --> 01:08:38,640

there's some connection there and he

1873

01:08:43,749 --> 01:08:40,880

wrote the book

1874

01:08:46,950 --> 01:08:43,759

um as a novel and so

1875

01:08:49,430 --> 01:08:46,960

he went on like coast to coast am and

1876

01:08:51,269 --> 01:08:49,440

promptly i haven't heard from him

1877

01:08:53,189 --> 01:08:51,279

so i asked around back at the agency

1878

01:08:54,789 --> 01:08:53,199

back folks back there if you guys ever

1879

01:08:56,470 --> 01:08:54,799

hear what happened to chase brandon they

1880

01:08:57,269 --> 01:08:56,480

can't find him

1881

01:09:02,630 --> 01:08:57,279

he's

1882

01:09:05,349 --> 01:09:02,640

wonderful book um that actually tied in

1883

01:09:05,829 --> 01:09:05,359

a lot of things i said in slide

1884

01:09:07,910 --> 01:09:05,839

um 54.

1885

01:09:09,510 --> 01:09:07,920

nev i read the book but i wasn't

1886

01:09:11,829 --> 01:09:09,520

influenced by that book because that's

1887

01:09:14,309 --> 01:09:11,839

what i thought in slice 50 kryptos

1888

01:09:17,189 --> 01:09:14,319

conundrum

1889

01:09:19,110 --> 01:09:17,199

and what he used was the sculpture uh in

1890

01:09:20,470 --> 01:09:19,120

between our original headquarters

1891

01:09:22,390 --> 01:09:20,480

building and our new headquarters

1892

01:09:24,789 --> 01:09:22,400

building it's in the courtyard

1893

01:09:26,709 --> 01:09:24,799

um it's it's encrypted and there's a

1894

01:09:29,030 --> 01:09:26,719

contest to see what it says and i don't

1895

01:09:32,309 --> 01:09:29,040

know if it's been broken yet

1896

01:09:35,269 --> 01:09:32,319

i think a physicist i think in my parent

1897

01:09:36,470 --> 01:09:35,279

office may have broken part of it

1898

01:09:38,709 --> 01:09:36,480

um but

1899

01:09:39,749 --> 01:09:38,719

he based it on that and he based it on

1900

01:09:42,229 --> 01:09:39,759

this guy

1901

01:09:44,390 --> 01:09:42,239

chalmers is his main character and he

1902

01:09:46,470 --> 01:09:44,400

traced his ancestry back

1903

01:09:49,189 --> 01:09:46,480

toward time and back to our atlantean

1904

01:09:51,349 --> 01:09:49,199

times all the way forward to cia now

1905

01:09:52,789 --> 01:09:51,359

this book was written was published in

1906

01:09:55,189 --> 01:09:52,799

2012

1907

01:09:57,510 --> 01:09:55,199

it was written after he retired he i

1908

01:10:00,550 --> 01:09:57,520

think he retired

1909

01:10:02,870 --> 01:10:00,560

maybe shortly after right before i did

1910

01:10:05,030 --> 01:10:02,880

uh in it he said something that most

1911

01:10:07,030 --> 01:10:05,040

people didn't know at the time

1912

01:10:08,709 --> 01:10:07,040

he said that there are

1913

01:10:15,350 --> 01:10:08,719

underground

1914

01:10:17,189 --> 01:10:15,360

that um

1915

01:10:18,310 --> 01:10:17,199

that fly out of the water and into the

1916

01:10:20,470 --> 01:10:18,320

water

1917

01:10:24,149 --> 01:10:20,480

now when he wrote his novel that wasn't

1918

01:10:25,990 --> 01:10:24,159

like really known that well that a lot

1919

01:10:28,709 --> 01:10:26,000

of these objects are

1920

01:10:31,350 --> 01:10:28,719

in the water and that's how we see them

1921

01:10:34,870 --> 01:10:31,360

so i know he's well informed in that

1922

01:10:36,550 --> 01:10:34,880

perspective if anything have him on

1923

01:10:37,990 --> 01:10:36,560

where i'm at right near sitting i mean

1924

01:10:39,510 --> 01:10:38,000

he'll be a much interesting more

1925

01:10:41,030 --> 01:10:39,520

interesting guest

1926

01:10:42,870 --> 01:10:41,040

because i think he's one of those people

1927

01:10:44,790 --> 01:10:42,880

that

1928

01:10:47,270 --> 01:10:44,800

was right in into the whole story

1929

01:10:49,590 --> 01:10:47,280

because he's seen the files

1930

01:10:51,750 --> 01:10:49,600

well that's gonna have to be the my next

1931

01:10:53,189 --> 01:10:51,760

homework assignment um let's get to a

1932

01:10:54,709 --> 01:10:53,199

couple of questions that we have from

1933

01:10:56,229 --> 01:10:54,719

the audience real quick uh one from

1934

01:10:57,830 --> 01:10:56,239

magical joshua logan's been sitting up

1935

01:10:59,910 --> 01:10:57,840

here for a little while uh lieutenant

1936

01:11:01,830 --> 01:10:59,920

graves said the uap first behaved

1937

01:11:03,430 --> 01:11:01,840

oblivious to fighter jets and eventually

1938

01:11:06,550 --> 01:11:03,440

there was a near miss

1939

01:11:09,510 --> 01:11:06,560

opinion from john ramirez

1940

01:11:15,510 --> 01:11:09,520

i wasn't there so i don't i can't say

1941

01:11:19,430 --> 01:11:17,270

i would have to believe that their

1942

01:11:20,950 --> 01:11:19,440

sensor systems on these craft as well

1943

01:11:22,950 --> 01:11:20,960

that they can avoid

1944

01:11:25,030 --> 01:11:22,960

being hit

1945

01:11:27,750 --> 01:11:25,040

unless they want it to be hit

1946

01:11:29,910 --> 01:11:27,760

because they want it to crash um there's

1947

01:11:31,910 --> 01:11:29,920

this theory i heard about the gifting

1948

01:11:33,430 --> 01:11:31,920

fields have you heard that theory

1949

01:11:35,990 --> 01:11:33,440

no there's a theory about the gifting

1950

01:11:37,030 --> 01:11:36,000

fields i forget which ufologists

1951

01:11:39,189 --> 01:11:37,040

first

1952

01:11:41,350 --> 01:11:39,199

discuss gifting fields

1953

01:11:43,430 --> 01:11:41,360

but sometimes they deliberately leave

1954

01:11:45,430 --> 01:11:43,440

things they crash so that we will have

1955

01:11:47,030 --> 01:11:45,440

things to study

1956

01:11:48,790 --> 01:11:47,040

and these areas are called gifting

1957

01:11:50,310 --> 01:11:48,800

fields and i need to research that

1958

01:11:52,149 --> 01:11:50,320

myself i think

1959

01:11:53,510 --> 01:11:52,159

jacques vallee might be the source of

1960

01:11:55,430 --> 01:11:53,520

that he might know more about the

1961

01:11:56,870 --> 01:11:55,440

gifting fields

1962

01:11:58,950 --> 01:11:56,880

um

1963

01:12:01,430 --> 01:11:58,960

but i have to believe that they would be

1964

01:12:02,950 --> 01:12:01,440

ways to avoid because in most instances

1965

01:12:05,110 --> 01:12:02,960

when you get close to them they shoot

1966

01:12:06,550 --> 01:12:05,120

off and go away you know that they're

1967

01:12:09,030 --> 01:12:06,560

hard to like

1968

01:12:11,189 --> 01:12:09,040

approach in that manner

1969

01:12:13,110 --> 01:12:11,199

yeah i really like the arrivals take on

1970

01:12:14,790 --> 01:12:13,120

on that which is uh pretty fascinating

1971

01:12:16,550 --> 01:12:14,800

if you haven't seen it uh yes that's a

1972

01:12:17,830 --> 01:12:16,560

great movie kind of give another

1973

01:12:19,669 --> 01:12:17,840

question though is uh do you think that

1974

01:12:21,350 --> 01:12:19,679

the us government really holds all the

1975

01:12:23,030 --> 01:12:21,360

cards here in disclosure or are there

1976

01:12:24,870 --> 01:12:23,040

other governments that might be able to

1977

01:12:27,110 --> 01:12:24,880

preempt us or the galileo project and

1978

01:12:29,990 --> 01:12:27,120

stuff like that oh my gosh i think uh

1979

01:12:31,510 --> 01:12:30,000

the work of icer for example

1980

01:12:33,510 --> 01:12:31,520

the international coalition

1981

01:12:34,870 --> 01:12:33,520

extraterrestrial research

1982

01:12:37,270 --> 01:12:34,880

is important because that is an

1983

01:12:39,350 --> 01:12:37,280

international organization of ufologists

1984

01:12:41,990 --> 01:12:39,360

and these are serious people

1985

01:12:43,990 --> 01:12:42,000

uh scientists and and and whatnot

1986

01:12:46,709 --> 01:12:44,000

studying this phenomenon

1987

01:12:49,189 --> 01:12:46,719

that's important also uh

1988

01:12:50,870 --> 01:12:49,199

for i know russia is sitting on a ton of

1989

01:12:53,270 --> 01:12:50,880

information i don't know too much about

1990

01:12:55,350 --> 01:12:53,280

china unless it's something we told them

1991

01:12:57,030 --> 01:12:55,360

nori talked about the fact that most

1992

01:12:58,950 --> 01:12:57,040

people don't know the united states and

1993

01:13:01,270 --> 01:12:58,960

china at the intelligence level we're

1994

01:13:03,910 --> 01:13:01,280

close cooperating friends

1995

01:13:05,669 --> 01:13:03,920

and then we built uh like sickened sites

1996

01:13:08,229 --> 01:13:05,679

all over china for them

1997

