1
00:00:44,950 --> 00:00:16,770

[Music]

2
00:00:48,950 --> 00:00:46,709

hello and welcome to the show i'm martin

3
00:00:51,350 --> 00:00:48,960

willis your host and we have got a heck

4
00:00:52,709 --> 00:00:51,360

of a show for you this evening we have

5
00:00:54,229 --> 00:00:52,719

john ramirez

6
00:00:56,310 --> 00:00:54,239

uh he has

7
00:00:57,029 --> 00:00:56,320

been on a few shows lately i wanted to

8
00:00:59,670 --> 00:00:57,039

get

9
00:01:01,510 --> 00:00:59,680

him on right away luckily i was able to

10
00:01:04,549 --> 00:01:01,520

get him for tonight

11
00:01:06,870 --> 00:01:04,559

a former cia he's shown me documents i

12
00:01:10,710 --> 00:01:06,880

know it's hard to prove someone um was

13
00:01:15,429 --> 00:01:10,720

in the cia he also i'll show later on

14

00:01:17,270 --> 00:01:15,439

he shared on my friend over in l.a uh

15

00:01:19,910 --> 00:01:17,280

lewis he shared on his show the other

16

00:01:23,510 --> 00:01:19,920

day unidentified celebrity review

17

00:01:25,190 --> 00:01:23,520

his uh medal of uh the award he had for

18

00:01:28,710 --> 00:01:25,200

years of service with central

19

00:01:30,550 --> 00:01:28,720

intelligence so uh anyway he's uh

20

00:01:32,550 --> 00:01:30,560

there's no problem with his background

21

00:01:35,270 --> 00:01:32,560

it's a very interesting story

22

00:01:36,950 --> 00:01:35,280

and i'm really excited to talk to him

23

00:01:39,109 --> 00:01:36,960

and he really does know his his

24

00:01:41,510 --> 00:01:39,119

background inside and out which was uh

25

00:01:42,950 --> 00:01:41,520

ballistic missiles and uh we can be

26

00:01:45,510 --> 00:01:42,960

talking a little bit about that just to

27

00:01:48,789 --> 00:01:45,520

hear some really interesting facts a

28

00:01:51,749 --> 00:01:48,799

couple things uh i decided to resurrect

29

00:01:53,190 --> 00:01:51,759

um the everything else show for those of

30

00:01:55,270 --> 00:01:53,200

you that have been watching my show for

31

00:01:57,990 --> 00:01:55,280

a long time i used to have a separate

32

00:02:00,950 --> 00:01:58,000

website and then i believe it was on on

33

00:02:03,910 --> 00:02:00,960

monday every monday i was running a show

34

00:02:06,310 --> 00:02:03,920

about other things other topics

35

00:02:08,389 --> 00:02:06,320

which i love doing it's just i did not

36

00:02:10,710 --> 00:02:08,399

have the time and so i thought about

37

00:02:14,070 --> 00:02:10,720

this the other day and thought about why

38

00:02:16,790 --> 00:02:14,080

not i do that show again on other topics

39

00:02:18,470 --> 00:02:16,800

on this youtube channel only

40

00:02:20,630 --> 00:02:18,480

with the only announcement that you're

41

00:02:22,949 --> 00:02:20,640

really going to be getting is i will put

42

00:02:23,910 --> 00:02:22,959

it in my weekly newsletter which you can

43

00:02:25,150 --> 00:02:23,920

get to

44

00:02:27,830 --> 00:02:25,160

by going to

45

00:02:30,229 --> 00:02:27,840

podcastufo.com and right down on the

46

00:02:31,750 --> 00:02:30,239

sidebar you'll see a sign up for that

47

00:02:33,589 --> 00:02:31,760

you just pop your email address in

48

00:02:35,830 --> 00:02:33,599

confirm your email and then you'll get

49

00:02:37,589 --> 00:02:35,840

and you'll get a newsletter once a week

50

00:02:39,990 --> 00:02:37,599

from me announcing

51

00:02:43,110 --> 00:02:40,000

this show in particular and

52

00:02:45,750 --> 00:02:43,120

the great blogs that charles does by the

53

00:02:48,150 --> 00:02:45,760

way this week it is a woman this is a

54

00:02:51,270 --> 00:02:48,160

recent ufo

55

00:02:52,790 --> 00:02:51,280

uh experience that happened supposedly

56

00:02:56,070 --> 00:02:52,800

to a woman happened back in november

57

00:02:57,190 --> 00:02:56,080

17th and the title to this week's blog

58

00:02:59,990 --> 00:02:57,200

is a woman

59

00:03:01,910 --> 00:03:00,000

uh transported by a ufo in argentina so

60

00:03:04,550 --> 00:03:01,920

check that out

61

00:03:07,589 --> 00:03:04,560

um thank you chris lambricht i just got

62

00:03:08,710 --> 00:03:07,599

a note from him pretty funny uh so

63

00:03:09,589 --> 00:03:08,720

anyway

64

00:03:10,630 --> 00:03:09,599

uh

65

00:03:13,509 --> 00:03:10,640

that

66

00:03:15,270 --> 00:03:13,519

uh the everything else show is gonna be

67

00:03:17,990 --> 00:03:15,280

resurrected it's gonna be different and

68

00:03:20,470 --> 00:03:18,000

how the way i can do that this time is

69

00:03:22,790 --> 00:03:20,480

that i'm not going to worry about

70

00:03:24,550 --> 00:03:22,800

having a show on a particular night i'm

71

00:03:26,949 --> 00:03:24,560

just going to have it whenever it's

72

00:03:29,830 --> 00:03:26,959

going to be convenient

73

00:03:31,750 --> 00:03:29,840

for a guest and myself on any given

74

00:03:34,630 --> 00:03:31,760

particular evening

75

00:03:35,990 --> 00:03:34,640

so the best way to be able to watch

76

00:03:37,750 --> 00:03:36,000

those shows

77

00:03:39,509 --> 00:03:37,760

is you just want to subscribe to this

78

00:03:41,589 --> 00:03:39,519

channel and click the little bell and

79

00:03:44,390 --> 00:03:41,599

that will give you the notification of

80

00:03:45,670 --> 00:03:44,400

when i do my live show live stream has

81

00:03:47,670 --> 00:03:45,680

been uh

82

00:03:49,910 --> 00:03:47,680

you know is up and ready to go so you'll

83

00:03:51,430 --> 00:03:49,920

get a notice that way or again you can

84

00:03:53,190 --> 00:03:51,440

sign up at the mailing list at my

85

00:03:54,949 --> 00:03:53,200

website

86

00:03:56,630 --> 00:03:54,959

and i already have a couple people lined

87

00:03:58,070 --> 00:03:56,640

up i have a what i think is going to be

88

00:03:59,830 --> 00:03:58,080

an interesting show it may not be

89

00:04:01,750 --> 00:03:59,840

interesting to a lot of people but i

90

00:04:03,270 --> 00:04:01,760

made a friend in russia he speaks

91

00:04:05,830 --> 00:04:03,280

perfect english she actually went to

92

00:04:06,869 --> 00:04:05,840

school in maine the the state that i

93

00:04:09,750 --> 00:04:06,879

live in

94

00:04:12,630 --> 00:04:09,760

and uh i was talking to him recently

95

00:04:14,630 --> 00:04:12,640

about the corruption in russia because

96

00:04:16,949 --> 00:04:14,640

uh it's really

97

00:04:19,830 --> 00:04:16,959

very very interesting

98

00:04:21,830 --> 00:04:19,840

so i asked some i said hey would you

99

00:04:25,590 --> 00:04:21,840

can i interview you about this this is

100

00:04:27,110 --> 00:04:25,600

fascinating and just the way it works

101
00:04:29,430 --> 00:04:27,120
over there and how

102
00:04:31,670 --> 00:04:29,440
um the trickle down of this uh

103
00:04:33,110 --> 00:04:31,680
corruption works it's really really

104
00:04:35,510 --> 00:04:33,120
fascinating i hope he doesn't get in

105
00:04:37,749 --> 00:04:35,520
trouble but uh by talking about it but

106
00:04:39,830 --> 00:04:37,759
he's going to be on the show on the 27th

107
00:04:42,230 --> 00:04:39,840
a couple days after christmas which is a

108
00:04:44,310 --> 00:04:42,240
monday i believe at two o'clock in the

109
00:04:46,469 --> 00:04:44,320
afternoon because it's convenient for

110
00:04:48,870 --> 00:04:46,479
him as far as the timing goes and

111
00:04:51,270 --> 00:04:48,880
they're i believe eight hours behind so

112
00:04:52,710 --> 00:04:51,280
anyway if you if you click the subscribe

113
00:04:55,110 --> 00:04:52,720

button and the little bell you'll get to

114

00:04:57,430 --> 00:04:55,120

see who the shows are they may not be

115

00:04:59,510 --> 00:04:57,440

every week they may be every other week

116

00:05:01,510 --> 00:04:59,520

uh they're going to be on random days

117

00:05:04,550 --> 00:05:01,520

but i will be talking on all kinds of

118

00:05:07,189 --> 00:05:04,560

topics on not related to ufos maybe this

119

00:05:10,629 --> 00:05:07,199

is going to be some crossover but anyway

120

00:05:12,550 --> 00:05:10,639

that uh just keep that in mind it's uh i

121

00:05:13,670 --> 00:05:12,560

i enjoy these other topics and i'd like

122

00:05:15,670 --> 00:05:13,680

to talk

123

00:05:16,390 --> 00:05:15,680

to people about them

124

00:05:18,710 --> 00:05:16,400

so

125

00:05:20,710 --> 00:05:18,720

uh i think that's going to be it next

126
00:05:22,310 --> 00:05:20,720
week's guest is shane hurd but uh before

127
00:05:24,070 --> 00:05:22,320
i move on to our guests i do want to say

128
00:05:27,350 --> 00:05:24,080
one thing at the break at the top of the

129
00:05:30,310 --> 00:05:27,360
hour we have a four-minute clip of a

130
00:05:31,909 --> 00:05:30,320
gentleman from mystic connecticut

131
00:05:34,870 --> 00:05:31,919
talking about

132
00:05:36,790 --> 00:05:34,880
his ufo encounter when he was 17.

