CIA RET.**

**#533**

1  
00:00:03,780 --> 00:00:10,700  
foreign

2  
00:01:05,830 --> 00:00:26,340  
[Music]

3  
00:01:11,690 --> 00:01:08,929  
host and we have another great evening

4  
00:01:14,750 --> 00:01:11,700  
for you a great guest John Ramirez he

5  
00:01:17,750 --> 00:01:14,760  
was on I think over a year ago and uh

6  
00:01:20,210 --> 00:01:17,760  
was one of the highest listened to or

7  
00:01:22,550 --> 00:01:20,220  
highest downloaded show so I'm excited

8  
00:01:25,310 --> 00:01:22,560  
to bring it back and talk to him about

9  
00:01:27,350 --> 00:01:25,320  
what he's you know what's occurred since

10  
00:01:28,969 --> 00:01:27,360  
uh he's been out there talking a little

11  
00:01:31,550 --> 00:01:28,979  
bit here and there about it he was out

12  
00:01:33,230 --> 00:01:31,560  
in Phoenix I was really looking looking

13  
00:01:35,690 --> 00:01:33,240

forward to meeting him but of course

14

00:01:37,789 --> 00:01:35,700

that was canceled for me I didn't make

15

00:01:40,010 --> 00:01:37,799

it out there but it's a pleasure to have

16

00:01:42,770 --> 00:01:40,020

him back on no blog this week Charles

17

00:01:46,670 --> 00:01:42,780

Lear the Blogger will be on our show

18

00:01:48,109 --> 00:01:46,680

next week he did a five-part series and

19

00:01:50,630 --> 00:01:48,119

uh he's going to be talking about that

20

00:01:53,749 --> 00:01:50,640

and uh and the week after that we have

21

00:01:56,030 --> 00:01:53,759

Avi Loeb is uh back on the show as well

22

00:01:58,069 --> 00:01:56,040

so that's what we have going on anyone

23

00:02:01,969 --> 00:01:58,079

can support the show um all you have to

24

00:02:04,370 --> 00:02:01,979

do is go over to podcast ufo.com and uh

25

00:02:07,609 --> 00:02:04,380

the support of the show is on the top

26

00:02:10,309 --> 00:02:07,619

menu and anyone could do that for just a

27

00:02:11,990 --> 00:02:10,319

couple of dollars or more a month and

28

00:02:13,430 --> 00:02:12,000

greatly appreciated we appreciate

29

00:02:15,470 --> 00:02:13,440

everyone that listens to the show

30

00:02:17,390 --> 00:02:15,480

everyone that watches the show you know

31

00:02:18,610 --> 00:02:17,400

I was looking uh recently the other day

32

00:02:22,790 --> 00:02:18,620

and there's

33

00:02:25,130 --> 00:02:22,800

2.4 million podcasts it seems like they

34

00:02:26,290 --> 00:02:25,140

have grown like crazy since covid

35

00:02:29,930 --> 00:02:26,300

happened

36

00:02:32,630 --> 00:02:29,940

I think when I started this it was

37

00:02:36,410 --> 00:02:32,640

I want to say uh it was under a million

38

00:02:38,630 --> 00:02:36,420

back uh over 11 years ago but it's

39

00:02:40,729 --> 00:02:38,640

really grown really a big time so what

40

00:02:42,530 --> 00:02:40,739

I'm getting at is I really do you have a

41

00:02:44,449 --> 00:02:42,540

lot of choices and I really do

42

00:02:46,910 --> 00:02:44,459

appreciate the fact that you are

43

00:02:48,890 --> 00:02:46,920

watching and listening and for those of

44

00:02:51,589 --> 00:02:48,900

you who support the show I really do

45

00:02:54,229 --> 00:02:51,599

appreciate that as well so it's time to

46

00:02:56,869 --> 00:02:54,239

bring in our guest welcome back John

47

00:02:59,930 --> 00:02:56,879

uh Martin thanks for having me back on

48

00:03:02,030 --> 00:02:59,940

podcast UFO it has been a long time and

49

00:03:04,670 --> 00:03:02,040

I truly wanted to speak with you in

50

00:03:06,770 --> 00:03:04,680

person uh back at the international UFO

51  
00:03:09,110 --> 00:03:06,780  
Congress that was held in October

52  
00:03:12,649 --> 00:03:09,120  
right I heard that went really well for

53  
00:03:14,690 --> 00:03:12,659  
you uh I I enjoyed it very much yes yeah

54  
00:03:16,190 --> 00:03:14,700  
I spoke with Alejandro about it

55  
00:03:18,949 --> 00:03:16,200  
afterwards he said he was very pleased

56  
00:03:20,750 --> 00:03:18,959  
with your talk so I and I want to touch

57  
00:03:24,050 --> 00:03:20,760  
a little bit on that but first of all

58  
00:03:26,270 --> 00:03:24,060  
for the person that didn't catch uh you

59  
00:03:28,250 --> 00:03:26,280  
on the show last time if you would just

60  
00:03:30,470 --> 00:03:28,260  
kind of go into a nutshell of your

61  
00:03:33,050 --> 00:03:30,480  
background and uh I know you're in the

62  
00:03:35,930 --> 00:03:33,060  
Navy back in the 70s and then you got

63  
00:03:37,030 --> 00:03:35,940

into uh intelligence I believe it was

64

00:03:41,270 --> 00:03:37,040

was it

65

00:03:43,250 --> 00:03:41,280

1984-2009 the CIA and uh so if you would

66

00:03:45,770 --> 00:03:43,260

just give your your background and then

67

00:03:46,910 --> 00:03:45,780

I'd like to jump right into uh what's

68

00:03:48,949 --> 00:03:46,920

going on

69

00:03:51,350 --> 00:03:48,959

um since we last spoke

70

00:03:53,570 --> 00:03:51,360

uh sure Martin uh when I was in the Navy

71

00:03:55,130 --> 00:03:53,580

in the 70s I was in a field called

72

00:03:58,309 --> 00:03:55,140

electronic warfare

73

00:04:02,270 --> 00:03:58,319

and that job was primarily to defend the

74

00:04:04,430 --> 00:04:02,280

ship uh using uh electronic Jammers and

75

00:04:06,890 --> 00:04:04,440

other techniques that we had such as

76

00:04:09,890 --> 00:04:06,900

chaff Rockets as well as collect and

77

00:04:12,289 --> 00:04:09,900

intercept signals from our adversary

78

00:04:14,330 --> 00:04:12,299

ships that might be out there and

79

00:04:17,449 --> 00:04:14,340

identified them as either threat or

80

00:04:20,569 --> 00:04:17,459

non-threat and that led to a career in

81

00:04:22,430 --> 00:04:20,579

the similar field at CIA where I was a

82

00:04:25,310 --> 00:04:22,440

second officer for the Central

83

00:04:27,409 --> 00:04:25,320

Intelligence Agency so we think of NSA

84

00:04:30,590 --> 00:04:27,419

as being the second agency and they are

85

00:04:34,310 --> 00:04:30,600

the primary second agency but Cia has a

86

00:04:37,610 --> 00:04:34,320

very capable second capability of

87

00:04:40,189 --> 00:04:37,620

ourselves and the service of a certain

88

00:04:42,530 --> 00:04:40,199

of our own operations technical

89

00:04:44,090 --> 00:04:42,540

collection operations uh was a field

90

00:04:47,930 --> 00:04:44,100

that I was in

91

00:04:49,490 --> 00:04:47,940

uh for CIA as well as the analysis of uh

92

00:04:53,030 --> 00:04:49,500

for lack of a better term threatening

93

00:04:56,930 --> 00:04:53,040

Radars from our adversaries primarily Uh

94

00:04:59,870 --> 00:04:56,940

Russian and uh so that led to

95

00:05:02,510 --> 00:04:59,880

um some exposure with how the Russians

96

00:05:05,450 --> 00:05:02,520

were reacting with their Radars toward

97

00:05:08,510 --> 00:05:05,460

what we would today call uaps and so

98

00:05:12,350 --> 00:05:08,520

they had Radars that were able to detect

99

00:05:14,570 --> 00:05:12,360

these objects out in space and because

100

00:05:15,950 --> 00:05:14,580

of their interest then we became

101  
00:05:17,990 --> 00:05:15,960  
interested in what the Russians were

102  
00:05:20,870 --> 00:05:18,000  
seeing and how they were evaluating

103  
00:05:24,230 --> 00:05:20,880  
these objects so I didn't know too much

104  
00:05:27,650 --> 00:05:24,240  
about what we did in the country because

105  
00:05:30,350 --> 00:05:27,660  
uh CIA is prohibited from collecting

106  
00:05:33,650 --> 00:05:30,360  
intelligence in the country

107  
00:05:35,450 --> 00:05:33,660  
uh that's for other departments and

108  
00:05:38,270 --> 00:05:35,460  
agencies of the government such as the

109  
00:05:40,730 --> 00:05:38,280  
FBI or now uh Department of Homeland

110  
00:05:43,909 --> 00:05:40,740  
Security but we're primarily a foreign

111  
00:05:45,529 --> 00:05:43,919  
intelligence agency and so we did know

112  
00:05:49,010 --> 00:05:45,539  
that the Russians were very interested

113  
00:05:52,249 --> 00:05:49,020

in the UAP topic and used their uh

114

00:05:54,730 --> 00:05:52,259  
sensors to collect against them

115

00:05:58,370 --> 00:05:54,740  
and that's how I got into

116

00:06:01,969 --> 00:05:58,380  
the entire field but I never had any

117

00:06:04,610 --> 00:06:01,979  
kind of uh nda's related specifically to

118

00:06:06,830 --> 00:06:04,620  
UFOs I did not know about the

119

00:06:10,430 --> 00:06:06,840  