01:13:10,149 --> 01:13:08,239

um but there's some cooperation with

1998

01:13:11,669 --> 01:13:10,159

these governments and russia especially

1999

01:13:13,830 --> 01:13:11,679

i mean they're the guys that actually

2000

01:13:16,149 --> 01:13:13,840

spotted on the radar

2001

01:13:17,270 --> 01:13:16,159

their radar the equivalent of pave

2002

01:13:20,229 --> 01:13:17,280

paul's

2003

01:13:22,470 --> 01:13:20,239

in russia petra looking up north

2004

01:13:23,830 --> 01:13:22,480

uh toward the polls they spotted these

2005

01:13:26,070 --> 01:13:23,840

objects as well and they went to high

2006

01:13:27,990 --> 01:13:26,080

alert because they say it's not you know

2007

01:13:29,270 --> 01:13:28,000

we don't know what it is

2008

01:13:32,229 --> 01:13:29,280

i'm surprised

2009

01:13:33,590 --> 01:13:32,239

uh we're partnering with china and some

2010

01:13:36,149 --> 01:13:33,600

of this stuff because bill nelson

2011

01:13:38,229 --> 01:13:36,159

recently said in the uh iglesias forum

2012

01:13:40,229 --> 01:13:38,239

that russia we had previously worked

2013

01:13:42,870 --> 01:13:40,239

with but the relations with nasa and

2014

01:13:44,790 --> 01:13:42,880

china apparently aren't that with nasa

2015

01:13:46,390 --> 01:13:44,800

uh not with nasa but you know the ic

2016

01:13:49,590 --> 01:13:46,400

they are

2017

01:13:51,590 --> 01:13:49,600

cia in nsa had a very close relationship

2018

01:13:53,270 --> 01:13:51,600

with chinese intelligence

2019

01:13:54,950 --> 01:13:53,280

was this up until a certain point or

2020

01:13:56,470 --> 01:13:54,960

still

2021

01:13:59,270 --> 01:13:56,480

i don't know

2022

01:14:02,390 --> 01:13:59,280

uh when i retired in 2009 that

2023

01:14:05,110 --> 01:14:02,400

relationship was ongoing

2024

01:14:07,030 --> 01:14:05,120

and i i posted three

2025

01:14:08,550 --> 01:14:07,040

open source articles

2026

01:14:10,229 --> 01:14:08,560

one by the new york times one by the

2027

01:14:12,149 --> 01:14:10,239

washington post and one by united

2028

01:14:14,630 --> 01:14:12,159

presidential international

2029

01:14:16,790 --> 01:14:14,640

and also the book written by a former

2030

01:14:18,790 --> 01:14:16,800

director of central intelligence robert

2031

01:14:20,630 --> 01:14:18,800

gates where he mentioned the reason why

2032

01:14:23,110 --> 01:14:20,640

we built these is because we actually

2033

01:14:26,310 --> 01:14:23,120

had them in iran and we lost them

2034

01:14:27,030 --> 01:14:26,320

uh and then we had to approach um china

2035

01:14:29,189 --> 01:14:27,040

to

2036

01:14:30,149 --> 01:14:29,199

see if they'd be interested in hosting

2037

01:14:32,470 --> 01:14:30,159

us

2038

01:14:35,590 --> 01:14:32,480

and uh they were hemming and calling and

2039

01:14:37,110 --> 01:14:35,600

then we sent a uh young u.s senator

2040

01:14:39,189 --> 01:14:37,120

that paved the way

2041

01:14:41,189 --> 01:14:39,199

talked to deng xiaoping and convinced

2042

01:14:43,430 --> 01:14:41,199

xiao ping that this is good for both of

2043

01:14:45,189 --> 01:14:43,440

our countries that senator is now u.s

2044

01:14:47,030 --> 01:14:45,199

president right now

2045

01:14:49,430 --> 01:14:47,040

when he was senator uh senator biden

2046

01:14:50,630 --> 01:14:49,440

approached the chinese to help cia enter

2047

01:14:52,550 --> 01:14:50,640

the country

2048

01:14:56,390 --> 01:14:52,560

and uh we brought the first computers

2049

01:14:58,870 --> 01:14:56,400

there they've never seen an ibm pc we

2050

01:15:01,189 --> 01:14:58,880

brought the first ibm pc there

2051  
01:15:03,270 --> 01:15:01,199  
we brought what would be considered to

2052  
01:15:05,270 --> 01:15:03,280  
them a super computer they could not

2053  
01:15:06,950 --> 01:15:05,280  
have built themselves it was built by

2054  
01:15:09,990 --> 01:15:06,960  
digital equipment corporation was called

2055  
01:15:12,390 --> 01:15:10,000  
a pdp 11-70

2056  
01:15:14,470 --> 01:15:12,400  
so we brought that there we brought

2057  
01:15:16,630 --> 01:15:14,480  
everything that you would think would be

2058  
01:15:19,270 --> 01:15:16,640  
at min with hill in uk

2059  
01:15:20,390 --> 01:15:19,280  
and in alice springs uh pine gap in

2060  
01:15:22,470 --> 01:15:20,400  
australia

2061  
01:15:23,669 --> 01:15:22,480  
miniature versions of that that we

2062  
01:15:25,910 --> 01:15:23,679  
brought there

2063  
01:15:26,950 --> 01:15:25,920

the radons everything i mean it looked

2064

01:15:30,310 --> 01:15:26,960

like

2065

01:15:32,870 --> 01:15:30,320

if you look at a picture of pine gap it

2066

01:15:35,270 --> 01:15:32,880

looked like that except much smaller

2067

01:15:37,590 --> 01:15:35,280

and we taught them everything i mean i

2068

01:15:38,470 --> 01:15:37,600

taught at their schools teaching pla

2069

01:15:40,630 --> 01:15:38,480

officers

2070

01:15:42,630 --> 01:15:40,640

how to analyze russian

2071

01:15:45,350 --> 01:15:42,640

radars

2072

01:15:48,390 --> 01:15:45,360

we gave them our software

2073

01:15:50,229 --> 01:15:48,400

i mean it's it's it's unbelievable what

2074

01:15:51,270 --> 01:15:50,239

how close we were

2075

01:15:52,630 --> 01:15:51,280

you know where

2076

01:15:54,310 --> 01:15:52,640

if you if you had to take a guess do you

2077

01:15:58,149 --> 01:15:54,320

think that relationship is still going

2078

01:16:01,189 --> 01:15:58,159

on i don't know after 2016 2017. yeah

2079

01:16:03,669 --> 01:16:01,199

after 2017 uh i don't know what happened

2080

01:16:06,070 --> 01:16:03,679

i think we we're trying to repair that

2081

01:16:09,430 --> 01:16:06,080

i hope so but they have a lot to offer

2082

01:16:12,709 --> 01:16:09,440

um and so we we compete economically

2083

01:16:14,550 --> 01:16:12,719

and um but militarily uh there's a rumor

2084

01:16:17,030 --> 01:16:14,560

that you know ah they stole everything

2085

01:16:19,510 --> 01:16:17,040

from us you'd be surprised how much the

2086

01:16:21,189 --> 01:16:19,520

chinese can do they're good at math they

2087

01:16:23,030 --> 01:16:21,199

know how to figure things out they need

2088

01:16:27,669 --> 01:16:23,040

the material science

2089

01:16:29,030 --> 01:16:27,679

build what they need but as far as

2090

01:16:31,030 --> 01:16:29,040

designing things they're really good at

2091

01:16:32,470 --> 01:16:31,040

designing things their weapons are

2092

01:16:34,390 --> 01:16:32,480

outstanding

2093

01:16:35,990 --> 01:16:34,400

they also have a ton of rare earth

2094

01:16:38,390 --> 01:16:36,000

elements that we need

2095

01:16:41,350 --> 01:16:40,470

yeah speaking of rare earth the tungsten

2096

01:16:42,870 --> 01:16:41,360

uh

2097

01:16:46,390 --> 01:16:42,880

the titanium

2098

01:16:50,229 --> 01:16:46,400

in the um used in the a12 which is the

2099

01:16:51,350 --> 01:16:50,239

ox cart the cia a12 the titanium came

2100

01:16:54,310 --> 01:16:51,360

from

2101

01:16:58,149 --> 01:16:56,390

wow you know i mean cooperation is crazy

2102

01:17:00,070 --> 01:16:58,159

i mean yeah well you have to cooperate

2103

01:17:02,390 --> 01:17:00,080

it's yeah i mean

2104

01:17:04,630 --> 01:17:02,400

i i always talk about the um

2105

01:17:06,149 --> 01:17:04,640

the border on afghanistan it's it's a

2106

01:17:07,990 --> 01:17:06,159

border that's always been trying to be

2107

01:17:11,350 --> 01:17:08,000

conquered but even

2108

01:17:13,830 --> 01:17:11,360

no matter what sort of um

2109

01:17:16,149 --> 01:17:13,840

quarrels going on above in the caves

2110

01:17:18,950 --> 01:17:16,159

below they're trading with everybody

2111

01:17:21,669 --> 01:17:18,960

like there's trade happening with with

2112

01:17:24,310 --> 01:17:21,679

with pakistan this trade happening with

2113

01:17:26,149 --> 01:17:24,320

all of the countries that surround uh uh

2114

01:17:29,189 --> 01:17:26,159

that section of the world or afghanistan

2115

01:17:31,750 --> 01:17:29,199

uh russia um so it

2116

01:17:33,990 --> 01:17:31,760

it's a necessity i mean we have to talk

2117

01:17:37,270 --> 01:17:34,000

to our our enemies and they have to talk

2118

01:17:37,990 --> 01:17:37,280

to us at some point but i'm i'm hoping

2119

01:17:39,590 --> 01:17:38,000

that

2120

01:17:41,189 --> 01:17:39,600

it gets back to a point where it was

2121

01:17:44,149 --> 01:17:41,199