133
00:05:38,790 --> 00:05:36,800
the full version of that is going to be

134
00:05:39,830 --> 00:05:38,800
released at midnight and i gotta tell

135
00:05:44,710 --> 00:05:39,840
you

136
00:05:47,110 --> 00:05:44,720
i'm going to put the link of that

137
00:05:49,510 --> 00:05:47,120
in the show notes and also going to post

138
00:05:53,510 --> 00:05:49,520

it under this youtube video

139

00:05:55,110 --> 00:05:53,520

the link to that but it is an amazing

140

00:05:55,909 --> 00:05:55,120

encounter i haven't heard something like

141

00:05:57,590 --> 00:05:55,919

this

142

00:05:59,189 --> 00:05:57,600

uh i've never heard anything like it

143

00:06:01,510 --> 00:05:59,199

before and

144

00:06:02,870 --> 00:06:01,520

it's fascinating uh so check that out

145

00:06:04,870 --> 00:06:02,880

that will be released at midnight

146

00:06:07,510 --> 00:06:04,880

there's a four minute clip where he only

147

00:06:09,110 --> 00:06:07,520

gets into describing the craft itself

148

00:06:10,629 --> 00:06:09,120

and i kind of have to cut him off

149

00:06:12,469 --> 00:06:10,639

because it took four minutes to get

150

00:06:14,950 --> 00:06:12,479

there so uh you're going to want to

151

00:06:15,990 --> 00:06:14,960

check that clip out um on this youtube

152

00:06:18,870 --> 00:06:16,000

channel

153

00:06:21,830 --> 00:06:18,880

and his name is albert wayne and you'll

154

00:06:23,590 --> 00:06:21,840

see the clip up uh anyway check that out

155

00:06:25,749 --> 00:06:23,600

so that's it that's enough blabbing for

156

00:06:27,510 --> 00:06:25,759

me i just appreciate all that support

157

00:06:29,990 --> 00:06:27,520

the show anyone can do that again it's

158

00:06:32,790 --> 00:06:30,000

over at podcastufo.com

159

00:06:35,110 --> 00:06:32,800

patreon a link is right there and thanks

160

00:06:36,790 --> 00:06:35,120

so much everyone for watching our show

161

00:06:38,309 --> 00:06:36,800

and here comes our guest welcome to the

162

00:06:40,469 --> 00:06:38,319

show john

163

00:06:44,629 --> 00:06:40,479

hi martin thanks for having me on

164

00:06:45,990 --> 00:06:44,639

yes john uh thank you very much uh and i

165

00:06:48,469 --> 00:06:46,000

have listened to a couple different

166

00:06:51,830 --> 00:06:48,479

shows i'm very fascinated

167

00:06:53,670 --> 00:06:51,840

by uh by you and i guess you know with

168

00:06:55,270 --> 00:06:53,680

your cia background

169

00:06:56,629 --> 00:06:55,280

first of all i guess the first thing i

170

00:06:59,029 --> 00:06:56,639

want to ask you before we get into

171

00:07:03,510 --> 00:06:59,039

anything is at this point what made you

172

00:07:06,550 --> 00:07:03,520

decide to start talking about this well

173

00:07:08,629 --> 00:07:06,560

actually 2017 was the pivotal year i

174

00:07:10,950 --> 00:07:08,639

think in ufology with the release of the

175

00:07:12,550 --> 00:07:10,960

tic tac video and the other videos that

176
00:07:13,430 --> 00:07:12,560
were released

177
00:07:14,390 --> 00:07:13,440
and

178
00:07:17,749 --> 00:07:14,400
i

179
00:07:20,150 --> 00:07:17,759
of

180
00:07:21,189 --> 00:07:20,160
bought into the asap narrative starting

181
00:07:23,189 --> 00:07:21,199
everything

182
00:07:25,830 --> 00:07:23,199
and then a tip all sap no matter what

183
00:07:27,110 --> 00:07:25,840
the alphabet soup might have been

184
00:07:29,510 --> 00:07:27,120
um

185
00:07:31,990 --> 00:07:29,520
the actual interest by the government

186
00:07:35,430 --> 00:07:32,000
has always existed and everyone knows

187
00:07:37,830 --> 00:07:35,440
that but the really deep down deep dive

188
00:07:40,230 --> 00:07:37,840

into this entire subject

189

00:07:41,830 --> 00:07:40,240
occurred when we were able to actually

190

00:07:43,990 --> 00:07:41,840
see these orbs

191

00:07:45,189 --> 00:07:44,000
through sensors we have deployed in

192

00:07:47,270 --> 00:07:45,199
space

193

00:07:50,469 --> 00:07:47,280
and before that

194

00:07:52,710 --> 00:07:50,479
we've had like videos of craft and

195

00:07:55,029 --> 00:07:52,720
pictures of craft and we've all seen

196

00:07:57,510 --> 00:07:55,039
these these videos and pictures and we

197

00:07:59,990 --> 00:07:57,520
have eyewitness accounts so here was an

198

00:08:01,830 --> 00:08:00,000
instance where the us government through

199

00:08:05,670 --> 00:08:01,840
sensors in space

200

00:08:07,830 --> 00:08:05,680
uh has seen these orbs in flight

201
00:08:09,990 --> 00:08:07,840
and so that really elevated the

202
00:08:11,670 --> 00:08:10,000
discussion within the government that

203
00:08:13,670 --> 00:08:11,680
these are not just metallic craft

204
00:08:15,909 --> 00:08:13,680
visiting us but these are

205
00:08:17,830 --> 00:08:15,919
some other form of

206
00:08:19,430 --> 00:08:17,840
transportation if you will

207
00:08:21,830 --> 00:08:19,440
visiting the planet

208
00:08:23,110 --> 00:08:21,840
and so that

209
00:08:24,629 --> 00:08:23,120
fact the

210
00:08:26,550 --> 00:08:24,639
working group that

211
00:08:29,589 --> 00:08:26,560
was established

212
00:08:31,830 --> 00:08:29,599
to deep dive into these orbs

213
00:08:34,389 --> 00:08:31,840

that fact was missing from the narrative

214

00:08:35,670 --> 00:08:34,399

and so when i went to cia with my

215

00:08:37,190 --> 00:08:35,680

presentation

216

00:08:38,630 --> 00:08:37,200

and granted the first part of that

217

00:08:41,190 --> 00:08:38,640

presentation was

218

00:08:41,909 --> 00:08:41,200

basically nuts and bolts into

219

00:08:42,870 --> 00:08:41,919

the

220

00:08:45,670 --> 00:08:42,880

ic

221

00:08:47,750 --> 00:08:45,680

itself a lot of alphabet soup of

222

00:08:50,070 --> 00:08:47,760

different agencies

223

00:08:51,750 --> 00:08:50,080

three letter agencies and whatnot

224

00:08:54,470 --> 00:08:51,760

i added the

225

00:08:56,310 --> 00:08:54,480

part where i wanted to

226

00:08:58,389 --> 00:08:56,320

introduce what would the

227

00:08:59,670 --> 00:08:58,399

ic today

228

00:09:01,990 --> 00:08:59,680

do with a

229

00:09:04,870 --> 00:09:02,000

uap type of

230

00:09:06,389 --> 00:09:04,880

encounter through our sensor systems

231

00:09:08,389 --> 00:09:06,399

and i expect that to be completely

232

00:09:11,430 --> 00:09:08,399

redacted but it wasn't and so i was

233

00:09:14,230 --> 00:09:11,440

surprised and so that led me to do my

234

00:09:17,110 --> 00:09:14,240

own further research into let's go back

235

00:09:20,470 --> 00:09:17,120

to uh right after world war ii

236

00:09:22,070 --> 00:09:20,480

and why was roswell such a secret if it

237

00:09:25,110 --> 00:09:22,080

was

238

00:09:27,430 --> 00:09:25,120

a spacecraft from another world not

239

00:09:29,190 --> 00:09:27,440

earth and it had beings from another

240

00:09:30,870 --> 00:09:29,200

world not earth wouldn't that be of

241

00:09:32,550 --> 00:09:30,880

scientific interest

242

00:09:36,870 --> 00:09:32,560

why was that

243

00:09:39,350 --> 00:09:36,880

a military secret and so i did a die for

244

00:09:40,790 --> 00:09:39,360

myself into that and then discovered the

245

00:09:44,550 --> 00:09:40,800

links between

246

00:09:47,350 --> 00:09:44,560

uh the government and um the

247

00:09:51,990 --> 00:09:47,360

nazis that were here who were

248

00:09:54,230 --> 00:09:52,000

uh more involved in the esoteric side of

249

00:09:56,949 --> 00:09:54,240

the nazi philosophy and i introduced the

250

00:09:58,949 --> 00:09:56,959

uh an interview and their quest to find

251
00:10:00,470 --> 00:09:58,959
the roots of the aryan race

252
00:10:02,310 --> 00:10:00,480
the atlanteans

253
00:10:05,829 --> 00:10:02,320
and what they uh

254
00:10:09,110 --> 00:10:05,839
wrote about and so that documentation

255
00:10:12,949 --> 00:10:09,120
seemed to have been transferred from

256
00:10:14,630 --> 00:10:12,959
uh the germans to the americans through

257
00:10:17,670 --> 00:10:14,640
an organization

258
00:10:19,670 --> 00:10:17,680
that was charged with finding like

259
00:10:21,590 --> 00:10:19,680
archives and evidence and finding the

260
00:10:23,590 --> 00:10:21,600
scientists and so forth

261
00:10:25,509 --> 00:10:23,600
and already it was established in

262
00:10:28,470 --> 00:10:25,519
january of 1946 this central

263
00:10:32,069 --> 00:10:28,480

intelligence group the predecessor to

264

00:10:34,949 --> 00:10:32,079

cia but the successor to the oss and so

265

00:10:37,430 --> 00:10:34,959

the cig was already in place

266

00:10:39,910 --> 00:10:37,440

um as part of the national security

267

00:10:42,389 --> 00:10:39,920

state of the united states

268

00:10:44,790 --> 00:10:42,399

when roswell happened and did that play

269

00:10:46,550 --> 00:10:44,800

a role in like

270

00:10:48,150 --> 00:10:46,560

squashing the story

271

00:10:51,910 --> 00:10:48,160

and for what reason

272

00:10:54,150 --> 00:10:51,920

um and so from there um

273

00:10:56,470 --> 00:10:54,160

i went i went into

274

00:10:58,310 --> 00:10:56,480

uh various other uh studies that the

275

00:11:02,069 --> 00:10:58,320

government did in terms of the dome of

276
00:11:05,110 --> 00:11:02,079
light phenomena and from there i jumped

277
00:11:07,269 --> 00:11:05,120
into what i learned at a

278
00:11:10,310 --> 00:11:07,279
meeting it wasn't a conference it's more

279
00:11:12,470 --> 00:11:10,320
of a one-day symposium

280
00:11:13,990 --> 00:11:12,480
at a hotel that was unclassified it's

281
00:11:16,150 --> 00:11:14,000
hard for me to believe that it was

282
00:11:17,990 --> 00:11:16,160
unclassified

283
00:11:19,910 --> 00:11:18,000
and i was able to enter

284
00:11:22,069 --> 00:11:19,920
as i stated with my cell phone with no

285
00:11:23,990 --> 00:11:22,079
id whatsoever

286
00:11:26,870 --> 00:11:24,000
no badges

287
00:11:30,310 --> 00:11:26,880
completely open inside this conference

288
00:11:32,550 --> 00:11:30,320

room was not a skiff and to hear what i

289

00:11:34,870 --> 00:11:32,560

heard and said okay there's

290

00:11:37,190 --> 00:11:34,880

something to this story and they related

291

00:11:38,630 --> 00:11:37,200

to the fact that they went back to after

292

00:11:41,269 --> 00:11:38,640

world war ii

293

00:11:43,590 --> 00:11:41,279

um for this hybrid story and they didn't

294

00:11:45,590 --> 00:11:43,600

present any evidence so when they say i

295

00:11:47,190 --> 00:11:45,600

have no evidence i agree with you i

296

00:11:48,790 --> 00:11:47,200

don't have any evidence

297

00:11:51,190 --> 00:11:48,800

all i have is

298

00:11:52,470 --> 00:11:51,200

these two top officials

299

00:11:54,230 --> 00:11:52,480

saying that

300

00:11:56,389 --> 00:11:54,240

the cia has been interested in the

301

00:11:59,269 --> 00:11:56,399

hybridization of humans and that

302

00:12:01,110 --> 00:11:59,279

discovered alien dna in the human genome

303

00:12:01,990 --> 00:12:01,120

that's what they told me

304

00:12:04,230 --> 00:12:02,000

so

305

00:12:06,069 --> 00:12:04,240

if i get permission to use their names

306

00:12:08,069 --> 00:12:06,079

and they're still alive if i get

307

00:12:11,350 --> 00:12:08,079

permission to use their names then that

308

00:12:13,030 --> 00:12:11,360

offers another avenue for researchers to

309

00:12:16,310 --> 00:12:13,040

actually knock on their doors and ring

310

00:12:17,829 --> 00:12:16,320

their phones to say hey you know

311

00:12:19,269 --> 00:12:17,839

where's the evidence how did you know

312

00:12:21,110 --> 00:12:19,279

this yourself

313

00:12:21,910 --> 00:12:21,120

that they told me and others in that

314

00:12:22,829 --> 00:12:21,920

room

315

00:12:25,269 --> 00:12:22,839

uh

316

00:12:27,509 --> 00:12:25,279

about alien dna

317

00:12:29,990 --> 00:12:27,519

and so that's where i'm at right now

318

00:12:31,269 --> 00:12:30,000

um and in conjunction with that uh i

319

00:12:34,470 --> 00:12:31,279

wanted to

320

00:12:36,310 --> 00:12:34,480

get my medical records from cia

321

00:12:39,590 --> 00:12:36,320

and as a separate process it's not a

322

00:12:41,430 --> 00:12:39,600

foia process for employees or former

323

00:12:43,190 --> 00:12:41,440

employees of cia we go through a

324

00:12:45,350 --> 00:12:43,200

different internal channel

325

00:12:47,910 --> 00:12:45,360

where we can self-identify as cia

326
00:12:50,069 --> 00:12:47,920
officers because i have a secret number

327
00:12:51,750 --> 00:12:50,079
i was at i said that's not

328
00:12:53,269 --> 00:12:51,760
double-oh-seven but there is a number

329
00:12:55,350 --> 00:12:53,279
that they can look up and then actually

330
00:12:57,670 --> 00:12:55,360
say yeah this guy is cia

331
00:12:59,110 --> 00:12:57,680
and so i requested my medical records

332
00:13:01,430 --> 00:12:59,120
and i'm still waiting on them they

333
00:13:03,829 --> 00:13:01,440
acknowledge receiving my request

334
00:13:06,150 --> 00:13:03,839
and i'm just still waiting on them to

335
00:13:08,069 --> 00:13:06,160
deliver to me my medical records i want

336
00:13:09,750 --> 00:13:08,079
to see what my medical records might say

337
00:13:11,670 --> 00:13:09,760
about

338
00:13:13,190 --> 00:13:11,680

any kind of high strangeness that cia

339

00:13:15,990 --> 00:13:13,200

found

340

00:13:18,069 --> 00:13:16,000

huh now when you say that

341

00:13:20,150 --> 00:13:18,079

these the hybrid

342

00:13:21,430 --> 00:13:20,160

situation you know that's what that's

343

00:13:23,509 --> 00:13:21,440

what a lot of people are getting stuck

344

00:13:25,350 --> 00:13:23,519

on when they're watching you but when

345

00:13:26,550 --> 00:13:25,360

you're saying that um i just wanted to

346

00:13:29,590 --> 00:13:26,560

clear something up because it was a

347

00:13:31,190 --> 00:13:29,600

little confusing to me and that is

348

00:13:35,069 --> 00:13:31,200

are you saying that there's

349

00:13:38,629 --> 00:13:35,079

hyper uh the hybrids are from

350

00:13:40,310 --> 00:13:38,639

1946 or 47 forward or are you saying

351
00:13:42,710 --> 00:13:40,320
that's when you discovered something

352
00:13:45,750 --> 00:13:42,720
that's when the government discovered

353
00:13:46,710 --> 00:13:45,760
that the human genome contained alien

354
00:13:49,350 --> 00:13:46,720
dna

355
00:13:51,990 --> 00:13:49,360
and and how i just i'm not a scientist

356
00:13:54,230 --> 00:13:52,000
in any type of way but how would they

357
00:13:55,829 --> 00:13:54,240
know alien from

358
00:13:59,110 --> 00:13:55,839
i mean

359
00:14:01,590 --> 00:13:59,120
do we so i give credence to the fact

360
00:14:04,870 --> 00:14:01,600
that roswell actually happened

361
00:14:06,949 --> 00:14:04,880
and i'll i believe personally that

362
00:14:09,910 --> 00:14:06,959
bodies were recovered

363
00:14:11,269 --> 00:14:09,920

and if these bodies were examined

364

00:14:14,069 --> 00:14:11,279

um and then

365

00:14:15,590 --> 00:14:14,079

their dna was examined

366

00:14:17,590 --> 00:14:15,600

and they know what that

367

00:14:20,470 --> 00:14:17,600

alien genome look like and they look at

368

00:14:23,350 --> 00:14:20,480

humans and they can identify the same

369

00:14:25,350 --> 00:14:23,360

sequences in human genome i think that's

370

00:14:28,230 --> 00:14:25,360

what led them to believe that there's an

371

00:14:30,470 --> 00:14:28,240

hybridization of of humans

372

00:14:32,949 --> 00:14:30,480

and they further said

373

00:14:35,829 --> 00:14:32,959

in this one day symposium that there are

374

00:14:38,790 --> 00:14:35,839

familial lines they're families

375

00:14:44,710 --> 00:14:38,800

that have not only alien dna but

376

00:14:45,910 --> 00:14:44,720

enhanced alien dna of interest to cia

377

00:14:49,110 --> 00:14:45,920

i'm so

378

00:14:51,350 --> 00:14:49,120

okay so it was like

379

00:14:53,110 --> 00:14:51,360

there wasn't knowledge before

380

00:14:54,710 --> 00:14:53,120

world war at the end of world war ii

381

00:14:57,269 --> 00:14:54,720

there was no cia there was no

382

00:14:58,629 --> 00:14:57,279

intelligence community per se but we

383

00:15:01,910 --> 00:14:58,639

know that

384

00:15:04,470 --> 00:15:01,920

that roswell happened in july of 47

385

00:15:06,710 --> 00:15:04,480

and so to me it's a logical

386

00:15:09,269 --> 00:15:06,720

to me it was a logical leap

387

00:15:10,230 --> 00:15:09,279

that it was during that time

388

00:15:13,509 --> 00:15:10,240

when

389

00:15:15,189 --> 00:15:13,519

if we believe in uh curtis corso if you

390

00:15:18,069 --> 00:15:15,199

believe in eyewitnesses

391

00:15:20,069 --> 00:15:18,079

if we believe the roswell's story

392

00:15:21,590 --> 00:15:20,079

then we know that the bodies were

393

00:15:23,350 --> 00:15:21,600

recovered

394

00:15:25,990 --> 00:15:23,360

and we have to believe that those bodies

395

00:15:27,910 --> 00:15:26,000

were examined somewhere

396

00:15:29,670 --> 00:15:27,920

and we have to believe that you know

397

00:15:33,430 --> 00:15:29,680

they were able to sequence something in

398

00:15:35,829 --> 00:15:33,440

those bodies that look like a genome

399

00:15:39,030 --> 00:15:35,839

and from there they make they check the

400

00:15:40,790 --> 00:15:39,040

human genome and saw the correlations

401

00:15:42,710 --> 00:15:40,800

that's what i believe

402

00:15:44,870 --> 00:15:42,720

because that's what i was told now i

403

00:15:47,670 --> 00:15:44,880

don't have any evidence evidence of that

404

00:15:49,670 --> 00:15:47,680

but i by by releasing these names i

405

00:15:50,790 --> 00:15:49,680

would hope that serious researchers and

406

00:15:52,710 --> 00:15:50,800

journalists

407

00:15:54,790 --> 00:15:52,720

would contact these people

408

00:15:56,949 --> 00:15:54,800

and trying to get the story down if they

409

00:15:57,829 --> 00:15:56,959

would even admit to the story but i

410

00:15:59,670 --> 00:15:57,839

heard it

411

00:16:01,670 --> 00:15:59,680

with my own ears

412

00:16:03,990 --> 00:16:01,680

and i can identify two other cia

413

00:16:05,910 --> 00:16:04,000

officers that were not presenting

414

00:16:07,509 --> 00:16:05,920

uh that also heard it

415

00:16:09,189 --> 00:16:07,519

as well and i need permission to release

416

00:16:10,870 --> 00:16:09,199

their names

417

00:16:12,870 --> 00:16:10,880

yeah um

418

00:16:14,550 --> 00:16:12,880

now i thought my well first of all i

419

00:16:15,910 --> 00:16:14,560

just want to show these two things this

420

00:16:18,629 --> 00:16:15,920

is uh your

421

00:16:21,590 --> 00:16:18,639

your medallion yeah and um and then also

422

00:16:23,590 --> 00:16:21,600

the certificate that came with that um

423

00:16:26,710 --> 00:16:23,600

that i don't think as you said you're

424

00:16:29,269 --> 00:16:26,720

not going to exactly buy them on ebay so

425

00:16:31,269 --> 00:16:29,279

anyway thank you for showing that but um

426

00:16:33,350 --> 00:16:31,279

i was under the understanding that we

427

00:16:35,430 --> 00:16:33,360

hadn't been studying the genome that

428

00:16:36,949 --> 00:16:35,440

long i thought it was uh

429

00:16:39,110 --> 00:16:36,959

i thought it was uh

430

00:16:41,829 --> 00:16:39,120

later on in the century that we've been

431

00:16:45,269 --> 00:16:41,839

studying i don't i don't know dna was

432

00:16:47,350 --> 00:16:45,279

yeah dna was discovered in the mid 1800s

433

00:16:49,990 --> 00:16:47,360

but as far as by the germans but

434

00:16:52,710 --> 00:16:50,000

studying the genome has not been around

435

00:16:54,069 --> 00:16:52,720

its sequencing was very difficult to do

436

00:16:59,269 --> 00:16:54,079

so

437

00:17:01,590 --> 00:16:59,279

believe was 2001 when this one-day

438

00:17:03,110 --> 00:17:01,600

symposium occurred

439

00:17:04,949 --> 00:17:03,120

by that time

440

00:17:06,309 --> 00:17:04,959

we've sequenced

441

00:17:08,710 --> 00:17:06,319

or at least

442

00:17:13,590 --> 00:17:08,720

the government knew the government has

443

00:17:16,150 --> 00:17:13,600

sequenced this dna both in humans and in

444

00:17:17,350 --> 00:17:16,160

whatever bodies they recovered otherwise

445

00:17:19,429 --> 00:17:17,360

i don't think they would have been able

446

00:17:21,350 --> 00:17:19,439

to make that statement to that group of

447

00:17:24,630 --> 00:17:21,360

people which included

448

00:17:27,350 --> 00:17:24,640

uh academics.edu

449

00:17:28,950 --> 00:17:27,360

professors from various universities

450

00:17:30,710 --> 00:17:28,960

so it wasn't just a government held

451
00:17:33,190 --> 00:17:30,720
secret i mean some of that information

452
00:17:34,789 --> 00:17:33,200
was shared to academics

453
00:17:36,630 --> 00:17:34,799
if you want to call them the invisible

454
00:17:39,190 --> 00:17:36,640
college you can

455
00:17:41,510 --> 00:17:39,200
but there's it to me it was obvious that

456
00:17:43,830 --> 00:17:41,520
there were people in universities

457
00:17:47,029 --> 00:17:43,840
who worked with the government to study

458
00:17:49,430 --> 00:17:47,039
this phenomenon

459
00:17:50,789 --> 00:17:49,440
okay um just just a quick a quick

460
00:17:51,590 --> 00:17:50,799
question about your

461
00:17:52,789 --> 00:17:51,600
um

462
00:17:54,230 --> 00:17:52,799
about your career because it was

463
00:17:57,270 --> 00:17:54,240

something i meant to ask you in the very

464

00:18:01,110 --> 00:17:57,280

beginning and i have a friend that's um

465

00:18:03,430 --> 00:18:01,120

that did work for the cia um and that i

466

00:18:05,430 --> 00:18:03,440

know uh that i've known over the last i

467

00:18:07,350 --> 00:18:05,440

don't know maybe four or five years and

468

00:18:08,390 --> 00:18:07,360

he said that

469

00:18:11,190 --> 00:18:08,400

um

470

00:18:13,750 --> 00:18:11,200

it was unusual for somebody that to have

471

00:18:16,070 --> 00:18:13,760

worked for both the dst and the di

472

00:18:18,710 --> 00:18:16,080

the di of course is strictly analytic

473

00:18:21,110 --> 00:18:18,720

and the dst is strictly scientific

474

00:18:22,150 --> 00:18:21,120

unless there was some strange congruence

475

00:18:24,789 --> 00:18:22,160

it would be

476

00:18:27,270 --> 00:18:24,799

a rather unusual career can you address

477

00:18:30,070 --> 00:18:27,280

why you were involved in both

478

00:18:32,390 --> 00:18:30,080

absolutely um the office was originally

479

00:18:34,789 --> 00:18:32,400

in the dsmt and was called the office of

480

00:18:37,590 --> 00:18:34,799

seeking operations and there was a lab

481

00:18:39,590 --> 00:18:37,600

there a signals analysis lab and it was

482

00:18:42,630 --> 00:18:39,600

all in the dsmt

483

00:18:43,830 --> 00:18:42,640

now what occurred was a bifurcation of

484

00:18:45,350 --> 00:18:43,840

that office

485

00:18:47,830 --> 00:18:45,360

where the

486

00:18:50,630 --> 00:18:47,840

inlet side and the telemetry side of

487

00:18:52,870 --> 00:18:50,640

that office went to the di

488

00:18:53,990 --> 00:18:52,880

under oswr

489

00:18:56,310 --> 00:18:54,000

and you can

490

00:18:57,909 --> 00:18:56,320

ask your friend about oswr if he's been

491

00:19:00,789 --> 00:18:57,919

around a long time he knows what that

492

00:19:02,070 --> 00:19:00,799

office did so they adopted uh several of

493

00:19:04,789 --> 00:19:02,080

our branches

494

00:19:06,870 --> 00:19:04,799

that dealt with weapon systems to better

495

00:19:10,070 --> 00:19:06,880

interface with those who worked with the

496

00:19:11,669 --> 00:19:10,080

actual systems we did the signals they

497

00:19:14,070 --> 00:19:11,679

did the systems

498

00:19:15,990 --> 00:19:14,080

and they themselves worked with what we

499

00:19:18,630 --> 00:19:16,000

call military analysts in the regional

500

00:19:21,029 --> 00:19:18,640

offices of the di so if it's a russian

501
00:19:22,470 --> 00:19:21,039
system uh they worked with the office of

502
00:19:24,470 --> 00:19:22,480
soviet analysis the military

503
00:19:26,710 --> 00:19:24,480
intelligence officers in the office of

504
00:19:30,070 --> 00:19:26,720
soviet analysis the part that they left

505
00:19:31,590 --> 00:19:30,080
behind are strictly ds and t parts

506
00:19:34,150 --> 00:19:31,600
that dealt with

507
00:19:37,990 --> 00:19:34,160
communications intelligence

508
00:19:39,350 --> 00:19:38,000
stayed with the director of science and

509
00:19:41,270 --> 00:19:39,360
technology

510
00:19:43,190 --> 00:19:41,280
and the office then was called not

511
00:19:46,549 --> 00:19:43,200
offices sign operations that was called

512
00:19:48,230 --> 00:19:46,559
the office of technical collection otc

513
00:19:51,029 --> 00:19:48,240

and those

514

00:19:54,630 --> 00:19:51,039

elements stayed with otc

515

00:19:56,310 --> 00:19:54,640

and the weapons signals side of the lab

516

00:19:57,669 --> 00:19:56,320

went to the di

517

00:19:59,029 --> 00:19:57,679

and you can tell your friend it was on

518

00:20:01,190 --> 00:19:59,039

the ground floor

519

00:20:04,390 --> 00:20:01,200

and if he knows what the blind stand is

520

00:20:06,470 --> 00:20:04,400

the b l i n d blind stand he knows that

521

00:20:08,070 --> 00:20:06,480

it was on that corridor from there to

522

00:20:10,470 --> 00:20:08,080

the uh

523

00:20:11,590 --> 00:20:10,480

it was the northeast entrance

524

00:20:13,190 --> 00:20:11,600

so

525

00:20:14,630 --> 00:20:13,200

it's right there the g

526

00:20:17,110 --> 00:20:14,640

g d

527

00:20:19,270 --> 00:20:17,120

g e

528

00:20:21,270 --> 00:20:19,280

and g f corridors of headquarters and

529

00:20:23,350 --> 00:20:21,280

the ohb

530

00:20:24,549 --> 00:20:23,360

and so ask your friend about that and

531

00:20:26,470 --> 00:20:24,559

you'll know exactly what i meant

532

00:20:28,950 --> 00:20:26,480

especially the blind stan if he's been

533

00:20:31,029 --> 00:20:28,960

there a long time yeah sure okay so

534

00:20:32,149 --> 00:20:31,039

here's a question um and for those of

535

00:20:34,789 --> 00:20:32,159

you i know i'm going to have a lot of

536

00:20:37,190 --> 00:20:34,799

questions also we are taking phone calls

537

00:20:39,990 --> 00:20:37,200

the last half hour screened phone calls

538

00:20:42,630 --> 00:20:40,000

so um someone wants to know if uh i can

539

00:20:44,870 --> 00:20:42,640

ask you of the cosmos id board of

540

00:20:46,549 --> 00:20:44,880

directors if they were present at that

541

00:20:48,710 --> 00:20:46,559

hotel meeting

542

00:20:51,510 --> 00:20:48,720

no in 2001 um

543

00:20:53,270 --> 00:20:51,520

those officers were not present

544

00:20:55,830 --> 00:20:53,280

in fact

545

00:20:57,590 --> 00:20:55,840

i don't believe the the person that

546

00:20:59,350 --> 00:20:57,600

should have been there

547

00:21:01,270 --> 00:20:59,360

would have been the deputy director for

548

00:21:03,510 --> 00:21:01,280

science and technology

549

00:21:04,630 --> 00:21:03,520

and he was not there

550

00:21:07,909 --> 00:21:04,640

however

551
00:21:09,750 --> 00:21:07,919
a one of his senior officers was there

552
00:21:12,070 --> 00:21:09,760
okay so i have a question about that

553
00:21:15,029 --> 00:21:12,080
meeting okay about that hotel

554
00:21:17,350 --> 00:21:15,039
uh meeting about the hybrid meeting yeah

555
00:21:19,430 --> 00:21:17,360
so it seems to me that

556
00:21:21,110 --> 00:21:19,440
and i heard you mention on another show

557
00:21:23,909 --> 00:21:21,120
that you saw the sign-in sheet you saw

558
00:21:25,510 --> 00:21:23,919
there was a lot of ew's as well yeah

559
00:21:27,350 --> 00:21:25,520
email addresses so there are some

560
00:21:28,630 --> 00:21:27,360
professors perhaps are people involved

561
00:21:31,430 --> 00:21:28,640
in

562
00:21:33,270 --> 00:21:31,440
and um you know universities somehow one

563
00:21:35,110 --> 00:21:33,280

way or the other so all these

564

00:21:36,950 --> 00:21:35,120

intelligent people as well as as i

565

00:21:38,230 --> 00:21:36,960

consider you very intelligent you're ho

566

00:21:40,470 --> 00:21:38,240

all these people are sitting in that

567

00:21:42,630 --> 00:21:40,480

room they're telling you this story

568

00:21:44,549 --> 00:21:42,640

what kind of questions were asked i mean

569

00:21:46,149 --> 00:21:44,559

this is this is uh like an

570

00:21:48,470 --> 00:21:46,159

earth-shattering

571

00:21:50,789 --> 00:21:48,480

thing to talk about so i'm sure did they

572

00:21:51,909 --> 00:21:50,799

take questions

573

00:21:53,990 --> 00:21:51,919

guess what

574

00:21:55,510 --> 00:21:54,000

no one asked a question because everyone

575

00:21:57,669 --> 00:21:55,520

there was like nodding their heads and

576

00:22:00,630 --> 00:21:57,679

yeah okay yeah all right i mean it's

577

00:22:03,830 --> 00:22:00,640

like they were involved from a long time

578

00:22:06,230 --> 00:22:03,840

i was there as a guest i was invited

579

00:22:07,909 --> 00:22:06,240

by another senior officer who knew i was

580

00:22:09,590 --> 00:22:07,919

interested in ufos

581

00:22:10,950 --> 00:22:09,600

and he invited me there saying you might

582

00:22:12,870 --> 00:22:10,960

be interested in what you hear in this

583

00:22:15,110 --> 00:22:12,880

meeting so okay

584

00:22:17,590 --> 00:22:15,120

and so i went to the meeting so i

585

00:22:19,590 --> 00:22:17,600

learned about mcminnville ufo

586

00:22:21,669 --> 00:22:19,600

and that it was an actual ufo that's

587

00:22:26,789 --> 00:22:21,679

never been debunked because it's real

588

00:22:29,270 --> 00:22:26,799

and also learned about uh some of the um

589

00:22:30,549 --> 00:22:29,280

sightings of ufos

590

00:22:33,750 --> 00:22:30,559

uh

591

00:22:36,390 --> 00:22:33,760

were actually real others were the 2 and

592

00:22:37,909 --> 00:22:36,400

12 which were silver when they flew out

593

00:22:39,909 --> 00:22:37,919

of station

594

00:22:41,909 --> 00:22:39,919

d as in delta

595

00:22:45,029 --> 00:22:41,919

it wasn't called area 51 we didn't call

596

00:22:45,990 --> 00:22:45,039

it area 51 we call it station d as in

597

00:22:47,990 --> 00:22:46,000

delta

598

00:22:51,110 --> 00:22:48,000

and when they flew they flew they flew

599

00:22:54,390 --> 00:22:51,120

silver aircraft when they were deployed

600

00:22:56,630 --> 00:22:54,400

by us they were then black the air force

601
00:23:00,310 --> 00:22:56,640
always had black aircraft

602
00:23:01,590 --> 00:23:00,320
so there was no sr-71 flying when cia

603
00:23:04,549 --> 00:23:01,600
was there

604
00:23:06,470 --> 00:23:04,559
it was all the 812 and before that to u2

605
00:23:09,830 --> 00:23:06,480
it was all silver and it would fly in

606
00:23:11,669 --> 00:23:09,840
broad daylight because cia knew that

607
00:23:13,190 --> 00:23:11,679
well maybe they'll be mistaken for these

608
00:23:14,950 --> 00:23:13,200
ufos and we don't care if they are

609
00:23:16,710 --> 00:23:14,960
mistaken for ufos

610
00:23:18,070 --> 00:23:16,720
it's a natural cover for something that

611
00:23:20,549 --> 00:23:18,080
really exists

612
00:23:23,590 --> 00:23:20,559
yeah so it wasn't that they were saying

613
00:23:25,350 --> 00:23:23,600

that all ufos are u2's

614

00:23:27,110 --> 00:23:25,360

they didn't say that at all

615

00:23:28,310 --> 00:23:27,120

because i read the classified version of

616

00:23:31,830 --> 00:23:28,320

that report

617

00:23:35,430 --> 00:23:31,840

1947 and 1990 cia released a report on

618

00:23:36,549 --> 00:23:35,440

cia's involvement with ufos

619

00:23:39,350 --> 00:23:36,559

and

620

00:23:41,510 --> 00:23:39,360

in that report in the classified version

621

00:23:43,669 --> 00:23:41,520

never said that you know

622

00:23:46,710 --> 00:23:43,679

all u2s and 812s

623

00:23:48,470 --> 00:23:46,720

are actually the ufos or all ufos are

624

00:23:50,630 --> 00:23:48,480

these aircraft they never said that what

625

00:23:55,110 --> 00:23:50,640

they stated was because they were

626

00:23:57,669 --> 00:23:55,120

thought to be ufos we can fly these

627

00:23:59,269 --> 00:23:57,679

in open skies in broad daylight because

628

00:24:00,870 --> 00:23:59,279

they were mistaken for ufos and we

629

00:24:02,789 --> 00:24:00,880

didn't bother to correct

630

00:24:04,470 --> 00:24:02,799

right yeah i've heard that over the

631

00:24:06,149 --> 00:24:04,480

years um

632

00:24:08,549 --> 00:24:06,159

now i'm going to say a couple things

633

00:24:10,630 --> 00:24:08,559

that i i say have said on my show a

634

00:24:12,390 --> 00:24:10,640

number of times and maybe the listener

635

00:24:13,510 --> 00:24:12,400

will get tired of hearing it yeah one of

636

00:24:14,789 --> 00:24:13,520

them is

637

00:24:17,269 --> 00:24:14,799

uh

638

00:24:19,430 --> 00:24:17,279

i've i've always thought that

639

00:24:22,149 --> 00:24:19,440

there could be some small part of the

640

00:24:24,789 --> 00:24:22,159

government that knows something more

641

00:24:25,750 --> 00:24:24,799

about these things than we do

642

00:24:27,750 --> 00:24:25,760

but

643

00:24:29,029 --> 00:24:27,760

they probably don't really know what

644

00:24:31,110 --> 00:24:29,039

they are

645

00:24:32,630 --> 00:24:31,120

and what's your what's your response to

646

00:24:34,870 --> 00:24:32,640

that

647

00:24:38,149 --> 00:24:34,880

uh first of all i don't know what small

648

00:24:40,870 --> 00:24:38,159

means all right compartmentalized

649

00:24:43,110 --> 00:24:40,880

okay yeah yeah my i believe there is a

650

00:24:45,029 --> 00:24:43,120

compartmented program

651
00:24:49,190 --> 00:24:45,039
within the government

652
00:24:50,870 --> 00:24:49,200
i would put that program in the dod side

653
00:24:51,669 --> 00:24:50,880
of the government

654
00:24:53,510 --> 00:24:51,679
and

655
00:24:55,110 --> 00:24:53,520
that they know

656
00:24:57,590 --> 00:24:55,120
a lot of what's going on and then

657
00:24:59,590 --> 00:24:57,600
there's this other high strangeness

658
00:25:00,390 --> 00:24:59,600
which they can't explain

659
00:25:02,470 --> 00:25:00,400
yeah

660
00:25:05,510 --> 00:25:02,480
they do not know what's going on

661
00:25:08,310 --> 00:25:05,520
and lou kind of like teases that because

662
00:25:10,310 --> 00:25:08,320
he says oh yeah we we know who's driving

663
00:25:12,310 --> 00:25:10,320

you know some of these craft and we've

664

00:25:13,110 --> 00:25:12,320

seen inside you know we know we've seen

665

00:25:15,190 --> 00:25:13,120

them

666

00:25:16,870 --> 00:25:15,200

right but then you know you have skin

667

00:25:18,950 --> 00:25:16,880

walker which is just completely high

668

00:25:20,230 --> 00:25:18,960

strangeness that's very difficult to

669

00:25:23,750 --> 00:25:20,240

explain

670

00:25:26,789 --> 00:25:23,760

and um in my mind this is just me

671

00:25:29,269 --> 00:25:26,799

talking my personal belief is that

672

00:25:31,590 --> 00:25:29,279

a lot of this hesitancy by government to

673

00:25:33,990 --> 00:25:31,600

reveal even a little bit is because they

674

00:25:35,510 --> 00:25:34,000

can't explain at all because to explain

675

00:25:36,870 --> 00:25:35,520

a little bit you gotta explain

676

00:25:39,110 --> 00:25:36,880

skinwalker

677

00:25:41,669 --> 00:25:39,120

and that's really difficult for them to

678

00:25:42,710 --> 00:25:41,679

explain so they might be aspects of this

679

00:25:44,230 --> 00:25:42,720

phenomenon

680

00:25:46,470 --> 00:25:44,240

that they can't explain and therefore

681

00:25:49,110 --> 00:25:46,480

they they hold on to everything

682

00:25:50,230 --> 00:25:49,120

uh that's the dod side um

683

00:25:51,430 --> 00:25:50,240

and as

684

00:25:53,029 --> 00:25:51,440

we heard

685

00:25:56,149 --> 00:25:53,039

um

686

00:25:59,269 --> 00:25:56,159

from uh dean johnson that they took the

687

00:26:02,470 --> 00:25:59,279

uh language for the uap office out of

688

00:26:04,310 --> 00:26:02,480

the ndaa which is good and may proceed

689

00:26:06,950 --> 00:26:04,320

with that separately i believe that's

690

00:26:09,269 --> 00:26:06,960

what he wrote uh even today

691

00:26:12,310 --> 00:26:09,279

that they can take it out and then pass

692

00:26:13,909 --> 00:26:12,320

that amendment as a separate law

693

00:26:16,070 --> 00:26:13,919

i think that's a good thing

694

00:26:17,029 --> 00:26:16,080

um i think it will pass and if it does

695

00:26:19,750 --> 00:26:17,039

pass

696

00:26:21,110 --> 00:26:19,760

then that small compartmented group

697

00:26:22,549 --> 00:26:21,120

um they're not going to be as

698

00:26:25,269 --> 00:26:22,559

compartmented and they're not going to

699

00:26:27,430 --> 00:26:25,279

be as small as they are now because now

700

00:26:30,310 --> 00:26:27,440

they're under oversight of the united

701
00:26:33,430 --> 00:26:30,320
states congress and that's a good thing

702
00:26:36,390 --> 00:26:33,440
because when you have oversight of that

703
00:26:38,549 --> 00:26:36,400
then they are beholden to congress to

704
00:26:40,390 --> 00:26:38,559
report their findings and if they say

705
00:26:41,909 --> 00:26:40,400
we're not reporting

706
00:26:45,190 --> 00:26:41,919
then there are consequences legal

707
00:26:47,830 --> 00:26:45,200
consequences it's obstruction of justice

708
00:26:50,070 --> 00:26:47,840
in fact when congress subpoenas you and

709
00:26:51,590 --> 00:26:50,080
you fail to be a witness you say i'm not

710
00:26:52,710 --> 00:26:51,600
going to testify

711
00:26:54,950 --> 00:26:52,720
well

712
00:26:55,909 --> 00:26:54,960
u.s marshals are going to come and

713
00:26:57,750 --> 00:26:55,919

yeah

714

00:26:59,750 --> 00:26:57,760

they have a different opinion

715

00:27:01,269 --> 00:26:59,760

about that yeah

716

00:27:02,710 --> 00:27:01,279

how much uh

717

00:27:05,110 --> 00:27:02,720

i don't know what i think about this but

718

00:27:08,149 --> 00:27:05,120

i'll ask the question anyway but

719

00:27:10,710 --> 00:27:08,159

how much of do you think that

720

00:27:11,510 --> 00:27:10,720

these uh

721

00:27:13,350 --> 00:27:11,520

like

722

00:27:15,510 --> 00:27:13,360

this the study of this

723

00:27:18,149 --> 00:27:15,520

as far as our government is is kind of

724

00:27:21,350 --> 00:27:18,159

window dressing you know maybe they know

725

00:27:24,230 --> 00:27:21,360

more already that they they just haven't

726

00:27:26,789 --> 00:27:24,240

revealed yet

727

00:27:29,029 --> 00:27:26,799

uh i don't think lou is window dressing

728

00:27:31,669 --> 00:27:29,039

anything no i'm not talking about lou

729

00:27:34,149 --> 00:27:31,679

i'm telling who i'm talking about say

730

00:27:35,110 --> 00:27:34,159

this this new uh office that's being

731

00:27:37,909 --> 00:27:35,120

sold

732

00:27:40,310 --> 00:27:37,919

you know that type of thing

733

00:27:44,149 --> 00:27:42,710

i would think that as representatives of

734

00:27:45,750 --> 00:27:44,159

the united states people

735

00:27:49,350 --> 00:27:45,760

of us the citizens

736

00:27:51,909 --> 00:27:49,360

um it's beholden to us to make sure that

737

00:27:55,510 --> 00:27:51,919

our congress people

738

00:27:57,669 --> 00:27:55,520

are not going to swit sweep this away

739

00:28:00,310 --> 00:27:57,679

that it's in the public interest

740

00:28:01,190 --> 00:28:00,320

to reveal what's going on

741

00:28:04,310 --> 00:28:01,200

and

742

00:28:06,630 --> 00:28:04,320

so my hope is that

743

00:28:08,789 --> 00:28:06,640

because it's beholden for us our

744

00:28:09,210 --> 00:28:08,799

responsibility as well

745

00:28:10,950 --> 00:28:09,220

to

746

00:28:13,110 --> 00:28:10,960

[Music]