exploitation of these UFOs that may have

120

00:06:13,070 --> 00:06:10,440  
occurred but later on uh but just

121

00:06:15,230 --> 00:06:13,080  
putting pieces together from foia I was

122

00:06:17,450 --> 00:06:15,240  
able to read not only between the lines

123

00:06:19,790 --> 00:06:17,460  
but behind the lines and I was able to

124

00:06:24,409 --> 00:06:19,800  
surmise I think rather accurately of

125

00:06:24,419 --> 00:06:29,029  
here

126

00:06:29,039 --> 00:06:32,629

interesting

127

00:06:39,230 --> 00:06:35,629

uh we have a having a little bit of an

128

00:06:41,749 --> 00:06:39,240

Internet issue I apologize but uh so I

129

00:06:46,450 --> 00:06:41,759

can't tell when you stop talking right

130

00:06:50,270 --> 00:06:46,460

there but uh so uh last time you were on

131

00:06:52,790 --> 00:06:50,280

uh you had mentioned that

132

00:06:55,129 --> 00:06:52,800

um you were looking for medical records

133

00:06:58,610 --> 00:06:55,139

and I just wondered if those ever came

134

00:07:01,430 --> 00:06:58,620

in were you ever able to verify anything

135

00:07:04,189 --> 00:07:01,440

no uh I would not receive those records

136

00:07:06,590 --> 00:07:04,199

personally uh CIA considers our medical

137

00:07:09,370 --> 00:07:06,600

records to be CIA property

138

00:07:11,870 --> 00:07:09,380

however what I did was submit a letter

139

00:07:15,350 --> 00:07:11,880

to the information and privacy

140

00:07:18,529 --> 00:07:15,360

coordinator at CIA and requested that

141

00:07:21,830 --> 00:07:18,539

the CIA send those records

142

00:07:24,469 --> 00:07:21,840

to a physician and I would not see them

143

00:07:26,749 --> 00:07:24,479

but the physician would see them and so

144

00:07:28,490 --> 00:07:26,759

that's what I did and I don't know if

145

00:07:30,890 --> 00:07:28,500

that particular physician has received

146

00:07:33,830 --> 00:07:30,900

those records it was not my personal

147

00:07:37,010 --> 00:07:33,840

physician it was one recognized by the

148

00:07:39,650 --> 00:07:37,020

odni as having clearances and so I

149

00:07:42,290 --> 00:07:39,660

needed to use a physician with

150

00:07:44,330 --> 00:07:42,300

clearances with the odni in order to

151

00:07:46,850 --> 00:07:44,340

receive those records

152

00:07:48,650 --> 00:07:46,860

for him to receive it I don't know if if

153

00:07:49,490 --> 00:07:48,660

that particular physician has received

154

00:07:53,749 --> 00:07:49,500

anything

155

00:08:00,050 --> 00:07:57,290

well this is a this is such a strange

156

00:08:03,350 --> 00:08:00,060

thing to me why you can't actually

157

00:08:06,170 --> 00:08:03,360

observe your own medical records and I'm

158

00:08:10,129 --> 00:08:06,180

I'm trying to understand the logic of it

159

00:08:11,689 --> 00:08:10,139

uh what is the security issue logic to

160

00:08:14,150 --> 00:08:11,699

that

161

00:08:17,749 --> 00:08:14,160

well the medical records will also

162

00:08:21,409 --> 00:08:17,759

contain uh places I've been on behalf of

163

00:08:23,809 --> 00:08:21,419

CIA and foreign in the foreign field and

164

00:08:26,570 --> 00:08:23,819

that I may have been inoculated for

165

00:08:29,270 --> 00:08:26,580

certain types of diseases bacteria

166

00:08:31,189 --> 00:08:29,280

viruses whatever uh and that particular

167

00:08:34,070 --> 00:08:31,199

region so when you look at my medical

168

00:08:37,490 --> 00:08:34,080

record you can put together where I as a

169

00:08:40,550 --> 00:08:37,500

CI officer might have served under a

170

00:08:42,949 --> 00:08:40,560

different identity a different name a

171

00:08:46,730 --> 00:08:42,959

completely different identity in order

172

00:08:48,530 --> 00:08:46,740

to conduct an operation for CIA so if

173

00:08:51,650 --> 00:08:48,540

you look at the records it tells you

174

00:08:55,130 --> 00:08:51,660

where I went to and what inoculations

175

00:08:58,250 --> 00:08:55,140

may have had if I had any kind of uh

176

00:09:00,410 --> 00:08:58,260

medical issue in the field it will list

177

00:09:02,750 --> 00:09:00,420

you know where I was and what that

178

00:09:05,210 --> 00:09:02,760

particular issue might have been so you

179

00:09:07,070 --> 00:09:05,220

can reconstruct a CIA officer's entire

180

00:09:09,470 --> 00:09:07,080

overseas background from the medical

181

00:09:11,630 --> 00:09:09,480

record and that is why it's considered

182

00:09:14,570 --> 00:09:11,640

CIA property

183

00:09:17,389 --> 00:09:14,580

and I I would also add that I have no

184

00:09:19,750 --> 00:09:17,399

access to my security file as well or my

185

00:09:24,650 --> 00:09:19,760

personnel file which is classified for

186

00:09:29,810 --> 00:09:24,660

75 years after I retired so add 75 to

187

00:09:32,949 --> 00:09:29,820

2009 and uh that's the year uh that I

188

00:09:35,570 --> 00:09:32,959

would that if I'm I won't be alive so

189

00:09:40,130 --> 00:09:35,580

that's the year that somebody can foil

190

00:09:44,329 --> 00:09:40,140

my uh my uh my files at that time

191

00:09:47,030 --> 00:09:44,339

wow well so uh yeah I I total I I do get

192

00:09:48,769 --> 00:09:47,040

I do understand that so what were you ho

193

00:09:51,650 --> 00:09:48,779

I can't remember what you're hoping to

194

00:09:54,769 --> 00:09:51,660

find in your medical records if if you

195

00:09:57,230 --> 00:09:54,779

could have someone look at them for you

196

00:10:01,130 --> 00:09:57,240

uh it was the incident I had with

197

00:10:03,889 --> 00:10:01,140

nosebleeds I I was bleeding a lot from

198

00:10:07,430 --> 00:10:03,899

my right nostril ever since I was a

199

00:10:09,350 --> 00:10:07,440

child I always had this this bleeding

200

00:10:11,269 --> 00:10:09,360

issue where it would just bleed for no

201

00:10:13,430 --> 00:10:11,279

reason whatsoever

202

00:10:16,910 --> 00:10:13,440

um and it sort of subsided

203

00:10:20,090 --> 00:10:16,920

um in earlier adulthood but when I was

204

00:10:20,930 --> 00:10:20,100

um in my 40s uh it came back up again at

205

00:10:23,210 --> 00:10:20,940

night

206

00:10:24,590 --> 00:10:23,220

and it would happen like between three

207

00:10:28,190 --> 00:10:24,600

and four o'clock

208

00:10:31,190 --> 00:10:28,200

and the interesting part is that uh the

209

00:10:34,610 --> 00:10:31,200

bleeding was associated with a memory of

210

00:10:37,509 --> 00:10:34,620

having visitors in my bedroom

211

00:10:40,790 --> 00:10:37,519

so something caused my nose to bleed

212

00:10:43,009 --> 00:10:40,800

coincidentally I had a memory whether

213

00:10:45,650 --> 00:10:43,019

it's a dream or an actual occurrence of

214

00:10:49,069 --> 00:10:45,660

visitors in my bedroom who are not human

215

00:10:52,009 --> 00:10:49,079

and so I had this nosebleed at work and

216

00:10:54,910 --> 00:10:52,019

uh it was I think the year was 2000 and

217

00:10:58,790 --> 00:10:54,920

I had this nosebleed and I

218

00:11:00,949 --> 00:10:58,800

grabbed a box of tissues uh the receipt

219

00:11:02,870 --> 00:11:00,959

rolled back it's an office chair with

220

00:11:05,930 --> 00:11:02,880

wheels it rolled back and I landed on my

221

00:11:08,329 --> 00:11:05,940

back and my co-workers called The Office

222

00:11:10,370 --> 00:11:08,339

of Medical Services and security and

223

00:11:13,009 --> 00:11:10,380

they escorted me up to the Office of

224

00:11:14,569 --> 00:11:13,019

Medical Services for examination and

225

00:11:16,670 --> 00:11:14,579

that's where I learned that they said oh

226

00:11:18,769 --> 00:11:16,680

by the way did you know that have you

227

00:11:20,990 --> 00:11:18,779

ever had any surgery in your right

228

00:11:23,990 --> 00:11:21,000

nostril and said no well there's a

229

00:11:26,630 --> 00:11:24,000

precise surgical cup very deep

230

00:11:28,490 --> 00:11:26,640

and your right nostril and we can see it

231

00:11:30,889 --> 00:11:28,500

and this doctor called another doctor

232

00:11:32,389 --> 00:11:30,899

and said look at this and he said oh wow

233

00:11:34,790 --> 00:11:32,399

you know and they had a sidebar

234

00:11:36,110 --> 00:11:34,800

discussion uh and I don't know what they

235

00:11:38,210 --> 00:11:36,120

were talking about they came back said

236

00:11:40,069 --> 00:11:38,220

well we can fix it oh by the way we want

237

00:11:42,470 --> 00:11:40,079