when you retired where it's a little

2122

01:17:46,149 --> 01:17:44,159

more amicable from both sides because

2123

01:17:48,709 --> 01:17:46,159

the bill is better for everyone yeah the

2124

01:17:50,630 --> 01:17:48,719

ada and the ia pretty much states that

2125

01:17:52,229 --> 01:17:50,640

that there's to be cooperation

2126

01:17:54,390 --> 01:17:52,239

international cooperation

2127

01:17:55,750 --> 01:17:54,400

right in terms of the uh information

2128

01:17:58,550 --> 01:17:55,760

that we hold

2129

01:18:00,390 --> 01:17:58,560

uh we need to like at least from

2130

01:18:03,270 --> 01:18:00,400

government to government

2131

01:18:05,590 --> 01:18:03,280

uh we can declassify things or uh

2132

01:18:07,350 --> 01:18:05,600

present things at a lower classification

2133

01:18:09,430 --> 01:18:07,360

you heard of the five eyes now there's

2134

01:18:11,110 --> 01:18:09,440

talk about creating a nine eyes and a

2135

01:18:14,630 --> 01:18:11,120

fourteen eyes

2136

01:18:16,870 --> 01:18:14,640

wow uh and that's for just sharing

2137

01:18:18,070 --> 01:18:16,880

information and so i heard of need to

2138

01:18:20,870 --> 01:18:18,080

know

2139

01:18:22,709 --> 01:18:20,880

a dni in the past i believe was uh jim

2140

01:18:24,790 --> 01:18:22,719

clapper

2141

01:18:26,550 --> 01:18:24,800

he put out a memo for the entire

2142

01:18:29,270 --> 01:18:26,560

intelligence community saying that the

2143

01:18:32,790 --> 01:18:29,280

era of need to know is over

2144

01:18:35,350 --> 01:18:32,800

we are now in an era of need to share

2145

01:18:38,149 --> 01:18:35,360

you have to justify why you're holding

2146

01:18:41,430 --> 01:18:38,159

information in need to know channels

2147

01:18:44,070 --> 01:18:41,440

because doing that is what caused 911

2148

01:18:48,149 --> 01:18:44,080

intelligence not to be shared between

2149

01:18:50,310 --> 01:18:48,159

cia overseas and fbi domestically right

2150

01:18:52,149 --> 01:18:50,320

um and so there's we're now in the need

2151

01:18:54,790 --> 01:18:52,159

to share era

2152

01:18:57,110 --> 01:18:54,800

and so i'm hoping that would like you

2153

01:18:58,950 --> 01:18:57,120

say i hope that would open doors in

2154

01:19:01,510 --> 01:18:58,960

terms of cooperating with

2155

01:19:03,590 --> 01:19:01,520

uh our major partners and let's not

2156

01:19:04,790 --> 01:19:03,600

forget the latin americans

2157

01:19:06,390 --> 01:19:04,800

i mean there are a lot of sightings in

2158

01:19:08,950 --> 01:19:06,400

latin america there are a lot of

2159

01:19:11,110 --> 01:19:08,960

signings in africa in india in pakistan

2160

01:19:12,870 --> 01:19:11,120

they're in asia you know we can't ignore

2161

01:19:13,910 --> 01:19:12,880

the rest of the rest of the world

2162

01:19:16,470 --> 01:19:13,920

because

2163

01:19:19,350 --> 01:19:16,480

uaps are global it's not just you know

2164

01:19:21,590 --> 01:19:19,360

u.s and all the meta materials and crash

2165

01:19:23,990 --> 01:19:21,600

retrieval

2166

01:19:27,430 --> 01:19:24,000

craft whatever they are we assume

2167

01:19:29,750 --> 01:19:27,440

they're from the us don't assume that

2168

01:19:31,350 --> 01:19:29,760

okay some of that is delivered to us or

2169

01:19:32,870 --> 01:19:31,360

some of that is acquired by us from

2170

01:19:35,270 --> 01:19:32,880

overseas sources

2171

01:19:37,669 --> 01:19:35,280

well my dad says hello to everybody ufo

2172

01:19:40,070 --> 01:19:37,679

dad was in the house so hello dad um

2173

01:19:42,790 --> 01:19:40,080

kristen thompson had a question has john

2174

01:19:45,590 --> 01:19:42,800

ever heard about dr jacobs nuke missile

2175

01:19:47,830 --> 01:19:46,390

no

2176

01:19:50,390 --> 01:19:47,840

um

2177

01:19:52,950 --> 01:19:50,400

i've heard of uh

2178

01:19:54,470 --> 01:19:52,960

robert salas's cases and

2179

01:19:56,790 --> 01:19:54,480

of course robert hastings you know he

2180

01:20:00,790 --> 01:19:56,800

wrote a wonderful book

2181

01:20:02,149 --> 01:20:00,800

about uh about ufos and nukes

2182

01:20:05,110 --> 01:20:02,159

so i've heard of those i don't know if

2183

01:20:06,470 --> 01:20:05,120

dr j i may have in passing

2184

01:20:07,270 --> 01:20:06,480

so remind me

2185

01:20:08,070 --> 01:20:07,280

yeah

2186

01:20:11,590 --> 01:20:08,080

um

2187

01:20:13,669 --> 01:20:11,600

mr calhoun asked the question has john

2188

01:20:16,470 --> 01:20:13,679

uh has john any thoughts on cattle

2189

01:20:18,550 --> 01:20:16,480

mutilations particularly why so oddly

2190

01:20:20,229 --> 01:20:18,560

specific tissue samples are taken during

2191

01:20:21,750 --> 01:20:20,239

these events

2192

01:20:23,510 --> 01:20:21,760

i do not know

2193

01:20:26,870 --> 01:20:23,520

okay that's that's been a question for

2194

01:20:29,750 --> 01:20:26,880

me that i i've been asking myself

2195

01:20:32,790 --> 01:20:29,760

uh no i don't know

2196

01:20:34,629 --> 01:20:32,800

that is a weird aspect to it it it's

2197

01:20:36,310 --> 01:20:34,639

they just want states i don't blame

2198

01:20:38,229 --> 01:20:36,320

rodney yeah yeah

2199

01:20:39,030 --> 01:20:38,239

it's just they take weird spots with the

2200

01:20:41,110 --> 01:20:39,040

cows

2201

01:20:43,910 --> 01:20:41,120

i found this big tartare

2202

01:20:46,390 --> 01:20:43,920

i found it obscure

2203

01:20:49,270 --> 01:20:46,400

i found a very obscure reference

2204

01:20:52,550 --> 01:20:50,629

um

2205

01:20:53,990 --> 01:20:52,560

bovine

2206

01:20:56,550 --> 01:20:54,000

embryos

2207

01:20:59,110 --> 01:20:56,560

or placenta placenta

2208

01:21:02,229 --> 01:20:59,120

and some experimentation

2209

01:21:03,990 --> 01:21:02,239

with human embryos

2210

01:21:05,030 --> 01:21:04,000

and i gotta go find out because i i saw

2211

01:21:06,149 --> 01:21:05,040

that and i couldn't understand it

2212

01:21:09,350 --> 01:21:06,159

because it was all written in medical

2213

01:21:11,510 --> 01:21:09,360

language right bovine

2214

01:21:12,950 --> 01:21:11,520

plus human right that's the closest

2215

01:21:15,350 --> 01:21:12,960

thing i got to

2216

01:21:18,070 --> 01:21:15,360

try to understand it

2217

01:21:19,350 --> 01:21:18,080

do you have any um and obviously you're

2218

01:21:22,709 --> 01:21:19,360

familiar with the galileo project you're

2219

01:21:25,189 --> 01:21:22,719

familiar with abby loeb um do you have

2220

01:21:26,830 --> 01:21:25,199

if you were able to give any advice uh

2221

01:21:28,870 --> 01:21:26,840

when it comes to looking for these

2222

01:21:33,110 --> 01:21:28,880

objects what sort of advice would you

2223

01:21:36,790 --> 01:21:34,629

i don't know

2224

01:21:38,629 --> 01:21:36,800

i'm talking to a no abby love is an

2225

01:21:40,709 --> 01:21:38,639

astronomer i'm just a like a diamond

2226

01:21:43,110 --> 01:21:40,719

dozen political scientist with a ba

2227

01:21:45,830 --> 01:21:43,120

degree right i mean i i don't know i

2228

01:21:48,149 --> 01:21:47,270

i would think that

2229

01:21:49,830 --> 01:21:48,159

um

2230

01:21:52,310 --> 01:21:49,840

i'm hoping the james webb telescope

2231

01:21:55,030 --> 01:21:52,320

which is now delayed until 22 december

2232

01:21:56,950 --> 01:21:55,040

will go up and provide us with a

2233

01:21:58,790 --> 01:21:56,960

source of data

2234

01:22:02,229 --> 01:21:58,800

because that telescope is designed to

2235

01:22:04,070 --> 01:22:02,239

see far more of our universe in life

2236

01:22:05,030 --> 01:22:04,080

spectra we've never been able to see

2237

01:22:06,870 --> 01:22:05,040

before

2238

01:22:08,830 --> 01:22:06,880

and hopefully they will be able to see

2239

01:22:11,669 --> 01:22:08,840

things that they need to

2240

01:22:14,149 --> 01:22:11,679

track whether there are other objects

2241

01:22:16,870 --> 01:22:14,159

like uh

2242

01:22:18,390 --> 01:22:16,880

coming in and out that we can't detect

2243

01:22:19,750 --> 01:22:18,400

um something like the james webb

2244

01:22:22,950 --> 01:22:19,760

telescope might

2245

01:22:24,790 --> 01:22:22,960

do what the ir sensors in our nro

2246

01:22:27,830 --> 01:22:24,800

satellites did for us

2247

01:22:29,750 --> 01:22:27,840

all of a sudden we see oh my gosh

2248

01:22:31,030 --> 01:22:29,760

the solar system's full of

2249

01:22:32,390 --> 01:22:31,040

you know they're all coming in and out