747

00:28:16,230 --> 00:28:13,120

let our congress people know that we are

748

00:28:17,750 --> 00:28:16,240

genuinely interested in this

749

00:28:20,389 --> 00:28:17,760

and the fact that there will be an

750

00:28:21,510 --> 00:28:20,399

office like this it's no longer crazy to

751
00:28:22,470 --> 00:28:21,520
ask a

752
00:28:24,789 --> 00:28:22,480
uh

753
00:28:26,630 --> 00:28:24,799
a candidate for office what

754
00:28:28,710 --> 00:28:26,640
he or she feels about

755
00:28:30,470 --> 00:28:28,720
uaps because there's not an office that

756
00:28:32,149 --> 00:28:30,480
congress is responsible to have

757
00:28:35,430 --> 00:28:32,159
oversight over

758
00:28:38,230 --> 00:28:35,440
so i i'm hoping that it's our action to

759
00:28:41,590 --> 00:28:38,240
make sure it's not window dressing

760
00:28:43,909 --> 00:28:41,600
at all and um so i'll go from there

761
00:28:45,750 --> 00:28:43,919
that's we have a responsibility as well

762
00:28:47,110 --> 00:28:45,760
to make sure that they do not window

763
00:28:49,909 --> 00:28:47,120

dress it

764

00:28:52,470 --> 00:28:49,919

and i think people are working uh i

765

00:28:53,669 --> 00:28:52,480

think like lou what lou and chris

766

00:28:57,269 --> 00:28:53,679

are doing

767

00:28:59,750 --> 00:28:57,279

is to remind the folks in government

768

00:29:01,350 --> 00:28:59,760

that they are responsible

769

00:29:03,510 --> 00:29:01,360

for this oversight and they're

770

00:29:05,590 --> 00:29:03,520

responsible for getting this information

771

00:29:06,470 --> 00:29:05,600

out because that's what the law states

772

00:29:10,149 --> 00:29:06,480

yeah

773

00:29:13,029 --> 00:29:10,159

well i like i like what you said a

774

00:29:14,870 --> 00:29:13,039

minute ago about that if they can't

775

00:29:16,389 --> 00:29:14,880

release everything they know then

776

00:29:17,909 --> 00:29:16,399

they're not going to release anything i

777

00:29:19,990 --> 00:29:17,919

i i think

778

00:29:21,830 --> 00:29:20,000

that um you know one of the things i

779

00:29:24,710 --> 00:29:21,840

have thought about through through the

780

00:29:26,789 --> 00:29:24,720

years is if they can't tell us what it

781

00:29:29,269 --> 00:29:26,799

is and that they can protect us from

782

00:29:30,149 --> 00:29:29,279

what potential there could be of any

783

00:29:31,269 --> 00:29:30,159

threat

784

00:29:34,310 --> 00:29:31,279

then they're not going to tell us

785

00:29:35,990 --> 00:29:34,320

anything you know right yeah but i think

786

00:29:37,190 --> 00:29:36,000

at a baseline

787

00:29:39,510 --> 00:29:37,200

um

788

00:29:41,909 --> 00:29:39,520

the fact that they're a craft

789

00:29:44,870 --> 00:29:41,919

and their fact that the craft might be

790

00:29:46,710 --> 00:29:44,880

driven by folks who are not from earth

791

00:29:47,669 --> 00:29:46,720

i think that that bridge has been

792

00:29:48,950 --> 00:29:47,679

crossed

793

00:29:49,990 --> 00:29:48,960

or the beginnings of that bridge has

794

00:29:51,669 --> 00:29:50,000

been built

795

00:29:53,350 --> 00:29:51,679

right as far as explaining high

796

00:29:55,830 --> 00:29:53,360

strangeness they may have to separate

797

00:29:57,830 --> 00:29:55,840

that from the other narrative

798

00:29:59,269 --> 00:29:57,840

because the high strangeness part is

799

00:30:01,669 --> 00:29:59,279

really difficult

800

00:30:03,750 --> 00:30:01,679

for me to swallow i mean i just it's

801
00:30:05,909 --> 00:30:03,760
very frightening actually

802
00:30:08,789 --> 00:30:05,919
yeah to have this hitchhiker effect that

803
00:30:11,510 --> 00:30:08,799
people have reported yes uh happen and

804
00:30:13,590 --> 00:30:11,520
and so what is that all about and so but

805
00:30:15,909 --> 00:30:13,600
maybe they they i think there's parts of

806
00:30:17,510 --> 00:30:15,919
that story that they can release

807
00:30:19,269 --> 00:30:17,520
in terms of

808
00:30:21,430 --> 00:30:19,279
the fact that there are craft and there

809
00:30:22,549 --> 00:30:21,440
are occupants of the craft driving the

810
00:30:24,389 --> 00:30:22,559
craft

811
00:30:25,590 --> 00:30:24,399
at least that part at least that can be

812
00:30:28,230 --> 00:30:25,600
released

813
00:30:29,830 --> 00:30:28,240

and that might then build a bridge to uh

814

00:30:30,870 --> 00:30:29,840

how are these craft

815

00:30:32,230 --> 00:30:30,880

propelled

816

00:30:34,389 --> 00:30:32,240

and do we have

817

00:30:35,510 --> 00:30:34,399

any knowledge of that i think that can

818

00:30:37,350 --> 00:30:35,520

be released

819

00:30:38,630 --> 00:30:37,360

uh the part that the pentagon might

820

00:30:41,510 --> 00:30:38,640

might cling to

821

00:30:43,430 --> 00:30:41,520

is any exploitation of that technology

822

00:30:45,669 --> 00:30:43,440

you might still cling to that but maybe

823

00:30:48,070 --> 00:30:45,679

that can be wedged out

824

00:30:49,990 --> 00:30:48,080

of that because the knowledge of the

825

00:30:51,110 --> 00:30:50,000

craft and the knowledge of the occupants

826

00:30:53,590 --> 00:30:51,120

as

827

00:30:56,389 --> 00:30:53,600

lou said

828

00:30:58,070 --> 00:30:56,399

that we know some of that already

829

00:31:00,230 --> 00:30:58,080

leads me to believe that there's a lot

830

00:31:02,710 --> 00:31:00,240

more to be said about that and maybe

831

00:31:04,789 --> 00:31:02,720

with this office coming into play

832

00:31:06,710 --> 00:31:04,799

and with the reporting requirements

833

00:31:08,070 --> 00:31:06,720

demanded by that office

834

00:31:10,789 --> 00:31:08,080

that some of that information will be

835

00:31:14,310 --> 00:31:13,350

um now this is the story that i have

836

00:31:15,590 --> 00:31:14,320

said

837

00:31:17,430 --> 00:31:15,600

many times that people are probably

838

00:31:19,750 --> 00:31:17,440

getting bored of i even said it on the

839

00:31:22,549 --> 00:31:19,760

very first show that i was that i had i

840

00:31:25,190 --> 00:31:22,559

listened to my very first show 480

841

00:31:27,029 --> 00:31:25,200

something shows ago and i said the same

842

00:31:30,230 --> 00:31:27,039

exact thing and that is i had an

843

00:31:32,549 --> 00:31:30,240

insurance agent visit insurance broker

844

00:31:34,310 --> 00:31:32,559

sell me a life insurance policy

845

00:31:36,149 --> 00:31:34,320

and we got into a conversation

846

00:31:38,789 --> 00:31:36,159

afterwards and he said something along

847

00:31:41,110 --> 00:31:38,799

the lines that uh i was did i was in

848

00:31:43,669 --> 00:31:41,120

vietnam and i had a very strange you

849

00:31:46,149 --> 00:31:43,679

know position a very unusual position

850

00:31:47,830 --> 00:31:46,159

and he's and i said well what can you

851

00:31:48,870 --> 00:31:47,840

talk about he said yeah was he says i

852

00:31:51,669 --> 00:31:48,880

was studying

853

00:31:54,070 --> 00:31:51,679

uh the effect of what napalm

854

00:31:55,190 --> 00:31:54,080

and uh the napalming and the ufos that

855

00:31:56,950 --> 00:31:55,200

would show up

856

00:31:58,070 --> 00:31:56,960

so you know we got in the whole thing

857

00:32:00,710 --> 00:31:58,080

about

858

00:32:01,909 --> 00:32:00,720

uh you know ufos that night i wanted to

859

00:32:03,990 --> 00:32:01,919

know more about him he talked about

860

00:32:05,430 --> 00:32:04,000

nuclear weapons uh that they have an

861

00:32:07,029 --> 00:32:05,440

interest in that and he said not just

862

00:32:08,470 --> 00:32:07,039

nuclear weapons his nuclear power

863

00:32:12,310 --> 00:32:08,480

nuclear everything

864

00:32:14,630 --> 00:32:12,320

and then um so i said well what exactly

865

00:32:16,070 --> 00:32:14,640

what is this exactly does the government

866

00:32:17,350 --> 00:32:16,080

know that's what i asked them what do

867

00:32:18,389 --> 00:32:17,360

they think

868

00:32:20,149 --> 00:32:18,399

they are

869

00:32:22,630 --> 00:32:20,159

and he looked at me and said we're a

870

00:32:24,149 --> 00:32:22,640

petri dish

871

00:32:25,830 --> 00:32:24,159

and i just wonder what you thought about

872

00:32:28,389 --> 00:32:25,840

that comment i never have been able to

873

00:32:30,070 --> 00:32:28,399

reach him since i started this show but

874

00:32:33,110 --> 00:32:30,080

i would love to be able to talk to him

875

00:32:35,350 --> 00:32:33,120

about that and uh just to understand

876

00:32:37,990 --> 00:32:35,360

more that but um i thought that was a

877

00:32:39,430 --> 00:32:38,000

very interesting comment and what you

878

00:32:41,669 --> 00:32:39,440

thought about that

879

00:32:44,149 --> 00:32:41,679

well i'm just going back to what a petri

880

00:32:45,990 --> 00:32:44,159

dish is it's a it's a environment by

881

00:32:49,590 --> 00:32:46,000

which you can watch

882

00:32:51,830 --> 00:32:49,600

uh microbial life grow i'm not a chemist

883

00:32:54,950 --> 00:32:51,840

or biologist so but it's my

884

00:32:56,549 --> 00:32:54,960

um non-chemist non-biologist explanation

885

00:32:59,269 --> 00:32:56,559

of what a petri dish is and you can

886

00:33:01,430 --> 00:32:59,279

introduce things into that petri dish to

887

00:33:03,029 --> 00:33:01,440

see how that affects the growth of

888

00:33:06,149 --> 00:33:03,039

whatever is growing there

889

00:33:08,470 --> 00:33:06,159

so if we are a petri dish then that

890

00:33:09,269 --> 00:33:08,480

kind of suggests to me that the visitors

891

00:33:11,990 --> 00:33:09,279

who are

892

00:33:12,789 --> 00:33:12,000

here visiting us are

893

00:33:14,149 --> 00:33:12,799

then

894

00:33:16,070 --> 00:33:14,159

introducing

895

00:33:18,630 --> 00:33:16,080

uh certain

896

00:33:20,870 --> 00:33:18,640

things into our

897

00:33:23,430 --> 00:33:20,880

our human life into our environment to

898

00:33:25,029 --> 00:33:23,440

see how we react to that

899

00:33:26,149 --> 00:33:25,039

and i don't have a better explanation

900

00:33:26,950 --> 00:33:26,159

for that

901
00:33:28,789 --> 00:33:26,960

yeah

902
00:33:30,470 --> 00:33:28,799

well what do you think uh or did they

903
00:33:32,230 --> 00:33:30,480

when they had this meeting going back to

904
00:33:33,990 --> 00:33:32,240

that meeting at that hotel

905
00:33:34,950 --> 00:33:34,000

did they say

906
00:33:38,870 --> 00:33:34,960

why

907
00:33:40,710 --> 00:33:38,880

or what improvements or what changes

908
00:33:41,590 --> 00:33:40,720

this um

909
00:33:43,110 --> 00:33:41,600

you know

910
00:33:44,789 --> 00:33:43,120

this gene

911
00:33:47,190 --> 00:33:44,799

that they were introducing to our

912
00:33:49,110 --> 00:33:47,200

species supposedly at this meeting what

913
00:33:51,990 --> 00:33:49,120

they were talking about did they

914

00:33:53,830 --> 00:33:52,000

did they go into more detail of what the

915

00:33:56,310 --> 00:33:53,840

reasoning would have been

916

00:33:57,190 --> 00:33:56,320

uh the changes that have been made

917

00:34:00,950 --> 00:33:57,200

and

918

00:34:02,389 --> 00:34:00,960

to what we were initially supposedly uh

919

00:34:04,549 --> 00:34:02,399

any of that come up

920

00:34:09,430 --> 00:34:04,559

no

921

00:34:12,069 --> 00:34:09,440

enhancements to to humanity

922

00:34:14,550 --> 00:34:12,079

other than that we were enhanced

923

00:34:16,230 --> 00:34:14,560

and they didn't use the word intervene

924

00:34:18,069 --> 00:34:16,240

they didn't use the word manipulate it's

925

00:34:19,589 --> 00:34:18,079

more like it's an enhancement it's a

926
00:34:21,589 --> 00:34:19,599
it's an advancement

927
00:34:24,069 --> 00:34:21,599
of humanity

928
00:34:26,230 --> 00:34:24,079
that occurred way back when

929
00:34:28,470 --> 00:34:26,240
it's it didn't occur team four five and

930
00:34:30,389 --> 00:34:28,480
they occurred like way when

931
00:34:32,149 --> 00:34:30,399
so it leads me to believe that they have

932
00:34:33,589 --> 00:34:32,159
more knowledge of what happened way back

933
00:34:34,869 --> 00:34:33,599
when i don't know how they have that

934
00:34:36,310 --> 00:34:34,879
knowledge

935
00:34:39,030 --> 00:34:36,320
um

936
00:34:41,349 --> 00:34:39,040
but lou says uh in one of his interviews

937
00:34:43,510 --> 00:34:41,359
he said 70 000 years i don't know where

938
00:34:45,829 --> 00:34:43,520

he came up with that number but he

939

00:34:47,829 --> 00:34:45,839

stayed at 70 000 years

940

00:34:49,669 --> 00:34:47,839

and then he went on this soliloquy about

941

00:34:52,470 --> 00:34:49,679

suppose everything you've been taught by

942

00:34:54,470 --> 00:34:52,480

your schools your parents your churches

943

00:34:57,030 --> 00:34:54,480

everything you think you know is

944

00:34:59,270 --> 00:34:57,040

completely wrong it's false yes i heard

945

00:35:01,510 --> 00:34:59,280

that and so yeah you know that kind of

946

00:35:03,990 --> 00:35:01,520

plays along with

947

00:35:07,030 --> 00:35:04,000

what i heard about this

948

00:35:09,109 --> 00:35:07,040

enhancement of the human dna

949

00:35:11,510 --> 00:35:09,119

and so

950

00:35:13,829 --> 00:35:11,520

is that why we are more advanced than

951
00:35:16,710 --> 00:35:13,839
our fellow primates

952
00:35:18,470 --> 00:35:16,720
so that that brings up that question

953
00:35:19,990 --> 00:35:18,480
but there's so many like like you say

954
00:35:22,710 --> 00:35:20,000
there's so many little

955
00:35:25,190 --> 00:35:22,720
tidbits and teases that in my own mind i

956
00:35:27,589 --> 00:35:25,200
had to sort it out and so knowing the

957
00:35:29,270 --> 00:35:27,599
little the little that i know

958
00:35:30,950 --> 00:35:29,280
um

959
00:35:33,589 --> 00:35:30,960
and knowing about the orbs and knowing

960
00:35:36,230 --> 00:35:33,599
about this particular one-day symposium

961
00:35:38,470 --> 00:35:36,240
symposium and knowing in general that

962
00:35:40,470 --> 00:35:38,480
the the government has always been

963
00:35:41,349 --> 00:35:40,480

interested at least since world war ii

964

00:35:43,349 --> 00:35:41,359

into

965

00:35:45,430 --> 00:35:43,359

the ufo phenomenon

966

00:35:47,510 --> 00:35:45,440

i had to put some story together and

967

00:35:49,190 --> 00:35:47,520

that presentation was more for me than

968

00:35:51,349 --> 00:35:49,200

for anybody else

969

00:35:53,670 --> 00:35:51,359

i mean i had to put everything down and

970

00:35:55,990 --> 00:35:53,680

it's subject to change if i get better

971

00:35:57,750 --> 00:35:56,000

information or new information

972

00:35:59,990 --> 00:35:57,760

or if i get a phone call from the

973

00:36:02,390 --> 00:36:00,000

government saying you're all wrong

974

00:36:04,069 --> 00:36:02,400

you know take this part out i'll do so

975

00:36:05,109 --> 00:36:04,079

and i'll admit yeah i was wrong about

976

00:36:06,950 --> 00:36:05,119

this

977

00:36:08,550 --> 00:36:06,960

but you know it's

978

00:36:10,550 --> 00:36:08,560

more for like trying to straighten this

979

00:36:12,630 --> 00:36:10,560

story out for me and whether people

980

00:36:14,230 --> 00:36:12,640

believe it or not for me it's

981

00:36:15,829 --> 00:36:14,240

inconsequential i think you should

982

00:36:18,470 --> 00:36:15,839

believe what you believe and feel

983

00:36:20,630 --> 00:36:18,480

comfortable what what gives you comfort

984

00:36:23,430 --> 00:36:20,640

my presentation gives me comfort based

985

00:36:27,670 --> 00:36:23,440

on not only what i heard professionally

986

00:36:30,310 --> 00:36:27,680

but why i've experienced personally

987

00:36:32,790 --> 00:36:30,320

as far as let's talk first about

988

00:36:33,670 --> 00:36:32,800

professionally um i know

989

00:36:36,790 --> 00:36:33,680

that

990

00:36:38,470 --> 00:36:36,800

these orbs i'd like to talk about them

991

00:36:40,870 --> 00:36:38,480

because this was

992

00:36:43,030 --> 00:36:40,880

um something you evidently can talk

993

00:36:43,829 --> 00:36:43,040

about without any problems

994

00:36:46,069 --> 00:36:43,839

and

995

00:36:48,069 --> 00:36:46,079

let's talk about what happened i know

996

00:36:50,470 --> 00:36:48,079

this was on was this in the north pole

997

00:36:52,069 --> 00:36:50,480

or something like that then and can you

998

00:36:54,390 --> 00:36:52,079

go into that what

999

00:36:57,430 --> 00:36:54,400

how these things were detected

1000

00:37:00,710 --> 00:36:57,440

and their actions and all that

1001
00:37:03,910 --> 00:37:00,720
the us detected it through um infrared

1002
00:37:05,109 --> 00:37:03,920
payload uh flying in space

1003
00:37:07,670 --> 00:37:05,119
um

1004
00:37:08,790 --> 00:37:07,680
so we had satellites that had infrared

1005
00:37:12,550 --> 00:37:08,800
sensors

1006
00:37:14,550 --> 00:37:12,560
presence of these orbs

1007
00:37:17,430 --> 00:37:14,560
and they were not like

1008
00:37:20,310 --> 00:37:17,440
anomalies they were not like

1009
00:37:22,950 --> 00:37:20,320
i know nasa loves to use those dust on

1010
00:37:25,030 --> 00:37:22,960
the camera and sorry something like that

1011
00:37:26,630 --> 00:37:25,040
no

1012
00:37:27,910 --> 00:37:26,640
these were objects

1013
00:37:30,790 --> 00:37:27,920

that

1014

00:37:31,750 --> 00:37:30,800

were light objects

1015

00:37:34,470 --> 00:37:31,760

that

1016

00:37:37,430 --> 00:37:34,480

looked orange 600 nanometers you can

1017

00:37:39,190 --> 00:37:37,440

look that up that wavelength is orange

1018

00:37:40,310 --> 00:37:39,200

and they were flying together in

1019

00:37:42,069 --> 00:37:40,320

formation

1020

00:37:44,069 --> 00:37:42,079

under intelligent control that is they

1021

00:37:46,230 --> 00:37:44,079

were maneuvering

1022

00:37:48,230 --> 00:37:46,240

dust doesn't maneuver like that

1023

00:37:49,990 --> 00:37:48,240

and they were going to a destination

1024

00:37:52,230 --> 00:37:50,000

they were traveling to go somewhere

1025

00:37:54,150 --> 00:37:52,240

that's what we detected that started all

1026
00:37:56,390 --> 00:37:54,160
of this rolling

1027
00:37:57,910 --> 00:37:56,400
from the orb side the light orb side of

1028
00:38:00,470 --> 00:37:57,920
things

1029
00:38:01,750 --> 00:38:00,480
do you remember the year of that

1030
00:38:02,550 --> 00:38:01,760
uh

1031
00:38:07,589 --> 00:38:02,560
the

1032
00:38:09,750 --> 00:38:07,599
board um

1033
00:38:12,150 --> 00:38:09,760
in the early 90s

1034
00:38:13,990 --> 00:38:12,160
on kh-11 kenan

1035
00:38:16,230 --> 00:38:14,000
block 2.