to remove something

238

00:11:44,690 --> 00:11:42,480

in that area will you allow us to remove

239

00:11:46,250 --> 00:11:44,700

it I said sure go ahead and remove it so

240

00:11:48,410 --> 00:11:46,260

they removed some tissue maybe they was

241

00:11:51,650 --> 00:11:48,420

just cleaning the area and then they

242

00:11:53,990 --> 00:11:51,660

proceeded to uh do a colorization of

243

00:11:56,030 --> 00:11:54,000

that particular surgical site and I

244

00:11:58,490 --> 00:11:56,040

didn't have any problems after that

245

00:12:01,250 --> 00:11:58,500

and so I was wondering uh what did they

246

00:12:04,130 --> 00:12:01,260

remove uh was it an implant for example

247

00:12:06,769 --> 00:12:04,140

uh because I remember having these

248

00:12:08,750 --> 00:12:06,779

nosebleeds coincident with visitors and

249

00:12:10,550 --> 00:12:08,760

so I was hoping that maybe uh the

250

00:12:13,370 --> 00:12:10,560

medical file might give me more detail

251

00:12:15,410 --> 00:12:13,380

about exactly what did they find and if

252

00:12:18,470 --> 00:12:15,420

they took the sample and did any kind of

253

00:12:21,290 --> 00:12:18,480

analysis what was uh what were the

254

00:12:24,710 --> 00:12:21,300

results of the analysis

255

00:12:26,930 --> 00:12:24,720

hmm wow interesting now when you were on

256

00:12:28,210 --> 00:12:26,940

before you said that you were going to

257

00:12:31,730 --> 00:12:28,220

talk about

258

00:12:33,050 --> 00:12:31,740

visitors but on another podcast you I

259

00:12:35,569 --> 00:12:33,060

guess you had promised them it was going

260

00:12:38,569 --> 00:12:35,579

to be like an exclusive at the time

261

00:12:40,250 --> 00:12:38,579

um are you able to talk more about that

262

00:12:42,949 --> 00:12:40,260

um and these I think were childhood

263

00:12:46,610 --> 00:12:42,959

issues that you had right

264

00:12:48,530 --> 00:12:46,620

uh yes um I wouldn't call it an issue um

265

00:12:50,870 --> 00:12:48,540

because well when you're a child yeah

266

00:12:52,610 --> 00:12:50,880

yeah you don't know it's an issue yeah

267

00:12:55,129 --> 00:12:52,620

um I would say this

268

00:12:58,910 --> 00:12:55,139

um a lot of parents have children

269

00:13:01,069 --> 00:12:58,920

who talk about imaginary Playmates

270

00:13:04,310 --> 00:13:01,079

and I would submit that those Playmates

271

00:13:07,069 --> 00:13:04,320

may not be that imaginary at all because

272

00:13:09,769 --> 00:13:07,079

when I was small I had similar types of

273

00:13:11,509 --> 00:13:09,779

experiences uh not necessarily Playmates

274

00:13:13,970 --> 00:13:11,519

but I remember

275

00:13:17,030 --> 00:13:13,980

um being led to a house

276

00:13:19,430 --> 00:13:17,040

and by a woman who is not my mother and

277

00:13:21,530 --> 00:13:19,440

walking through the front door and it's

278

00:13:23,509 --> 00:13:21,540

like a Victorian A-Frame house with a

279

00:13:26,449 --> 00:13:23,519

Turret on the left side wrap around

280

00:13:28,610 --> 00:13:26,459

porch and I went in and immediately to

281

00:13:30,889 --> 00:13:28,620

the left it was a doctor's office I was

282

00:13:33,110 --> 00:13:30,899

greeted by a nurse and a doctor and they

283

00:13:37,069 --> 00:13:33,120

wore like

284

00:13:40,129 --> 00:13:37,079

very old uh like historical medical Garb

285

00:13:42,829 --> 00:13:40,139

I would say like Victorian type of Garb

286

00:13:45,949 --> 00:13:42,839

and I looked around and it was like

287

00:13:47,509 --> 00:13:45,959

Victorian type of instruments and uh

288

00:13:49,670 --> 00:13:47,519

they examined me they addressed me and

289

00:13:51,650 --> 00:13:49,680

they examined me

290

00:13:54,050 --> 00:13:51,660

and then they dressed me and this woman

291

00:13:56,389 --> 00:13:54,060

would lead me back out again and then I

292

00:13:59,870 --> 00:13:56,399

would have a memory of waking up and

293

00:14:01,190 --> 00:13:59,880

this was a recurring type of experience

294

00:14:03,470 --> 00:14:01,200

um and so I don't know if it was just a

295

00:14:06,350 --> 00:14:03,480

dream or if it was a cover memory of

296

00:14:07,850 --> 00:14:06,360

something else that may have occurred

297

00:14:10,730 --> 00:14:07,860

um I don't know but my mother tells me

298

00:14:12,949 --> 00:14:10,740

that I've never had any type of doctor's

299

00:14:15,650 --> 00:14:12,959

visit like that and she would be there

300

00:14:17,750 --> 00:14:15,660

of course my parents would be there if

301

00:14:19,430 --> 00:14:17,760

their child was being examined by a

302

00:14:21,190 --> 00:14:19,440

doctor naturally the parents would be

303

00:14:23,569 --> 00:14:21,200

there but my parents were not

304

00:14:25,129 --> 00:14:23,579

accompanying me in any of these visits

305

00:14:26,870 --> 00:14:25,139

that I've occurred and there were more

306

00:14:29,210 --> 00:14:26,880

than one at least like two or three of

307

00:14:31,310 --> 00:14:29,220

these types of visits sometimes on the

308

00:14:32,150 --> 00:14:31,320

ground floor and sometimes on the second

309

00:14:34,850 --> 00:14:32,160

floor

310

00:14:38,150 --> 00:14:34,860

of this particular house

311

00:14:39,889 --> 00:14:38,160

and uh wow and so your mother had no

312

00:14:42,470 --> 00:14:39,899

idea this was going on

313

00:14:43,910 --> 00:14:42,480

no whatsoever no she says you've never

314

00:14:45,129 --> 00:14:43,920

been you've never been to a doctor like

315

00:14:48,530 --> 00:14:45,139

that

316

00:14:50,210 --> 00:14:48,540

wow and uh do you remember it being far

317

00:14:52,009 --> 00:14:50,220

away from where you were

318

00:14:54,829 --> 00:14:52,019

I don't know if there's any sense of

319

00:14:57,470 --> 00:14:54,839

distance I just do know that at the time

320

00:15:00,949 --> 00:14:57,480

I lived in the town of Petersburg

321

00:15:05,689 --> 00:15:00,959

Virginia which is about 25 miles south

322

00:15:08,329 --> 00:15:05,699

of Richmond Virginia on uh US Route One

323

00:15:10,850 --> 00:15:08,339

and so directly 25 miles south is the

324

00:15:13,970 --> 00:15:10,860

town of Petersburg and at that time they

325

00:15:17,389 --> 00:15:13,980

had uh many Antebellum homes

326

00:15:20,210 --> 00:15:17,399

a homes built after the Civil War and in

327

00:15:22,730 --> 00:15:20,220

the early Victorian early 1900s period

328

00:15:26,030 --> 00:15:22,740

that looked like those types of houses

329

00:15:28,610 --> 00:15:26,040

that I saw and so perhaps it was like a

330

00:15:38,030 --> 00:15:28,620

cover memory for me that I would like

331

00:15:54,110 --> 00:15:42,949

uh wow uh can can you hear me okay yes I

332

00:16:00,050 --> 00:15:57,050

and I would go on um another experience

333

00:16:02,150 --> 00:16:00,060

I had was uh being in a department store

334

00:16:05,030 --> 00:16:02,160

a five and dime as we called them back

335

00:16:07,490 --> 00:16:05,040

then and seen a book that opened up and

336

00:16:09,530 --> 00:16:07,500

on the lower left corner of the book

337

00:16:14,329 --> 00:16:09,540

was a um

338

00:16:16,790 --> 00:16:14,339

diagram or a drawing of two humans that

339

00:16:19,670 --> 00:16:16,800

were like primitive humans like cave

340

00:16:21,710 --> 00:16:19,680

dwelling humans lifting up a baby and

341

00:16:23,629 --> 00:16:21,720

above the baby was assault two saucers

342

00:16:26,030 --> 00:16:23,639

what are them shining a light on the

343

00:16:28,189 --> 00:16:26,040

woman who lifted up this baby and the

344

00:16:29,750 --> 00:16:28,199

message there was that

345

00:16:32,449 --> 00:16:29,760

um

346

00:16:35,269 --> 00:16:32,459

You

347

00:16:36,650 --> 00:16:35,279

this is who you are and I asked my

348

00:16:38,629 --> 00:16:36,660

mother to

349

00:16:41,269 --> 00:16:38,639

um buy the book I went and got her and

350

00:16:43,430 --> 00:16:41,279

it was no more than not even a minute

351  
00:16:45,170 --> 00:16:43,440  
and the book disappeared where I laid it

352  
00:16:48,350 --> 00:16:45,180  
uh laid it down

353  
00:16:50,210 --> 00:16:48,360  
to uh have it purchased so I couldn't

354  
00:17:06,890 --> 00:16:50,220  
find the book at all but I clearly

355  
00:17:10,210 --> 00:17:08,390  
Chad I'm going to come in I think that

356  
00:17:13,069 --> 00:17:10,220  
he has some technical issues uh

357  
00:17:14,630 --> 00:17:13,079  