2250

01:22:34,149 --> 01:22:32,400

all the time i mean i don't know if

2251

01:22:36,229 --> 01:22:34,159

that's gonna happen

2252

01:22:38,629 --> 01:22:36,239

um i'm hopeful that that might be a

2253

01:22:40,070 --> 01:22:38,639

source that project galileo would be

2254

01:22:41,430 --> 01:22:40,080

able to look at

2255

01:22:43,990 --> 01:22:41,440

but the fact that

2256

01:22:46,229 --> 01:22:44,000

somebody like that uh project something

2257

01:22:47,590 --> 01:22:46,239

like that project is included in that

2258

01:22:50,950 --> 01:22:47,600

legislation

2259

01:22:52,950 --> 01:22:50,960

that that provides me an scu as well

2260

01:22:55,669 --> 01:22:52,960

right uh that provides me with a lot of

2261

01:22:57,510 --> 01:22:55,679

hope that now it's not just because

2262

01:22:58,390 --> 01:22:57,520

congress made this is going to make this

2263

01:22:59,990 --> 01:22:58,400

a law

2264

01:23:01,590 --> 01:23:00,000

the military can't say the defense

2265

01:23:03,189 --> 01:23:01,600

department can't say no no it's all

2266

01:23:04,229 --> 01:23:03,199

going to be squirreled in the dod

2267

01:23:07,990 --> 01:23:04,239

channels

2268

01:23:10,470 --> 01:23:08,000

now they're forced to participate

2269

01:23:11,990 --> 01:23:10,480

with science i want scientists to

2270

01:23:13,990 --> 01:23:12,000

participate

2271

01:23:16,629 --> 01:23:14,000

not just government not just government

2272

01:23:19,270 --> 01:23:16,639

scientists but all scientists because i

2273

01:23:21,910 --> 01:23:19,280

was hoping you know i mean imagine when

2274

01:23:24,629 --> 01:23:21,920

braswell the rancher instead of going to

2275

01:23:27,030 --> 01:23:24,639

the base he went to

2276

01:23:29,270 --> 01:23:27,040

new mexico state university or

2277

01:23:30,790 --> 01:23:29,280

uh university of mexico and got them to

2278

01:23:33,110 --> 01:23:30,800

look at it and we wouldn't have the

2279

01:23:34,870 --> 01:23:33,120

secrecy right now

2280

01:23:36,950 --> 01:23:34,880

um and i'm hoping that this will open up

2281

01:23:38,790 --> 01:23:36,960

doors so that we can have an honest

2282

01:23:40,870 --> 01:23:38,800

dialogue about what exactly what we're

2283

01:23:43,270 --> 01:23:40,880

what we're uh dealing with

2284

01:23:47,030 --> 01:23:45,430

sorry sorry i'm sorry no i'm hoping that

2285

01:23:48,390 --> 01:23:47,040

the government would then be uh

2286

01:23:51,830 --> 01:23:48,400

encouraged

2287

01:23:54,310 --> 01:23:51,840

uh because then now they have the um

2288

01:23:56,310 --> 01:23:54,320

congress and its oversight function be

2289

01:23:58,070 --> 01:23:56,320

encouraged to share information about

2290

01:23:59,189 --> 01:23:58,080

what they're holding back including what

2291

01:24:01,270 --> 01:23:59,199

we're flying

2292

01:24:03,110 --> 01:24:01,280

that needs to be shared too

2293

01:24:05,350 --> 01:24:03,120

well there's also i mean something i

2294

01:24:07,350 --> 01:24:05,360

can't remember who coined this but um

2295

01:24:10,470 --> 01:24:07,360

somebody mentioned you know the sky is

2296

01:24:11,430 --> 01:24:10,480

not classified uh and i think that happy

2297

01:24:13,350 --> 01:24:11,440

lobe

2298

01:24:14,550 --> 01:24:13,360

yeah what's that abby yeah yeah so you

2299

01:24:16,149 --> 01:24:14,560

know like

2300

01:24:18,149 --> 01:24:16,159

i think this is coming with or without

2301

01:24:19,750 --> 01:24:18,159

the government it would just be nice if

2302

01:24:20,870 --> 01:24:19,760

the government would get on board and

2303

01:24:23,270 --> 01:24:20,880

sort of

2304

01:24:24,709 --> 01:24:23,280

speed this up a little bit because we

2305

01:24:27,110 --> 01:24:24,719

all know that they have the sensors they

2306

01:24:30,390 --> 01:24:27,120

have the data that's been collected it

2307

01:24:32,070 --> 01:24:30,400

sounds like for since at least you've

2308

01:24:33,750 --> 01:24:32,080

been around um

2309

01:24:35,270 --> 01:24:33,760

you know as far as these satellite

2310

01:24:36,629 --> 01:24:35,280

systems are concerned but somebody asked

2311

01:24:38,550 --> 01:24:36,639

a question you kind of answered this

2312

01:24:40,790 --> 01:24:38,560

earlier uh but said what kind of

2313

01:24:42,390 --> 01:24:40,800

evidence did you see hybrid briefings to

2314

01:24:45,750 --> 01:24:42,400

make you believe

2315

01:24:49,910 --> 01:24:47,510

i mean they didn't show me like pictures

2316

01:24:52,390 --> 01:24:49,920

of hybrids right right they just said

2317

01:24:53,830 --> 01:24:52,400

humans are hybrids and i came in already

2318

01:24:56,470 --> 01:24:53,840

believing that

2319

01:24:57,430 --> 01:24:56,480

right as you know i i was an experimenter

2320

01:25:00,470 --> 01:24:57,440

and that

2321

01:25:03,189 --> 01:25:00,480

kind of was like part of my download

2322

01:25:05,030 --> 01:25:03,199

that we are hybrids and it was my way of

2323

01:25:06,790 --> 01:25:05,040

thinking okay there's a missing gap that

2324

01:25:08,070 --> 01:25:06,800

anthropologists say that there's a

2325

01:25:09,590 --> 01:25:08,080

missing gap

2326

01:25:11,510 --> 01:25:09,600

why aren't we like

2327

01:25:13,110 --> 01:25:11,520

the primates i see

2328

01:25:15,750 --> 01:25:13,120

you know in the wild

2329

01:25:17,510 --> 01:25:15,760

why are we who we are

2330

01:25:18,709 --> 01:25:17,520

um and so

2331

01:25:20,550 --> 01:25:18,719

even if you're

2332

01:25:22,390 --> 01:25:20,560

religious you know

2333

01:25:24,070 --> 01:25:22,400

whatever religion you are there's always

2334

01:25:26,790 --> 01:25:24,080

a creation story

2335

01:25:28,950 --> 01:25:26,800

there's one in genesis if you if you are

2336

01:25:30,470 --> 01:25:28,960

a fundamentalist right-wing christian

2337

01:25:33,030 --> 01:25:30,480

and i don't mean to disparage anybody's

2338

01:25:34,550 --> 01:25:33,040

religion but using that as a category

2339

01:25:36,870 --> 01:25:34,560

and maybe it was wrong for me to say

2340

01:25:38,870 --> 01:25:36,880

right-wing but fundamentalist christian

2341

01:25:41,189 --> 01:25:38,880

let's say you're that and you believe in

2342

01:25:42,790 --> 01:25:41,199

the bible as a literal word of god

2343

01:25:44,950 --> 01:25:42,800

everything like the universe was made in

2344

01:25:46,870 --> 01:25:44,960

six days and something got rested

2345

01:25:48,070 --> 01:25:46,880

um you would look in there and say some

2346

01:25:49,910 --> 01:25:48,080

divine

2347

01:25:51,669 --> 01:25:49,920

being

2348

01:25:54,390 --> 01:25:51,679

made us in

2349

01:25:55,590 --> 01:25:54,400

their plural image let us make man in

2350

01:25:57,030 --> 01:25:55,600

their image

2351

01:25:59,110 --> 01:25:57,040

that right there

2352

01:26:01,110 --> 01:25:59,120

that's hybridization there's also a

2353

01:26:03,510 --> 01:26:01,120

serpent in eden so i guess there's your

2354

01:26:06,070 --> 01:26:03,520

rep and exactly exactly and so i'm

2355

01:26:07,270 --> 01:26:06,080

saying like you know if you go back to

2356

01:26:09,189 --> 01:26:07,280

um

2357

01:26:10,790 --> 01:26:09,199

chase brandon's novel

2358

01:26:13,590 --> 01:26:10,800

and you go back to what i've always

2359

01:26:16,229 --> 01:26:13,600

believed that we're worshipping the wrong

2360

01:26:19,910 --> 01:26:16,239

side we're worshipping the side that

2361

01:26:22,870 --> 01:26:19,920

wanted to like slow our development down

2362

01:26:26,390 --> 01:26:22,880

to suppress us whereas the side of

2363

01:26:29,750 --> 01:26:26,400

enlightenment lucifer enlightenment

2364

01:26:32,310 --> 01:26:29,760

uh that side wants to elevate us

2365

01:26:34,870 --> 01:26:32,320

to know that we are also divine like our

2366

01:26:36,629 --> 01:26:34,880

creators and for that they got tossed

2367

01:26:38,070 --> 01:26:36,639

out

2368

01:26:39,830 --> 01:26:38,080

i just like to throw in you know from

2369

01:26:41,669 --> 01:26:39,840

the dna record the academics would

2370

01:26:44,229 --> 01:26:41,679

deposit that the reason that we're

2371

01:26:46,790 --> 01:26:44,239

unique in our ecosystem is because we

2372

01:26:48,470 --> 01:26:46,800

killed all of our you know the other

2373

01:26:49,990 --> 01:26:48,480

neanderthals and the other intelligent

2374

01:26:52,229 --> 01:26:50,000

humanoids