1036
00:38:17,829 --> 00:38:16,240
they had ir sensors and

1037
00:38:19,430 --> 00:38:17,839
according to wikipedia and i always

1038
00:38:21,670 --> 00:38:19,440

source wikipedia because that gets me

1039

00:38:24,230 --> 00:38:21,680

out of trouble if you look up kh11

1040

00:38:25,910 --> 00:38:24,240

keenan uh you'll see the various blocks

1041

00:38:28,870 --> 00:38:25,920

one through five

1042

00:38:31,430 --> 00:38:28,880

that they document and each one of those

1043

00:38:33,750 --> 00:38:31,440

after block one block two through five

1044

00:38:35,910 --> 00:38:33,760

carry some kind of ir sensor

1045

00:38:38,310 --> 00:38:35,920

we also know through unclassified

1046

00:38:40,550 --> 00:38:38,320

sources uh you can look it up

1047

00:38:44,390 --> 00:38:40,560

you can do a google search on wikipedia

1048

00:38:47,430 --> 00:38:44,400

look up siebers s b i r s c burs

1049

00:38:50,230 --> 00:38:47,440

that satellite has been placed in orbit

1050

00:38:51,190 --> 00:38:50,240

that was placed after i left uh

1051

00:38:55,349 --> 00:38:51,200

government

1052

00:38:58,390 --> 00:38:55,359

still being designed

1053

00:39:01,589 --> 00:38:58,400

as a ir sensor to replace the old uh

1054

00:39:03,430 --> 00:39:01,599

defense support program dsp satellites

1055

00:39:04,870 --> 00:39:03,440

so that's another source that's probably

1056

00:39:07,349 --> 00:39:04,880

more current

1057

00:39:09,910 --> 00:39:07,359

of uh detecting these they have eight

1058

00:39:12,310 --> 00:39:09,920

colors of um up to eight colors of

1059

00:39:14,710 --> 00:39:12,320

hyperspectrum more spectral is four

1060

00:39:17,030 --> 00:39:14,720

colors we say four band ir

1061

00:39:19,270 --> 00:39:17,040

siebers uh latest one there are two

1062

00:39:21,829 --> 00:39:19,280

orbits that can do eight colors one

1063

00:39:24,710 --> 00:39:21,839

orbit is called hell high elliptical

1064

00:39:27,030 --> 00:39:24,720

orbit the other is geo geosynchronous

1065

00:39:29,510 --> 00:39:27,040

orbit so there's two orbits of these

1066

00:39:31,990 --> 00:39:29,520

uh ir satellites so that's providing

1067

00:39:33,750 --> 00:39:32,000

probably newer information

1068

00:39:35,990 --> 00:39:33,760

in addition to that of course we have

1069

00:39:37,190 --> 00:39:36,000

the regular optical satellites that take

1070

00:39:40,790 --> 00:39:37,200

pictures

1071

00:39:44,790 --> 00:39:40,800

did not see

1072

00:39:46,630 --> 00:39:44,800

any pictures of that type from

1073

00:39:50,069 --> 00:39:46,640

optical sensors

1074

00:39:52,230 --> 00:39:50,079

at all what i saw were infrared

1075

00:39:54,310 --> 00:39:52,240

and being infrared

1076
00:39:55,670 --> 00:39:54,320
you're just going to get a blob of light

1077
00:39:57,910 --> 00:39:55,680
that's what you get

1078
00:40:00,310 --> 00:39:57,920
but i saw the blob of light that i was

1079
00:40:02,630 --> 00:40:00,320
the actual data

1080
00:40:04,710 --> 00:40:02,640
of that blob of light was not sure to me

1081
00:40:06,630 --> 00:40:04,720
other than the fact that it's orange 600

1082
00:40:09,190 --> 00:40:06,640
nanometers

1083
00:40:10,470 --> 00:40:09,200
so you only saw you basically saw the

1084
00:40:13,190 --> 00:40:10,480
spectrum

1085
00:40:14,710 --> 00:40:13,200
and that it was there around 600

1086
00:40:17,270 --> 00:40:14,720
millimeters

1087
00:40:19,430 --> 00:40:17,280
which means it was orange which a lot of

1088
00:40:21,270 --> 00:40:19,440

people do report orange seeing these

1089

00:40:22,710 --> 00:40:21,280

orange orbs you saw them fly in

1090

00:40:26,710 --> 00:40:22,720

formation but there was nothing to

1091

00:40:28,870 --> 00:40:26,720

detect any nuts and bolts craft that was

1092

00:40:30,870 --> 00:40:28,880

uh you know that these were mounted on

1093

00:40:31,750 --> 00:40:30,880

or any type of thing like that is that

1094

00:40:36,710 --> 00:40:31,760

correct

1095

00:40:39,430 --> 00:40:36,720

we're trying to rule out

1096

00:40:41,270 --> 00:40:39,440

um that it could have been high-flying

1097

00:40:43,349 --> 00:40:41,280

russian aircraft

1098

00:40:45,670 --> 00:40:43,359

that was that was how we got involved

1099

00:40:47,750 --> 00:40:45,680

because our analysts

1100

00:40:49,670 --> 00:40:47,760

intimately knew

1101
00:40:52,150 --> 00:40:49,680
the aircraft

1102
00:40:55,190 --> 00:40:52,160
and so our job was to rule out that is

1103
00:40:56,870 --> 00:40:55,200
it could it be this and we ruled it out

1104
00:40:58,630 --> 00:40:56,880
so we knew that there wasn't anything

1105
00:41:00,069 --> 00:40:58,640
that russia would fly over their

1106
00:41:02,150 --> 00:41:00,079
airspace

1107
00:41:03,990 --> 00:41:02,160
and i would preface that it was over

1108
00:41:04,790 --> 00:41:04,000
russian airspace

1109
00:41:07,430 --> 00:41:04,800
but

1110
00:41:08,309 --> 00:41:07,440
based on what we were told

1111
00:41:10,390 --> 00:41:08,319
that

1112
00:41:12,870 --> 00:41:10,400
the if you you know walk the trajectory

1113
00:41:15,670 --> 00:41:12,880

back it was very definitely from

1114

00:41:18,710 --> 00:41:15,680

the north polar arctic circle region

1115

00:41:20,790 --> 00:41:18,720

when it was seen over russia

1116

00:41:22,630 --> 00:41:20,800

and in this particular

1117

00:41:24,790 --> 00:41:22,640

situation i would imagine that russia

1118

00:41:26,309 --> 00:41:24,800

had the capability to see this whatever

1119

00:41:27,750 --> 00:41:26,319

it was as well

1120

00:41:30,790 --> 00:41:27,760

i would imagine

1121

00:41:33,030 --> 00:41:30,800

and and something like this is there

1122

00:41:34,710 --> 00:41:33,040

there's probably never any communication

1123

00:41:38,630 --> 00:41:34,720

is there between countries when it comes

1124

00:41:42,630 --> 00:41:39,829

i did not

1125

00:41:44,309 --> 00:41:42,640

know of any communications regarding um

1126

00:41:46,550 --> 00:41:44,319

ufos uaps

1127

00:41:49,430 --> 00:41:46,560

or anything like that officially between

1128

00:41:51,589 --> 00:41:49,440

governments yeah uh the only uh

1129

00:41:53,829 --> 00:41:51,599

exception i make is with china

1130

00:41:56,710 --> 00:41:53,839

which we told china things

1131

00:41:58,309 --> 00:41:56,720

about these domes of light that we saw

1132

00:41:59,190 --> 00:41:58,319

because we needed to place a sensor

1133

00:42:00,630 --> 00:41:59,200

there

1134

00:42:03,030 --> 00:42:00,640

and i can't talk about the sensor

1135

00:42:06,150 --> 00:42:03,040

because it's still there

1136

00:42:08,390 --> 00:42:06,160

but for russia i don't recall any kind

1137

00:42:10,470 --> 00:42:08,400

of communication between our government

1138

00:42:12,950 --> 00:42:10,480

and the russian government about

1139

00:42:15,030 --> 00:42:12,960

these orbs now having said that the

1140

00:42:17,190 --> 00:42:15,040

russians did detect them

1141

00:42:18,710 --> 00:42:17,200

through what's known as the elpar large

1142

00:42:21,030 --> 00:42:18,720

phase ray radar

1143

00:42:25,109 --> 00:42:21,040

you can also use wikipedia and look up

1144

00:42:26,470 --> 00:42:25,119

the petra radar or darial d-a-r-y-a-l

1145

00:42:29,030 --> 00:42:26,480

radar

1146

00:42:31,750 --> 00:42:29,040

they have a system of these our network

1147

00:42:33,030 --> 00:42:31,760

of these around the periphery of russia

1148

00:42:35,430 --> 00:42:33,040

looking for

1149

00:42:36,550 --> 00:42:35,440

uh ballistic missile launches

1150

00:42:37,750 --> 00:42:36,560

and when they're not looking for

1151
00:42:40,150 --> 00:42:37,760
ballistic missile launches they're

1152
00:42:42,790 --> 00:42:40,160
basically just tracking satellites so

1153
00:42:44,390 --> 00:42:42,800
the track satellites for so many seconds

1154
00:42:45,990 --> 00:42:44,400
they match it with an ephemeris saying

1155
00:42:47,349 --> 00:42:46,000
okay it's this satellite and they drop

1156
00:42:48,870 --> 00:42:47,359
it and go to

1157
00:42:51,109 --> 00:42:48,880
another satellite meanwhile they're

1158
00:42:52,390 --> 00:42:51,119
doing a picket fence as we call it over

1159
00:42:54,710 --> 00:42:52,400
the horizon

1160
00:42:56,470 --> 00:42:54,720
just going back and forth and they find

1161
00:42:58,790 --> 00:42:56,480
us they find an object and they'll track

1162
00:43:00,630 --> 00:42:58,800
it that's a satellite they drop it they

1163
00:43:02,550 --> 00:43:00,640

track another one that's a cell like

1164

00:43:04,630 --> 00:43:02,560

they drop it that's all they do but in

1165

00:43:06,470 --> 00:43:04,640

this case they found something that did

1166

00:43:08,150 --> 00:43:06,480

not match any ephemeris

1167

00:43:09,510 --> 00:43:08,160

and was not a ballistic missile and they

1168

00:43:11,990 --> 00:43:09,520

kept tracking it and they were worried

1169

00:43:13,829 --> 00:43:12,000

about it their strategic rocket forces

1170

00:43:16,630 --> 00:43:13,839

went on tight alert

1171

00:43:18,470 --> 00:43:16,640

we detected the strategic rocket forces

1172

00:43:20,390 --> 00:43:18,480

going on higher alert that got the

1173

00:43:21,190 --> 00:43:20,400

pentagon excited

1174

00:43:23,990 --> 00:43:21,200

yeah

1175

00:43:25,270 --> 00:43:24,000

and though as a ballistic missile

1176

00:43:27,030 --> 00:43:25,280

analyst

1177

00:43:29,030 --> 00:43:27,040

since these radars are designed for

1178

00:43:31,910 --> 00:43:29,040

ballistic missile defense

1179

00:43:33,670 --> 00:43:31,920

then i was asked to write a memo do some

1180

00:43:34,630 --> 00:43:33,680

research and write a memo as to what

1181

00:43:36,870 --> 00:43:34,640

happened

1182

00:43:38,950 --> 00:43:36,880

and then deliver it to the pentagon

1183

00:43:40,790 --> 00:43:38,960

and i said who do i deliver to and he

1184

00:43:42,470 --> 00:43:40,800

said well john deutsch

1185

00:43:44,390 --> 00:43:42,480

at that time he was deputy secretary of

1186

00:43:46,630 --> 00:43:44,400

defense

1187

00:43:48,950 --> 00:43:46,640

and so i wrote up the memo uh and

1188

00:43:51,750 --> 00:43:48,960

coordinated it uh through my other

1189

00:43:52,950 --> 00:43:51,760

analysts in the office with my we went

1190

00:43:55,510 --> 00:43:52,960

to the memo

1191

00:43:57,109 --> 00:43:55,520

and basically in memo i just stated that

1192

00:43:59,270 --> 00:43:57,119

russia detected

1193

00:44:00,470 --> 00:43:59,280

uh objects they did not identify that

1194

00:44:03,910 --> 00:44:00,480

were neither

1195

00:44:06,550 --> 00:44:03,920

missiles or satellites and it caused the

1196

00:44:07,589 --> 00:44:06,560

the russian

1197

00:44:09,750 --> 00:44:07,599

pvo

1198

00:44:11,990 --> 00:44:09,760

the their air defense system to go into

1199

00:44:14,710 --> 00:44:12,000

high alert and that's what we delivered

1200

00:44:17,109 --> 00:44:14,720

to john deutch

1201
00:44:18,870 --> 00:44:17,119
interesting so when this thing was

1202
00:44:21,030 --> 00:44:18,880
happening can you

1203
00:44:22,870 --> 00:44:21,040
describe the flight characteristics of

1204
00:44:25,109 --> 00:44:22,880
these things

1205
00:44:27,829 --> 00:44:25,119
no i didn't have that information that's

1206
00:44:29,910 --> 00:44:27,839
something the nga would have the actual

1207
00:44:33,589 --> 00:44:29,920
imagery

1208
00:44:37,829 --> 00:44:33,599
agency

1209
00:44:39,109 --> 00:44:37,839
nga would have that data nro would have

1210
00:44:40,150 --> 00:44:39,119
that data because they built the

1211
00:44:41,270 --> 00:44:40,160
satellite

1212
00:44:43,030 --> 00:44:41,280
they know intimately what the

1213
00:44:45,109 --> 00:44:43,040

capabilities of satellite are

1214

00:44:47,190 --> 00:44:45,119

i did not and here's where the working

1215

00:44:49,430 --> 00:44:47,200

group came in where i sent people to the

1216

00:44:51,030 --> 00:44:49,440

working group i said i don't want to be

1217

00:44:52,550 --> 00:44:51,040

right into anything i just need to know

1218

00:44:54,309 --> 00:44:52,560

that they're going there

1219

00:44:56,550 --> 00:44:54,319

and i because i need to write their

1220

00:44:58,069 --> 00:44:56,560

performance appraisal reports

1221

00:44:59,190 --> 00:44:58,079

and so i got to know what they're doing

1222

00:45:01,270 --> 00:44:59,200

and so

1223

00:45:02,150 --> 00:45:01,280

i was briefed up to a point

1224

00:45:04,710 --> 00:45:02,160

that was

1225

00:45:06,950 --> 00:45:04,720

not highly classified if at all

1226

00:45:09,190 --> 00:45:06,960

um and now i can say it i sat on this

1227

00:45:12,150 --> 00:45:09,200

for a long time because previously

1228

00:45:13,349 --> 00:45:12,160

um you know it was still considered very

1229

00:45:16,150 --> 00:45:13,359

sensitive

1230

00:45:17,589 --> 00:45:16,160

but since 2017 with the release of the

1231

00:45:20,069 --> 00:45:17,599

tic tacs

1232

00:45:22,230 --> 00:45:20,079

go fast and gimbal videos and now with

1233

00:45:23,190 --> 00:45:22,240

the discussion of orbs in the public

1234

00:45:25,990 --> 00:45:23,200

domain

1235

00:45:27,829 --> 00:45:26,000

even in uh james lukaski's book where to

1236

00:45:31,109 --> 00:45:27,839

talk about orbs

1237

00:45:32,790 --> 00:45:31,119

then i i'm no longer under any kind of

1238

00:45:34,230 --> 00:45:32,800

restraint to talk about the fact that

1239

00:45:35,990 --> 00:45:34,240

yeah there were orbs and the government

1240

00:45:37,430 --> 00:45:36,000

was interested in orbs

1241

00:45:39,589 --> 00:45:37,440

and here's when

1242

00:45:42,470 --> 00:45:39,599

how that happened

1243

00:45:44,309 --> 00:45:42,480

yeah uh you know speaking of you know

1244

00:45:46,710 --> 00:45:44,319

when you can talk about something or

1245

00:45:50,150 --> 00:45:46,720

when you cannot uh you know going back

1246

00:45:52,230 --> 00:45:50,160

to roswell you know here is a case where

1247

00:45:53,910 --> 00:45:52,240

it was swept under the rug right away

1248

00:45:55,510 --> 00:45:53,920

and nobody talked about it until the

1249

00:45:58,390 --> 00:45:55,520

1980s when

1250

00:46:01,190 --> 00:45:58,400

um you know stan freeman found this guy

1251
00:46:03,109 --> 00:46:01,200
that said you know he he's you know

1252
00:46:04,630 --> 00:46:03,119
dealt with this ufo back in roswell then

1253
00:46:05,510 --> 00:46:04,640
it all came out

1254
00:46:08,230 --> 00:46:05,520
um

1255
00:46:10,150 --> 00:46:08,240
coins coincidentally you know the cia

1256
00:46:14,150 --> 00:46:10,160
was formed you know a few months later

1257
00:46:16,470 --> 00:46:14,160
after roswell that i'm sure later

1258
00:46:19,270 --> 00:46:16,480
yeah well i'm sure it probably has

1259
00:46:22,069 --> 00:46:19,280
little to do with it but um

1260
00:46:25,349 --> 00:46:22,079
when this thing was tucked under the rug

1261
00:46:28,950 --> 00:46:25,359
how would you find out at this point

1262
00:46:31,750 --> 00:46:28,960
that there was alien bodies recovered as

1263
00:46:33,190 --> 00:46:31,760

you mentioned you know i mean uh how how

1264

00:46:35,829 --> 00:46:33,200

would any of that

1265

00:46:37,750 --> 00:46:35,839

be uncovered um you know i know you're

1266

00:46:39,270 --> 00:46:37,760

on the inside in the cia but you don't

1267

00:46:41,270 --> 00:46:39,280

really dig around and stuff like that

1268

00:46:43,030 --> 00:46:41,280

right you know historically

1269

00:46:43,829 --> 00:46:43,040

it came up because it was part of my day

1270

00:46:46,230 --> 00:46:43,839

job

1271

00:46:47,750 --> 00:46:46,240

when we detected these orbs so that came

1272

00:46:49,430 --> 00:46:47,760

up in that fashion

1273

00:46:51,270 --> 00:46:49,440

that the russians were detecting these

1274

00:46:53,670 --> 00:46:51,280

orbs we didn't look at over the united

1275

00:46:56,790 --> 00:46:53,680

states because cia has no authority

1276

00:46:58,309 --> 00:46:56,800

to do any kind of collection in

1277

00:46:59,910 --> 00:46:58,319

the united states or over the united

1278

00:47:02,069 --> 00:46:59,920

states

1279

00:47:04,390 --> 00:47:02,079

but so that's

1280

00:47:06,630 --> 00:47:04,400

that's not something that would be in

1281

00:47:07,990 --> 00:47:06,640

any kind of database that we would be

1282

00:47:11,829 --> 00:47:08,000

able to access

1283

00:47:15,030 --> 00:47:11,839

in fact eric snowden stated that uh when

1284

00:47:17,670 --> 00:47:15,040

he was a cia officer for uh for a while

1285

00:47:20,630 --> 00:47:17,680

before he became an nsa contractor

1286

00:47:23,670 --> 00:47:20,640

and so he said that when he was with cia

1287

00:47:26,069 --> 00:47:23,680

and nsa he found no evidence of any kind

1288

00:47:29,990 --> 00:47:26,079

of reporting

1289

00:47:32,069 --> 00:47:30,000

on ufos but subsequently foias we know

1290

00:47:36,309 --> 00:47:32,079

that there was a lot of interest

1291

00:47:39,190 --> 00:47:36,319

and so these fois been released and so i

1292

00:47:40,390 --> 00:47:39,200

other than the historical records

1293

00:47:42,309 --> 00:47:40,400

um

1294

00:47:45,109 --> 00:47:42,319

there would be very little

1295

00:47:46,790 --> 00:47:45,119

data that a person with casual interests

1296

00:47:48,630 --> 00:47:46,800

would be able to find

1297

00:47:50,470 --> 00:47:48,640

yeah but having said that i mean there

1298

00:47:53,030 --> 00:47:50,480

was an office that

1299

00:47:53,829 --> 00:47:53,040

did look at this seriously

1300

00:47:56,470 --> 00:47:53,839

and

1301

00:47:58,470 --> 00:47:56,480

it was probably highly compartmented

1302

00:48:01,430 --> 00:47:58,480

uh their work in it and i think a lot of

1303

00:48:03,510 --> 00:48:01,440

it went over to the dod side

1304

00:48:06,710 --> 00:48:03,520

yeah i i wouldn't be surprised if that

1305

00:48:08,390 --> 00:48:06,720

if that was the case here's a again for

1306

00:48:10,470 --> 00:48:08,400

those i know there's a lot of questions

1307

00:48:12,150 --> 00:48:10,480

i'll try to get to some when i can here

1308

00:48:14,069 --> 00:48:12,160

in the chat and thank you all for all

1309

00:48:16,630 --> 00:48:14,079

your people for uh posting these

1310

00:48:21,510 --> 00:48:16,640

questions um they wanted to know uh this

1311

00:48:23,190 --> 00:48:21,520

person wanted to know if um h a a or arp

1312

00:48:25,030 --> 00:48:23,200

yeah anything to do with bringing down

1313

00:48:27,190 --> 00:48:25,040

uap ufo craft that's something i've

1314

00:48:28,710 --> 00:48:27,200

never heard of i never heard of harp

1315

00:48:30,950 --> 00:48:28,720

doing that actively

1316

00:48:33,270 --> 00:48:30,960

i do know the harp is um

1317

00:48:34,470 --> 00:48:33,280

very involved with upper atmospheric

1318

00:48:37,270 --> 00:48:34,480

research

1319

00:48:39,190 --> 00:48:37,280

uh the troposphere this stratosphere

1320

00:48:39,990 --> 00:48:39,200

troposphere and ionosphere especially up

1321

00:48:43,589 --> 00:48:40,000

there

1322

00:48:45,270 --> 00:48:43,599

and that it is a an array of antennas

1323

00:48:47,190 --> 00:48:45,280

transmitting signals

1324

00:48:48,950 --> 00:48:47,200

to bounce off

1325

00:48:51,430 --> 00:48:48,960

the higher

1326
00:48:53,349 --> 00:48:51,440
ionospheric regions

1327
00:48:55,990 --> 00:48:53,359
to map them

1328
00:48:58,150 --> 00:48:56,000
for various reasons and

1329
00:48:59,270 --> 00:48:58,160
i have not heard of harp being used in

1330
00:49:01,910 --> 00:48:59,280
that manner

1331
00:49:04,549 --> 00:49:01,920
yeah whether it can be used i don't know

1332
00:49:07,510 --> 00:49:04,559
but it's interesting i i've heard haarp

1333
00:49:10,069 --> 00:49:07,520
doesn't have the magic

1334
00:49:12,230 --> 00:49:10,079
s band frequency

1335
00:49:14,950 --> 00:49:12,240
that has been that has been associated

1336
00:49:15,510 --> 00:49:14,960
with uh

1337
00:49:17,589 --> 00:49:15,520
that's two ufos

1338
00:49:18,870 --> 00:49:17,599

four gigahertz three gear hertz being in

1339

00:49:20,710 --> 00:49:18,880

the middle

1340

00:49:24,390 --> 00:49:20,720

um some of the early reporting from the

1341

00:49:27,270 --> 00:49:24,400

rb 47 and early reconnaissance aircraft

1342

00:49:29,510 --> 00:49:27,280

um i believe was the rb 47 that chased

1343

00:49:31,829 --> 00:49:29,520

and i think it was james mcdonald that

1344

00:49:33,349 --> 00:49:31,839

did a lot of the study yes and they

1345

00:49:36,549 --> 00:49:33,359

actually characterized the signal

1346

00:49:39,109 --> 00:49:36,559

collected by the uh by this aircraft

1347

00:49:41,750 --> 00:49:39,119

and correct me from i'm thinking rb47 it

1348

00:49:43,910 --> 00:49:41,760

could have been another aircraft but

1349

00:49:45,589 --> 00:49:43,920

long story short that they actually had

1350

00:49:47,589 --> 00:49:45,599

the parameters down

1351
00:49:50,309 --> 00:49:47,599
three gigahertz signal

1352
00:49:51,430 --> 00:49:50,319
two microsecond pulse width 600 pulses

1353
00:49:53,430 --> 00:49:51,440
per second

1354
00:49:56,549 --> 00:49:53,440
a circular scan

1355
00:49:58,630 --> 00:49:56,559
uh one scan every 15 seconds

1356
00:50:00,390 --> 00:49:58,640
that was in the report so i mean as an

1357
00:50:02,630 --> 00:50:00,400
e-link analyst i can visualize that

1358
00:50:04,390 --> 00:50:02,640
signal and it didn't look like anything

1359
00:50:07,510 --> 00:50:04,400
extraordinary at all

1360
00:50:10,069 --> 00:50:07,520
if that's truly a a ufo signal uh that

1361
00:50:11,510 --> 00:50:10,079
looks that looked to me like any mundane

1362
00:50:13,109 --> 00:50:11,520
terrestrial

1363
00:50:15,510 --> 00:50:13,119

um

1364

00:50:17,270 --> 00:50:15,520

early warning radar on the ground it

1365

00:50:19,349 --> 00:50:17,280

didn't look ufo-ish and it's nothing

1366

00:50:22,470 --> 00:50:19,359

high strangeness about it

1367

00:50:24,710 --> 00:50:22,480

so i mean if they followed this aircraft

1368

00:50:25,990 --> 00:50:24,720

and were able to collect this signal to

1369

00:50:28,470 --> 00:50:26,000

that

1370

00:50:29,430 --> 00:50:28,480

ufo

1371

00:50:30,870 --> 00:50:29,440

uh

1372

00:50:32,470 --> 00:50:30,880

it leads me to believe what do they

1373

00:50:34,150 --> 00:50:32,480

actually collect and who was flying that

1374

00:50:36,549 --> 00:50:34,160

particular ufo

1375

00:50:39,109 --> 00:50:36,559

because that radar is very very similar

1376
00:50:41,829 --> 00:50:39,119
now three gigahertz that's the frequency

1377
00:50:43,829 --> 00:50:41,839
uh in white sands missile missile range

1378
00:50:46,150 --> 00:50:43,839
there were two radars

1379
00:50:47,510 --> 00:50:46,160
that were used for testing the v2

1380
00:50:49,190 --> 00:50:47,520
rockets

1381
00:50:53,670 --> 00:50:49,200
and those two radars

1382
00:50:55,589 --> 00:50:53,680
the model number is a n slash mpq2

1383
00:50:58,230 --> 00:50:55,599
i was based on a world war ii radar

1384
00:51:00,390 --> 00:50:58,240
called the scr 584

1385
00:51:03,750 --> 00:51:00,400
and that does have

1386
00:51:05,910 --> 00:51:03,760
a three gigahertz magnetron in the radar

1387
00:51:08,470 --> 00:51:05,920
so again there's three gigahertz so

1388
00:51:10,710 --> 00:51:08,480

something about three gigahertz attracts

1389

00:51:15,190 --> 00:51:10,720

the interest it's the same frequency

1390

00:51:17,990 --> 00:51:15,200

range as the um aegis spy one radar on

1391

00:51:20,309 --> 00:51:18,000

the princeton or any aegis cruiser or

1392

00:51:23,510 --> 00:51:20,319

destroyer with a spy one

1393

00:51:25,829 --> 00:51:23,520

they would broadcast 3.5 to 4 gigahertz

1394

00:51:29,190 --> 00:51:25,839

in that range and again it's an s-band

1395

00:51:30,710 --> 00:51:29,200

signal so and the radar in russia i call

1396

00:51:33,750 --> 00:51:30,720

the neiman p

1397

00:51:35,109 --> 00:51:33,760

uh that was also an s-band radar

1398

00:51:38,150 --> 00:51:35,119

so something about that band of

1399

00:51:40,710 --> 00:51:38,160

frequencies attracts uaps

1400

00:51:42,470 --> 00:51:40,720

and i'll give you something else

1401

00:51:43,670 --> 00:51:42,480

uh long before there was a havana

1402

00:51:46,150 --> 00:51:43,680

syndrome

1403

00:51:48,630 --> 00:51:46,160

there were other similar occurrences

1404

00:51:51,670 --> 00:51:48,640

at our facilities overseas our embassies

1405

00:51:54,309 --> 00:51:51,680

and consulates and the signal happens to

1406

00:51:56,390 --> 00:51:54,319

be kind of an s-band signal

1407

00:51:58,630 --> 00:51:56,400

so what is that about this s-band

1408

00:52:00,630 --> 00:51:58,640

frequency between two to four

1409

00:52:02,470 --> 00:52:00,640

it's very very unusual and we're

1410

00:52:05,190 --> 00:52:02,480

surrounded by s-band

1411

00:52:07,270 --> 00:52:05,200

if you have wi-fi system at home you you

1412

00:52:10,230 --> 00:52:07,280

broadcast over two rages one is five

1413

00:52:11,910 --> 00:52:10,240

gigahertz and the other is 2.4 gigahertz

1414

00:52:13,990 --> 00:52:11,920

in s-band

1415

00:52:17,190 --> 00:52:14,000

so s-band is a

1416

00:52:19,190 --> 00:52:17,200

very prevalent you know radio frequency

1417

00:52:20,630 --> 00:52:19,200

range to use and for some how it's

1418

00:52:23,750 --> 00:52:20,640

associated with

1419

00:52:25,030 --> 00:52:23,760

ufos uaps and

1420

00:52:27,190 --> 00:52:25,040

i don't know why

1421

00:52:29,270 --> 00:52:27,200

yeah well there was a theory that i'd

1422

00:52:30,710 --> 00:52:29,280

heard you know i mean many times over

1423

00:52:32,790 --> 00:52:30,720

the years that

1424

00:52:34,790 --> 00:52:32,800

you know possibly

1425

00:52:36,390 --> 00:52:34,800

that you know the old saying not the old

1426
00:52:39,829 --> 00:52:36,400
saying the saying i've heard many times

1427
00:52:41,589 --> 00:52:39,839
is how could they fly you know uh

1428
00:52:43,589 --> 00:52:41,599
a thousand light years or whatever it is

1429
00:52:46,309 --> 00:52:43,599
to get here and they're here and they

1430
00:52:48,150 --> 00:52:46,319
crash why would they crash and some of

1431
00:52:49,670 --> 00:52:48,160
the theories are well you know they

1432
00:52:51,750 --> 00:52:49,680
weren't expecting

1433
00:52:53,829 --> 00:52:51,760
you know our radar or something affected

1434
00:52:56,950 --> 00:52:53,839
their their systems or something like

1435
00:52:58,309 --> 00:52:56,960
that which is you know uh

1436
00:53:02,069 --> 00:52:58,319
you know i have to keep an open mind

1437
00:53:03,910 --> 00:53:02,079
possibly that is the the fact but uh you

1438
00:53:06,069 --> 00:53:03,920

know like you said a lot well and then

1439

00:53:07,829 --> 00:53:06,079

another thing along those same lines a

1440

00:53:09,670 --> 00:53:07,839

lot of these things aren't even detected

1441

00:53:10,870 --> 00:53:09,680

on our radar systems

1442

00:53:11,750 --> 00:53:10,880

um

1443

00:53:13,190 --> 00:53:11,760

yeah

1444

00:53:14,870 --> 00:53:13,200

um

1445

00:53:16,630 --> 00:53:14,880

they're not detected by air traffic

1446

00:53:19,349 --> 00:53:16,640

control radars because it's the wrong

1447

00:53:21,349 --> 00:53:19,359

radar to detect these

1448

00:53:23,910 --> 00:53:21,359

um if you have a

1449

00:53:26,950 --> 00:53:23,920

vhf radar

1450

00:53:29,910 --> 00:53:26,960

or if you have an s-band radar

1451
00:53:33,750 --> 00:53:29,920
uh they are detectable and if the radar

1452
00:53:35,430 --> 00:53:33,760
does not have a traditional feed horn

1453
00:53:38,069 --> 00:53:35,440
attached

1454
00:53:40,870 --> 00:53:38,079
to a pedestal

1455
00:53:43,349 --> 00:53:40,880
getting reflections from or transmitting

1456
00:53:45,990 --> 00:53:43,359
refractions outward from a

1457
00:53:48,069 --> 00:53:46,000
lattice dish of some sort

1458
00:53:50,390 --> 00:53:48,079
whether it's a round dish or a

1459
00:53:52,630 --> 00:53:50,400
horizontal dish or some kind of dish

1460
00:53:54,470 --> 00:53:52,640
lattice

1461
00:53:55,990 --> 00:53:54,480
that's not the right kind of dairy radar

1462
00:53:57,910 --> 00:53:56,000
but if you have a phased array radar

1463
00:54:00,309 --> 00:53:57,920

with active elements

1464

00:54:03,589 --> 00:54:00,319

where the radar itself can have multi

1465

00:54:06,630 --> 00:54:03,599

functions of of scanning tracking

1466

00:54:09,589 --> 00:54:06,640

acquiring and engaging a target

1467

00:54:11,270 --> 00:54:09,599

at various power frequencies powers and

1468

00:54:12,390 --> 00:54:11,280

frequencies then you can you can see

1469

00:54:14,470 --> 00:54:12,400

those

1470

00:54:16,230 --> 00:54:14,480

radar so i would say that it's the wrong

1471

00:54:18,390 --> 00:54:16,240

kind of radar

1472

00:54:20,150 --> 00:54:18,400

i got the air traffic control radars oh

1473

00:54:21,990 --> 00:54:20,160

we didn't see an atc of course you

1474

00:54:23,829 --> 00:54:22,000

didn't it's the wrong radar you wouldn't

1475

00:54:25,750 --> 00:54:23,839

you won't be able to see a lot of things

1476

00:54:28,150 --> 00:54:25,760

and in fact the the air traffic control

1477

00:54:30,790 --> 00:54:28,160

radars what they see on the screen is

1478

00:54:33,030 --> 00:54:30,800

not the actual skin return they have to

1479

00:54:34,870 --> 00:54:33,040

like actually look for the skin return

1480

00:54:37,589 --> 00:54:34,880

with a mode of operation what they're

1481

00:54:40,150 --> 00:54:37,599

seeing is the iff

1482

00:54:42,950 --> 00:54:40,160

so they see united airlines uh flight

1483

00:54:45,109 --> 00:54:42,960

whatever you know ua heavy well flight

1484

00:54:47,910 --> 00:54:45,119

whoever you know on on

1485

00:54:49,430 --> 00:54:47,920

uh this this uh bearing at this speed at

1486

00:54:52,470 --> 00:54:49,440

this altitude

1487

00:54:56,630 --> 00:54:52,480

that's all by the uh iff talking to the

1488

00:54:59,030 --> 00:54:56,640

ground iff exchanging that information

1489

00:55:00,710 --> 00:54:59,040

but if you turn on the skin return then

1490

00:55:02,069 --> 00:55:00,720

you actually see the reflections from

1491

00:55:04,230 --> 00:55:02,079

the metal

1492

00:55:06,549 --> 00:55:04,240

of the aircraft and so if they put it in

1493

00:55:09,109 --> 00:55:06,559

a certain mode of operation they can do

1494

00:55:11,190 --> 00:55:09,119

that and the the waveforms out of an atc

1495

00:55:13,829 --> 00:55:11,200

radar you see at the airport that's not

1496

00:55:15,190 --> 00:55:13,839

the right kind of radar i see well that

1497

00:55:16,549 --> 00:55:15,200

we're going to get into that because i

1498

00:55:18,230 --> 00:55:16,559

have a question about that when we come

1499

00:55:20,630 --> 00:55:18,240

back but it's time for us to go into the

1500

00:55:23,349 --> 00:55:20,640

break it's a four minute break and this

1501
00:55:25,270 --> 00:55:23,359
is with albert wayne uh about a

1502
00:55:27,430 --> 00:55:25,280
incredible ufo sighting he's just gonna

1503
00:55:29,990 --> 00:55:27,440
get into a little bit of it uh the full

1504
00:55:32,630 --> 00:55:30,000
video will be up uh at midnight but here

1505
00:55:36,390 --> 00:55:32,640
we go and over at kgra radio we'll be

1506
00:55:38,390 --> 00:55:36,400
right back after this four minute break

1507
00:55:40,309 --> 00:55:38,400
all right everyone i'm with albert wayne

1508
00:55:41,670 --> 00:55:40,319
and we're going to do this today a

1509
00:55:45,510 --> 00:55:41,680
little different than we've been doing

1510
00:55:48,870 --> 00:55:45,520
our other ufo uh stories uh encounter

1511
00:55:50,710 --> 00:55:48,880
stories and that is i'm going to we're

1512
00:55:52,069 --> 00:55:50,720
going to try to do like a three minute

1513
00:55:54,870 --> 00:55:52,079

segment

1514

00:55:57,510 --> 00:55:54,880

for the commercial breaks that kgra

1515

00:56:00,549 --> 00:55:57,520

radio and then we're gonna

1516

00:56:02,470 --> 00:56:00,559

pause at the three minute mark or so and

1517

00:56:04,470 --> 00:56:02,480

then we're to get into the full story

1518

00:56:06,150 --> 00:56:04,480

and if you're watching

1519

00:56:08,549 --> 00:56:06,160

in the commercial break right now this

1520

00:56:10,390 --> 00:56:08,559

will be the full story will be on our

1521

00:56:12,950 --> 00:56:10,400

youtube channel tomorrow

1522

00:56:14,950 --> 00:56:12,960

so here we go albert thank you for

1523

00:56:17,910 --> 00:56:14,960

contacting me and

1524

00:56:19,829 --> 00:56:17,920

let's hear if we can do sort of a

1525

00:56:21,670 --> 00:56:19,839

three-minute nutshell about the

1526
00:56:23,829 --> 00:56:21,680
encounter itself and then we'll get into

1527
00:56:26,789 --> 00:56:23,839
details after that

1528
00:56:29,190 --> 00:56:26,799
all right martin quite simply it was the

1529
00:56:31,109 --> 00:56:29,200
fall of 1977.