technical issues I'm just going to read

358  
00:17:16,010 --> 00:17:14,640  
a couple of the questions that are

359  
00:17:18,110 --> 00:17:16,020  
comments that are coming in from the

360  
00:17:19,569 --> 00:17:18,120  
chat room sure

361  
00:17:22,010 --> 00:17:19,579  
um foreign

362  
00:17:23,750 --> 00:17:22,020  
it says here that well you already

363  
00:17:26,750 --> 00:17:23,760

mentioned how old you were when this

364

00:17:28,370 --> 00:17:26,760

happened correct uh I was about six

365

00:17:32,330 --> 00:17:28,380

years old yeah

366

00:17:34,450 --> 00:17:32,340

and someone else mentions I wonder how

367

00:17:37,070 --> 00:17:34,460

this relates to Jacque Valley's control

368

00:17:38,090 --> 00:17:37,080

hypothesis if you have any opinion of

369

00:17:40,909 --> 00:17:38,100

that

370

00:17:42,289 --> 00:17:40,919

I don't know what I I am probably the

371

00:17:45,650 --> 00:17:42,299

worst threat

372

00:17:46,730 --> 00:17:45,660

person in ufology I don't know what that

373

00:17:48,470 --> 00:17:46,740

is

374

00:17:50,690 --> 00:17:48,480

actually

375

00:17:52,789 --> 00:17:50,700

I don't read a lot of uthology books

376

00:17:54,950 --> 00:17:52,799

because for me I experienced the

377

00:17:56,930 --> 00:17:54,960

phenomenon and I don't need to read a

378

00:17:58,490 --> 00:17:56,940

book to explain it to me I know what I

379

00:18:00,169 --> 00:17:58,500

experience so I don't know what that

380

00:18:02,450 --> 00:18:00,179

that means if you could explain it to me

381

00:18:04,250 --> 00:18:02,460

I can respond I'm actually not familiar

382

00:18:06,529 --> 00:18:04,260

it was just a comment that came in but I

383

00:18:09,409 --> 00:18:06,539

do want to ask you because uh a few days

384

00:18:14,990 --> 00:18:09,419

ago they came out with a proposal a

385

00:18:18,529 --> 00:18:15,000

fiscal budget for the UAP underwater uh

386

00:18:20,029 --> 00:18:18,539

and I saw a number of 650 million and

387

00:18:23,210 --> 00:18:20,039

one of the things that caught my

388

00:18:25,789 --> 00:18:23,220

attention in this document is the

389

00:18:28,310 --> 00:18:25,799

protection for whistleblowers that are

390

00:18:31,490 --> 00:18:28,320

possibly working for uh intelligence

391

00:18:33,230 --> 00:18:31,500

agencies or contractors and giving them

392

00:18:36,529 --> 00:18:33,240

I guess more protection of being able to

393

00:18:38,150 --> 00:18:36,539

come forward without retribution from

394

00:18:40,430 --> 00:18:38,160

within the intelligence committee all

395

00:18:42,049 --> 00:18:40,440

contractors have you heard anything are

396

00:18:44,630 --> 00:18:42,059

you familiar with any of that and what

397

00:18:47,150 --> 00:18:44,640

would your opinion be of that I I I'm

398

00:18:50,510 --> 00:18:47,160

not familiar with the Davies budget

399

00:18:53,870 --> 00:18:50,520

requests for UAP research so that's news

400

00:18:56,930 --> 00:18:53,880

to me I can say that the overall

401  
00:18:59,990 --> 00:18:56,940  
intelligence budget that is

402  
00:19:02,029 --> 00:19:00,000  
um from the title 50 side that is the

403  
00:19:03,590 --> 00:19:02,039  
civilian intelligence budget controlled

404  
00:19:04,930 --> 00:19:03,600  
by the office Director of National

405  
00:19:08,150 --> 00:19:04,940  
Intelligence

406  
00:19:10,190 --> 00:19:08,160  
it's unclassified that it's like 90

407  
00:19:13,010 --> 00:19:10,200  
billion dollars

408  
00:19:15,770 --> 00:19:13,020  
and on the military intelligence side

409  
00:19:18,710 --> 00:19:15,780  
it's much less than that it's

410  
00:19:22,310 --> 00:19:18,720  
um well actually I misspoke the entire

411  
00:19:25,490 --> 00:19:22,320  
budget is about 90 billion and about uh

412  
00:19:27,110 --> 00:19:25,500  
60 billion goes to the civilian side and

413  
00:19:29,510 --> 00:19:27,120

30 billion goes to the military side

414

00:19:33,049 --> 00:19:29,520

this isn't the defense budget this is

415

00:19:35,990 --> 00:19:33,059

the defense intelligence budget so out

416

00:19:37,730 --> 00:19:36,000

of that perhaps there is money set aside

417

00:19:39,710 --> 00:19:37,740

for the Navy

418

00:19:41,630 --> 00:19:39,720

um as far as whistle blows go The

419

00:19:43,850 --> 00:19:41,640

Whistleblower protection act has been on

420

00:19:46,070 --> 00:19:43,860

the books for quite some time it's

421

00:19:48,650 --> 00:19:46,080

nothing new what they wanted to do is

422

00:19:51,110 --> 00:19:48,660

enhance the ability for whistleblowers

423

00:19:54,409 --> 00:19:51,120

to come forward so that they can redress

424

00:19:56,570 --> 00:19:54,419

their grievances more effectively and so

425

00:19:59,510 --> 00:19:56,580

they not be ignored so now it sets time

426

00:20:01,250 --> 00:19:59,520

limits that it's not that a

427

00:20:03,710 --> 00:20:01,260

whistleblower can come on

428

00:20:06,110 --> 00:20:03,720

um podcast UFO and spill all the beans

429

00:20:09,289 --> 00:20:06,120

it doesn't allow for that what it does

430

00:20:11,470 --> 00:20:09,299

allow for is that the Whistleblower can

431

00:20:14,150 --> 00:20:11,480

go to his or her own

432

00:20:18,169 --> 00:20:14,160

management and if the management does

433

00:20:20,570 --> 00:20:18,179

not uh address the issue then that

434

00:20:22,909 --> 00:20:20,580

whistleblower can go to the Inspector

435

00:20:23,870 --> 00:20:22,919

General of his or her department or

436

00:20:27,230 --> 00:20:23,880

agency

437

00:20:29,810 --> 00:20:27,240

and if the Inspector General does not

438

00:20:32,090 --> 00:20:29,820

satisfy The Whistleblower in addressing

439

00:20:36,590 --> 00:20:32,100

the grievance then The Whistleblower is

440

00:20:38,930 --> 00:20:36,600

actually free to go directly to Congress

441

00:20:41,510 --> 00:20:38,940

and the directly to Congress didn't

442

00:20:43,789 --> 00:20:41,520

exist before we were prohibited from

443

00:20:45,110 --> 00:20:43,799

contacting members of Congress we would

444

00:20:47,029 --> 00:20:45,120

have to go through the office of

445

00:20:49,370 --> 00:20:47,039

legislative affairs or Congressional

446

00:20:52,730 --> 00:20:49,380

Affairs in each of our respective

447

00:20:54,049 --> 00:20:52,740

agencies and departments but now the

448

00:20:57,770 --> 00:20:54,059

Whistleblower can go straight to

449

00:21:00,350 --> 00:20:57,780

Congress and Report something that

450

00:21:02,690 --> 00:21:00,360

um might deal with not necessarily uaps

451

00:21:05,570 --> 00:21:02,700

but just a waste of money

452

00:21:08,090 --> 00:21:05,580

um corruption you name it that can be

453

00:21:10,789 --> 00:21:08,100

brought up to Congress John I think the

454

00:21:12,169 --> 00:21:10,799

problem is that it's bipartisan I truly

455

00:21:15,529 --> 00:21:12,179

believe there is a bipartisan

456

00:21:18,830 --> 00:21:15,539

Congressional opinion that they want

457

00:21:20,690 --> 00:21:18,840

information from the agencies and the

458

00:21:23,090 --> 00:21:20,700

agencies are reluctant to give them

459

00:21:25,130 --> 00:21:23,100

anything they it seems even classified

460

00:21:27,169 --> 00:21:25,140

in a classified setting it seems like

461

00:21:28,490 --> 00:21:27,179

they're reluctant to give it to anyone

462

00:21:30,590 --> 00:21:28,500

involved with Congress I don't know if

463

00:21:32,270 --> 00:21:30,600

this has to do with leaks

464

00:21:33,169 --> 00:21:32,280

um or looking at them in a certain way

465

00:21:36,710 --> 00:21:33,179

but

466

00:21:38,270 --> 00:21:36,720

this could be an a way for those

467

00:21:40,370 --> 00:21:38,280

individuals like you just mentioned to

468

00:21:41,870 --> 00:21:40,380

approach Congress directly

469

00:21:43,310 --> 00:21:41,880

to come forward because they're not

470

00:21:46,190 --> 00:21:43,320

getting they're not getting the

471

00:21:47,690 --> 00:21:46,200

information that they want from the

472

00:21:50,450 --> 00:21:47,700

agencies

473

00:21:52,970 --> 00:21:50,460

yeah uh The Whistleblower protection act

474

00:21:55,850 --> 00:21:52,980

doesn't necessarily address the NDA

475

00:21:58,190 --> 00:21:55,860

issue that's in a separate part of the

476

00:22:01,850 --> 00:21:58,200

uh intelligence authorization act for

477

00:22:05,510 --> 00:22:01,860

fiscal year 23. it does address the NDA