2375

01:26:53,910 --> 01:26:52,239

so that's you know one possibility well

2376

01:26:56,149 --> 01:26:53,920

they just didn't survive i mean we just

2377

01:26:58,709 --> 01:26:56,159

had the makeup yeah

2378

01:26:59,669 --> 01:26:58,719

we were more robust than surviving

2379

01:27:01,669 --> 01:26:59,679

whereas

2380

01:27:05,270 --> 01:27:01,679

if you look at my blood i'm asian you'll

2381

01:27:07,270 --> 01:27:05,280

see denisovan dna if you're european you

2382

01:27:10,310 --> 01:27:07,280

might have neanderthal dna there are

2383

01:27:13,270 --> 01:27:10,320

other types of categories of dna

2384

01:27:15,110 --> 01:27:13,280

um but

2385

01:27:15,910 --> 01:27:15,120

um yeah i mean

2386

01:27:21,510 --> 01:27:15,920

that

2387

01:27:25,350 --> 01:27:21,520

but now if the cia will let me say those

2388

01:27:27,430 --> 01:27:25,360

names there are two people that

2389

01:27:31,030 --> 01:27:27,440

somebody like leslie keane

2390

01:27:32,550 --> 01:27:31,040

can knock on their door and say hey

2391

01:27:33,669 --> 01:27:32,560

i heard this

2392

01:27:37,030 --> 01:27:33,679

you know

2393

01:27:38,310 --> 01:27:37,040

can you say

2394

01:27:40,470 --> 01:27:38,320

are you still in contact with these

2395

01:27:42,709 --> 01:27:40,480

folks and if so do you think

2396

01:27:44,870 --> 01:27:42,719

uh how badly do they want to talk about

2397

01:27:46,709 --> 01:27:44,880

this like

2398

01:27:48,550 --> 01:27:46,719

do

2399

01:27:49,430 --> 01:27:48,560

full disclosure is this

2400

01:27:52,550 --> 01:27:49,440

uh

2401

01:27:55,189 --> 01:27:52,560

when i did my presentation

2402

01:27:56,790 --> 01:27:55,199

and i sent it off to cia

2403

01:28:00,310 --> 01:27:56,800

i also had a great interest in

2404

01:28:02,470 --> 01:28:00,320

contacting jim semivan aunt lou elizondo

2405

01:28:04,229 --> 01:28:02,480

those two in particular

2406

01:28:06,149 --> 01:28:04,239

and i have contacted them as a

2407

01:28:07,910 --> 01:28:06,159

professional courtesy i know they're

2408

01:28:10,070 --> 01:28:07,920

doing important work

2409

01:28:12,709 --> 01:28:10,080

um and i want to make sure that anything

2410

01:28:15,750 --> 01:28:12,719

i say or do does not impede their work

2411

01:28:18,390 --> 01:28:15,760

right and i offered them saying hey if

2412

01:28:20,629 --> 01:28:18,400

you want to acknowledge that i know you

2413

01:28:22,229 --> 01:28:20,639

in the context i know you go ahead but

2414

01:28:24,390 --> 01:28:22,239

that doesn't mean that you endorse my

2415

01:28:26,310 --> 01:28:24,400

work my work is my own

2416

01:28:27,750 --> 01:28:26,320

and they're fine with that so

2417

01:28:29,990 --> 01:28:27,760

going back to

2418

01:28:33,110 --> 01:28:30,000

rather trying to fight who i was if

2419

01:28:34,950 --> 01:28:33,120

someone bothered to contact jim or lou

2420

01:28:37,669 --> 01:28:34,960

they would have said yeah we know him

2421

01:28:38,550 --> 01:28:37,679

yeah and uh kick green as well kid

2422

01:28:40,870 --> 01:28:38,560

yeah

2423

01:28:42,390 --> 01:28:40,880

i know who i am chester hunter with a 20

2424

01:28:43,750 --> 01:28:42,400

super chat by the way guys thank you so

2425

01:28:45,910 --> 01:28:43,760

much for all these super chats truly

2426

01:28:48,149 --> 01:28:45,920

appreciate it uh makes the the show

2427

01:28:49,750 --> 01:28:48,159

exists so so thank you uh john were

2428

01:28:53,030 --> 01:28:49,760

there any folks who invited you and

2429

01:28:55,110 --> 01:28:53,040

aware of any of your personal anomalous

2430

01:28:56,390 --> 01:28:55,120

experiences

2431

01:28:57,590 --> 01:28:56,400

invited me to

2432

01:28:59,350 --> 01:28:57,600

um

2433

01:29:01,990 --> 01:28:59,360

that meeting

2434

01:29:05,590 --> 01:29:02,000

um i he doesn't he's not specific or any

2435

01:29:08,390 --> 01:29:05,600

of the folks you invited who invited you

2436

01:29:10,950 --> 01:29:08,400

to talk about the meeting yeah um

2437

01:29:12,790 --> 01:29:10,960

it was well known that i was into

2438

01:29:15,270 --> 01:29:12,800

uh ufology

2439

01:29:17,030 --> 01:29:15,280

because when that occurred and i think

2440

01:29:19,110 --> 01:29:17,040

it's

2441

01:29:20,790 --> 01:29:19,120

i'm bad with time compression

2442

01:29:22,550 --> 01:29:20,800

it's been so long ago i think it was

2443

01:29:24,310 --> 01:29:22,560

2001

2444

01:29:26,550 --> 01:29:24,320

before 9 11

2445

01:29:27,830 --> 01:29:26,560

because 9 11 didn't happen i don't think

2446

01:29:29,750 --> 01:29:27,840

it happened

2447

01:29:30,870 --> 01:29:29,760

we had academics from all over the

2448

01:29:33,270 --> 01:29:30,880

country

2449

01:29:35,350 --> 01:29:33,280

uh flying into washington

2450

01:29:37,350 --> 01:29:35,360

and immediately after 9 11 was a lot

2451

01:29:39,030 --> 01:29:37,360

tougher to fly anywhere so i think it

2452

01:29:43,110 --> 01:29:39,040

was before 9 11

2453

01:29:46,070 --> 01:29:43,120

it was 2001 um and by then they were

2454

01:29:48,629 --> 01:29:46,080

well aware of my interest

2455

01:29:50,870 --> 01:29:48,639

and those academics i wish here's the

2456

01:29:53,590 --> 01:29:50,880

tragedy it was unclassified agenda

2457

01:29:55,990 --> 01:29:53,600

unclassified uh sign in sheet i tossed

2458

01:29:57,110 --> 01:29:56,000

them into burnback when i retired

2459

01:29:58,629 --> 01:29:57,120

i just

2460

01:30:00,550 --> 01:29:58,639

yeah

2461

01:30:02,870 --> 01:30:00,560

because i think i'll never have to deal

2462

01:30:04,470 --> 01:30:02,880

with this anymore and so you know i knew

2463

01:30:05,590 --> 01:30:04,480

what i knew and i was happy with what i

2464

01:30:08,550 --> 01:30:05,600

knew

2465

01:30:11,110 --> 01:30:08,560

i wish i had kept

2466

01:30:13,510 --> 01:30:11,120

the agenda and the sign-in sheet

2467

01:30:15,590 --> 01:30:13,520

especially because it listed names

2468

01:30:18,310 --> 01:30:15,600

but i know three names

2469

01:30:20,390 --> 01:30:18,320

four names on that or cia officers by

2470

01:30:21,830 --> 01:30:20,400

the way pandolfi wasn't in that meeting

2471

01:30:24,470 --> 01:30:21,840

i could say that because i know who

2472

01:30:26,390 --> 01:30:24,480

gandalfi was and he wasn't there

2473

01:30:28,390 --> 01:30:26,400

okay there was no ron gaddafi at that

2474

01:30:29,910 --> 01:30:28,400

meeting um no no he worked for the same

2475

01:30:31,590 --> 01:30:29,920

office

2476

01:30:33,669 --> 01:30:31,600

me cutter with a five dollar donation

2477

01:30:35,910 --> 01:30:33,679

says rather save my soul great show you

2478

01:30:37,510 --> 01:30:35,920

guys gotta listen on the kjra app while

2479

01:30:39,110 --> 01:30:37,520

i was out and about today for the first

2480

01:30:41,270 --> 01:30:39,120

30 minutes of the show thank you so much

2481

01:30:43,669 --> 01:30:41,280

me cutter for the uh for the donation uh

2482

01:30:45,430 --> 01:30:43,679

john brusso with a question says hi john

2483

01:30:49,669 --> 01:30:45,440

uh thank you for your service is your

2484

01:30:51,590 --> 01:30:49,679

cia medal made from 999 silver if so is

2485

01:30:52,870 --> 01:30:51,600

it engraved along the side edge of the

2486

01:30:54,550 --> 01:30:52,880

metal

2487

01:30:56,629 --> 01:30:54,560

i don't know what

2488

01:30:58,629 --> 01:30:56,639

this is this guy i don't know

2489

01:31:01,350 --> 01:30:58,639

i don't know what it's made out of i

2490

01:31:03,590 --> 01:31:01,360

don't know i don't see

2491

01:31:05,750 --> 01:31:03,600

i don't see any engravings

2492

01:31:08,390 --> 01:31:05,760

around it

2493

01:31:10,709 --> 01:31:08,400

but again there it is

2494

01:31:12,950 --> 01:31:10,719

that's awesome um

2495

01:31:14,709 --> 01:31:12,960

and i don't see any engravings around it

2496

01:31:17,669 --> 01:31:14,719

i don't know what they look like now but

2497

01:31:19,910 --> 01:31:17,679

that's this is what they gave me in 2010

2498

01:31:21,590 --> 01:31:19,920

was service complete in 2009 so there it

2499

01:31:22,709 --> 01:31:21,600

is

2500

01:31:24,950 --> 01:31:22,719

by the way ed

2501

01:31:26,470 --> 01:31:24,960

yeah well that's the one thing that i

2502

01:31:28,070 --> 01:31:26,480

purchased my ears first when i first

2503

01:31:30,470 --> 01:31:28,080

heard you john is

2504