1530
00:56:32,870 --> 00:56:31,119
my girlfriend and i were i think i was

1531
00:56:34,710 --> 00:56:32,880
17 years old my girlfriend and i were

1532
00:56:35,829 --> 00:56:34,720
heading south on i-95 through

1533
00:56:39,109 --> 00:56:35,839
connecticut

1534
00:56:43,990 --> 00:56:40,150
and

1535
00:56:46,789 --> 00:56:44,000
it was a fairly windy night

1536
00:56:49,030 --> 00:56:46,799
and suddenly up ahead on the horizon

1537
00:56:51,510 --> 00:56:49,040
line of the highway you could see tall

1538
00:56:53,030 --> 00:56:51,520

piners and behind the piners the sky the

1539

00:56:54,950 --> 00:56:53,040

sky lit up

1540

00:56:56,950 --> 00:56:54,960

like a like a like a light

1541

00:57:01,030 --> 00:56:56,960

string of lights

1542

00:57:02,789 --> 00:57:01,040

um as we as we got closer

1543

00:57:05,270 --> 00:57:02,799

you know when you can see a an airliner

1544

00:57:08,150 --> 00:57:05,280

coming through clouds it looks like

1545

00:57:10,230 --> 00:57:08,160

headlights from a car right yeah and

1546

00:57:12,390 --> 00:57:10,240

and understandably green state airport

1547

00:57:15,109 --> 00:57:12,400

is just back where we had come from in

1548

00:57:17,430 --> 00:57:15,119

rhode island so i'm thinking this it's

1549

00:57:19,510 --> 00:57:17,440

just a low-flying aircraft as we

1550

00:57:22,150 --> 00:57:19,520

continue to approach

1551

00:57:23,750 --> 00:57:22,160

the the lights the lights continue to

1552

00:57:25,670 --> 00:57:23,760

light up the sky even more you can see

1553

00:57:27,190 --> 00:57:25,680

the black clouds flying through the

1554

00:57:29,109 --> 00:57:27,200

background

1555

00:57:30,950 --> 00:57:29,119

and i said i looked over and i said to

1556

00:57:32,549 --> 00:57:30,960

my friend

1557

00:57:34,390 --> 00:57:32,559

that thing's too low i think it's it's

1558

00:57:36,470 --> 00:57:34,400

gonna crash

1559

00:57:38,789 --> 00:57:36,480

and when i said that

1560

00:57:40,950 --> 00:57:38,799

or just shortly thereafter it it

1561

00:57:44,150 --> 00:57:40,960

literally stopped

1562

00:57:46,549 --> 00:57:44,160

it stopped above above the treetops now

1563

00:57:49,190 --> 00:57:46,559

there were approximately a hundred acres

1564

00:57:50,470 --> 00:57:49,200

of field on both sides of us at this

1565

00:57:52,390 --> 00:57:50,480

point

1566

00:57:53,510 --> 00:57:52,400

and the treetop and the tree line in the

1567

00:57:55,589 --> 00:57:53,520

distance

1568

00:57:57,270 --> 00:57:55,599

it stopped there we continued driving

1569

00:58:00,710 --> 00:57:57,280

they were probably it wasn't a super

1570

00:58:04,950 --> 00:58:02,309

as we got closer you could see the

1571

00:58:07,589 --> 00:58:04,960

treetops being blown back and forth

1572

00:58:10,470 --> 00:58:07,599

almost as if a hurricane was acting upon

1573

00:58:12,710 --> 00:58:10,480

them they were literally bending over

1574

00:58:14,470 --> 00:58:12,720

and

1575

00:58:16,710 --> 00:58:14,480

this is this is a very weird story

1576

00:58:17,990 --> 00:58:16,720

because there are some convoluted events

1577

00:58:20,549 --> 00:58:18,000

that take place

1578

00:58:22,150 --> 00:58:20,559

that i can't explain even now um

1579

00:58:23,430 --> 00:58:22,160

but it was just sitting there and as we

1580

00:58:24,950 --> 00:58:23,440

got closer

1581

00:58:27,990 --> 00:58:24,960

everybody in front of me started slowing

1582

00:58:30,630 --> 00:58:28,000

down now night literally turned today

1583

00:58:32,150 --> 00:58:30,640

it was it was as bright as if the sun

1584

00:58:34,390 --> 00:58:32,160

had just come up you could see

1585

00:58:35,990 --> 00:58:34,400

everything on both sides of the field

1586

00:58:37,270 --> 00:58:36,000

on both sides of the highway all the way

1587

00:58:38,950 --> 00:58:37,280

out as far as you can see on the field

1588

00:58:41,349 --> 00:58:38,960

it was for all intents and purposes it

1589

00:58:43,430 --> 00:58:41,359

was daylight now

1590

00:58:45,670 --> 00:58:43,440

the craft itself

1591

00:58:47,430 --> 00:58:45,680

i've never heard anybody describe craft

1592

00:58:48,470 --> 00:58:47,440

like this either

1593

00:58:52,390 --> 00:58:48,480

it had

1594

00:58:56,150 --> 00:58:52,400

compass

1595

00:58:57,589 --> 00:58:56,160

it had four points a three section

1596

00:59:00,069 --> 00:58:57,599

a midsection

1597

00:59:01,990 --> 00:59:00,079

the bottom was the bottom was rounded

1598

00:59:03,750 --> 00:59:02,000

the section just above that had a yellow

1599

00:59:06,630 --> 00:59:03,760

band and the top

1600

00:59:08,549 --> 00:59:06,640

was cut out on angles

1601
00:59:14,150 --> 00:59:08,559
at the end of each

1602
00:59:17,030 --> 00:59:14,160
four compass arms there was a rod with a

1603
00:59:19,270 --> 00:59:17,040
white ball of light

1604
00:59:20,870 --> 00:59:19,280
at the top of each one goodness you know

1605
00:59:23,349 --> 00:59:20,880
what we're gonna have to say we're gonna

1606
00:59:26,230 --> 00:59:23,359
have to say tune in tomorrow

1607
00:59:32,470 --> 00:59:26,240
on our youtube page to hear the rest of

1608
00:59:35,990 --> 00:59:34,710
whoops sorry i'm back right in the

1609
00:59:36,950 --> 00:59:36,000
middle of i thought that went a little

1610
00:59:39,510 --> 00:59:36,960
longer

1611
00:59:41,030 --> 00:59:39,520
all right so uh we are with the guest

1612
00:59:43,750 --> 00:59:41,040
tonight john ramirez and we're going to

1613
00:59:44,630 --> 00:59:43,760

bring him right back in

1614

00:59:46,470 --> 00:59:44,640

uh

1615

00:59:49,030 --> 00:59:46,480

i'm adding to stream and nothing's

1616

00:59:52,069 --> 00:59:49,040

happening here we go strange okay john

1617

00:59:56,309 --> 00:59:55,430

so john um we were talking about radar

1618

00:59:57,430 --> 00:59:56,319

and

1619

00:59:59,349 --> 00:59:57,440

you know

1620

01:00:00,950 --> 00:59:59,359

the detection and all that and one of

1621

01:00:02,309 --> 01:00:00,960

the things that you hear

1622

01:00:05,270 --> 01:00:02,319

a lot of

1623

01:00:08,069 --> 01:00:05,280

well neil degrasse tyson for one he says

1624

01:00:10,069 --> 01:00:08,079

that only uh

1625

01:00:11,589 --> 01:00:10,079

mil why is it only military people see

1626

01:00:14,549 --> 01:00:11,599

ufos which was

1627

01:00:16,630 --> 01:00:14,559

really uh not ever

1628

01:00:18,950 --> 01:00:16,640

you know it was a silly statement just a

1629

01:00:21,349 --> 01:00:18,960

silly statement but another thing

1630

01:00:23,670 --> 01:00:21,359

when he was asked about you know what

1631

01:00:26,630 --> 01:00:23,680

these things could be he said he thought

1632

01:00:28,630 --> 01:00:26,640

it was a a radar anomaly you know it's

1633

01:00:29,430 --> 01:00:28,640

something in the equipment he doesn't go

1634

01:00:31,750 --> 01:00:29,440

into

1635

01:00:34,230 --> 01:00:31,760

yeah but uh

1636

01:00:36,549 --> 01:00:34,240

with all the different radars like for

1637

01:00:39,990 --> 01:00:36,559

instance the nimitz case there was there

1638

01:00:41,910 --> 01:00:40,000

was multiple radars on on these objects

1639

01:00:44,630 --> 01:00:41,920

there's no such thing as all these

1640

01:00:46,630 --> 01:00:44,640

radars failing at once

1641

01:00:49,430 --> 01:00:46,640

wouldn't you agree on that

1642

01:00:51,990 --> 01:00:49,440

uh first of all um our modern radar

1643

01:00:53,589 --> 01:00:52,000

systems have something called bite bite

1644

01:00:55,349 --> 01:00:53,599

built-in test equipment

1645

01:00:57,030 --> 01:00:55,359

so um

1646

01:01:08,829 --> 01:00:57,040

the

1647

01:01:12,069 --> 01:01:08,839

daily

1648

01:01:13,430 --> 01:01:12,079

weekly monthly bi-monthly maintenance on

1649

01:01:15,270 --> 01:01:13,440

these radars

1650

01:01:16,390 --> 01:01:15,280

and if there's a glitch like a false

1651
01:01:18,549 --> 01:01:16,400
target

1652
01:01:20,390 --> 01:01:18,559
that might appear that's a serious issue

1653
01:01:22,309 --> 01:01:20,400
that needs to be looked at

1654
01:01:23,990 --> 01:01:22,319
and there is a false target there are

1655
01:01:26,630 --> 01:01:24,000
people who look at these radars called

1656
01:01:28,950 --> 01:01:26,640
operations specialists or os's

1657
01:01:31,589 --> 01:01:28,960
their job is to actually monitor the

1658
01:01:33,670 --> 01:01:31,599
radar picture around their ship and do

1659
01:01:34,870 --> 01:01:33,680
they see something like that um they

1660
01:01:36,630 --> 01:01:34,880
would eventu

1661
01:01:39,030 --> 01:01:36,640
immediately call the attention of the

1662
01:01:40,870 --> 01:01:39,040
technician electronics technician

1663
01:01:42,789 --> 01:01:40,880

to to look at that because you don't

1664

01:01:44,390 --> 01:01:42,799

want a false target because the false

1665

01:01:45,430 --> 01:01:44,400

target

1666

01:01:47,510 --> 01:01:45,440

two things

1667

01:01:50,069 --> 01:01:47,520

one it's a false target and you don't

1668

01:01:51,910 --> 01:01:50,079

want to designate as an enemy target and

1669

01:01:53,270 --> 01:01:51,920

two if you think it's an anomaly you

1670

01:01:56,630 --> 01:01:53,280

don't want to dismiss it because it

1671

01:01:58,390 --> 01:01:56,640

could be an enemy target so it the fact

1672

01:01:59,750 --> 01:01:58,400

that that these are radar anomalies is

1673

01:02:02,309 --> 01:01:59,760

ridiculous

1674

01:02:04,150 --> 01:02:02,319

um especially our modern radars and the

1675

01:02:07,510 --> 01:02:04,160

way they're designed

1676
01:02:09,670 --> 01:02:07,520
um there is such a thing as sea clutter

1677
01:02:12,150 --> 01:02:09,680
and close end to the ship

1678
01:02:15,029 --> 01:02:12,160
uh you can change the sensitivity

1679
01:02:16,630 --> 01:02:15,039
of the radar so that you get further out

1680
01:02:18,549 --> 01:02:16,640
targets beyond

1681
01:02:20,390 --> 01:02:18,559
the maximum range

1682
01:02:22,789 --> 01:02:20,400
of the range ring and you can set it so

1683
01:02:24,069 --> 01:02:22,799
that if you accept a lot of clutter

1684
01:02:25,750 --> 01:02:24,079
close to you

1685
01:02:28,150 --> 01:02:25,760
you can increase the sensitivity of the

1686
01:02:29,430 --> 01:02:28,160
radar further away from you

1687
01:02:32,549 --> 01:02:29,440
and so

1688
01:02:36,549 --> 01:02:32,559

if there's clutter inside the range the

1689

01:02:38,630 --> 01:02:36,559

first range ring that can be adjusted

1690

01:02:40,789 --> 01:02:38,640

there's all kinds of modes of operation

1691

01:02:43,109 --> 01:02:40,799

on the radar it's not just the

1692

01:02:45,109 --> 01:02:43,119

energy going out and bouncing back

1693

01:02:46,630 --> 01:02:45,119

i mean there's internal modulation on

1694

01:02:48,230 --> 01:02:46,640

the waveform

1695

01:02:49,910 --> 01:02:48,240

there are all kinds of modulations on

1696

01:02:51,990 --> 01:02:49,920

the waveform uh they could be like

1697

01:02:54,230 --> 01:02:52,000

frequency modulated it could be phase

1698

01:02:56,549 --> 01:02:54,240

shift key modulated there are various

1699

01:02:58,470 --> 01:02:56,559

ways to send that signal out and bring

1700

01:02:59,910 --> 01:02:58,480

it back and to process it on the

1701

01:03:01,430 --> 01:02:59,920

receiving end

1702

01:03:03,670 --> 01:03:01,440

as well so saying that they're all

1703

01:03:05,829 --> 01:03:03,680

glitches is ridiculous

1704

01:03:08,549 --> 01:03:05,839

you're right thank you

1705

01:03:09,990 --> 01:03:08,559

yeah and and you know also one of these

1706

01:03:12,950 --> 01:03:10,000

when we were talking about you know

1707

01:03:16,710 --> 01:03:12,960

airlines in their radar it made me think

1708

01:03:17,589 --> 01:03:16,720

about the november 2006 o'hare

1709

01:03:20,630 --> 01:03:17,599

uh

1710

01:03:22,309 --> 01:03:20,640

ufo incident gate c17 i don't know if

1711

01:03:23,750 --> 01:03:22,319

you looked into that or ever heard about

1712

01:03:26,390 --> 01:03:23,760

that in the past

1713

01:03:28,390 --> 01:03:26,400

um but here's here's the question there

1714

01:03:30,950 --> 01:03:28,400

does that mean that

1715

01:03:32,710 --> 01:03:30,960

the tower can see planes coming in

1716

01:03:35,510 --> 01:03:32,720

through the radar and track them and all

1717

01:03:36,950 --> 01:03:35,520

that but they didn't see they would not

1718

01:03:40,390 --> 01:03:36,960

see that

1719

01:03:42,549 --> 01:03:40,400

that ufo over gate c17 is that

1720

01:03:44,549 --> 01:03:42,559

is that more or less what you're saying

1721

01:03:46,710 --> 01:03:44,559

when you're saying they can't detect

1722

01:03:48,150 --> 01:03:46,720

these type of objects

1723

01:03:49,910 --> 01:03:48,160

well first of all

1724

01:03:53,589 --> 01:03:49,920

you have to understand one concept of a

1725

01:03:56,950 --> 01:03:53,599

radar is minimum minimum detection range

1726

01:04:01,029 --> 01:03:56,960

and so the pulse of the radar determines

1727

01:04:04,150 --> 01:04:01,039

um a blind zone from the radar

1728

01:04:06,230 --> 01:04:04,160

to the end of that false first pulse

1729

01:04:08,230 --> 01:04:06,240

and i'm getting into i'm going to train

1730

01:04:10,309 --> 01:04:08,240

you to be elan analysts

1731

01:04:11,510 --> 01:04:10,319

but if you have a mic one microsecond

1732

01:04:13,510 --> 01:04:11,520

pulse

1733

01:04:15,109 --> 01:04:13,520

in one microsecond that energy goes a

1734

01:04:15,990 --> 01:04:15,119

certain distance based on the speed of

1735

01:04:19,990 --> 01:04:16,000

light

1736

01:04:22,390 --> 01:04:20,000

it's like 300 000

1737

01:04:23,670 --> 01:04:22,400

uh kilometers per second i believe

1738

01:04:26,309 --> 01:04:23,680

correct me if i'm wrong but i think it's

1739

01:04:28,630 --> 01:04:26,319

300 000 kilometers per second and so

1740

01:04:31,510 --> 01:04:28,640

that's one second now imagine

1741

01:04:33,750 --> 01:04:31,520

300 kilometers 300 000 kilometers

1742

01:04:36,789 --> 01:04:33,760

how far

1743

01:04:38,789 --> 01:04:36,799

will it take light to go

1744

01:04:41,029 --> 01:04:38,799

how how far will light go in one

1745

01:04:42,470 --> 01:04:41,039

microsecond

1746

01:04:45,349 --> 01:04:42,480

and so anything within that one

1747

01:04:47,589 --> 01:04:45,359

microsecond is blind to the radar

1748

01:04:49,190 --> 01:04:47,599

now what you see at the airport is a

1749

01:04:55,589 --> 01:04:49,200

fast spinning

1750

01:04:56,470 --> 01:04:55,599

navigation detection equipment

1751

01:04:59,750 --> 01:04:56,480

that

1752

01:05:02,789 --> 01:04:59,760

detects using pulse doppler and

1753

01:05:04,870 --> 01:05:02,799

interweaving range waveforms

1754

01:05:07,990 --> 01:05:04,880

they can actually see uh planes on the

1755

01:05:09,750 --> 01:05:08,000

ground on the tarmac and on the runway

1756

01:05:11,910 --> 01:05:09,760

they're looking down

1757

01:05:14,230 --> 01:05:11,920

they're not looking up

1758

01:05:16,710 --> 01:05:14,240

and the radars looking up are looking at

1759

01:05:18,230 --> 01:05:16,720

iff unless they put it into the raw

1760

01:05:21,910 --> 01:05:18,240

video mode

1761

01:05:24,390 --> 01:05:21,920

so i think it's conceivable that if the

1762

01:05:27,589 --> 01:05:24,400

object is very close

1763

01:05:29,349 --> 01:05:27,599

to the radar it will be within the

1764

01:05:31,990 --> 01:05:29,359

pulse width of the radar and everything

1765

01:05:34,549 --> 01:05:32,000

anything in the pulse with the radar is

1766

01:05:36,950 --> 01:05:34,559

blind to the radar

1767

01:05:39,029 --> 01:05:36,960

that's the minimum detection range

1768

01:05:41,109 --> 01:05:39,039

past that pulse

1769

01:05:43,349 --> 01:05:41,119

yeah i don't know if you heard this or

1770

01:05:46,549 --> 01:05:43,359

not but i i heard

1771

01:05:49,270 --> 01:05:46,559

that uh lou elizondo said that

1772

01:05:52,630 --> 01:05:49,280

uh there's a possibility of a release of

1773

01:05:54,470 --> 01:05:52,640

a 23-minute video yes yes so anything

1774

01:05:56,390 --> 01:05:54,480

about that have you heard about that no

1775

01:05:57,990 --> 01:05:56,400

i've heard about it i want to see it

1776

01:06:00,630 --> 01:05:58,000

yeah

1777

01:06:02,710 --> 01:06:00,640

i want to see it um

1778

01:06:04,870 --> 01:06:02,720

i try to get information out of him but

1779

01:06:07,270 --> 01:06:04,880

he said you know basically he couldn't

1780

01:06:09,109 --> 01:06:07,280

respond about anything at this time

1781

01:06:10,710 --> 01:06:09,119

so that's always frustrating i almost

1782

01:06:14,309 --> 01:06:10,720

wish he didn't tease it out there you

1783

01:06:17,029 --> 01:06:14,319

know yeah you know so but uh that would

1784

01:06:18,470 --> 01:06:17,039

be interesting and do you think

1785

01:06:20,390 --> 01:06:18,480

that uh

1786

01:06:23,029 --> 01:06:20,400

does it feel like we're going to get

1787

01:06:26,390 --> 01:06:23,039

more information as we go along i mean

1788

01:06:27,990 --> 01:06:26,400

we've seen such a change since 2017

1789

01:06:29,349 --> 01:06:28,000

since the release of the new york times

1790

01:06:31,270 --> 01:06:29,359

article and all these people coming

1791

01:06:34,150 --> 01:06:31,280

forward but actually a little bit before

1792

01:06:35,990 --> 01:06:34,160

that uh for those of us in the ufo field

1793

01:06:38,069 --> 01:06:36,000

we were paying attention to what tom

1794

01:06:39,829 --> 01:06:38,079

delonge was doing with you know chris

1795

01:06:41,670 --> 01:06:39,839

mellon and and all these different

1796

01:06:43,029 --> 01:06:41,680

people that he gathered together as well

1797

01:06:45,109 --> 01:06:43,039

as luella

1798

01:06:47,589 --> 01:06:45,119

uh so we were watching all that and then

1799

01:06:50,630 --> 01:06:47,599

the new york time new york times article

1800

01:06:52,870 --> 01:06:50,640

really put put it out there and and

1801
01:06:54,309 --> 01:06:52,880
things have been moving forward do you

1802
01:06:58,069 --> 01:06:54,319
feel as though there's

1803
01:07:00,309 --> 01:06:58,079
like a movement into information about

1804
01:07:01,990 --> 01:07:00,319
what's going on in general you know the

1805
01:07:04,230 --> 01:07:02,000
science will take this more seriously

1806
01:07:06,150 --> 01:07:04,240
now all that

1807
01:07:08,630 --> 01:07:06,160
i i hope so

1808
01:07:11,430 --> 01:07:08,640
that is my fervent hope

1809
01:07:13,109 --> 01:07:11,440
and again i go back to the legislation

1810
01:07:15,910 --> 01:07:13,119
when that becomes law

1811
01:07:18,630 --> 01:07:15,920
that will have to occur

1812
01:07:21,270 --> 01:07:18,640
and um there's also the intelligence

1813
01:07:22,630 --> 01:07:21,280

authorization act that had language

1814

01:07:23,829 --> 01:07:22,640

i don't know if that language is still

1815

01:07:24,789 --> 01:07:23,839

in there

1816

01:07:27,750 --> 01:07:24,799

um

1817

01:07:30,789 --> 01:07:27,760

and what's going on with the iaa

1818

01:07:32,549 --> 01:07:30,799

according to dean johnson the ndaa part

1819

01:07:33,670 --> 01:07:32,559

with the gillibrand amendment has been

1820

01:07:35,270 --> 01:07:33,680

separated

1821

01:07:37,510 --> 01:07:35,280

and is looked at as a separate piece of

1822

01:07:38,950 --> 01:07:37,520

legislation that can go forward

1823

01:07:41,430 --> 01:07:38,960

that's very good

1824

01:07:42,950 --> 01:07:41,440

and i would hope that

1825

01:07:46,309 --> 01:07:42,960

there will be an opportunity for

1826

01:07:48,630 --> 01:07:46,319

congress to hold open hearings

1827

01:07:51,670 --> 01:07:48,640

about this phenomenon open hearings not

1828

01:07:53,430 --> 01:07:51,680

closed not classified but open yeah and

1829

01:07:54,710 --> 01:07:53,440

i will hope that they would have as

1830

01:07:56,549 --> 01:07:54,720

witnesses

1831

01:07:57,829 --> 01:07:56,559

not only people who have seen them

1832

01:08:02,150 --> 01:07:57,839

citizens

1833

01:08:04,069 --> 01:08:02,160

who have seen this phenomenon but also

1834

01:08:07,270 --> 01:08:04,079

academics who have studied this

1835

01:08:08,870 --> 01:08:07,280

phenomenon and i mentioned that in this

1836

01:08:10,710 --> 01:08:08,880

one day symposium there were mostly

1837

01:08:12,150 --> 01:08:10,720

academics and very few government people

1838

01:08:14,230 --> 01:08:12,160

there

1839

01:08:16,070 --> 01:08:14,240

speaking of that why why would you think

1840

01:08:17,189 --> 01:08:16,080

that meeting would be unclassified i

1841

01:08:18,149 --> 01:08:17,199

mean that

1842

01:08:20,709 --> 01:08:18,159

yes

1843

01:08:22,630 --> 01:08:20,719

you know i don't know uh that surprised

1844

01:08:24,309 --> 01:08:22,640

me the most of all

1845

01:08:26,870 --> 01:08:24,319

because when i was invited to this

1846

01:08:27,749 --> 01:08:26,880

meeting the actual subject matter of the

1847

01:08:29,749 --> 01:08:27,759

meeting

1848

01:08:31,189 --> 01:08:29,759

was not disclosed to me they said

1849

01:08:33,269 --> 01:08:31,199

there's an interesting meeting you might

1850

01:08:34,149 --> 01:08:33,279

be uh i think you'll be interested in

1851

01:08:35,990 --> 01:08:34,159

going

1852

01:08:38,789 --> 01:08:36,000

and here here's the location of the

1853

01:08:39,990 --> 01:08:38,799

meeting and here's where it's at and uh

1854

01:08:41,910 --> 01:08:40,000

you don't have to bring a badge or

1855

01:08:43,430 --> 01:08:41,920

anything like that it's okay

1856

01:08:45,590 --> 01:08:43,440

so i went up to the meeting and you know

1857

01:08:48,709 --> 01:08:45,600

second floor of this hotel

1858

01:08:50,789 --> 01:08:48,719

um a little conference room um and no no

1859

01:08:53,430 --> 01:08:50,799

security officer no badges required i

1860

01:08:55,349 --> 01:08:53,440

could bring my cell phone in

1861

01:08:58,229 --> 01:08:55,359

so i don't know why

1862

01:09:00,470 --> 01:08:58,239

that was unclassified again

1863

01:09:03,349 --> 01:09:00,480

if i can release the names of the people

1864

01:09:05,910 --> 01:09:03,359

who sponsored this one day symposium ask

1865

01:09:07,910 --> 01:09:05,920

them that question they they would know

1866

01:09:09,910 --> 01:09:07,920

yeah i wouldn't understand why they

1867

01:09:11,349 --> 01:09:09,920

would it would be a misinformation thing

1868

01:09:12,550 --> 01:09:11,359

i mean that wouldn't make any sense for

1869

01:09:14,630 --> 01:09:12,560

them to put on

1870

01:09:16,709 --> 01:09:14,640

all this you know for what reason would

1871

01:09:18,950 --> 01:09:16,719

that be you know i mean yeah it's just

1872

01:09:21,269 --> 01:09:18,960

uh i don't really understand

1873

01:09:22,789 --> 01:09:21,279

it also here's a question here someone

1874

01:09:24,229 --> 01:09:22,799

wanted me to ask you and i'll try to get

1875

01:09:27,269 --> 01:09:24,239

to some of your questions again thank

1876

01:09:28,390 --> 01:09:27,279

you for posting them in caps uh they

1877

01:09:29,990 --> 01:09:28,400

want to be asked

1878

01:09:32,390 --> 01:09:30,000

do you know about

1879

01:09:33,510 --> 01:09:32,400

space junk being recovered on elgin air

1880

01:09:35,669 --> 01:09:33,520

force base

1881

01:09:37,030 --> 01:09:35,679

no i don't you don't okay so we'll move

1882

01:09:39,110 --> 01:09:37,040

on from that um i thought it was

1883

01:09:40,870 --> 01:09:39,120

something you may have talked about uh

1884

01:09:42,149 --> 01:09:40,880

before or something like that while i

1885

01:09:43,829 --> 01:09:42,159

posted it

1886

01:09:45,030 --> 01:09:43,839

so i just want to go through real

1887

01:09:48,309 --> 01:09:45,040

quickly and see if there's any other

1888

01:09:50,630 --> 01:09:48,319

questions here in caps uh we have this

1889

01:09:56,630 --> 01:09:50,640

um

1890

01:09:59,270 --> 01:09:56,640

you mentioned earlier you talked about

1891

01:10:03,990 --> 01:09:59,280

another quote that lou elizondo that i

1892

01:10:06,630 --> 01:10:04,000

heard and kind of was uh kind of eerie

1893

01:10:08,229 --> 01:10:06,640

to me what if everything that you

1894

01:10:10,790 --> 01:10:08,239

yeah you know

1895

01:10:12,149 --> 01:10:10,800

have been taught is different and what

1896

01:10:14,950 --> 01:10:12,159

if there is

1897

01:10:18,229 --> 01:10:14,960

something that is you know a higher

1898

01:10:21,030 --> 01:10:18,239

level intelligence or i believe i'm um

1899

01:10:23,830 --> 01:10:21,040

paraphrasing here but whatever it was uh

1900

01:10:24,709 --> 01:10:23,840

you know i listened to that on kirk uh

1901

01:10:26,870 --> 01:10:24,719

kirk's

1902

01:10:28,709 --> 01:10:26,880

kurtz show over there at the theory of

1903

01:10:30,550 --> 01:10:28,719

everything and i was kind of blown away

1904

01:10:31,270 --> 01:10:30,560

by that and it was kind of disturbed by

1905

01:10:32,149 --> 01:10:31,280

that

1906

01:10:33,669 --> 01:10:32,159

phrase

1907

01:10:35,110 --> 01:10:33,679

and i just wonder what you've you