478

00:22:08,990 --> 00:22:05,520

issue but there is I wouldn't call it a

479

00:22:12,669 --> 00:22:09,000

loophole maybe I should but what it

480

00:22:17,630 --> 00:22:12,679

allows is for people with information

481

00:22:20,510 --> 00:22:17,640

regarding uaps of non-human origin that

482

00:22:24,350 --> 00:22:20,520

those ndas or for lack of a better term

483

00:22:25,850 --> 00:22:24,360

null and void that they're now able to

484

00:22:28,330 --> 00:22:25,860

come forward

485

00:22:33,250 --> 00:22:28,340

with information about

486

00:22:35,750 --> 00:22:33,260

uaps that are truly non-human

487

00:22:38,930 --> 00:22:35,760

non-terrestrial in origin without

488

00:22:40,610 --> 00:22:38,940

retribution and then that aligned with

489

00:22:41,990 --> 00:22:40,620

the Whistleblower protection act that's

490

00:22:45,710 --> 00:22:42,000

like a

491

00:22:48,049 --> 00:22:45,720

little bit more strength for those

492

00:22:49,970 --> 00:22:48,059

individuals I count myself as one of

493

00:22:52,250 --> 00:22:49,980

those individuals I'm sitting on

494

00:22:54,649 --> 00:22:52,260

something that I think people should

495

00:22:58,970 --> 00:22:54,659

know that has nothing to do with

496

00:23:02,529 --> 00:22:58,980

anything the Air Force or any service

497

00:23:05,090 --> 00:23:02,539

of the Department of Defense may have

498

00:23:07,490 --> 00:23:05,100

derived the technology from a UAP and

499

00:23:09,649 --> 00:23:07,500

adapt it for human use it may be

500

00:23:12,470 --> 00:23:09,659

squirreled away in a hangar or under the

501  
00:23:16,250 --> 00:23:12,480  
ground or whatever Under the Sea

502  
00:23:18,950 --> 00:23:16,260  
um it's the legislation still protects

503  
00:23:20,149 --> 00:23:18,960  
those types of vehicles so you're not

504  
00:23:22,130 --> 00:23:20,159  
going to get people coming out and

505  
00:23:24,770 --> 00:23:22,140  
saying oh we have a reproduction vehicle

506  
00:23:26,630 --> 00:23:24,780  
scrolled away in a Mojave Desert that's

507  
00:23:29,330 --> 00:23:26,640  
not going to happen because the law says

508  
00:23:30,470 --> 00:23:29,340  
as it is written that that's still

509  
00:23:34,730 --> 00:23:30,480  
protected

510  
00:23:37,549 --> 00:23:34,740  
of that technology

511  
00:23:39,950 --> 00:23:37,559  
you know where is the original craft

512  
00:23:42,590 --> 00:23:39,960  
and where did you derive that technology

513  
00:23:44,930 --> 00:23:42,600

from that's non-human technology and

514

00:23:48,230 --> 00:23:44,940

that is what uh the legislation

515

00:23:50,270 --> 00:23:48,240

addresses I I still am very speculative

516

00:23:53,810 --> 00:23:50,280

that they would even use the term

517

00:23:55,970 --> 00:23:53,820

extraterrestrial interdimensional right

518

00:23:57,110 --> 00:23:55,980

now it seems everything is adversarial

519

00:23:59,890 --> 00:23:57,120

and they seem to come up with

520

00:24:02,630 --> 00:23:59,900

explanations oh these drones

521

00:24:04,669 --> 00:24:02,640

are you optimistic that they're actually

522

00:24:06,710 --> 00:24:04,679

going to come forward individuals to

523

00:24:09,830 --> 00:24:06,720

claim that they're extraterrestrial in

524

00:24:13,310 --> 00:24:09,840

nature well inside inside these agencies

525

00:24:16,669 --> 00:24:13,320

and departments um uh the fact that they

526

00:24:18,470 --> 00:24:16,679

are of off-world origin or maybe on

527

00:24:20,870 --> 00:24:18,480

world origin they're they're hiding

528

00:24:24,350 --> 00:24:20,880

somewhere uh that's not unusual to

529

00:24:27,649 --> 00:24:24,360

consider uh what you're hearing I

530

00:24:29,090 --> 00:24:27,659

believe what we've heard were

531

00:24:31,909 --> 00:24:29,100

um I wouldn't call them leaks

532

00:24:33,289 --> 00:24:31,919

necessarily I call them

533

00:24:35,810 --> 00:24:33,299

um

534

00:24:36,730 --> 00:24:35,820

I would call them like pre-dissemination

535

00:24:41,090 --> 00:24:36,740

information

536

00:24:45,169 --> 00:24:41,100

uh that uh in order to deflect The

537

00:24:47,510 --> 00:24:45,179

Narrative from the rest of us civilians

538

00:24:50,210 --> 00:24:47,520

I'm no longer have clearances and I'm

539

00:24:53,029 --> 00:24:50,220

longer in CIA so I count myself as a

540

00:24:55,250 --> 00:24:53,039

civilian in order to deflect the

541

00:24:58,130 --> 00:24:55,260

conversation The Narrative that they're

542

00:25:00,529 --> 00:24:58,140

saying these things just to dispel any

543

00:25:04,010 --> 00:25:00,539

excitement any kind of like anticipation

544

00:25:07,909 --> 00:25:04,020

that may that may have accrued over this

545

00:25:09,590 --> 00:25:07,919

upcoming UAP report the second one so

546

00:25:11,210 --> 00:25:09,600

you know just to say yeah most of them

547

00:25:14,630 --> 00:25:11,220

were Chinese drones I think that's

548

00:25:17,570 --> 00:25:14,640

disingenuous of the source perhaps from

549

00:25:20,750 --> 00:25:17,580

within the Pentagon that allow certain

550

00:25:22,909 --> 00:25:20,760

news outlets to hear that information

551

00:25:24,769 --> 00:25:22,919

I think a lot of individuals that are

552

00:25:27,230 --> 00:25:24,779

out there that whether it's civilian or

553

00:25:29,510 --> 00:25:27,240

military or in this the alphabet

554

00:25:30,649 --> 00:25:29,520

agencies they're afraid to come forward

555

00:25:33,110 --> 00:25:30,659

because I'm seeing a lot of the comments

556

00:25:35,350 --> 00:25:33,120

in the chat right now and they're just

557

00:25:38,690 --> 00:25:35,360

in fear of their losing their careers

558

00:25:41,810 --> 00:25:38,700

being threatened yeah I mean if you look

559

00:25:43,130 --> 00:25:41,820

at and I was laughing at when the FAA

560

00:25:45,710 --> 00:25:43,140

said they were going to look at this

561

00:25:47,870 --> 00:25:45,720

people that and I've known pilots in the

562

00:25:49,070 --> 00:25:47,880

past that have told me that they've

563

00:25:51,049 --> 00:25:49,080

witnessed something but they're afraid

564

00:25:53,690 --> 00:25:51,059

to say anything due to their careers and

565

00:25:55,789 --> 00:25:53,700

their jobs because they'll be sent for a

566

00:25:57,230 --> 00:25:55,799

psyche vow immediately right you know

567

00:25:59,269 --> 00:25:57,240

they don't want to risk their career

568

00:26:01,850 --> 00:25:59,279

their livelihoods and what affects their

569

00:26:03,649 --> 00:26:01,860

families it's very difficult for a

570

00:26:04,970 --> 00:26:03,659

person to come forward regardless how

571

00:26:06,710 --> 00:26:04,980

much you protect them because there's

572

00:26:08,690 --> 00:26:06,720

always going to be a way to Target that

573

00:26:11,090 --> 00:26:08,700

person and make life miserable for that

574

00:26:13,190 --> 00:26:11,100

whistleblower right so what needs to

575

00:26:13,789 --> 00:26:13,200

happen I believe is

576

00:26:16,730 --> 00:26:13,799

um

577

00:26:18,890 --> 00:26:16,740

people above my pay grade who have the

578

00:26:20,890 --> 00:26:18,900

information to come forward themselves

579

00:26:24,230 --> 00:26:20,900

and I'm talking about

580

00:26:26,649 --> 00:26:24,240

former secretaries of defense former

581

00:26:31,010 --> 00:26:26,659

directors of these various agencies

582

00:26:32,470 --> 00:26:31,020

that had the UAP portfolio UFO portfolio

583

00:26:35,870 --> 00:26:32,480

from day one

584

00:26:38,990 --> 00:26:35,880

to come forward and

585

00:26:41,690 --> 00:26:39,000

lead the way for everyone else if they

586

00:26:45,529 --> 00:26:41,700

will come forward and said this is what

587

00:26:47,630 --> 00:26:45,539

I know about this phenomenon and do it

588

00:26:51,890 --> 00:26:47,640

under oath before a congressional

589

00:26:55,130 --> 00:26:51,900

committee that serves as the role model

590

00:26:57,649 --> 00:26:55,140

for everyone else if you get a former

591

00:27:00,830 --> 00:26:57,659

director of CIA coming forward under

592

00:27:03,649 --> 00:27:00,840

oath saying I know that these vehicles

593

00:27:05,690 --> 00:27:03,659

are not from this planet I know that

594

00:27:08,390 --> 00:27:05,700

there are non-human intelligences

595

00:27:10,490 --> 00:27:08,400

involved with the presence of these

596

00:27:13,549 --> 00:27:10,500

vehicles and I know that the US