01:31:32,709 --> 01:31:30,480

is why you're doing this and

2505

01:31:34,550 --> 01:31:32,719

yeah and your motivations that was the

2506

01:31:36,950 --> 01:31:34,560

one thing i was like oh wow that's

2507

01:31:38,790 --> 01:31:36,960

actually quite refreshing uh i want you

2508

01:31:41,510 --> 01:31:38,800

to explain that real quick but but

2509

01:31:43,669 --> 01:31:41,520

before you do artisan tony says for 10

2510

01:31:44,950 --> 01:31:43,679

rather is a high level hybrid and trying

2511

01:31:47,590 --> 01:31:44,960

to bury it

2512

01:31:49,590 --> 01:31:47,600

i believe that i believe if there's

2513

01:31:52,470 --> 01:31:49,600

anyone on this panel that's a hybrid

2514

01:31:53,830 --> 01:31:52,480

it's rather me squinting uh but yeah if

2515

01:31:55,189 --> 01:31:53,840

you could go ahead and just tell the

2516

01:31:56,550 --> 01:31:55,199

people like you know because that's a

2517

01:31:57,350 --> 01:31:56,560

big question right

2518

01:31:59,910 --> 01:31:57,360

that

2519

01:32:01,030 --> 01:31:59,920

hearing pop-ups why now why not why now

2520

01:32:04,390 --> 01:32:01,040

is well

2521

01:32:06,629 --> 01:32:04,400

first of all um when i retired 2009 um

2522

01:32:08,149 --> 01:32:06,639

basically i retired and basically i was

2523

01:32:10,550 --> 01:32:08,159

just like working around the house

2524

01:32:12,310 --> 01:32:10,560

renovating my house i recently purchased

2525

01:32:13,189 --> 01:32:12,320

in my retirement and just doing yard

2526

01:32:15,430 --> 01:32:13,199

work

2527

01:32:17,510 --> 01:32:15,440

i mean i was done with it and i still

2528

01:32:19,750 --> 01:32:17,520

had it in interest i still

2529

01:32:22,470 --> 01:32:19,760

uh watch youtube videos and whatnot but

2530

01:32:24,830 --> 01:32:22,480

basically nothing really progressed

2531

01:32:27,430 --> 01:32:24,840

right from 2009 until

2532

01:32:28,629 --> 01:32:27,440

2017. and when tic tac was released when

2533

01:32:31,510 --> 01:32:28,639

we found out there was something called

2534

01:32:33,830 --> 01:32:31,520

all staff and some called at before that

2535

01:32:36,310 --> 01:32:33,840

me i was like everybody else i was like

2536

01:32:37,830 --> 01:32:36,320

listening to coast coast am and i i

2537

01:32:39,669 --> 01:32:37,840

don't think jimmy church was doing his

2538

01:32:41,990 --> 01:32:39,679

fate to black then i think he was like

2539

01:32:44,149 --> 01:32:42,000

guesthouse back in the there so all the

2540

01:32:45,990 --> 01:32:44,159

way back to art belt george nuri i was

2541

01:32:47,590 --> 01:32:46,000

basically interested in this and i was

2542

01:32:50,149 --> 01:32:47,600

just listening to what other people say

2543

01:32:52,310 --> 01:32:50,159

and i go you know that guy's an imposter

2544

01:32:54,629 --> 01:32:52,320

you know i can tell because the way he

2545

01:32:56,550 --> 01:32:54,639

talks and what he described

2546

01:32:58,629 --> 01:32:56,560

uh doesn't exist

2547

01:33:01,430 --> 01:32:58,639

and then but no never mind about that

2548

01:33:03,430 --> 01:33:01,440

you know um but in 2017

2549

01:33:05,510 --> 01:33:03,440

when people start like

2550

01:33:07,030 --> 01:33:05,520

that really elevated the discussion

2551  
01:33:10,629 --> 01:33:07,040  
and all of a sudden we learn about all

2552  
01:33:14,149 --> 01:33:10,639  
sap and in you know 2008 2010

2553  
01:33:16,149 --> 01:33:14,159  
um and um senator reid funding and all

2554  
01:33:17,990 --> 01:33:16,159  
that and everyone believed that

2555  
01:33:19,830 --> 01:33:18,000  
oh you know that's when the government

2556  
01:33:22,070 --> 01:33:19,840  
really you know but you guys know that

2557  
01:33:24,629 --> 01:33:22,080  
the government's always doing this right

2558  
01:33:27,270 --> 01:33:24,639  
and never like talked about it

2559  
01:33:28,790 --> 01:33:27,280  
but there was this like the fact that i

2560  
01:33:31,110 --> 01:33:28,800  
know that

2561  
01:33:31,910 --> 01:33:31,120  
when we saw the orbs

2562  
01:33:34,310 --> 01:33:31,920  
that

2563  
01:33:37,669 --> 01:33:34,320

brought it out of the ufo era into the

2564

01:33:39,510 --> 01:33:37,679

uap era and we started to investigate

2565

01:33:41,830 --> 01:33:39,520

this earnestly like

2566

01:33:43,830 --> 01:33:41,840

i described in a previous interview

2567

01:33:46,070 --> 01:33:43,840

uh these were no longer your

2568

01:33:47,830 --> 01:33:46,080

grandfather's flying saucers

2569

01:33:49,270 --> 01:33:47,840

this was these were like different

2570

01:33:51,350 --> 01:33:49,280

phenomena

2571

01:33:54,149 --> 01:33:51,360

and what went on and skin walk a ranch

2572

01:33:56,550 --> 01:33:54,159

before then you know um

2573

01:33:58,390 --> 01:33:56,560

that high strangeness and all that and

2574

01:34:00,950 --> 01:33:58,400

they go well you know

2575

01:34:03,590 --> 01:34:00,960

this wasn't just about all saps stuff

2576

01:34:04,709 --> 01:34:03,600

happened before all set yeah

2577

01:34:07,030 --> 01:34:04,719

and so

2578

01:34:08,550 --> 01:34:07,040

that motivated me to how do i present

2579

01:34:10,470 --> 01:34:08,560

that story

2580

01:34:11,590 --> 01:34:10,480

and so that's what motivated me to talk

2581

01:34:13,750 --> 01:34:11,600

more about

2582

01:34:16,709 --> 01:34:13,760

um the first part of that briefing was

2583

01:34:18,870 --> 01:34:16,719

about suppose a uap event occurred today

2584

01:34:21,590 --> 01:34:18,880

what would happen what i describe is the

2585

01:34:23,669 --> 01:34:21,600

actual process of what happens in the

2586

01:34:25,510 --> 01:34:23,679

intelligence community

2587

01:34:27,270 --> 01:34:25,520

when you see something like new and

2588

01:34:29,270 --> 01:34:27,280

unusual it

2589

01:34:31,430 --> 01:34:29,280

doesn't necessarily have to be uaps but

2590

01:34:33,030 --> 01:34:31,440

basically that working group process

2591

01:34:35,030 --> 01:34:33,040

happens to the point that you write a

2592

01:34:37,189 --> 01:34:35,040

report and once the intelligence

2593

01:34:38,709 --> 01:34:37,199

committee writes its report that's

2594

01:34:40,229 --> 01:34:38,719

coordinated with the other

2595

01:34:42,229 --> 01:34:40,239

agencies

2596

01:34:44,830 --> 01:34:42,239

and it goes to the dni at that point

2597

01:34:49,030 --> 01:34:44,840

it's disseminated it can go to the white

2598

01:34:51,430 --> 01:34:49,040

house so at that point you know

2599

01:34:54,149 --> 01:34:51,440

now you're at like 2008

2600

01:34:56,870 --> 01:34:54,159

2007 2008 that's what started okay now

2601  
01:34:58,310 --> 01:34:56,880  
it's on the dod side title 50 civilians

2602  
01:35:01,270 --> 01:34:58,320  
are out of it

2603  
01:35:03,669 --> 01:35:01,280  
title 10 is dod

2604  
01:35:05,270 --> 01:35:03,679  
can we shoot it can it shoot us that's

2605  
01:35:07,510 --> 01:35:05,280  
dld right

2606  
01:35:10,310 --> 01:35:07,520  
and so when they took over

2607  
01:35:11,990 --> 01:35:10,320  
they had more of an aerospace

2608  
01:35:13,270 --> 01:35:12,000  
forget the

2609  
01:35:15,510 --> 01:35:13,280  
acronyms

2610  
01:35:17,510 --> 01:35:15,520  
forget the alphabet soup something

2611  
01:35:19,189 --> 01:35:17,520  
flying can hurt us that's what they're

2612  
01:35:22,070 --> 01:35:19,199  
concerned about regardless of what that

2613  
01:35:23,750 --> 01:35:22,080

study was called that was the focus

2614

01:35:25,830 --> 01:35:23,760

something is flying

2615

01:35:27,750 --> 01:35:25,840

maybe it can hurt us maybe not what is

2616

01:35:29,430 --> 01:35:27,760

it if it can hurt us how do we shoot it

2617

01:35:31,270 --> 01:35:29,440

down how do we defeat it

2618

01:35:34,390 --> 01:35:31,280

what is this about in terms of a

2619

01:35:36,310 --> 01:35:34,400

national security threat to our forces

2620

01:35:39,750 --> 01:35:36,320

have we figured have we figured out

2621

01:35:42,390 --> 01:35:39,760

defense systems or defense capabilities

2622

01:35:44,149 --> 01:35:42,400

against them yeah i don't know

2623

01:35:46,550 --> 01:35:44,159

okay that's that's a good question for

2624

01:35:48,470 --> 01:35:46,560

lou and that's when he's gonna say nda

2625

01:35:50,790 --> 01:35:48,480

yeah exactly exactly i think i think

2626  
01:35:52,070 --> 01:35:50,800  
somebody's awesome i love this i give

2627  