1908

01:10:36,950 --> 01:10:35,120

thought about i mean it would only be

1909

01:10:39,510 --> 01:10:36,960

speculation on your end nothing you have

1910

01:10:41,110 --> 01:10:39,520

heard about through the cia right

1911

01:10:44,149 --> 01:10:41,120

um

1912

01:10:45,350 --> 01:10:44,159

no not not specifically with what lou

1913

01:10:47,430 --> 01:10:45,360

said

1914

01:10:49,350 --> 01:10:47,440

um the closest

1915

01:10:50,790 --> 01:10:49,360

that i can draw to what lou said was

1916

01:10:52,070 --> 01:10:50,800

again going back to that one day

1917

01:10:55,030 --> 01:10:52,080

symposium

1918

01:10:57,750 --> 01:10:55,040

that that humans are hybrids

1919

01:11:00,229 --> 01:10:57,760

and is that what lu is that the word liu

1920

01:11:03,350 --> 01:11:00,239

kang say hybrid or it can say but the

1921

01:11:04,149 --> 01:11:03,360

pentagon is watching him to say it

1922

01:11:07,830 --> 01:11:04,159

um

1923

01:11:10,830 --> 01:11:07,840

i think the word is hybrid and so

1924

01:11:14,870 --> 01:11:12,550

closest

1925

01:11:18,310 --> 01:11:14,880

clue i got was with this one-day

1926

01:11:19,750 --> 01:11:18,320

symposium where the word alien dna

1927

01:11:21,990 --> 01:11:19,760

hybrid

1928

01:11:23,350 --> 01:11:22,000

um those words were used

1929

01:11:25,990 --> 01:11:23,360

and is that the thing that lou's

1930

01:11:26,950 --> 01:11:26,000

alluding to that that you know suppose

1931

01:11:30,550 --> 01:11:26,960

that

1932

01:11:33,110 --> 01:11:30,560

what we were taught about humanity's

1933

01:11:37,510 --> 01:11:35,910

was all wrong and so other than that i

1934

01:11:40,070 --> 01:11:37,520

can't elaborate

1935

01:11:42,470 --> 01:11:40,080

yeah i wish somebody would ask him do

1936

01:11:45,750 --> 01:11:42,480

you no one's asked them these i would

1937

01:11:47,270 --> 01:11:45,760

like to post lou on my show

1938

01:11:49,110 --> 01:11:47,280

and boy you can imagine what kind of

1939

01:11:51,590 --> 01:11:49,120

questions i would have for him coming

1940

01:11:53,430 --> 01:11:51,600

from my perspective to him whatever he

1941

01:11:55,430 --> 01:11:53,440

can answer though that's the yeah the

1942

01:11:56,950 --> 01:11:55,440

problem you know

1943

01:11:59,350 --> 01:11:56,960

i've had him you know when i've had him

1944

01:12:01,110 --> 01:11:59,360

on a couple of times he's you know he's

1945

01:12:03,590 --> 01:12:01,120

he shied away from some of the questions

1946

01:12:05,910 --> 01:12:03,600

because of the nda just like um you

1947

01:12:08,310 --> 01:12:05,920

would if i asked you certain questions

1948

01:12:10,229 --> 01:12:08,320

well yeah and the way i would ask it is

1949

01:12:12,470 --> 01:12:10,239

you know elicit an answer that's a yes

1950

01:12:14,630 --> 01:12:12,480

or no

1951

01:12:16,229 --> 01:12:14,640

if you accidentally explain things

1952

01:12:17,910 --> 01:12:16,239

um

1953

01:12:19,350 --> 01:12:17,920

i don't think that's effective as ask

1954

01:12:20,149 --> 01:12:19,360

him a yes or

1955

01:12:23,189 --> 01:12:20,159

no

1956

01:12:25,350 --> 01:12:23,199

question phrase it as is there some do

1957

01:12:27,110 --> 01:12:25,360

you know of

1958

01:12:28,470 --> 01:12:27,120

uh do you know

1959

01:12:29,750 --> 01:12:28,480

of the

1960

01:12:31,270 --> 01:12:29,760

um

1961

01:12:34,229 --> 01:12:31,280

do you know

1962

01:12:36,950 --> 01:12:34,239

that u.s government is aware the human

1963

01:12:38,790 --> 01:12:36,960

genome contains alien dna

1964

01:12:40,470 --> 01:12:38,800

yes or no

1965

01:12:42,709 --> 01:12:40,480

see i would say yes

1966

01:12:45,110 --> 01:12:42,719

just based on what i heard i would love

1967

01:12:48,149 --> 01:12:45,120

to hear what he says

1968

01:12:50,229 --> 01:12:48,159

and if he says i can't talk about it

1969

01:12:51,669 --> 01:12:50,239

you know i would think if there isn't he

1970

01:12:54,550 --> 01:12:51,679

would say no

1971

01:12:57,030 --> 01:12:54,560

yeah but if he says i have an nda on

1972

01:12:59,189 --> 01:12:57,040

alien hybrids and what does that kind of

1973

01:13:01,350 --> 01:12:59,199

imply to you yeah

1974

01:13:02,830 --> 01:13:01,360

i know but i can't tell you yet

1975

01:13:05,990 --> 01:13:02,840

right see

1976

01:13:08,149 --> 01:13:06,000

so well you know uh i've i've thought

1977

01:13:09,590 --> 01:13:08,159

you know this is just my own thinking

1978

01:13:10,709 --> 01:13:09,600

nothing to do with any science or

1979

01:13:11,910 --> 01:13:10,719

anything like that but i've always

1980

01:13:14,550 --> 01:13:11,920

thought that it was

1981

01:13:16,229 --> 01:13:14,560

pretty amazing that humans could develop

1982

01:13:18,229 --> 01:13:16,239

if they a lot of times they say modern

1983

01:13:19,910 --> 01:13:18,239

human you know i've been around 300 000

1984

01:13:21,430 --> 01:13:19,920

years some two to three hundred thousand

1985

01:13:23,270 --> 01:13:21,440

years something like that and i always

1986

01:13:25,830 --> 01:13:23,280

thought that wasn't enough

1987

01:13:27,750 --> 01:13:25,840

uh for evolution to change

1988

01:13:29,669 --> 01:13:27,760

you know us into these intelligent

1989

01:13:31,510 --> 01:13:29,679

beings that we are i mean it does seem

1990

01:13:33,590 --> 01:13:31,520

kind of strange you know where where was

1991

01:13:35,590 --> 01:13:33,600

the leap where was the big change you

1992

01:13:37,590 --> 01:13:35,600

know i know a lot of it came from

1993

01:13:40,310 --> 01:13:37,600

cooking with fire and you know that our

1994

01:13:42,149 --> 01:13:40,320

brains could become more developed uh by

1995

01:13:43,830 --> 01:13:42,159

having cooked food cooked meats and

1996

01:13:46,070 --> 01:13:43,840

things like that you know but the

1997

01:13:48,070 --> 01:13:46,080

neanderthals were were cooking they

1998

01:13:50,070 --> 01:13:48,080

found that just you discovered that as

1999

01:13:52,950 --> 01:13:50,080

well so i don't and you know they didn't

2000

01:13:54,950 --> 01:13:52,960

they kind of died off or or were killed

2001

01:13:58,229 --> 01:13:54,960

off or whatever happened to them

2002

01:14:00,310 --> 01:13:58,239

um but there is that there are in our

2003

01:14:03,270 --> 01:14:00,320

also in our dna you know along the way

2004

01:14:04,470 --> 01:14:03,280

in a lot of people's dna

2005

01:14:06,709 --> 01:14:04,480

it's that missing link that

2006

01:14:07,910 --> 01:14:06,719

anthropologists

2007

01:14:10,070 --> 01:14:07,920

question

2008

01:14:13,270 --> 01:14:10,080

yeah the missing link between the what

2009

01:14:16,310 --> 01:14:13,280

was what were primates and what became

2010

01:14:17,990 --> 01:14:16,320

modern humans right yeah so i've always

2011

01:14:20,550 --> 01:14:18,000

thought you know the 300

2012

01:14:23,030 --> 01:14:20,560

000 or 200 000 years is not a lot of

2013

01:14:25,910 --> 01:14:23,040

time in the scope of time in the scope

2014

01:14:28,470 --> 01:14:25,920

of development and evolution it's a it's

2015

01:14:29,590 --> 01:14:28,480

a very small fragment of time actually

2016

01:14:31,350 --> 01:14:29,600

you know for

2017

01:14:33,990 --> 01:14:31,360

change in evolution it is it is a

2018

01:14:36,310 --> 01:14:34,000

curious uh curious thing

2019

01:14:39,590 --> 01:14:36,320

uh have you heard of the new

2020

01:14:45,430 --> 01:14:43,270

i i do not know much about darpa um

2021

01:14:47,430 --> 01:14:45,440

i dealt mostly with the intelligence

2022

01:14:49,990 --> 01:14:47,440

side the iarpa

2023

01:14:51,430 --> 01:14:50,000

side of things and i shared a slide in

2024

01:14:54,470 --> 01:14:51,440

my presentation

2025

01:14:56,149 --> 01:14:54,480

where anyone can go find what i opera is

2026

01:14:58,550 --> 01:14:56,159

up to and actually download

2027

01:14:59,830 --> 01:14:58,560

presentations and i shared one called

2028

01:15:02,709 --> 01:14:59,840

mist

2029

01:15:05,110 --> 01:15:02,719

about uh using um like molecular

2030

01:15:07,510 --> 01:15:05,120

information storage technology which is

2031

01:15:10,870 --> 01:15:07,520

interesting in itself

2032

01:15:12,470 --> 01:15:10,880

and so there's those programs are

2033

01:15:14,709 --> 01:15:12,480

actually the presentations are

2034

01:15:16,149 --> 01:15:14,719

unclassified strangely enough

2035

01:15:17,189 --> 01:15:16,159

um so

2036

01:15:18,630 --> 01:15:17,199

you know

2037

01:15:20,470 --> 01:15:18,640

that's what i know i don't know too much

2038

01:15:23,669 --> 01:15:20,480

about darpa you know what i know about

2039

01:15:25,350 --> 01:15:23,679

darpa is because i follow them uh on my

2040

01:15:28,149 --> 01:15:25,360

linkedin pro

2041

01:15:30,550 --> 01:15:28,159

account i i follow the entire military

2042

01:15:32,229 --> 01:15:30,560

intelligence complex you know

2043

01:15:34,149 --> 01:15:32,239

i follow them just to figure out what's

2044

01:15:36,870 --> 01:15:34,159

going on and i do follow darpa i don't

2045

01:15:38,390 --> 01:15:36,880

know i don't know what exactly

2046

01:15:39,990 --> 01:15:38,400

is going on with darpa

2047

01:15:42,790 --> 01:15:40,000

now here's a question i asked you this

2048

01:15:44,310 --> 01:15:42,800

right at the very beginning but uh but

2049

01:15:46,470 --> 01:15:44,320

they wanted to know why you're coming

2050

01:15:48,070 --> 01:15:46,480

out now with your theories and not years

2051

01:15:50,229 --> 01:15:48,080

ago that's i didn't ask you that and

2052

01:15:52,790 --> 01:15:50,239

specifically but had you thought about

2053

01:15:54,070 --> 01:15:52,800

talking about this right after you

2054

01:15:57,669 --> 01:15:54,080

retired

2055

01:15:59,669 --> 01:15:57,679

oh i talked to my friends about it um

2056

01:16:00,790 --> 01:15:59,679

who are still ncia and those who also

2057

01:16:02,630 --> 01:16:00,800

retired

2058

01:16:04,870 --> 01:16:02,640

um we've had a running dialogue because

2059

01:16:06,470 --> 01:16:04,880

we were like enthusiasts we were ufo

2060

01:16:08,229 --> 01:16:06,480

enthusiasts in the building

2061

01:16:09,189 --> 01:16:08,239

there were many ufo enthusiasts in the

2062

01:16:11,590 --> 01:16:09,199

building

2063

01:16:14,310 --> 01:16:11,600

so we talked about we talked about that

2064

01:16:16,550 --> 01:16:14,320

uh amongst ourselves we were all fans of

2065

01:16:20,229 --> 01:16:16,560

um coast to coast a.m when art bill

2066

01:16:23,189 --> 01:16:20,239

posted and george nuri yeah we were like

2067

01:16:24,709 --> 01:16:23,199

zealously following uh every episode and

2068

01:16:26,630 --> 01:16:24,719

you know talking about

2069

01:16:29,270 --> 01:16:26,640

uh which you know about last night's

2070

01:16:31,110 --> 01:16:29,280

episode or actually you know we we

2071

01:16:32,630 --> 01:16:31,120

streamed it after the fact because it's

2072

01:16:35,270 --> 01:16:32,640

so late

2073

01:16:37,189 --> 01:16:35,280

uh on the east coast when it's on

2074

01:16:38,709 --> 01:16:37,199

but yeah there was a lot of interest and

2075

01:16:40,630 --> 01:16:38,719

secondly um

2076

01:16:42,550 --> 01:16:40,640

i was an administrator of an internal

2077

01:16:45,189 --> 01:16:42,560

lotus notes database called the users

2078

01:16:46,390 --> 01:16:45,199

group which was divided up into various

2079

01:16:47,830 --> 01:16:46,400

channels

2080

01:16:51,030 --> 01:16:47,840

and um

2081

01:16:53,990 --> 01:16:51,040

introduced there uh were like about the

2082

01:16:55,270 --> 01:16:54,000

anunnaki the monuments of mars

2083

01:16:57,110 --> 01:16:55,280

um

2084

01:16:59,110 --> 01:16:57,120

you name it you know roswell everything

2085

01:17:01,270 --> 01:16:59,120

was thrown in there it's just for open

2086

01:17:04,229 --> 01:17:01,280

discussion um

2087

01:17:07,030 --> 01:17:04,239

that's where i got uh information about

2088

01:17:09,510 --> 01:17:07,040

uh the cia's role with remote viewing

2089

01:17:12,229 --> 01:17:09,520

and also learned about other naval

2090

01:17:14,149 --> 01:17:12,239

encounters that uh that u.s navy

2091

01:17:16,550 --> 01:17:14,159

veterans or now ci officers said yeah

2092

01:17:19,110 --> 01:17:16,560

when i was in the vietnam war i was on

2093

01:17:20,310 --> 01:17:19,120

uss boston the cruiser and there was a

2094

01:17:22,870 --> 01:17:20,320

ufo

2095

01:17:24,070 --> 01:17:22,880

that harassed the ship and we shot it we

2096

01:17:25,669 --> 01:17:24,080

shot at it

2097

01:17:28,390 --> 01:17:25,679

i mean there's things like that that

2098

01:17:30,070 --> 01:17:28,400

came just in the banter

2099

01:17:32,550 --> 01:17:30,080

nothing official but it's all like in

2100

01:17:34,149 --> 01:17:32,560

the banter can you foil it no

2101

01:17:37,110 --> 01:17:34,159

uh it's just an internal discussion

2102

01:17:38,070 --> 01:17:37,120

database and so it's not it's not a

2103

01:17:40,149 --> 01:17:38,080

record

2104

01:17:42,310 --> 01:17:40,159

that can be foyed that we talked about

2105

01:17:44,870 --> 01:17:42,320

these things but we did

2106

01:17:47,030 --> 01:17:44,880

i just had someone on my show weeks ago

2107

01:17:49,830 --> 01:17:47,040

that claimed he was on board a ship in

2108

01:17:51,590 --> 01:17:49,840

vietnam and they fired at the ufo i

2109

01:17:52,950 --> 01:17:51,600

don't think he said it was the uss

2110

01:17:54,470 --> 01:17:52,960

boston though

2111

01:17:56,149 --> 01:17:54,480

but uh but

2112

01:17:57,189 --> 01:17:56,159

you know that is interesting that there

2113

01:18:00,070 --> 01:17:57,199

were

2114

01:18:03,430 --> 01:18:00,080

so many encounters during vietnam yeah i

2115

01:18:05,430 --> 01:18:03,440

think the navy encounters um

2116

01:18:06,630 --> 01:18:05,440

i don't think it's by accident

2117

01:18:09,910 --> 01:18:06,640

because

2118

01:18:11,590 --> 01:18:09,920

we do have nuclear ships on the surface

2119

01:18:13,110 --> 01:18:11,600

and we have nuclear ships

2120

01:18:15,030 --> 01:18:13,120

under the surface

2121

01:18:16,470 --> 01:18:15,040

and of course we have summary launch

2122

01:18:17,590 --> 01:18:16,480

ballistic missiles which are nuclear

2123

01:18:19,110 --> 01:18:17,600

weapons

2124

01:18:20,950 --> 01:18:19,120

under the sea

2125

01:18:23,430 --> 01:18:20,960

and um

2126

01:18:25,350 --> 01:18:23,440

i would say that every surface ship is

2127

01:18:27,750 --> 01:18:25,360

nuclear capable

2128

01:18:29,750 --> 01:18:27,760

there are anti-submarine warfare weapons

2129

01:18:31,270 --> 01:18:29,760

in my day it was called the asrock there

2130

01:18:34,870 --> 01:18:31,280

were two versions

2131

01:18:37,110 --> 01:18:34,880

one was a um launched by a missile

2132

01:18:38,870 --> 01:18:37,120

and it released a torpedo parachute

2133

01:18:40,950 --> 01:18:38,880

so the parachute would slow the

2134

01:18:42,790 --> 01:18:40,960

torpedo down as it goes into the water

2135

01:18:45,430 --> 01:18:42,800

drop off the parachute and off goes the

2136

01:18:48,149 --> 01:18:45,440

torpedo and the other was a def

2137

01:18:50,870 --> 01:18:48,159

basically a nuclear depth charge

2138

01:18:53,189 --> 01:18:50,880

that was shot out by this asrock missile

2139

01:18:55,669 --> 01:18:53,199

and um would deliver a nuclear weapon

2140

01:18:57,830 --> 01:18:55,679

under the sea was designed to destroy

2141

01:18:59,830 --> 01:18:57,840

uh fleek ballistic missile submarines

2142

01:19:01,590 --> 01:18:59,840

that the russians have

2143

01:19:03,030 --> 01:19:01,600

to try to knock out the entire summary

2144

01:19:04,070 --> 01:19:03,040

and all of their missiles before they

2145

01:19:07,430 --> 01:19:04,080

launched

2146

01:19:09,910 --> 01:19:07,440

so their every ship is nuclear capable

2147

01:19:11,669 --> 01:19:09,920

and i think that navy's involvement with

2148

01:19:12,950 --> 01:19:11,679

nuclear power

2149

01:19:15,590 --> 01:19:12,960

um

2150

01:19:18,070 --> 01:19:15,600

you know as far as propulsion and as far

2151
01:19:20,149 --> 01:19:18,080
as weapons i think they were doing it

2152
01:19:22,390 --> 01:19:20,159
long before the air force

2153
01:19:24,310 --> 01:19:22,400
they actually have nuclear vessels

2154
01:19:26,709 --> 01:19:24,320
the air force does not have nuclear

2155
01:19:27,590 --> 01:19:26,719
powered planes as far as i know

2156
01:19:29,990 --> 01:19:27,600
so

2157
01:19:31,510 --> 01:19:30,000
yeah the navy connection is very very

2158
01:19:33,669 --> 01:19:31,520
strong

2159
01:19:36,709 --> 01:19:33,679
yes with this entire phenomenon

2160
01:19:39,669 --> 01:19:36,719
right right um now this is a question

2161
01:19:42,870 --> 01:19:39,679
from actually bill who's the uh producer

2162
01:19:45,110 --> 01:19:42,880
at kgra radio he wondered if uh

2163
01:19:46,790 --> 01:19:45,120

if presidents the president you can't

2164

01:19:48,790 --> 01:19:46,800

see this it's in the private chat you

2165

01:19:51,350 --> 01:19:48,800

could go there uh yeah he wants to know

2166

01:19:54,630 --> 01:19:51,360

if presidents are aware of the briefings

2167

01:19:56,470 --> 01:19:54,640

or do do the are these things like

2168

01:19:57,669 --> 01:19:56,480

now i do know from having chris mellon

2169

01:19:58,750 --> 01:19:57,679

on the show

2170

01:20:02,630 --> 01:19:58,760

uh in

2171

01:20:05,030 --> 01:20:02,640

2016 that he said that if a president

2172

01:20:10,070 --> 01:20:05,040

wants to know

2173

01:20:10,870 --> 01:20:10,080

he can find out what they know but he

2174

01:20:11,830 --> 01:20:10,880

said

2175

01:20:13,990 --> 01:20:11,840

they

2176

01:20:17,590 --> 01:20:14,000

the way around that is to get it into

2177

01:20:19,189 --> 01:20:17,600

private you know into the private sector

2178

01:20:21,110 --> 01:20:19,199

right that way they don't there's

2179

01:20:22,470 --> 01:20:21,120

there's no congressional you know

2180

01:20:24,629 --> 01:20:22,480

hearings or anything like that there's

2181

01:20:26,950 --> 01:20:24,639

no attachment to it what do you think

2182

01:20:28,629 --> 01:20:26,960

about that statement well um first of

2183

01:20:31,030 --> 01:20:28,639

all yes the president has what's known

2184

01:20:32,709 --> 01:20:31,040

as original classification authority

2185

01:20:33,990 --> 01:20:32,719

uh the president of the united states

2186

01:20:39,590 --> 01:20:34,000

can stand up

2187

01:20:43,590 --> 01:20:41,510

the most famous case of that was jimmy

2188

01:20:46,470 --> 01:20:43,600

carter who revealed that we had

2189

01:20:48,870 --> 01:20:46,480

satellites that can take pictures

2190

01:20:50,390 --> 01:20:48,880

and that got the nro spun up because at

2191

01:20:52,149 --> 01:20:50,400

that point you know the fact that we had

2192

01:20:55,510 --> 01:20:52,159

satellites to take pictures

2193

01:20:58,870 --> 01:20:55,520

uh basically led to the uh nro being a

2194

01:21:01,430 --> 01:20:58,880

declassified agency it was super secret

2195

01:21:03,430 --> 01:21:01,440

at one time yeah uh so the president has

2196

01:21:06,149 --> 01:21:03,440

original classification authority

2197

01:21:07,750 --> 01:21:06,159

because of his constitutional authority

2198

01:21:10,470 --> 01:21:07,760

as president united states and head of

2199

01:21:12,950 --> 01:21:10,480

the executive branch he can

2200

01:21:14,470 --> 01:21:12,960

find out anything he wants in the

2201

01:21:15,910 --> 01:21:14,480

executive branch

2202

01:21:18,149 --> 01:21:15,920

that's true

2203

01:21:20,870 --> 01:21:18,159

now to chris mellon's point if you want

2204

01:21:23,189 --> 01:21:20,880

to prevent that from happening

2205

01:21:25,910 --> 01:21:23,199

you withdraw all of the government money

2206

01:21:27,830 --> 01:21:25,920

from any program with no government

2207

01:21:28,790 --> 01:21:27,840

money not even a penny of government

2208

01:21:33,110 --> 01:21:28,800

money

2209

01:21:35,830 --> 01:21:33,120

a program congress no longer has

2210

01:21:38,229 --> 01:21:35,840

oversight over that program you make a

2211

01:21:40,629 --> 01:21:38,239

completely private industry

2212

01:21:43,030 --> 01:21:40,639

and let them use their dime

2213

01:21:44,229 --> 01:21:43,040

not one penny no

2214

01:21:46,229 --> 01:21:44,239

government

2215

01:21:47,990 --> 01:21:46,239

monitoring of their contract

2216

01:21:50,149 --> 01:21:48,000

let them go on their own and the

2217

01:21:53,430 --> 01:21:50,159

president absolutely has no authority to

2218

01:21:56,550 --> 01:21:54,709

wow

2219

01:21:59,189 --> 01:21:56,560

well yeah i've been having said that

2220

01:22:00,709 --> 01:21:59,199

once they become a government contractor

2221

01:22:02,709 --> 01:22:00,719

for that program

2222

01:22:05,189 --> 01:22:02,719

that they have a contract for

2223

01:22:07,110 --> 01:22:05,199

um they're by extension almost like a

2224

01:22:08,070 --> 01:22:07,120

federal employee in the sense that they

2225

01:22:09,270 --> 01:22:08,080

cannot

2226

01:22:11,910 --> 01:22:09,280

execute

2227

01:22:13,270 --> 01:22:11,920

inherit federal government functions as

2228

01:22:16,550 --> 01:22:13,280

an employee

2229

01:22:18,950 --> 01:22:16,560

but as a federal contractor they have to

2230

01:22:21,510 --> 01:22:18,960

follow certain rules that the executive

2231

01:22:23,270 --> 01:22:21,520

branch lays out for them

2232

01:22:25,189 --> 01:22:23,280

so in that sense you know the president

2233

01:22:26,629 --> 01:22:25,199

does have reach into it so does congress

2234

01:22:27,990 --> 01:22:26,639

have reached into it

2235

01:22:30,790 --> 01:22:28,000

but yeah i mean

2236

01:22:32,390 --> 01:22:30,800

if elon musk wants to like do something

2237

01:22:34,629 --> 01:22:32,400

with

2238

01:22:36,790 --> 01:22:34,639

uh spacex that not related to any

2239

01:22:39,590 --> 01:22:36,800

government contract we have no authority

2240

01:22:41,590 --> 01:22:39,600

to look into what spacex is doing but

2241

01:22:43,990 --> 01:22:41,600

you know as far as you know using their

2242

01:22:45,669 --> 01:22:44,000

falcon and falcon heavy as new nro

2243

01:22:47,990 --> 01:22:45,679

launch vehicles

2244

01:22:49,910 --> 01:22:48,000

um they're taking over for launching all

2245

01:22:51,590 --> 01:22:49,920

the uh spy satellites for the us

2246

01:22:53,270 --> 01:22:51,600

government

2247

01:22:55,750 --> 01:22:53,280

and we have complete

2248

01:22:57,430 --> 01:22:55,760

insight into that part of the program

2249

01:22:59,350 --> 01:22:57,440

but they can carve that out

2250

01:23:01,510 --> 01:22:59,360

you know if they don't want a certain

2251
01:23:02,950 --> 01:23:01,520
part of their business line examined by

2252
01:23:04,790 --> 01:23:02,960
the government they just carve it out

2253
01:23:06,629 --> 01:23:04,800
but having said that there can be no

2254
01:23:08,790 --> 01:23:06,639
government official

2255
01:23:11,030 --> 01:23:08,800
contacting that company for that program

2256
01:23:13,110 --> 01:23:11,040
there can be no government dollars even

2257
01:23:14,149 --> 01:23:13,120
one penny in that program and then they

2258
01:23:15,350 --> 01:23:14,159
can

2259
01:23:17,030 --> 01:23:15,360
pretty much

2260
01:23:18,790 --> 01:23:17,040
isolate that program from the president

2261
01:23:20,470 --> 01:23:18,800
or anybody in government

2262
01:23:22,310 --> 01:23:20,480
yeah that makes sense

2263
01:23:24,629 --> 01:23:22,320

so i'm really curious about what you

2264

01:23:27,910 --> 01:23:24,639

said i don't know maybe 15 minutes ago

2265

01:23:30,470 --> 01:23:27,920

that you and several colleagues

2266

01:23:33,350 --> 01:23:30,480

had an interest in ufo yes yeah so

2267

01:23:34,470 --> 01:23:33,360

what's up with that in the cia yeah i

2268

01:23:37,189 --> 01:23:34,480

mean you know

2269

01:23:40,470 --> 01:23:37,199

cia is a is a

2270

01:23:42,629 --> 01:23:40,480

representative of society in general

2271

01:23:45,110 --> 01:23:42,639

we don't we no longer recruit in the

2272

01:23:46,470 --> 01:23:45,120

elite ivy league schools like when cia

2273

01:23:49,350 --> 01:23:46,480

first started

2274

01:23:51,830 --> 01:23:49,360

it was a very elitist organization in

2275

01:23:53,750 --> 01:23:51,840

that they were mostly white males from

2276

01:23:56,470 --> 01:23:53,760

the right families

2277

01:23:59,510 --> 01:23:56,480

and their sons went to the right schools

2278

01:24:02,229 --> 01:23:59,520

and the reason i said sons that women

2279

01:24:04,629 --> 01:24:02,239

were very few and far between

2280

01:24:06,550 --> 01:24:04,639

there were very few women in cia in the

2281

01:24:11,110 --> 01:24:06,560

very early stages

2282

01:24:14,149 --> 01:24:11,120

i had supervised a woman with an mba

2283

01:24:16,470 --> 01:24:14,159

and she had other

2284

01:24:19,110 --> 01:24:16,480

graduate degrees and she told me the