597

00:27:16,010 --> 00:27:13,559

government has had contact with these

598

00:27:17,450 --> 00:27:16,020

non-human intelligences going back to

599

00:27:20,269 --> 00:27:17,460

the 1950s

600

00:27:22,850 --> 00:27:20,279

and saying that under oath I mean that

601  
00:27:26,029 --> 00:27:22,860  
right there is a watershed moment that

602  
00:27:28,730 --> 00:27:26,039  
is a Pandora's Box that needs to happen

603  
00:27:31,070 --> 00:27:28,740  
now whether that will happen

604  
00:27:33,950 --> 00:27:31,080  
my guess as good as your guess I don't

605  
00:27:37,430 --> 00:27:33,960  
know but I'm hoping that that is what

606  
00:27:39,769 --> 00:27:37,440  
would happen because having a gs-15 like

607  
00:27:41,750 --> 00:27:39,779  
me or gg15

608  
00:27:46,250 --> 00:27:41,760  
um the Department of Defense uses GG

609  
00:27:48,409 --> 00:27:46,260  
versus GS gg15 Lou Elizondo or even uh

610  
00:27:51,350 --> 00:27:48,419  
Jim Simi band who was in a senior exec

611  
00:27:53,450 --> 00:27:51,360  
senior intelligence Services uh even at

612  
00:27:55,730 --> 00:27:53,460  
that level you actually need somebody

613  
00:27:58,510 --> 00:27:55,740

who headed an agency headed a department

614

00:28:02,110 --> 00:27:58,520

to do the same because we can be on

615

00:28:04,970 --> 00:28:02,120

podcasts every every minute of the day

616

00:28:07,310 --> 00:28:04,980

forever and you know it doesn't break

617

00:28:09,769 --> 00:28:07,320

the ice really it really doesn't but you

618

00:28:12,409 --> 00:28:09,779

need somebody with that authority to say

619

00:28:15,230 --> 00:28:12,419

so right well let's see if Martin is

620

00:28:18,110 --> 00:28:15,240

back Martin are you back I I am I am

621

00:28:20,570 --> 00:28:18,120

back uh I had them paying my whatever

622

00:28:23,269 --> 00:28:20,580

you call it the router or whatever and

623

00:28:26,269 --> 00:28:23,279

uh I'm just having really low up speed

624

00:28:28,430 --> 00:28:26,279

uh upload speed so I just shut my camera

625

00:28:31,370 --> 00:28:28,440

off uh which is good for you because it

626

00:28:33,289 --> 00:28:31,380

shows your logo Bill all right gentlemen

627

00:28:35,090 --> 00:28:33,299

enjoy it and have a great yeah keep your

628

00:28:37,610 --> 00:28:35,100

keep your ear to this yeah hopefully

629

00:28:40,010 --> 00:28:37,620

I'll be able to stay in so uh I don't

630

00:28:42,049 --> 00:28:40,020

know what I missed John but uh it was

631

00:28:43,610 --> 00:28:42,059

kind of interesting when I came back

632

00:28:47,029 --> 00:28:43,620

thank you Bill

633

00:28:52,190 --> 00:28:47,039

um John I remember you mentioned that

634

00:28:55,250 --> 00:28:52,200

you saw you witnessed on some satellite

635

00:28:59,269 --> 00:28:55,260

um I or or a group of satellites these

636

00:29:01,850 --> 00:28:59,279

orange orbs flying in formation and

637

00:29:04,549 --> 00:29:01,860

right almost like under intelligent

638

00:29:07,610 --> 00:29:04,559

control at some point this was something

639

00:29:09,409 --> 00:29:07,620

that you in in your job because

640

00:29:10,789 --> 00:29:09,419

right I mean this had to do with what

641

00:29:12,769 --> 00:29:10,799

you were doing

642

00:29:17,090 --> 00:29:12,779

yeah there are two parts of the story

643

00:29:19,730 --> 00:29:17,100

one occurred in the 90s uh when uh the

644

00:29:22,669 --> 00:29:19,740

Russian ballistic missile early warning

645

00:29:25,730 --> 00:29:22,679

system detected objects

646

00:29:28,130 --> 00:29:25,740

uh that excited them to the point that

647

00:29:30,590 --> 00:29:28,140

they raised the Readiness of their

648

00:29:33,590 --> 00:29:30,600

strategic rocket forces

649

00:29:35,769 --> 00:29:33,600

and because they raised the Readiness of

650

00:29:39,769 --> 00:29:35,779

these strategic rocket forces naturally

651  
00:29:41,330 --> 00:29:39,779  
that cued us as to a situation where we

652  
00:29:43,430 --> 00:29:41,340  
needed to observe what they were doing

653  
00:29:45,169 --> 00:29:43,440  
because basically they were ready to

654  
00:29:46,430 --> 00:29:45,179  
launch at that point or getting ready to

655  
00:29:49,130 --> 00:29:46,440  
launch not

656  
00:29:52,310 --> 00:29:49,140  
perhaps preparations to launch because

657  
00:29:54,250 --> 00:29:52,320  
of what they saw and their Radars uh the

658  
00:29:56,990 --> 00:29:54,260  
objects they saw

659  
00:29:59,690 --> 00:29:57,000  
were not satellites they ruled out

660  
00:30:01,909 --> 00:29:59,700  
satellites and they eventually ruled out

661  
00:30:04,490 --> 00:30:01,919  
a ballistic missile attack from the

662  
00:30:06,710 --> 00:30:04,500  
United States because they too have

663  
00:30:09,110 --> 00:30:06,720

infrared sensors that watch for launches

664

00:30:11,269 --> 00:30:09,120

from the continental United States from

665

00:30:13,549 --> 00:30:11,279

the oceans of the submarine launch

666

00:30:15,289 --> 00:30:13,559

ballistic missiles and they knew that we

667

00:30:17,990 --> 00:30:15,299

didn't launch anything but yet here

668

00:30:21,889 --> 00:30:18,000

comes a bunch of objects flying in their

669

00:30:25,250 --> 00:30:21,899

space that they could detect and so that

670

00:30:28,029 --> 00:30:25,260

raised their awareness level which then

671

00:30:31,250 --> 00:30:28,039

I was responsible for

672

00:30:33,470 --> 00:30:31,260

writing up a memorandum for the deputy

673

00:30:36,769 --> 00:30:33,480

secretary of defense at the time who was

674

00:30:40,269 --> 00:30:36,779

John Deutsch and so my colleague and I

675

00:30:42,529 --> 00:30:40,279

uh both worked on this and we delivered

676

00:30:45,350 --> 00:30:42,539

I was the principal author and we

677

00:30:47,690 --> 00:30:45,360

delivered the uh memorandum to John

678

00:30:49,310 --> 00:30:47,700

Deutsch's briefer of course these

679

00:30:52,789 --> 00:30:49,320

principles that get briefed every

680

00:30:54,950 --> 00:30:52,799

morning as to what happened uh within

681

00:30:57,409 --> 00:30:54,960

the last 24 hours and they are half an

682

00:30:59,210 --> 00:30:57,419

opportunity to ask questions of the

683

00:31:01,789 --> 00:30:59,220

briefer the brief will come back to the

684

00:31:03,649 --> 00:31:01,799

agency and then cue up the subject

685

00:31:06,110 --> 00:31:03,659

matter experts on whatever the question

686

00:31:07,669 --> 00:31:06,120

might deal with in this case it was the

687

00:31:10,909 --> 00:31:07,679

ballistic missile early warning system

688

00:31:12,769 --> 00:31:10,919

and what they detected and so I was able

689

00:31:15,590 --> 00:31:12,779

to deliver that memorandum to John

690

00:31:17,690 --> 00:31:15,600

Deutsch that was one part the second

691

00:31:22,850 --> 00:31:17,700

part was

692

00:31:25,250 --> 00:31:22,860

um years later uh in the early 2000s we

693

00:31:28,850 --> 00:31:25,260

detected from uh

694

00:31:31,909 --> 00:31:28,860

certain Electro Optical sensors the

695

00:31:35,090 --> 00:31:31,919

presence of these orbs flying over

696

00:31:37,250 --> 00:31:35,100

Russia now at that point

697

00:31:41,510 --> 00:31:37,260

the first thing you do is rule out the

698

00:31:44,389 --> 00:31:41,520

obvious do the Russians have a type of

699

00:31:47,149 --> 00:31:44,399

Aerospace vehicle with the capabilities

700

00:31:51,010 --> 00:31:47,159

that our sensors detected

701  
00:31:55,430 --> 00:31:51,020  
and so what we did my my Branch

702  
00:31:58,010 --> 00:31:55,440  
we were analysts of very Advanced

703  
00:31:59,630 --> 00:31:58,020  
Russian aircraft systems and some of

704  
00:32:03,409 --> 00:31:59,640  
these aircraft systems carried something

705  
00:32:04,789 --> 00:32:03,419  
called plasma stealth generators that

706  
00:32:07,850 --> 00:32:04,799  
could actually

707  
00:32:11,389 --> 00:32:07,860  
create a plasma field around that

708  
00:32:14,330 --> 00:32:11,399  
aircraft as it's flying in order to hide

709  
00:32:17,389 --> 00:32:14,340  
itself from our Radars so they had that

710  
00:32:19,430 --> 00:32:17,399  
technology and so we ruled out that it

711  
00:32:23,029 --> 00:32:19,440  
was plasma stealth generators

712  
00:32:24,289 --> 00:32:23,039  
and uh I would say that you know at that

713  
00:32:25,130 --> 00:32:24,299

point

714

00:32:26,870 --> 00:32:25,140

um

715