01:35:54,830 --> 01:35:52,080  
you one thing

2628  
01:35:58,149 --> 01:35:54,840  
i know one thing um and i can say it

2629  
01:36:00,790 --> 01:35:58,159  
because um it's an old system

2630  
01:36:03,590 --> 01:36:00,800  
uh there is a

2631  
01:36:05,430 --> 01:36:03,600  
rush soviet and now russian era

2632  
01:36:07,430 --> 01:36:05,440  
uh aerospace defense system called the

2633  
01:36:10,070 --> 01:36:07,440  
s810

2634  
01:36:11,750 --> 01:36:10,080  
it's a missile a surface air missile but

2635  
01:36:12,870 --> 01:36:11,760  
it has aerospace capabilities you can go

2636  
01:36:14,149 --> 01:36:12,880  
way high

2637  
01:36:18,709 --> 01:36:14,159  
s810

2638  
01:36:21,510 --> 01:36:18,719

um russia we uh they call it the s300

2639

01:36:23,990 --> 01:36:21,520

and there's a radar called the flap lid

2640

01:36:26,070 --> 01:36:24,000

flap lid because it looks like a

2641

01:36:28,310 --> 01:36:26,080

lid pointed back it's sort of like the

2642

01:36:30,390 --> 01:36:28,320

patriot radar in some ways

2643

01:36:31,990 --> 01:36:30,400

it's a planar phased array

2644

01:36:34,310 --> 01:36:32,000

called a flat lid and there were modes

2645

01:36:35,590 --> 01:36:34,320

of operation we saw in that that

2646

01:36:37,430 --> 01:36:35,600

contract

2647

01:36:39,669 --> 01:36:37,440

all kinds of aircraft

2648

01:36:41,910 --> 01:36:39,679

and with some ballistic missile

2649

01:36:44,070 --> 01:36:41,920

and tactical ballistic missile defense

2650

01:36:45,510 --> 01:36:44,080

capabilities well there's one mode in

2651  
01:36:47,350 --> 01:36:45,520  
there that all of a sudden they were

2652  
01:36:49,270 --> 01:36:47,360  
producing tracks

2653  
01:36:51,990 --> 01:36:49,280  
of something that was going really

2654  
01:36:55,109 --> 01:36:52,000  
really fast so what the hell is that

2655  
01:36:57,109 --> 01:36:55,119  
they're producing legitimate acquisition

2656  
01:37:00,229 --> 01:36:57,119  
and and uh

2657  
01:37:03,270 --> 01:37:00,239  
acquisition and tracking of some object

2658  
01:37:05,270 --> 01:37:03,280  
legitimate there's no so maybe it's a

2659  
01:37:06,709 --> 01:37:05,280  
legitimate test mode nothing can go that

2660  
01:37:08,550 --> 01:37:06,719  
fast we don't have anything that fast

2661  
01:37:09,990 --> 01:37:08,560  
neither do they what are they tracking

2662  
01:37:11,109 --> 01:37:10,000  
it's just a test move

2663  
01:37:12,950 --> 01:37:11,119

right

2664

01:37:14,950 --> 01:37:12,960  
after the soviet union fell and we

2665

01:37:16,470 --> 01:37:14,960  
started talking to immigrants

2666

01:37:18,310 --> 01:37:16,480  
you know like soviet immigrants or

2667

01:37:20,149 --> 01:37:18,320  
russian immigrants who became u.s

2668

01:37:22,310 --> 01:37:20,159  
citizens in this country they left

2669

01:37:23,830 --> 01:37:22,320  
russia and we did identify that they

2670

01:37:26,310 --> 01:37:23,840  
actually worked on that system or

2671

01:37:29,990 --> 01:37:26,320  
operated that system they told us

2672

01:37:32,550 --> 01:37:30,000  
we had a ufo mode in that system

2673

01:37:34,790 --> 01:37:32,560  
and we looked at the missile that that

2674

01:37:36,709 --> 01:37:34,800  
system was was attached to

2675

01:37:38,550 --> 01:37:36,719  
and he said yep that

2676

01:37:40,870 --> 01:37:38,560

that that has some reach and those

2677

01:37:42,310 --> 01:37:40,880

missiles were nuclear tipped some of

2678

01:37:43,910 --> 01:37:42,320

those missiles were nuclear tipped so

2679

01:37:46,390 --> 01:37:43,920

and that's an older system you said

2680

01:37:49,109 --> 01:37:46,400

that's an old system right that's

2681

01:37:52,310 --> 01:37:49,119

ancient there's the s200 now the s500

2682

01:37:54,470 --> 01:37:52,320

and that thing had a ufo mode on it well

2683

01:37:56,310 --> 01:37:54,480

according to the information we received

2684

01:37:58,390 --> 01:37:56,320

that that was a ufo mode

2685

01:38:00,629 --> 01:37:58,400

so we actually got that system

2686

01:38:03,350 --> 01:38:00,639

we actually got that system

2687

01:38:04,470 --> 01:38:03,360

squirreled away uh an interesting place

2688

01:38:05,830 --> 01:38:04,480

in nevada

2689

01:38:09,109 --> 01:38:05,840

i'll say

2690

01:38:11,350 --> 01:38:09,119

and so um with my background in uh bliss

2691

01:38:14,229 --> 01:38:11,360

missile defense

2692

01:38:16,709 --> 01:38:14,239

i was with a partner uh a colleague of

2693

01:38:18,629 --> 01:38:16,719

mine she and i went stayed in beta

2694

01:38:21,430 --> 01:38:18,639

nevada

2695

01:38:24,470 --> 01:38:21,440

and uh we traveled to this site

2696

01:38:26,709 --> 01:38:24,480

which uh just like you'll see

2697

01:38:28,070 --> 01:38:26,719

described as going area 51 there wasn't

2698

01:38:31,910 --> 01:38:28,080

a mailbox

2699

01:38:32,790 --> 01:38:31,920

but the folks at the doe uh 232 energy

2700

01:38:35,030 --> 01:38:32,800

way

2701

01:38:37,430 --> 01:38:35,040

the oe they gave us the uh

2702

01:38:38,709 --> 01:38:37,440

the badging for to get to that facility

2703

01:38:40,229 --> 01:38:38,719

they told us what to look for in the

2704

01:38:41,590 --> 01:38:40,239

road so you see this on the road make

2705

01:38:43,189 --> 01:38:41,600

that right

2706

01:38:44,629 --> 01:38:43,199

right so we did

2707

01:38:45,430 --> 01:38:44,639

and we drove and drove and drove and

2708

01:38:48,070 --> 01:38:45,440

heard

2709

01:38:50,149 --> 01:38:48,080

a shack of camo dudes well these are the

2710

01:38:52,229 --> 01:38:50,159

camel dudes and i said wow wow that's

2711

01:38:53,750 --> 01:38:52,239

the real camel dudes i heard about them

2712

01:38:55,910 --> 01:38:53,760

and now you know they batches in and we

2713

01:38:56,950 --> 01:38:55,920

went there and so we tested the system

2714

01:38:58,629 --> 01:38:56,960

out and

2715

01:39:00,310 --> 01:38:58,639

one night they told us to get off the

2716

01:39:01,590 --> 01:39:00,320

mountain get off the mountain go home

2717

01:39:03,990 --> 01:39:01,600

get off the mountain

2718

01:39:06,550 --> 01:39:04,000

early because um the rumor was they're

2719

01:39:08,470 --> 01:39:06,560

testing a special payload

2720

01:39:09,590 --> 01:39:08,480

and so they didn't want cia we were told

2721

01:39:12,149 --> 01:39:09,600

we were not clear for what they're

2722

01:39:13,910 --> 01:39:12,159

testing so we went off the mountain went

2723

01:39:15,830 --> 01:39:13,920

down the next day we came up

2724

01:39:17,669 --> 01:39:15,840

everybody was quiet and they didn't want

2725

01:39:19,590 --> 01:39:17,679

to talk about

2726

01:39:21,750 --> 01:39:19,600

last night's test

2727

01:39:23,910 --> 01:39:21,760

and so they tested something we had

2728

01:39:25,510 --> 01:39:23,920

against that system which we knew had a

2729

01:39:26,390 --> 01:39:25,520

ufo mode

2730

01:39:29,030 --> 01:39:26,400

wow

2731

01:39:30,310 --> 01:39:29,040

that's all i know and so

2732

01:39:32,070 --> 01:39:30,320

john when you're saying that these are

2733

01:39:34,310 --> 01:39:32,080

nuclear tipped and they have a ufo mode

2734

01:39:36,950 --> 01:39:34,320

the implication would be that they would

2735

01:39:40,229 --> 01:39:36,960

be able to attempt to

2736

01:39:42,070 --> 01:39:40,239

nuke a potential uap is that right if it

2737

01:39:42,790 --> 01:39:42,080

stands still for it because i mean you

2738

01:39:44,149 --> 01:39:42,800

know

2739

01:39:49,189 --> 01:39:44,159

kinematic

2740

01:39:56,310 --> 01:39:52,310

some of these missiles can actually

2741

01:39:57,830 --> 01:39:56,320

have 200 g's pull 200 g's

2742

01:40:00,390 --> 01:39:57,840

so they're they're really good pretty

2743

01:40:01,910 --> 01:40:00,400

sure they're really good they're they

2744

01:40:03,750 --> 01:40:01,920

got good systems

2745

01:40:05,270 --> 01:40:03,760

um so

2746

01:40:07,030 --> 01:40:05,280

there you go i mean that's just one

2747

01:40:08,629 --> 01:40:07,040

little tidbit

2748

01:40:10,470 --> 01:40:08,639

uh that i'm putting out there and the

2749

01:40:12,950 --> 01:40:10,480

reason why because the fact that we had

2750

01:40:15,750 --> 01:40:12,960

this system was leaked to the open press

2751  
01:40:16,709 --> 01:40:15,760  
it was no secret

2752  
01:40:18,229 --> 01:40:16,719  
and

2753  
01:40:21,270 --> 01:40:18,239  
as they were driving it out of