2285

01:24:21,430 --> 01:24:19,120

story because she was a woman she was

2286

01:24:23,590 --> 01:24:21,440

shown a typewriter

2287

01:24:26,149 --> 01:24:23,600

she was showing a typewriter wow and

2288

01:24:28,790 --> 01:24:26,159

that was when cia first started um it

2289

01:24:31,510 --> 01:24:28,800

was it was that kind of atmosphere

2290

01:24:34,790 --> 01:24:31,520

very elitist uh but now um

2291

01:24:36,390 --> 01:24:34,800

we represent more of america

2292

01:24:39,189 --> 01:24:36,400

like like we should

2293

01:24:40,550 --> 01:24:39,199

and so americans are interested in ufos

2294

01:24:42,310 --> 01:24:40,560

and so we bring in people who are

2295

01:24:44,950 --> 01:24:42,320

interested in ufos

2296

01:24:47,030 --> 01:24:44,960

and so there's that discussion secondly

2297

01:24:49,270 --> 01:24:47,040

for some reason and i said this before

2298

01:24:51,270 --> 01:24:49,280

cia is like devil's tower in close

2299

01:24:54,149 --> 01:24:51,280

encounters of third kind we were drawn

2300

01:24:56,950 --> 01:24:54,159

to this kind of work for some reason

2301

01:24:58,870 --> 01:24:56,960

we wanted to be cia officers and

2302

01:25:01,669 --> 01:24:58,880

the synchronicities in our life lined up

2303

01:25:02,870 --> 01:25:01,679

so we were in cia

2304

01:25:04,950 --> 01:25:02,880

and so

2305

01:25:06,709 --> 01:25:04,960

in that sense you know for some reason

2306

01:25:09,510 --> 01:25:06,719

we were drawn to this and we had this

2307

01:25:11,510 --> 01:25:09,520

interest coming with us as well

2308

01:25:13,350 --> 01:25:11,520

there are a lot of experiences at cia

2309

01:25:16,470 --> 01:25:13,360

they're people who are believers and

2310

01:25:17,910 --> 01:25:16,480

experiencers personally at cia they're

2311

01:25:19,830 --> 01:25:17,920

personal experiencers and personal

2312

01:25:21,430 --> 01:25:19,840

believers that i contacted

2313

01:25:23,990 --> 01:25:21,440

how do you how do you approach the

2314

01:25:26,070 --> 01:25:24,000

subject to begin with with someone new

2315

01:25:27,430 --> 01:25:26,080

like a colleague

2316

01:25:28,950 --> 01:25:27,440

oh so

2317

01:25:30,790 --> 01:25:28,960

um for me

2318

01:25:33,990 --> 01:25:30,800

uh with the people who dealt with me

2319

01:25:35,430 --> 01:25:34,000

personally yeah with my interest i had a

2320

01:25:38,229 --> 01:25:35,440

little uh

2321

01:25:40,149 --> 01:25:38,239

zetta reticular doll it was green it

2322

01:25:42,310 --> 01:25:40,159

wasn't it wasn't uh gray but it was

2323

01:25:44,390 --> 01:25:42,320

green and it had the almond shaped eyes

2324

01:25:46,390 --> 01:25:44,400

and everything and it was bendable so i

2325

01:25:48,310 --> 01:25:46,400

used to bend it and put on top of my

2326

01:25:49,910 --> 01:25:48,320

dell monitor back when there were crt

2327

01:25:51,669 --> 01:25:49,920

monitors and you can actually put

2328

01:25:54,390 --> 01:25:51,679

something on top of that monitor so

2329

01:25:56,790 --> 01:25:54,400

people knew i was interested in ufos and

2330

01:25:58,870 --> 01:25:56,800

i made no qualms about it and so you

2331

01:25:59,590 --> 01:25:58,880

know work out around and you know people

2332

01:26:01,110 --> 01:25:59,600

were

2333

01:26:04,070 --> 01:26:01,120

and then when i became an administrator

2334

01:26:05,830 --> 01:26:04,080

of the users group database

2335

01:26:09,270 --> 01:26:05,840

and i saw that there were topics like

2336

01:26:12,310 --> 01:26:09,280

that esoteric topics in that database

2337

01:26:14,390 --> 01:26:12,320

uh not just nuts and bolts i.t stuff

2338

01:26:16,390 --> 01:26:14,400

uh but they were like questions about

2339

01:26:18,470 --> 01:26:16,400

you know how how do you

2340

01:26:20,709 --> 01:26:18,480

up the frame rate in this game so i got

2341

01:26:21,510 --> 01:26:20,719

this nvidia card and what do i do to

2342

01:26:23,270 --> 01:26:21,520

like

2343

01:26:25,189 --> 01:26:23,280

get my frame rates up when i play this

2344

01:26:27,510 --> 01:26:25,199

game i really was just basically like a

2345

01:26:29,510 --> 01:26:27,520

free-for-all for it as long as i t

2346

01:26:31,430 --> 01:26:29,520

really or technology related we could

2347

01:26:33,669 --> 01:26:31,440

talk about anything and they would share

2348

01:26:35,430 --> 01:26:33,679

the information in that in that channel

2349

01:26:37,350 --> 01:26:35,440

and so i would like contact them and

2350

01:26:40,070 --> 01:26:37,360

they would contact me that's when i

2351

01:26:41,910 --> 01:26:40,080

learned that there was this

2352

01:26:44,550 --> 01:26:41,920

group of people that were enthusiasts at

2353

01:26:45,990 --> 01:26:44,560

cia it was not a big deal it was not

2354

01:26:47,270 --> 01:26:46,000

something that we hush hushed on

2355

01:26:48,950 --> 01:26:47,280

anything like that

2356

01:26:51,510 --> 01:26:48,960

yeah but having said that

2357

01:26:53,350 --> 01:26:51,520

there was something official

2358

01:26:56,229 --> 01:26:53,360

at cia and it was in the office that

2359

01:26:57,110 --> 01:26:56,239

sponsored that one-day symposium

2360

01:27:01,990 --> 01:26:57,120

yeah

2361

01:27:04,390 --> 01:27:02,000

you're you're saying in the dod

2362

01:27:07,430 --> 01:27:04,400

is where lives most of the

2363

01:27:09,910 --> 01:27:07,440

you know the ufo uh say studio whatever

2364

01:27:11,990 --> 01:27:09,920

it is but is there part of any part of

2365

01:27:14,070 --> 01:27:12,000

central intelligence and all the 18

2366

01:27:15,030 --> 01:27:14,080

branches i believe there are

2367

01:27:18,550 --> 01:27:15,040

that

2368

01:27:21,430 --> 01:27:18,560

actually would uh pick up the mantle and

2369

01:27:23,830 --> 01:27:21,440

uh study curiously study what an

2370

01:27:25,669 --> 01:27:23,840

encounter of some kind that would seem

2371

01:27:27,910 --> 01:27:25,679

like it might be a threat

2372

01:27:30,310 --> 01:27:27,920

to you know airspace or anything like

2373

01:27:34,229 --> 01:27:30,320

that is there ever any involvement the

2374

01:27:36,790 --> 01:27:34,239

cia would do cia isn't interested in um

2375

01:27:38,390 --> 01:27:36,800

like title 10 kind of threats

2376

01:27:40,390 --> 01:27:38,400

that's why i differentiated in my

2377

01:27:43,030 --> 01:27:40,400

presentation one of the important points

2378

01:27:45,110 --> 01:27:43,040

was there are two sets of laws governing

2379

01:27:46,550 --> 01:27:45,120

the way intelligence is conducted one is

2380

01:27:48,950 --> 01:27:46,560

the military side the defense side and

2381

01:27:50,229 --> 01:27:48,960

one is the civilian cia side

2382

01:27:52,629 --> 01:27:50,239

and so

2383

01:27:55,030 --> 01:27:52,639

i would say that when i do analysis on

2384

01:27:57,750 --> 01:27:55,040

uap's ufo it doesn't matter

2385

01:28:00,950 --> 01:27:57,760

any any analysis i do

2386

01:28:03,030 --> 01:28:00,960

in my office which was

2387

01:28:04,310 --> 01:28:03,040

related to understanding how russian

2388

01:28:06,229 --> 01:28:04,320

weapons worked

2389

01:28:08,709 --> 01:28:06,239

from the electronic standpoint from the

2390

01:28:11,030 --> 01:28:08,719

radar standpoint

2391

01:28:13,350 --> 01:28:11,040

we were looking mostly at

2392

01:28:14,790 --> 01:28:13,360

the actual nuts and bolts of the signal

2393

01:28:17,510 --> 01:28:14,800

the science and technology the

2394

01:28:19,510 --> 01:28:17,520

engineering that went into that device

2395

01:28:22,149 --> 01:28:19,520

to make it do what it did

2396

01:28:24,629 --> 01:28:22,159

and so at that point

2397

01:28:26,629 --> 01:28:24,639

um the dia

2398

01:28:30,070 --> 01:28:26,639

taking that information from us and from

2399

01:28:33,350 --> 01:28:30,080

nsa as well they would then model

2400

01:28:36,790 --> 01:28:33,360

what we analyzed into

2401

01:28:39,669 --> 01:28:36,800

uh a assessment of how does that weapon

2402

01:28:42,149 --> 01:28:39,679

system the russians have

2403

01:28:44,950 --> 01:28:42,159

stack up to our weapons systems so they

2404

01:28:47,189 --> 01:28:44,960

do these modeling simulation of that

2405

01:28:49,750 --> 01:28:47,199

weapon system against what we have and

2406

01:28:50,950 --> 01:28:49,760

that's dia's job

2407

01:28:54,870 --> 01:28:50,960

to do that

2408

01:28:57,830 --> 01:28:54,880

sure enough when it uh when um

2409

01:29:00,229 --> 01:28:57,840

a uh when they when the pentagon has a

2410

01:29:02,229 --> 01:29:00,239

brand new weapon system

2411

01:29:04,310 --> 01:29:02,239

you know and they the

2412

01:29:06,229 --> 01:29:04,320

all the analysis is that you know it's

2413

01:29:08,310 --> 01:29:06,239

great you know it does everything we

2414

01:29:10,229 --> 01:29:08,320

need more of these and so we do the

2415

01:29:12,550 --> 01:29:10,239

analysis of a russian weapon system and

2416

01:29:14,310 --> 01:29:12,560

they built really good stuff and we

2417

01:29:16,310 --> 01:29:14,320

praise it to the high heavens because my

2418

01:29:18,229 --> 01:29:16,320

gosh this is a really good weapon system

2419

01:29:20,310 --> 01:29:18,239

the di accepts that he said great you

2420

01:29:25,350 --> 01:29:20,320

know we need to build more of these as

2421

01:29:28,310 --> 01:29:25,360

that what we build ages and gets older

2422

01:29:29,669 --> 01:29:28,320

and older you know all of a sudden um

2423

01:29:31,910 --> 01:29:29,679

they want

2424

01:29:33,669 --> 01:29:31,920

that their analysis to say how crappy

2425

01:29:35,350 --> 01:29:33,679

their weapon systems are because then

2426

01:29:36,629 --> 01:29:35,360

they want to justify building getting

2427

01:29:39,189 --> 01:29:36,639

something new

2428

01:29:41,189 --> 01:29:39,199

yeah and so at that point

2429

01:29:43,270 --> 01:29:41,199

uh you know they use our analysis of how

2430

01:29:45,750 --> 01:29:43,280

great the russians are and they use that

2431

01:29:47,510 --> 01:29:45,760

to say oh the russians have so much good

2432

01:29:50,070 --> 01:29:47,520

stuff and our stuff is so much you know

2433

01:29:52,790 --> 01:29:50,080

so bad we need to build more of these

2434

01:29:54,070 --> 01:29:52,800

and so it's a greater threat then

2435

01:29:55,350 --> 01:29:54,080

yeah so they're they're mostly

2436

01:29:57,350 --> 01:29:55,360

threat-based

2437

01:29:58,790 --> 01:29:57,360

and that's what they paid to do to be

2438

01:30:00,470 --> 01:29:58,800

threat-based because they want our

2439

01:30:02,950 --> 01:30:00,480

forces to have

2440

01:30:04,310 --> 01:30:02,960

uh what we need to counter any

2441

01:30:05,510 --> 01:30:04,320

adversarial

2442

01:30:08,390 --> 01:30:05,520

system

2443

01:30:09,750 --> 01:30:08,400

uh we in cia are more science technology

2444

01:30:11,590 --> 01:30:09,760

engineering based we just want to know

2445

01:30:12,390 --> 01:30:11,600

how things work

2446

01:30:14,950 --> 01:30:12,400

yeah

2447

01:30:17,270 --> 01:30:14,960

right i got it okay so i'm going to put

2448

01:30:18,950 --> 01:30:17,280

the phone number up here and i'd like

2449

01:30:20,870 --> 01:30:18,960

for those of you that call in to have a

2450

01:30:23,590 --> 01:30:20,880

really good question i almost don't want

2451
01:30:25,669 --> 01:30:23,600
to take up time uh for using phone calls

2452
01:30:28,149 --> 01:30:25,679
but uh bring your a-game if you're gonna

2453
01:30:31,229 --> 01:30:28,159
call police and the bill is standing by

2454
01:30:35,910 --> 01:30:33,350
855-472-5483 and if you have a good

2455
01:30:38,310 --> 01:30:35,920
question please do uh please do call in

2456
01:30:40,229 --> 01:30:38,320
at that number uh be respectful of our

2457
01:30:42,229 --> 01:30:40,239
guest uh john tonight

2458
01:30:44,470 --> 01:30:42,239
and uh bill will be taking those calls

2459
01:30:45,990 --> 01:30:44,480
over there at kgra radio and we'll go

2460
01:30:47,510 --> 01:30:46,000
over with you about your

2461
01:30:48,470 --> 01:30:47,520
your radio in the background and all

2462
01:30:51,590 --> 01:30:48,480
that stuff

2463
01:30:53,350 --> 01:30:51,600

so uh he's ready to go so that number

2464

01:30:55,350 --> 01:30:53,360

again is eight five five four seven two

2465

01:30:57,669 --> 01:30:55,360

five four eight three let's talk uh

2466

01:30:59,990 --> 01:30:57,679

until we get the first caller on board

2467

01:31:01,669 --> 01:31:00,000

let's talk about you had a childhood

2468

01:31:03,910 --> 01:31:01,679

sighting

2469

01:31:05,830 --> 01:31:03,920

uh talk about that

2470

01:31:09,830 --> 01:31:05,840

there were childhood experiences

2471

01:31:11,590 --> 01:31:09,840

experiences okay of being taken

2472

01:31:14,310 --> 01:31:11,600

all right um i'm

2473

01:31:16,709 --> 01:31:14,320

i'm open to talking about it if you are

2474

01:31:18,629 --> 01:31:16,719

uh i will be talking about it uh in a

2475

01:31:21,030 --> 01:31:18,639

future interview with uh another

2476
01:31:23,669 --> 01:31:21,040
podcaster but i can say that most of my

2477
01:31:24,709 --> 01:31:23,679
early experiences dealt with uh

2478
01:31:27,189 --> 01:31:24,719
actually

2479
01:31:28,550 --> 01:31:27,199
having encounters with the beings

2480
01:31:31,270 --> 01:31:28,560
themselves

2481
01:31:32,229 --> 01:31:31,280
my actual craft encounter didn't happen

2482
01:31:35,510 --> 01:31:32,239
until

2483
01:31:37,510 --> 01:31:35,520
i was um my early teens i think i was in

2484
01:31:40,709 --> 01:31:37,520
the seventh grade or eighth grade that

2485
01:31:44,310 --> 01:31:40,719
age where i was taking a board of craft

2486
01:31:46,709 --> 01:31:44,320
um and then i had encounters with an uh

2487
01:31:49,030 --> 01:31:46,719
orange orb

2488
01:31:51,590 --> 01:31:49,040

on an airplane i think i described that

2489

01:31:53,830 --> 01:31:51,600

of having listening to the pilot

2490

01:31:55,430 --> 01:31:53,840

talking to ground control saying that

2491

01:31:58,229 --> 01:31:55,440

there's a orange

2492

01:31:59,669 --> 01:31:58,239

you know something crossing his path and

2493

01:32:01,669 --> 01:31:59,679

going to the starboard side and i was

2494

01:32:02,870 --> 01:32:01,679

sitting on the server side opening uh

2495

01:32:04,790 --> 01:32:02,880

you know the

2496

01:32:06,950 --> 01:32:04,800

the window to see out

2497

01:32:08,310 --> 01:32:06,960

the shade and i could see the orange orb

2498

01:32:09,990 --> 01:32:08,320

receding

2499

01:32:12,470 --> 01:32:10,000

and then like following us a little bit

2500

01:32:15,350 --> 01:32:12,480

and then it faded away as we were going

2501

01:32:18,149 --> 01:32:15,360

to of all places a ufo conference

2502

01:32:19,910 --> 01:32:18,159

um so that was a synchronicity there and

2503

01:32:21,990 --> 01:32:19,920

the other one was on a balcony here in

2504

01:32:24,310 --> 01:32:22,000

arizona when i lived in an apartment

2505

01:32:27,750 --> 01:32:24,320

before i bought this house uh

2506

01:32:30,709 --> 01:32:27,760

i've seen an orb during a ce6 encounter

2507

01:32:31,990 --> 01:32:30,719

uh or a close encounter ce6 type with

2508

01:32:35,189 --> 01:32:32,000

mark sims

2509

01:32:36,470 --> 01:32:35,199

where i saw a um

2510

01:32:38,310 --> 01:32:36,480

an orb that

2511

01:32:40,550 --> 01:32:38,320

then gave me a message that you have

2512

01:32:42,550 --> 01:32:40,560

many things to you you know many things

2513

01:32:44,470 --> 01:32:42,560

and it's time for you to share

2514

01:32:48,390 --> 01:32:44,480

what you know

2515

01:32:51,270 --> 01:32:48,400

and so that was july of 2020 and here we

2516

01:32:53,750 --> 01:32:51,280

are in you know december 2021

2517

01:32:56,470 --> 01:32:53,760

and everything that has occurred since

2518

01:32:57,750 --> 01:32:56,480

then um it was related to my need to

2519

01:32:59,110 --> 01:32:57,760

share that

2520

01:33:00,709 --> 01:32:59,120

information and here i am trying to

2521

01:33:03,750 --> 01:33:00,719

share what i know

2522

01:33:06,550 --> 01:33:03,760

all right okay um so i will ask the

2523

01:33:08,390 --> 01:33:06,560

question in a little bit here uh why uh

2524

01:33:09,590 --> 01:33:08,400

you're saving some of those encounters

2525

01:33:11,990 --> 01:33:09,600

but i think i've heard you talk about

2526

01:33:13,910 --> 01:33:12,000

your experiences on another podcast but

2527

01:33:14,790 --> 01:33:13,920

we have plenty to talk about we have

2528

01:33:19,830 --> 01:33:14,800

chris

2529

01:33:26,629 --> 01:33:19,840

friend he's on the line right now uh

2530

01:33:31,030 --> 01:33:27,910

go ahead chris

2531

01:33:33,750 --> 01:33:31,040

okay i have a question here um for john

2532

01:33:36,390 --> 01:33:33,760

because he sounds exceedingly credible

2533

01:33:38,709 --> 01:33:36,400

but given his years of working for the

2534

01:33:41,030 --> 01:33:38,719

agency in different areas and uh and the

2535

01:33:43,270 --> 01:33:41,040

history of the ci and whoever may be

2536

01:33:44,709 --> 01:33:43,280

making the ultimate decisions

2537

01:33:46,470 --> 01:33:44,719

i've heard referred to as the watch

2538

01:33:48,229 --> 01:33:46,480

committee level people

2539

01:33:49,350 --> 01:33:48,239

considering the ramifications of this

2540

01:33:51,270 --> 01:33:49,360

subject

2541

01:33:53,430 --> 01:33:51,280

does he think it's realistic for the

2542

01:33:55,590 --> 01:33:53,440

common people to ever think that anyone

2543

01:33:57,510 --> 01:33:55,600

at those shadowy levels

2544

01:34:01,750 --> 01:33:57,520

would ever tell us the whole real truth

2545

01:34:06,950 --> 01:34:03,110

the whole truth

2546

01:34:08,870 --> 01:34:06,960

uh i mean i doubt that

2547

01:34:11,189 --> 01:34:08,880

even elizondo kind of backs off on some

2548

01:34:12,149 --> 01:34:11,199

of this but right just make sure you

2549

01:34:13,510 --> 01:34:12,159

know

2550

01:34:14,629 --> 01:34:13,520

yeah i don't think it's going to happen

2551
01:34:16,629 --> 01:34:14,639
all at once

2552
01:34:17,750 --> 01:34:16,639
i always use the metaphor of building

2553
01:34:20,709 --> 01:34:17,760
bridges

2554
01:34:22,470 --> 01:34:20,719
and so just having dni abraham say

2555
01:34:24,629 --> 01:34:22,480
extraterrestrially

2556
01:34:25,510 --> 01:34:24,639
uh was a major part of that bridge being

2557
01:34:27,510 --> 01:34:25,520
built

2558
01:34:29,189 --> 01:34:27,520
uh before that was the release of the

2559
01:34:30,790 --> 01:34:29,199
actual craft

2560
01:34:34,390 --> 01:34:30,800
and with the release of these craft

2561
01:34:35,189 --> 01:34:34,400
there are still people who say it's

2562
01:34:37,510 --> 01:34:35,199
like

2563
01:34:39,830 --> 01:34:37,520

cgi

2564

01:34:41,590 --> 01:34:39,840

and you know it just seems incredible

2565

01:34:43,430 --> 01:34:41,600

that people still say that but i think

2566

01:34:46,390 --> 01:34:43,440

there's disturbed more by not what

2567

01:34:48,470 --> 01:34:46,400

they're seeing by but rather the uh

2568

01:34:50,870 --> 01:34:48,480

the message that might be behind what

2569

01:34:53,510 --> 01:34:50,880

they're seeing might disturb them

2570

01:34:56,070 --> 01:34:53,520

um and that we're not like

2571

01:34:57,830 --> 01:34:56,080

exceptional in the universe and you know

2572

01:35:00,070 --> 01:34:57,840

we're not the only civilization in the

2573

01:35:02,070 --> 01:35:00,080

entire universe

2574

01:35:03,510 --> 01:35:02,080

but whatever reasons they have

2575

01:35:04,790 --> 01:35:03,520

objections to it

2576

01:35:06,470 --> 01:35:04,800

um

2577

01:35:08,390 --> 01:35:06,480

you know they will not be accepting of

2578

01:35:10,790 --> 01:35:08,400

the full message anyway and i think it's

2579

01:35:13,430 --> 01:35:10,800

going to be a gradual release i use the

2580

01:35:16,149 --> 01:35:13,440

term control dissemination

2581

01:35:19,270 --> 01:35:16,159

and i think eventually we'll have to

2582

01:35:21,669 --> 01:35:19,280

bridge make a bridge to the hybrid story

2583

01:35:23,910 --> 01:35:21,679

because then you can actually then build

2584

01:35:25,910 --> 01:35:23,920

a bridge as to who they are

2585

01:35:28,390 --> 01:35:25,920

why they're interacting with us

2586

01:35:30,950 --> 01:35:28,400

what our true origins and what is the

2587

01:35:33,910 --> 01:35:30,960

message they have for us in the care of

2588

01:35:37,430 --> 01:35:33,920

our planet the care of our planet to me

2589

01:35:39,430 --> 01:35:37,440

personally is what i get in my downloads

2590

01:35:42,070 --> 01:35:39,440

when i meditate

2591

01:35:44,390 --> 01:35:42,080

the message to me is we need to care for

2592

01:35:46,550 --> 01:35:44,400

the planet because if we don't we're

2593

01:35:48,629 --> 01:35:46,560

going to lose it

2594

01:35:50,709 --> 01:35:48,639

and they don't want us to lose it it

2595

01:35:53,030 --> 01:35:50,719

goes against again to the petri dish

2596

01:35:54,229 --> 01:35:53,040

that they had some

2597

01:35:58,790 --> 01:35:54,239

uh

2598

01:36:01,109 --> 01:35:58,800

and

2599

01:36:02,629 --> 01:36:01,119

for them we are their children

2600

01:36:04,310 --> 01:36:02,639

and i think that's that relationship

2601
01:36:06,470 --> 01:36:04,320
that we have with them then again

2602
01:36:08,550 --> 01:36:06,480
there's the disturbing aspects

2603
01:36:09,350 --> 01:36:08,560
the trickster element that we can't we

2604
01:36:10,709 --> 01:36:09,360
can't

2605
01:36:13,350 --> 01:36:10,719
understand

2606
01:36:16,149 --> 01:36:13,360
so i eventually i think it will come out

2607
01:36:18,310 --> 01:36:16,159
hopefully in our lifetimes

2608
01:36:20,149 --> 01:36:18,320
thank you for the call christian

2609
01:36:22,550 --> 01:36:20,159
great thanks martin have a good day bye

2610
01:36:24,310 --> 01:36:22,560
all right talk to you soon all right uh

2611
01:36:25,910 --> 01:36:24,320
now we do have the phone line stacked up

2612
01:36:27,189 --> 01:36:25,920
just to let everyone know i don't think

2613
01:36:29,030 --> 01:36:27,199

we're gonna be able to take any more

2614

01:36:31,669 --> 01:36:29,040

calls and who's on hold right now but

2615

01:36:33,030 --> 01:36:31,679

possibly we might be able to uh jeff

2616

01:36:38,229 --> 01:36:33,040

you're on the line you're live on the

2617

01:36:38,239 --> 01:36:42,470

jeff you are live on the air welcome

2618

01:36:48,149 --> 01:36:45,910

good evening mark and uh mr ramirez

2619

01:36:49,590 --> 01:36:48,159

uh

2620

01:36:52,709 --> 01:36:49,600

go right ahead

2621

01:36:55,270 --> 01:36:52,719

yeah yeah mr razor good evening uh

2622

01:36:57,030 --> 01:36:55,280

this is absolutely uh

2623

01:36:58,470 --> 01:36:57,040

fascinating a man viewer isn't electing

2624

01:37:00,709 --> 01:36:58,480

the information you have that's coming

2625

01:37:03,189 --> 01:37:00,719

across here on this program this is this

2626

01:37:04,950 --> 01:37:03,199

is absolutely fantastic i believe what

2627

01:37:06,950 --> 01:37:04,960

we're seeing is

2628

01:37:08,390 --> 01:37:06,960

actual disclosure

2629

01:37:09,830 --> 01:37:08,400

and um

2630

01:37:11,669 --> 01:37:09,840

another thing i wanted to say real quick

2631

01:37:13,910 --> 01:37:11,679

i won't be i'll get cut short martin

2632

01:37:16,229 --> 01:37:13,920

because i know you want to talk to him

2633

01:37:17,750 --> 01:37:16,239

um you know you had data from on these

2634

01:37:19,990 --> 01:37:17,760

orange orbs

2635

01:37:22,229 --> 01:37:20,000

from satellites you know at 80 000 feet

2636

01:37:23,910 --> 01:37:22,239

you just see a light

2637

01:37:25,270 --> 01:37:23,920

i had a close encounter i'm an

2638

01:37:28,470 --> 01:37:25,280

experiencer

2639

01:37:30,950 --> 01:37:28,480
at 40 feet down at ground level

2640

01:37:32,709 --> 01:37:30,960
and interesting fact about these orange

2641

01:37:34,390 --> 01:37:32,719
orbs is they're

2642

01:37:37,430 --> 01:37:34,400
they're engulfed in a plasma field is

2643

01:37:39,430 --> 01:37:37,440
the only way that i could describe it

2644

01:37:41,510 --> 01:37:39,440
but from directly underneath when we had

2645

01:37:44,149 --> 01:37:41,520
a couple we all we saw four from

2646

01:37:46,470 --> 01:37:44,159
directly underneath at 40 feet in broad

2647

01:37:48,870 --> 01:37:46,480
daylight you could see the components of

2648

01:37:51,910 --> 01:37:48,880
the machine inside

2649

01:37:53,270 --> 01:37:51,920
and there's still distortion

2650

01:37:54,870 --> 01:37:53,280
it looks like it ought to be buzzing

2651
01:37:56,550 --> 01:37:54,880
like from a transformer you know what

2652
01:37:59,669 --> 01:37:56,560
you're looking at

2653
01:38:01,350 --> 01:37:59,679
and but they're i believe what they are

2654
01:38:03,669 --> 01:38:01,360
you know how these things divide go with

2655
01:38:05,830 --> 01:38:03,679
six pieces and then divide scatter out

2656
01:38:08,709 --> 01:38:05,840
and come back and go to one