00:32:30,350 --> 00:32:26,880

ruling that out

716

00:32:32,210 --> 00:32:30,360

it then went to other agencies to rule

717

00:32:36,710 --> 00:32:32,220

out what they thought it might be

718

00:32:38,990 --> 00:32:36,720

and it was necessary then to convene a

719

00:32:41,870 --> 00:32:39,000

working group of what we call the

720

00:32:44,870 --> 00:32:41,880

interagency working group and for us it

721

00:32:49,250 --> 00:32:44,880

would be like the Big Five Sisters uh

722

00:32:52,130 --> 00:32:49,260

NSA CIA Dia nro NGA National geospatial

723

00:32:55,389 --> 00:32:52,140

Intelligence Authority uh to convene

724

00:32:58,970 --> 00:32:55,399

together along with our contractors

725

00:33:03,430 --> 00:32:58,980

and to meet on this as to determine what

726

00:33:08,330 --> 00:33:06,470

when this happened and you know I do

727

00:33:10,430 --> 00:33:08,340

apologize for the uh issues here not

728

00:33:13,789 --> 00:33:10,440

being able to be up there on camera uh

729

00:33:16,070 --> 00:33:13,799

but when this happened did you uh would

730

00:33:17,870 --> 00:33:16,080

the United States or some uh

731

00:33:19,669 --> 00:33:17,880

organization

732

00:33:23,090 --> 00:33:19,679

um in the that you would contact

733

00:33:26,389 --> 00:33:23,100

actually contact the Russians and say

734

00:33:28,370 --> 00:33:26,399

something like uh we are we have no idea

735

00:33:31,130 --> 00:33:28,380

what these we realize these aren't yours

736

00:33:32,570 --> 00:33:31,140

they they aren't ours uh we have no idea

737

00:33:35,990 --> 00:33:32,580

what they are I mean is there any type

738

00:33:38,149 --> 00:33:36,000

of work like that or is that all just uh

739

00:33:40,610 --> 00:33:38,159

like because of the cold war nobody

740

00:33:44,149 --> 00:33:40,620

talked to anybody well this is after the

741

00:33:46,250 --> 00:33:44,159

Cold War this isn't the Soviet era uh

742

00:33:47,630 --> 00:33:46,260

what I described before in terms of

743

00:33:51,110 --> 00:33:47,640

radars

744

00:33:52,970 --> 00:33:51,120

uh being able to detect these objects uh

745

00:33:54,830 --> 00:33:52,980

that was during the Russian Federation

746

00:33:57,350 --> 00:33:54,840

period of the 90s so the Cold War is

747

00:33:59,990 --> 00:33:57,360

Over yeah and this was also

748

00:34:02,149 --> 00:34:00,000

um in the early 2000s so there was no

749

00:34:04,070 --> 00:34:02,159

cold war and it was over as to answer

750

00:34:05,990 --> 00:34:04,080

your question we do have uh

751  
00:34:08,329 --> 00:34:06,000  
conversations with the Russians of a

752  
00:34:10,669 --> 00:34:08,339  
technical nature particularly because of

753  
00:34:12,470 --> 00:34:10,679  
of treaty monitoring of treaty

754  
00:34:14,450 --> 00:34:12,480  
compliance that when they launched

755  
00:34:16,490 --> 00:34:14,460  
ballistic missiles to test the ballistic

756  
00:34:18,409 --> 00:34:16,500  
missiles they tell us that they're

757  
00:34:20,450 --> 00:34:18,419  
launching ballistic missiles that tell

758  
00:34:22,849 --> 00:34:20,460  
us the time frame and actually gives us

759  
00:34:24,829 --> 00:34:22,859  
a chance to cue up our sensors so that

760  
00:34:27,230 --> 00:34:24,839  
we can collect against those ballistic

761  
00:34:29,750 --> 00:34:27,240  
missiles and we do the same we tell the

762  
00:34:33,649 --> 00:34:29,760  
Russians we're launching a Minute Man 3

763  
00:34:36,530 --> 00:34:33,659

from Vandenberg uh uh base and it's

764

00:34:38,329 --> 00:34:36,540

going to land in kwajalein atoll and so

765

00:34:41,329 --> 00:34:38,339

they are queued up that we are also

766

00:34:45,889 --> 00:34:41,339

conducting tests this is to prevent an

767

00:34:49,250 --> 00:34:45,899

accidental nuclear war so we do that as

768

00:34:52,070 --> 00:34:49,260

far as uaps if it it deals with a sensor

769

00:34:54,070 --> 00:34:52,080

system that is extremely sensitive that

770

00:34:58,490 --> 00:34:54,080

would be used to

771

00:35:00,829 --> 00:34:58,500

monitor the Soviet military advancements

772

00:35:02,089 --> 00:35:00,839

for example we don't want our

773

00:35:04,730 --> 00:35:02,099

adversaries to know what those

774

00:35:05,690 --> 00:35:04,740

capabilities are so I would say we would

775

00:35:10,010 --> 00:35:05,700

not

776

00:35:11,810 --> 00:35:10,020

tell the Russians that we detected uaps

777

00:35:15,589 --> 00:35:11,820

over your territory

778

00:35:17,630 --> 00:35:15,599

but having said that it's no secret it's

779

00:35:20,390 --> 00:35:17,640

not classified that there are things

780

00:35:22,370 --> 00:35:20,400

known as agents and these are foreign

781

00:35:24,290 --> 00:35:22,380

citizens

782

00:35:26,390 --> 00:35:24,300

who we hire

783

00:35:28,930 --> 00:35:26,400

in order to spy against their own

784

00:35:32,630 --> 00:35:28,940

government that is what a true agent is

785

00:35:35,390 --> 00:35:32,640

and so assuming that there are agents in

786

00:35:37,970 --> 00:35:35,400

our employee uh sometimes they tell us

787

00:35:41,030 --> 00:35:37,980

what their leadership is concerned about

788

00:35:42,349 --> 00:35:41,040

and that's how we know uh that you know

789

00:35:44,210 --> 00:35:42,359

they are concerned that they have

790

00:35:46,490 --> 00:35:44,220

detected it so there's no need for us to

791

00:35:48,890 --> 00:35:46,500

tell them what they already know

792

00:35:51,770 --> 00:35:48,900

and so through other means of collecting

793

00:35:55,069 --> 00:35:51,780

uh intelligence we know that there is a

794

00:35:58,670 --> 00:35:55,079

heightened interest in uaps in Russia

795

00:36:00,470 --> 00:35:58,680

and of course uh uh George Knapp uh went

796

00:36:01,609 --> 00:36:00,480

over there and gathered a lot of

797

00:36:03,349 --> 00:36:01,619

documents

798

00:36:05,329 --> 00:36:03,359

I think what are they called threat

799

00:36:07,849 --> 00:36:05,339

three documents I I don't know the

800

00:36:09,829 --> 00:36:07,859

correct nomenclature but these documents

801  
00:36:12,109 --> 00:36:09,839  
show that there was an interest and the

802  
00:36:14,630 --> 00:36:12,119  
entire subject back during the Soviet

803  
00:36:16,130 --> 00:36:14,640  
era and so

804  
00:36:17,930 --> 00:36:16,140  
that's the best answer I could give you

805  
00:36:21,130 --> 00:36:17,940  
I mean I don't think we needed to tell

806  
00:36:22,730 --> 00:36:21,140  
them what they already knew

807  
00:36:25,130 --> 00:36:22,740  
wow

808  
00:36:29,569 --> 00:36:25,140  
um so I'm sure since you left

809  
00:36:31,670 --> 00:36:29,579  
um which was in 2009 I'm not sure but I

810  
00:36:34,670 --> 00:36:31,680  
would guess that there'd be a lot more

811  
00:36:36,410 --> 00:36:34,680  
of these type of things detected

812  
00:36:38,810 --> 00:36:36,420  
I mean you have no way of knowing this

813  
00:36:41,810 --> 00:36:38,820

right I I have no way of knowing it um

814

00:36:43,849 --> 00:36:41,820

what I know is what uh was released in

815

00:36:46,010 --> 00:36:43,859

the preliminary assessment the

816

00:36:48,950 --> 00:36:46,020

unclassified preliminary assessment that

817

00:36:52,130 --> 00:36:48,960

was actually put together in a hurry uh

818

00:36:54,230 --> 00:36:52,140

for public consumption uh that's why I

819

00:36:56,150 --> 00:36:54,240

was so poorly written in my opinion uh

820

00:36:58,130 --> 00:36:56,160

CI officer did not write that because we

821

00:37:00,770 --> 00:36:58,140

wouldn't write that poorly

822

00:37:02,569 --> 00:37:00,780

um it's just a little

823

00:37:03,589 --> 00:37:02,579

A little dab at the Department of

824

00:37:05,230 --> 00:37:03,599

Defense

825

00:37:08,210 --> 00:37:05,240

um but uh

826

00:37:10,190 --> 00:37:08,220

there were like 144

827

00:37:12,710 --> 00:37:10,200

objects

828

00:37:14,630 --> 00:37:12,720

under study by the UAP task force of

829

00:37:16,730 --> 00:37:14,640

which one was a balloon and three of

830

00:37:19,550 --> 00:37:16,740

them must have been Tic Tac go fast and

831

00:37:22,430 --> 00:37:19,560

gimbal so that leaves 140 unknowns and

832

00:37:23,870 --> 00:37:22,440

they did have the other category and I

833

00:37:26,690 --> 00:37:23,880

don't know what's in the other category

834

00:37:30,349 --> 00:37:26,700

but obviously there's been a lot more

835

00:37:32,630 --> 00:37:30,359