2754  
01:40:24,149 --> 01:40:21,280  
huntsville alabama

2755  
01:40:26,870 --> 01:40:24,159  
huntsville uh has um is where uh the

2756  
01:40:29,270 --> 01:40:26,880  
missile space intelligence center is at

2757  
01:40:31,590 --> 01:40:29,280  
and they have systems there that if they

2758  
01:40:33,430 --> 01:40:31,600  
were energized and activated their

2759  
01:40:36,310 --> 01:40:33,440  
soviet and russian systems they could

2760  
01:40:38,070 --> 01:40:36,320  
defend uh half the united states because

2761  
01:40:39,510 --> 01:40:38,080  
those russian systems are that good they

2762  
01:40:40,629 --> 01:40:39,520  
can shoot down anything within half the

2763  
01:40:42,070 --> 01:40:40,639

united states

2764

01:40:44,149 --> 01:40:42,080

because they're russian systems so

2765

01:40:46,229 --> 01:40:44,159

they're they're pretty good stuff

2766

01:40:49,830 --> 01:40:46,239

i'm curious um you mentioned earlier

2767

01:40:51,990 --> 01:40:49,840

that you had some experience as well uh

2768

01:40:53,750 --> 01:40:52,000

when you're referencing your

2769

01:40:55,830 --> 01:40:53,760

you being an experimenter are you talking

2770

01:40:57,430 --> 01:40:55,840

specifically about your experience with

2771

01:40:58,390 --> 01:40:57,440

these sensors from these satellites or

2772

01:41:00,310 --> 01:40:58,400

did you have your own personal

2773

01:41:03,350 --> 01:41:00,320

experience um

2774

01:41:05,270 --> 01:41:03,360

with ufos at another time

2775

01:41:07,350 --> 01:41:05,280

um

2776

01:41:08,709 --> 01:41:07,360

my experience with ufos

2777

01:41:09,830 --> 01:41:08,719

has been through

2778

01:41:13,030 --> 01:41:09,840

um

2779

01:41:14,629 --> 01:41:13,040

what experiences would tell you like

2780

01:41:16,550 --> 01:41:14,639

instances where

2781

01:41:18,870 --> 01:41:16,560

they knew they were awake but they could

2782

01:41:20,629 --> 01:41:18,880

not move

2783

01:41:23,590 --> 01:41:20,639

so i've already related i think in a

2784

01:41:25,830 --> 01:41:23,600

previous interview about

2785

01:41:27,430 --> 01:41:25,840

planting sunflower seeds so they grow

2786

01:41:29,910 --> 01:41:27,440

into sunflowers

2787

01:41:31,830 --> 01:41:29,920

and i said i need to plant sunflowers so

2788

01:41:33,430 --> 01:41:31,840

they know where to find me because i

2789

01:41:34,629 --> 01:41:33,440

want them to take me and not bring me

2790

01:41:35,750 --> 01:41:34,639

back

2791

01:41:37,430 --> 01:41:35,760

i want to go

2792

01:41:39,270 --> 01:41:37,440

i'm tired with you know i'm not i don't

2793

01:41:40,950 --> 01:41:39,280

belong on this planet

2794

01:41:42,310 --> 01:41:40,960

um i'm from somewhere else and i want

2795

01:41:44,310 --> 01:41:42,320

them to take me so i planted these

2796

01:41:46,629 --> 01:41:44,320

sunflower seeds the green sunflowers and

2797

01:41:50,149 --> 01:41:46,639

out

2798

01:41:52,470 --> 01:41:50,159

um i was

2799

01:41:54,390 --> 01:41:52,480

i think i wasn't adolescence then

2800

01:41:56,709 --> 01:41:54,400

yeah i was i like seventh or eighth

2801  
01:41:58,790 --> 01:41:56,719  
grade seventh grade i'd say and i

2802  
01:42:00,709 --> 01:41:58,800  
remember like hands

2803  
01:42:02,629 --> 01:42:00,719  
many hands pulling me out of my bed and

2804  
01:42:05,189 --> 01:42:02,639  
taking me to a craft

2805  
01:42:07,030 --> 01:42:05,199  
and being held by a being and laid down

2806  
01:42:08,709 --> 01:42:07,040  
on a table to be examined

2807  
01:42:10,070 --> 01:42:08,719  
so that was like

2808  
01:42:12,629 --> 01:42:10,080  
an instance where

2809  
01:42:14,310 --> 01:42:12,639  
i encounter with a craft now is it a

2810  
01:42:15,669 --> 01:42:14,320  
dream is this something i dreamed of i

2811  
01:42:17,590 --> 01:42:15,679  
can't tell you

2812  
01:42:19,669 --> 01:42:17,600  
i don't know but that's that's an

2813  
01:42:20,950 --> 01:42:19,679

experience that i had but you said other

2814

01:42:22,629 --> 01:42:20,960

young at the time i was just curious

2815

01:42:23,750 --> 01:42:22,639

yeah i was like seventh grade

2816

01:42:25,590 --> 01:42:23,760

thereabouts

2817

01:42:26,709 --> 01:42:25,600

the other experiences i had after i

2818

01:42:29,590 --> 01:42:26,719

retired

2819

01:42:32,070 --> 01:42:29,600

were actually seeing craft

2820

01:42:32,950 --> 01:42:32,080

and again one of them was interesting in

2821

01:42:35,189 --> 01:42:32,960

that

2822

01:42:36,790 --> 01:42:35,199

i saw craft coming out of the clouds and

2823

01:42:38,870 --> 01:42:36,800

making maneuvers

2824

01:42:41,590 --> 01:42:38,880

like that going back to the clouds and

2825

01:42:43,669 --> 01:42:41,600

the message to me was tell them that we

2826

01:42:44,709 --> 01:42:43,679

hide in the clouds

2827

01:42:46,390 --> 01:42:44,719

okay

2828

01:42:47,750 --> 01:42:46,400

are you hiding in the clouds i don't

2829

01:42:50,229 --> 01:42:47,760

what does that mean i don't know but

2830

01:42:52,149 --> 01:42:50,239

this is an experience i've had wow so i

2831

01:42:55,030 --> 01:42:52,159

had experiences like that the orb

2832

01:42:56,470 --> 01:42:55,040

experience was flying from bwi which is

2833

01:42:57,910 --> 01:42:56,480

baltimore washington international

2834

01:43:00,310 --> 01:42:57,920

baltimore airport

2835

01:43:02,310 --> 01:43:00,320

to lax los angeles

2836

01:43:04,149 --> 01:43:02,320

and i was on a direct flight with a

2837

01:43:06,229 --> 01:43:04,159

friend of mine we're going to a ufo

2838

01:43:10,870 --> 01:43:06,239

conference

2839

01:43:12,470 --> 01:43:10,880

in irvine california

2840

01:43:14,390 --> 01:43:12,480

and on the way there as we were flying

2841

01:43:16,950 --> 01:43:14,400

over the southwest i used to listen to

2842

01:43:18,709 --> 01:43:16,960

channel one united airlines back in the

2843

01:43:21,430 --> 01:43:18,719

day where that you could actually listen

2844

01:43:23,430 --> 01:43:21,440

to the cockpit cons

2845

01:43:25,510 --> 01:43:23,440

that right there tells me that that was

2846

01:43:27,669 --> 01:43:25,520

before 9 11 because after 9 11 you're

2847

01:43:29,030 --> 01:43:27,679

not listening to cop pick cons anymore

2848

01:43:30,870 --> 01:43:29,040

but you know instead of listening to

2849

01:43:32,390 --> 01:43:30,880

country or classical or whatever music

2850

01:43:34,550 --> 01:43:32,400

they were playing in the other stations

2851  
01:43:36,709 --> 01:43:34,560  
or comedy i'll listen to channel one

2852  
01:43:38,310 --> 01:43:36,719  
because i'm such an aviation geek

2853  
01:43:40,790 --> 01:43:38,320  
listening to air traffic control in the

2854  
01:43:42,070 --> 01:43:40,800  
pilot cockpit and the pilot describes

2855  
01:43:44,550 --> 01:43:42,080  
seeing an object

2856  
01:43:46,470 --> 01:43:44,560  
so we have a bright orange object coming

2857  
01:43:47,990 --> 01:43:46,480  
across our

2858  
01:43:50,229 --> 01:43:48,000  
our flight path

2859  
01:43:52,550 --> 01:43:50,239  
and it's right in front of me and and

2860  
01:43:54,550 --> 01:43:52,560  
it's now to the starboard side from port

2861  
01:43:57,830 --> 01:43:54,560  
side to starboard side i looked out the

2862  
01:44:00,390 --> 01:43:57,840  
window and there it was a orange orb

2863  
01:44:03,189 --> 01:44:00,400

it wasn't like a sparkly orange orb it

2864

01:44:06,390 --> 01:44:03,199

was just like solid orange

2865

01:44:07,669 --> 01:44:06,400

and it was like receding and stopped for

2866

01:44:09,830 --> 01:44:07,679

i don't know

2867

01:44:11,430 --> 01:44:09,840

stopped it wasn't really it was moving

2868

01:44:13,510 --> 01:44:11,440

with the craft because i didn't see any

2869

01:44:15,910 --> 01:44:13,520

kind of like we were passing it

2870

01:44:18,310 --> 01:44:15,920

um and then it flowed out

2871

01:44:19,910 --> 01:44:18,320

receded and that was like an orb

2872

01:44:22,149 --> 01:44:19,920

experience and the other orb experience

2873

01:44:26,790 --> 01:44:22,159

i had here in arizona was looking out my

2874

01:44:28,700 --> 01:44:26,800

balcony during a ce6 with mark sims

2875

01:44:31,189 --> 01:44:28,710

experience

2876

01:44:33,189 --> 01:44:31,199

[Applause]

2877

01:44:35,510 --> 01:44:33,199

watch more podcast clips now on our

2878

01:44:37,270 --> 01:44:35,520

youtube channel go to livewire podcast