2657
01:38:11,750 --> 01:38:08,719
uh what i saw were round spheres

2658
01:38:13,430 --> 01:38:11,760
at components of a machine in there

2659
01:38:16,390 --> 01:38:13,440
and uh

2660
01:38:18,550 --> 01:38:16,400
the only other thing i want to say was

2661
01:38:20,709 --> 01:38:18,560
uh

2662
01:38:22,870 --> 01:38:20,719
the most disturbing thing i've had these

2663
01:38:24,550 --> 01:38:22,880

experiences for years here

2664

01:38:26,310 --> 01:38:24,560

is they can and i'm you know i've always

2665

01:38:27,830 --> 01:38:26,320

been reluctant to say this because you

2666

01:38:30,390 --> 01:38:27,840

know people think you're crazy but now

2667

01:38:32,790 --> 01:38:30,400

it's out the open

2668

01:38:35,750 --> 01:38:32,800

they can read your mind

2669

01:38:38,229 --> 01:38:35,760

i don't know how you could possibly

2670

01:38:40,550 --> 01:38:38,239

try to study something or the military

2671

01:38:43,109 --> 01:38:40,560

try to defend against something

2672

01:38:45,109 --> 01:38:43,119

that can read your mind i know they can

2673

01:38:46,629 --> 01:38:45,119

read your mind trust me because i can

2674

01:38:48,390 --> 01:38:46,639

think about them and they'll appear and

2675

01:38:51,750 --> 01:38:48,400

i can do this at will i've done it for

2676

01:38:53,910 --> 01:38:51,760

years what it means i have no idea i

2677

01:38:55,030 --> 01:38:53,920

don't have any uh recollection of

2678

01:38:56,870 --> 01:38:55,040

abduction

2679

01:38:59,189 --> 01:38:56,880

or any of this but they would appear for

2680

01:39:01,109 --> 01:38:59,199

me or disappear

2681

01:39:02,310 --> 01:39:01,119

just thinking about them

2682

01:39:04,550 --> 01:39:02,320

and um

2683

01:39:07,510 --> 01:39:04,560

i swear to you that's the truth

2684

01:39:08,709 --> 01:39:07,520

it's strangeness uh beyond you know and

2685

01:39:10,310 --> 01:39:08,719

then there's a strangeness you're

2686

01:39:12,709 --> 01:39:10,320

talking about

2687

01:39:14,470 --> 01:39:12,719

uh there is no fringe anymore they used

2688

01:39:16,390 --> 01:39:14,480

to always go away tell you a crazy story

2689

01:39:18,149 --> 01:39:16,400

they go oh that's fringe

2690

01:39:20,070 --> 01:39:18,159

i think when we're gonna get into this

2691

01:39:22,390 --> 01:39:20,080

subject deep

2692

01:39:24,149 --> 01:39:22,400

there is no fringe anymore

2693

01:39:26,310 --> 01:39:24,159

friends

2694

01:39:27,750 --> 01:39:26,320

anything is possible the strangeness the

2695

01:39:29,109 --> 01:39:27,760

high strangeness

2696

01:39:31,030 --> 01:39:29,119

that's all um

2697

01:39:32,709 --> 01:39:31,040

that's all i'll say all right jeff thank

2698

01:39:35,430 --> 01:39:32,719

you

2699

01:39:38,149 --> 01:39:35,440

anything i would just say one thing

2700

01:39:40,390 --> 01:39:38,159

about reading one's mind uh in my

2701

01:39:42,550 --> 01:39:40,400

experience they want to communicate and

2702

01:39:44,310 --> 01:39:42,560

so the reading of the mind is one thing

2703

01:39:46,870 --> 01:39:44,320

but also i would say if you have an

2704

01:39:48,550 --> 01:39:46,880

experience with an orb or any of this

2705

01:39:50,310 --> 01:39:48,560

type of craft

2706

01:39:52,950 --> 01:39:50,320

to ask yourself

2707

01:39:54,870 --> 01:39:52,960

what is what do you want to tell me ask

2708

01:39:57,030 --> 01:39:54,880

it questions and see if you get an

2709

01:39:59,750 --> 01:39:57,040

answer and that's what mindful

2710

01:40:01,590 --> 01:39:59,760

meditation practice mindful meditation

2711

01:40:03,430 --> 01:40:01,600

learn how to put your mind in that state

2712

01:40:06,149 --> 01:40:03,440

and ask it questions

2713

01:40:09,750 --> 01:40:06,159

and we might get answers just for you

2714

01:40:11,109 --> 01:40:09,760

they're appearing for you for a purpose

2715

01:40:13,430 --> 01:40:11,119

interesting i also think it's

2716

01:40:16,149 --> 01:40:13,440

interesting that all these people that

2717

01:40:19,109 --> 01:40:16,159

i've heard talk about getting this met a

2718

01:40:21,270 --> 01:40:19,119

message the message is take care of the

2719

01:40:23,350 --> 01:40:21,280

planet right when you hear the most of

2720

01:40:25,510 --> 01:40:23,360

them right right and that that's gonna

2721

01:40:28,470 --> 01:40:25,520

mean something somewhere along the line

2722

01:40:29,910 --> 01:40:28,480

uh we have rocky from missouri rocky

2723

01:40:32,470 --> 01:40:29,920

welcome to the show you're live on the

2724

01:40:33,990 --> 01:40:32,480

air right now

2725

01:40:35,510 --> 01:40:34,000

hey martin how you doing tonight and

2726

01:40:37,189 --> 01:40:35,520

john thank you for being on the show

2727

01:40:39,109 --> 01:40:37,199

it's pretty awesome listen to your

2728

01:40:40,709 --> 01:40:39,119

experiences

2729

01:40:42,629 --> 01:40:40,719

thank you

2730

01:40:43,830 --> 01:40:42,639

you've got a question for josh

2731

01:40:45,990 --> 01:40:43,840

yeah

2732

01:40:47,590 --> 01:40:46,000

uh well kind of both of you martin

2733

01:40:48,950 --> 01:40:47,600

because i'd like to hear your opinion on

2734

01:40:50,390 --> 01:40:48,960

this too

2735

01:40:52,149 --> 01:40:50,400

i noticed something i've been paying

2736

01:40:53,910 --> 01:40:52,159

attention to the topic for a very long

2737

01:40:55,669 --> 01:40:53,920

time and i'm a truck driver so i have a

2738

01:40:57,669 --> 01:40:55,679

lot of time on my hands to listen to a

2739

01:40:58,870 --> 01:40:57,679

lot of different things

2740

01:41:02,390 --> 01:40:58,880

and

2741

01:41:03,189 --> 01:41:02,400

how put off in his ses

2742

01:41:05,990 --> 01:41:03,199

uh

2743

01:41:08,870 --> 01:41:06,000

lecture stated that some of the main

2744

01:41:12,709 --> 01:41:08,880

materials that the government has

2745

01:41:15,510 --> 01:41:12,719

act as wave guides quote

2746

01:41:17,189 --> 01:41:15,520

now bob lazar

2747

01:41:19,510 --> 01:41:17,199

even though there's a lot of controversy

2748

01:41:20,790 --> 01:41:19,520

around it said one of the things that he

2749

01:41:22,390 --> 01:41:20,800

worked on

2750

01:41:25,270 --> 01:41:22,400

at s4

2751

01:41:27,350 --> 01:41:25,280

as part of the craft acted as gravity

2752

01:41:29,430 --> 01:41:27,360

wave guides

2753

01:41:31,830 --> 01:41:29,440

and i just thought that the

2754

01:41:33,030 --> 01:41:31,840

consistency between those two statements

2755

01:41:35,590 --> 01:41:33,040

was very

2756

01:41:39,750 --> 01:41:35,600

oh let's say coincidental

2757

01:41:44,229 --> 01:41:42,550

well i'm not a physicist so um but i am

2758

01:42:14,790 --> 01:41:44,239

a

2759

01:42:17,189 --> 01:42:14,800

energy

2760

01:42:20,070 --> 01:42:17,199

around the craft maybe

2761

01:42:22,550 --> 01:42:20,080

and that's why we see a glow because

2762

01:42:25,270 --> 01:42:22,560

there might be some

2763

01:42:27,590 --> 01:42:25,280

visible artifact of that energy flowing

2764

01:42:30,390 --> 01:42:27,600

around the craft that's being

2765

01:42:32,390 --> 01:42:30,400

transmitted through these wave guides

2766

01:42:35,669 --> 01:42:32,400

around the craft so that's the only

2767

01:42:40,629 --> 01:42:37,270

interesting

2768

01:42:42,550 --> 01:42:40,639

anything else uh rock

2769

01:42:44,070 --> 01:42:42,560

no again thank you guys for what you do

2770

01:42:46,950 --> 01:42:44,080

and i appreciate it i just thought it

2771

01:42:49,030 --> 01:42:46,960

was a a very interesting

2772

01:42:51,030 --> 01:42:49,040

piece of information that you know may

2773

01:42:53,030 --> 01:42:51,040

lend a little bit more credence to what

2774

01:42:55,350 --> 01:42:53,040

mr lazar said and maybe he is a

2775

01:42:57,669 --> 01:42:55,360

whistleblower and not a kook

2776

01:42:59,669 --> 01:42:57,679

well i have mixed feelings on that one

2777

01:43:01,270 --> 01:42:59,679

but rocky when i say keep my eye keep

2778

01:43:02,950 --> 01:43:01,280

your eyes to the sky keep your eyes on

2779

01:43:05,189 --> 01:43:02,960

the road instead okay

2780

01:43:07,270 --> 01:43:05,199

thank thanks for calling me i do i do

2781

01:43:10,870 --> 01:43:07,280

both sir have a good night all right all

2782

01:43:13,350 --> 01:43:10,880

right so just uh real quickly um the one

2783

01:43:15,510 --> 01:43:13,360

ufo sighting that i know was the ufo

2784

01:43:18,310 --> 01:43:15,520

because it was so strange but it was a a

2785

01:43:19,910 --> 01:43:18,320

disc with a blue glow around it

2786

01:43:22,470 --> 01:43:19,920

you know you just talked about the glow

2787

01:43:24,870 --> 01:43:22,480

around something and that that had like

2788

01:43:27,590 --> 01:43:24,880

i can't really just like a cool color of

2789

01:43:30,550 --> 01:43:27,600

you know the the very light blue

2790

01:43:31,750 --> 01:43:30,560

glow all around it and uh it that was a

2791

01:43:35,830 --> 01:43:31,760

strange

2792

01:43:40,070 --> 01:43:35,840

have charles calling from las vegas

2793

01:43:44,950 --> 01:43:42,310

hey martin hey john uh thank you for

2794

01:43:46,629 --> 01:43:44,960

your service i really love your show

2795

01:43:47,669 --> 01:43:46,639

uh john you too thank you for your

2796

01:43:50,470 --> 01:43:47,679

service

2797

01:43:55,270 --> 01:43:50,480

um my name is charles um

2798

01:43:59,430 --> 01:43:55,280

i served in the navy from 2004 to 2009

2799

01:44:01,189 --> 01:43:59,440

um i was stationed on the uss dallas

2800

01:44:03,030 --> 01:44:01,199

i was at navit

2801

01:44:06,470 --> 01:44:03,040

um

2802

01:44:09,270 --> 01:44:06,480

had a top secret sti clearance

2803

01:44:12,550 --> 01:44:09,280

i have a couple stories i think

2804

01:44:16,149 --> 01:44:12,560

can add to this conversation

2805

01:44:18,390 --> 01:44:16,159

um i did want to ask you a question too

2806

01:44:19,990 --> 01:44:18,400

um so i'll just start with that

2807

01:44:22,310 --> 01:44:20,000

right i guess

2808

01:44:25,590 --> 01:44:22,320

both of you guys uh do you think

2809

01:44:27,669 --> 01:44:25,600

it's a crime against humanity that this

2810

01:44:32,709 --> 01:44:27,679

is being that this topic

2811

01:44:36,149 --> 01:44:34,470

what do you think of that john

2812

01:44:37,430 --> 01:44:36,159

um

2813

01:44:40,229 --> 01:44:37,440

if

2814

01:44:42,709 --> 01:44:40,239

they're holding on to this information

2815

01:44:44,149 --> 01:44:42,719

because the companies who are working on

2816

01:44:45,669 --> 01:44:44,159

let's say reverse engineering the

2817

01:44:50,070 --> 01:44:45,679

technology

2818

01:44:52,550 --> 01:44:50,080

in order to perpetuate

2819

01:44:53,990 --> 01:44:52,560

a fossil fuel industry

2820

01:44:56,709 --> 01:44:54,000

and

2821

01:44:57,590 --> 01:44:56,719

continue to

2822

01:45:00,310 --> 01:44:57,600

not

2823

01:45:02,629 --> 01:45:00,320

provide us with a better form of energy

2824

01:45:04,790 --> 01:45:02,639

that's non-polluting i would say that is

2825

01:45:07,510 --> 01:45:04,800

a crime against humanity

2826

01:45:09,750 --> 01:45:07,520

for sure if that's their intent

2827

01:45:11,430 --> 01:45:09,760

if it's because they don't understand

2828

01:45:13,270 --> 01:45:11,440

what's going on they're earnestly

2829

01:45:15,350 --> 01:45:13,280

looking at the technology

2830

01:45:17,189 --> 01:45:15,360

and they can make some of it work um

2831

01:45:19,750 --> 01:45:17,199

they can like make it fly in our

2832

01:45:21,109 --> 01:45:19,760

atmosphere but beyond that

2833

01:45:23,189 --> 01:45:21,119

then i don't think it's a crime against

2834

01:45:25,109 --> 01:45:23,199

humanity but it's the intent of why

2835

01:45:27,030 --> 01:45:25,119

they're holding on to it that i think

2836

01:45:28,870 --> 01:45:27,040

it's important to understand

2837

01:45:31,830 --> 01:45:28,880

why are they holding on to it

2838

01:45:34,070 --> 01:45:31,840

um so if russia has this technology if

2839

01:45:34,950 --> 01:45:34,080

china has and we have it why not share

2840

01:45:37,510 --> 01:45:34,960

it

2841

01:45:39,430 --> 01:45:37,520

um so that's that's my opinion about

2842

01:45:40,470 --> 01:45:39,440

that and it goes back to caring for our

2843

01:45:43,109 --> 01:45:40,480

planet

2844

01:45:45,270 --> 01:45:43,119

um that this technology if it provides

2845

01:45:46,950 --> 01:45:45,280

us with clean energy

2846

01:45:49,590 --> 01:45:46,960

um

2847

01:45:50,550 --> 01:45:49,600

i would say holding that technology back

2848

01:45:54,709 --> 01:45:50,560

from

2849

01:45:58,709 --> 01:45:54,719

so

2850

01:46:00,229 --> 01:45:58,719

you about four minutes because of the

2851

01:46:02,470 --> 01:46:00,239

other callers waiting

2852

01:46:03,830 --> 01:46:02,480

um so just keep that in mind you said

2853

01:46:06,070 --> 01:46:03,840

you had a couple stories you wanted to

2854

01:46:11,669 --> 01:46:09,030

sure um yeah so we were out to see one

2855

01:46:14,149 --> 01:46:11,679

time um like i said i was a nazi t so we

2856

01:46:15,350 --> 01:46:14,159

dealt with navigation uh quartermaster

2857

01:46:17,669 --> 01:46:15,360

stuff

2858

01:46:20,709 --> 01:46:17,679

uh electronics uh interior

2859

01:46:23,270 --> 01:46:20,719

communications we really do a lot

2860

01:46:25,510 --> 01:46:23,280

on submarines but uh so we were out to

2861

01:46:26,790 --> 01:46:25,520

see on the surface

2862

01:46:29,270 --> 01:46:26,800

and

2863

01:46:31,350 --> 01:46:29,280

our radar starts going crazy i wasn't

2864

01:46:33,109 --> 01:46:31,360

operating it at the time but i had a

2865

01:46:35,750 --> 01:46:33,119

friend that was and i was right there

2866

01:46:38,830 --> 01:46:35,760

next to him and we have all these

2867

01:46:40,629 --> 01:46:38,840

contacts just making crazy

2868

01:46:43,030 --> 01:46:40,639

maneuvers and

2869

01:46:45,510 --> 01:46:43,040

going hundreds of knots and they were

2870

01:46:48,629 --> 01:46:45,520

smaller than i would say normal

2871

01:46:54,390 --> 01:46:51,270

normal contacts i would say but

2872

01:46:55,990 --> 01:46:54,400

i know we were all freaking out and

2873

01:46:58,310 --> 01:46:56,000

in the sale

2874

01:46:59,910 --> 01:46:58,320

nobody in our lookout didn't see

2875

01:47:01,910 --> 01:46:59,920

anything

2876

01:47:03,910 --> 01:47:01,920

so initially we were thinking that

2877

01:47:06,149 --> 01:47:03,920

there's something wrong with the radar

2878

01:47:07,590 --> 01:47:06,159

so everybody in our division was trying

2879

01:47:09,109 --> 01:47:07,600

to figure out

2880

01:47:11,270 --> 01:47:09,119

what was wrong

2881

01:47:13,510 --> 01:47:11,280

but obviously they were still trying to

2882

01:47:15,430 --> 01:47:13,520

track all these contacts

2883

01:47:17,750 --> 01:47:15,440

so um

2884

01:47:21,590 --> 01:47:17,760

we get back in court and

2885

01:47:24,310 --> 01:47:21,600

they basically tear apart the radar and

2886

01:47:25,350 --> 01:47:24,320

uh didn't find anything i remember like

2887

01:47:28,550 --> 01:47:25,360

it

2888

01:47:32,149 --> 01:47:28,560

halted some of our underways

2889

01:47:34,550 --> 01:47:32,159
and then uh this video of

2890

01:47:36,550 --> 01:47:34,560
a radar operator

2891

01:47:39,030 --> 01:47:36,560
uh recently got released and that's

2892

01:47:41,510 --> 01:47:39,040
exactly what we saw back in

2893

01:47:45,189 --> 01:47:41,520
2005.

2894

01:47:48,470 --> 01:47:45,199
um so that was one and then another time

2895

01:47:49,590 --> 01:47:48,480
in 2006 i was in a guard shack and

2896

01:47:50,950 --> 01:47:49,600
i was

2897

01:47:53,030 --> 01:47:50,960
i think it was probably four or five

2898

01:47:55,510 --> 01:47:53,040
other navy guys and we were all

2899

01:47:57,830 --> 01:47:55,520
talking about she stories

2900

01:47:59,990 --> 01:47:57,840
and one guy

2901
01:48:01,270 --> 01:48:00,000
said that they tracked something

2902
01:48:04,870 --> 01:48:01,280
underwater

2903
01:48:07,189 --> 01:48:04,880
going unimaginable speech

2904
01:48:09,430 --> 01:48:07,199
and i remember those words exactly

2905
01:48:11,270 --> 01:48:09,440
because a few uh two years ago i

2906
01:48:14,149 --> 01:48:11,280
remember seeing an article that said

2907
01:48:16,310 --> 01:48:14,159
those exact same things and when he told

2908
01:48:18,629 --> 01:48:16,320
us this nobody

2909
01:48:20,629 --> 01:48:18,639
nobody could believe him we were asking

2910
01:48:22,790 --> 01:48:20,639
him we asked him if it was like some

2911
01:48:24,310 --> 01:48:22,800
super cavitating torpedo or something

2912
01:48:27,189 --> 01:48:24,320
like that he said no it was going

2913
01:48:29,990 --> 01:48:27,199

hundreds of knots underwater yeah now

2914

01:48:33,030 --> 01:48:30,000

that that story is not uncommon at all

2915

01:48:35,830 --> 01:48:33,040

mark d'antonio friend of mine was uh

2916

01:48:37,510 --> 01:48:35,840

yeah on us up when it was that something

2917

01:48:39,990 --> 01:48:37,520

was detected at several hundred knots

2918

01:48:42,070 --> 01:48:40,000

crazy crazy stuff thank you very much

2919

01:48:45,510 --> 01:48:42,080

for the call we have um i'm gonna try to

2920

01:48:49,430 --> 01:48:45,520

fit everyone in so theo from the uk

2921

01:48:53,109 --> 01:48:51,189

you there theo

2922

01:48:53,830 --> 01:48:53,119

you're live on the show theo

2923

01:49:12,310 --> 01:48:53,840

hi

2924

01:49:13,510 --> 01:49:12,320

um

2925

01:49:15,189 --> 01:49:13,520

do you think

2926

01:49:17,109 --> 01:49:15,199

with the current

2927

01:49:18,950 --> 01:49:17,119

the climate do you think we've already

2928

01:49:21,990 --> 01:49:18,960

back engineered these

2929

01:49:24,310 --> 01:49:22,000

these technologies from these craft and

2930

01:49:26,709 --> 01:49:24,320

do we have a space force that is is

2931

01:49:29,109 --> 01:49:26,719

going to other planets bases on

2932

01:49:31,189 --> 01:49:29,119

the moon mars going to other

2933

01:49:34,390 --> 01:49:31,199

solar system is do you think that's

2934

01:49:39,189 --> 01:49:36,870

space force

2935

01:49:41,669 --> 01:49:39,199

second quick question okay

2936

01:49:44,470 --> 01:49:41,679

president jimmy carter stated that he

2937

01:49:47,189 --> 01:49:44,480

was denied ufo information from ci

2938

01:49:48,550 --> 01:49:47,199

director george bush at the time do you

2939

01:49:53,750 --> 01:49:48,560

do you think it's still possible that

2940

01:49:58,310 --> 01:49:55,589

um

2941

01:50:00,070 --> 01:49:58,320

i'll answer the second question first

2942

01:50:02,709 --> 01:50:00,080

the president united states if he wants

2943

01:50:04,629 --> 01:50:02,719

ufo information can receive ufo

2944

01:50:07,030 --> 01:50:04,639

information

2945

01:50:09,350 --> 01:50:07,040

sometimes

2946

01:50:12,310 --> 01:50:09,360

it's helpful if

2947

01:50:13,669 --> 01:50:12,320

the president says he cannot get it so

2948

01:50:15,189 --> 01:50:13,679

that the

2949

01:50:17,270 --> 01:50:15,199

questions will stop

2950

01:50:19,510 --> 01:50:17,280

it's called top cover you provide the

2951

01:50:22,070 --> 01:50:19,520

president top cover um just say you

2952

01:50:25,109 --> 01:50:22,080

don't we didn't tell you anything

2953

01:50:27,589 --> 01:50:25,119

um so but having said that you know it's

2954

01:50:29,270 --> 01:50:27,599

i it's inconceivable that the president

2955

01:50:31,669 --> 01:50:29,280

will be denied anything the president

2956

01:50:33,350 --> 01:50:31,679

wants to know if it's within the purview

2957

01:50:35,589 --> 01:50:33,360

of the us government he's the chief

2958

01:50:38,229 --> 01:50:35,599

executive officer of the government

2959

01:50:40,550 --> 01:50:38,239

and he has unquestioned the unquestioned

2960

01:50:42,229 --> 01:50:40,560

uh original classification authority uh

2961

01:50:44,070 --> 01:50:42,239

the first part of your question about uh

2962

01:50:46,070 --> 01:50:44,080

space force uh space force was created

2963

01:50:49,589 --> 01:50:46,080

after i left cia

2964

01:50:50,790 --> 01:50:49,599

but uh i do know that there is one craft

2965

01:50:53,750 --> 01:50:50,800

or eight

2966

01:50:56,470 --> 01:50:53,760

series of craft uh flown by the us

2967

01:50:58,790 --> 01:50:56,480

government that is highly compartmented

2968

01:51:01,270 --> 01:50:58,800

that the customer is the national

2969

01:51:03,910 --> 01:51:01,280

geospatial intelligence agency this is

2970

01:51:05,430 --> 01:51:03,920

an aerospace not a spacecraft aerospace

2971

01:51:06,629 --> 01:51:05,440

having said that it's something that can

2972

01:51:08,950 --> 01:51:06,639

fly

2973

01:51:11,350 --> 01:51:08,960

uh beyond 50 miles up is considered

2974

01:51:13,350 --> 01:51:11,360

space by the united states it doesn't

2975

01:51:15,109 --> 01:51:13,360

fly to the moon or doesn't go to mars

2976

01:51:17,350 --> 01:51:15,119

but it can't fly and it's an

2977

01:51:19,669 --> 01:51:17,360

extraordinary craft i was never read

2978

01:51:21,589 --> 01:51:19,679

into that program i know it exists

2979

01:51:23,669 --> 01:51:21,599

all right excellent we only have a

2980

01:51:25,750 --> 01:51:23,679

couple minutes left here thank you for

2981

01:51:27,669 --> 01:51:25,760

the call of theo we have to move on to

2982

01:51:28,390 --> 01:51:27,679

russell from oregon

2983

01:51:31,270 --> 01:51:28,400

so

2984

01:51:43,189 --> 01:51:31,280

russell from oregon you are live on the

2985

01:51:47,109 --> 01:51:45,189

you know there's so many stories like

2986

01:51:50,390 --> 01:51:47,119

the japan airlines

2987

01:51:53,669 --> 01:51:50,400

incident the incident at vanderbilt

2988

01:51:55,990 --> 01:51:53,679

the incident of a

2989

01:51:58,070 --> 01:51:56,000

iranian

2990

01:51:59,669 --> 01:51:58,080

jet fighter pilot

2991

01:52:01,109 --> 01:51:59,679

where

2992

01:52:03,750 --> 01:52:01,119

supposedly

2993

01:52:05,510 --> 01:52:03,760

government personnel of some sort come

2994

01:52:08,470 --> 01:52:05,520

in and take all the records all of the

2995

01:52:10,070 --> 01:52:08,480

radar records and everything else

2996

01:52:11,990 --> 01:52:10,080

what would you know about that and is

2997

01:52:13,510 --> 01:52:12,000

that cia

2998

01:52:15,510 --> 01:52:13,520

cia doesn't

2999

01:52:17,109 --> 01:52:15,520

and from a foreign country like that

3000

01:52:22,229 --> 01:52:17,119

japan

3001
01:52:23,830 --> 01:52:22,239
take that data alaskan airlines alaskan

3002
01:52:27,750 --> 01:52:23,840
airplanes

3003
01:52:32,950 --> 01:52:27,760
uh japan airlines uh

3004
01:52:37,430 --> 01:52:35,990
if it is a japan airlines craft flies

3005
01:52:39,430 --> 01:52:37,440
the japanese flag

3006
01:52:41,270 --> 01:52:39,440
it belongs to japan and

3007
01:52:43,109 --> 01:52:41,280
nobody in us government has jurisdiction

3008
01:52:45,750 --> 01:52:43,119
over anything

3009
01:52:47,990 --> 01:52:45,760
if it lands in the united states

3010
01:52:50,229 --> 01:52:48,000
or in an airport controlled by the faa

3011
01:52:54,390 --> 01:52:50,239
the faa can definitely take that data

3012
01:52:56,470 --> 01:52:55,109
well

3013
01:52:57,830 --> 01:52:56,480

uh you know

3014

01:52:59,669 --> 01:52:57,840

thank you for the thank you very much

3015

01:53:00,629 --> 01:52:59,679

for the call unfortunately we are out of

3016

01:53:03,030 --> 01:53:00,639

time

3017

01:53:04,550 --> 01:53:03,040

so but uh this this hour went very fast

3018

01:53:06,790 --> 01:53:04,560

thanks thanks a lot everyone for your

3019

01:53:08,149 --> 01:53:06,800

calls and cody i know you were next on

3020

01:53:11,350 --> 01:53:08,159

on the line and i'm sorry we couldn't

3021

01:53:13,350 --> 01:53:11,360

take your call so uh just real quickly

3022

01:53:15,669 --> 01:53:13,360

we only have a minute here what's what's

3023

01:53:17,589 --> 01:53:15,679

next for you john

3024

01:53:21,189 --> 01:53:17,599

um

3025

01:53:23,430 --> 01:53:21,199

my my next thing is as i said before i

3026
01:53:24,629 --> 01:53:23,440
i'm trying to get my records my medical

3027
01:53:27,830 --> 01:53:24,639
records

3028
01:53:30,550 --> 01:53:27,840
from cia and so i hope to expand on the

3029
01:53:32,790 --> 01:53:30,560
very controversial slide 54

3030
01:53:35,910 --> 01:53:32,800
and put it in context with sly 53 but i

3031
01:53:38,310 --> 01:53:35,920
need my medical records um i want to see

3032
01:53:40,709 --> 01:53:38,320
if cia redacts anything in my medical

3033
01:53:43,189 --> 01:53:40,719
record because they examined me why

3034
01:53:44,390 --> 01:53:43,199
would they redact anything

3035
01:53:47,270 --> 01:53:44,400
and so

3036
01:53:49,350 --> 01:53:47,280
i'm hoping to have that released to me

3037
01:53:51,510 --> 01:53:49,360
and from there i can then expand on

3038
01:53:53,669 --> 01:53:51,520

those two slides excellent well we are

3039

01:53:54,950 --> 01:53:53,679

3040

01:53:57,109 --> 01:53:54,960