detection of these uh objects uh in

836

00:37:35,030 --> 00:37:32,640

recent years and I I would think that

837

00:37:37,550 --> 00:37:35,040

there have been more detections all the

838

00:37:40,790 --> 00:37:37,560

time it's just that in the 90s we

839

00:37:43,190 --> 00:37:40,800

finally had the uh technical means to

840

00:37:45,530 --> 00:37:43,200

actually do something called uh

841

00:37:52,970 --> 00:37:45,540

multi-spectral

842

00:37:55,250 --> 00:37:52,980

that saw four color bands of ir now you

843

00:37:57,410 --> 00:37:55,260

have hyperspectral as eight or more and

844

00:37:59,210 --> 00:37:57,420

because we improved our sensor

845

00:38:01,490 --> 00:37:59,220

capabilities

846

00:38:04,190 --> 00:38:01,500

um then we were able to more accurately

847

00:38:05,510 --> 00:38:04,200

discern what was in our our space

848

00:38:10,250 --> 00:38:05,520

and

849

00:38:12,589 --> 00:38:10,260

these objects these orbs that were not

850

00:38:16,310 --> 00:38:12,599

like metallic saucers

851  
00:38:18,349 --> 00:38:16,320  
now you would say okay uh why why were

852  
00:38:21,170 --> 00:38:18,359  
they interested in orbs right because

853  
00:38:23,270 --> 00:38:21,180  
maybe we have vehicles that were

854  
00:38:25,490 --> 00:38:23,280  
exploited hidden in some Hangar

855  
00:38:27,589 --> 00:38:25,500  
somewhere in the desert so why would the

856  
00:38:29,870 --> 00:38:27,599  
ores be such a big deal right but it's a

857  
00:38:32,270 --> 00:38:29,880  
big deal because it's exactly what we

858  
00:38:36,349 --> 00:38:32,280  
did have you know let's say we did have

859  
00:38:38,450 --> 00:38:36,359  
uh other craft that was uh a metallic

860  
00:38:41,450 --> 00:38:38,460  
type of craft a structured metallic

861  
00:38:43,910 --> 00:38:41,460  
craft perhaps it uses some exotic

862  
00:38:46,430 --> 00:38:43,920  
propulsion technology or whatever but

863  
00:38:49,190 --> 00:38:46,440

maybe that's what we knew about okay but

864

00:38:51,349 --> 00:38:49,200

when these orbs showed up uh it

865

00:38:54,349 --> 00:38:51,359

completely threw everyone for a loop

866

00:38:56,930 --> 00:38:54,359

because these weren't the saucers or the

867

00:38:59,030 --> 00:38:56,940

triangles or you name the shape that we

868

00:39:01,010 --> 00:38:59,040

knew about all of a sudden there's these

869

00:39:03,290 --> 00:39:01,020

energy orbs and why are they here why

870

00:39:06,530 --> 00:39:03,300

are we detecting them and why are they

871

00:39:10,490 --> 00:39:06,540

flying to use uh the lack of a better

872

00:39:12,290 --> 00:39:10,500

term fly uh in space in our skies in

873

00:39:14,630 --> 00:39:12,300

some type of controlled fashion what is

874

00:39:16,790 --> 00:39:14,640

that all all about that's what started

875

00:39:18,950 --> 00:39:16,800

the interest and the orbs and eventually

876

00:39:21,290 --> 00:39:18,960

culminated in the working group that

877

00:39:23,690 --> 00:39:21,300

then ensued that when their job was

878

00:39:26,390 --> 00:39:23,700

finished that's title 50 the civilian

879

00:39:30,050 --> 00:39:26,400

side of the intelligence Community title

880

00:39:31,790 --> 00:39:30,060

50 title 10 as Lou would tell you is the

881

00:39:36,170 --> 00:39:31,800

Department of Defense uniform services

882

00:39:38,690 --> 00:39:36,180

side and then title 10 was all sap

883

00:39:41,750 --> 00:39:38,700

that went over to alsap and they they

884

00:39:43,730 --> 00:39:41,760

expanded their UFO study in terms of

885

00:39:47,510 --> 00:39:43,740

what the Department of Defense really

886

00:39:51,530 --> 00:39:47,520

understands and that is threats

887

00:39:55,790 --> 00:39:51,540

threats to our war Fighters and also

888

00:39:58,430 --> 00:39:55,800

weapons that may be arrayed against our

889

00:40:01,310 --> 00:39:58,440

war Fighters so you know the W and all

890

00:40:03,890 --> 00:40:01,320

set stands for weapon and the T and A

891

00:40:05,450 --> 00:40:03,900

Tip stands for threat and that's how the

892

00:40:08,390 --> 00:40:05,460

Department of Defense approaches things

893

00:40:10,609 --> 00:40:08,400

about on the civilian side we just

894

00:40:14,150 --> 00:40:10,619

wanted to know what the hell were they

895

00:40:17,450 --> 00:40:14,160

how do they work and why are they here

896

00:40:19,670 --> 00:40:17,460

um and and that's the focus of what the

897

00:40:21,710 --> 00:40:19,680

orb working group did and that

898

00:40:25,670 --> 00:40:21,720

information was then I believe tossed

899

00:40:28,670 --> 00:40:25,680

over uh to OSAP I I can't believe that

900

00:40:30,230 --> 00:40:28,680

allsap and James lacaski did not know

901  
00:40:31,310 --> 00:40:30,240  
about that orb working group that

902  
00:40:35,450 --> 00:40:31,320  
proceeded

903  
00:40:37,430 --> 00:40:35,460  
his alsap just by a few years that must

904  
00:40:40,130 --> 00:40:37,440  
have been in the body of knowledge that

905  
00:40:42,230 --> 00:40:40,140  
allsapp was able to access

906  
00:40:43,670 --> 00:40:42,240  
why do you think there that that's

907  
00:40:45,470 --> 00:40:43,680  
really fascinating why do you think

908  
00:40:47,390 --> 00:40:45,480  
there's more

909  
00:40:49,430 --> 00:40:47,400  
um it seems to me

910  
00:40:52,450 --> 00:40:49,440  
as far as we know there's more

911  
00:40:56,329 --> 00:40:52,460  
encounters when it comes to the Navy

912  
00:40:58,250 --> 00:40:56,339  
than there is with the Air Force

913  
00:41:01,609 --> 00:40:58,260

um unless I'm getting that wrong I

914

00:41:04,430 --> 00:41:01,619

believe that's that's what we know about

915

00:41:05,530 --> 00:41:04,440

well let's go back in history let's go

916

00:41:10,550 --> 00:41:05,540

back to

917

00:41:12,170 --> 00:41:10,560

1946 January 1st 1946 uh Truman

918

00:41:14,569 --> 00:41:12,180

established the National Intelligence

919

00:41:18,410 --> 00:41:14,579

Authority under which was established

920

00:41:21,190 --> 00:41:18,420

the Central Intelligence group cig and

921

00:41:23,450 --> 00:41:21,200

at that time the oldest intelligence

922

00:41:26,450 --> 00:41:23,460

organization in the US government was

923

00:41:28,069 --> 00:41:26,460

the Office of Naval intelligence and now

924

00:41:31,490 --> 00:41:28,079

we have the newcomers the Central

925

00:41:33,410 --> 00:41:31,500

Intelligence group and then there was no

926  
00:41:35,810 --> 00:41:33,420  
Department of Defense there was no air

927  
00:41:38,990 --> 00:41:35,820  
force it was the department of the army

928  
00:41:41,870 --> 00:41:39,000  
and they had something called the G2

929  
00:41:44,569 --> 00:41:41,880  
which was their intelligence person a a

930  
00:41:47,390 --> 00:41:44,579  
very senior General and so when uh

931  
00:41:50,870 --> 00:41:47,400  
Roswell happened you had the Navy

932  
00:41:54,109 --> 00:41:50,880  
uh the cig which became the CIA and at

933  
00:41:57,050 --> 00:41:54,119  
that time uh Department of war was in

934  
00:41:59,270 --> 00:41:57,060  
some amorphous State because the defense

935  
00:42:00,950 --> 00:41:59,280  
department didn't get established until

936  
00:42:05,750 --> 00:42:00,960  
1949.

937  
00:42:08,030 --> 00:42:05,760  
in 1947 uh when uh the National Security

938  
00:42:11,210 --> 00:42:08,040

Act was signed it was called the

939

00:42:14,810 --> 00:42:11,220

National military establishment so the

940

00:42:17,630 --> 00:42:14,820

real intelligence outfits were cig with

941

00:42:19,069 --> 00:42:17,640

its lineage to OSS and you had the

942

00:42:20,329 --> 00:42:19,079

Office of Naval intelligence working

943

00:42:21,829 --> 00:42:20,339

together

944

00:42:25,430 --> 00:42:21,839

and so that's why the Navy's been

945

00:42:28,550 --> 00:42:25,440

involved from the get-go uh as we

946

00:42:31,430 --> 00:42:28,560

proceed forward it became known that

947

00:42:34,010 --> 00:42:31,440

some of these craft these structured

948

00:42:36,290 --> 00:42:34,020

metallic craft had undersea capabilities

949

00:42:40,609 --> 00:42:36,300

and that they were being detected Under

950

00:42:42,770 --> 00:42:40,619

the Sea now okay why is that well does

951  
00:42:46,670 --> 00:42:42,780  
the Air Force have

952  
00:42:49,010 --> 00:42:46,680  
nuclear weapons in 1947 yes they did but

953  
00:42:52,790 --> 00:42:49,020  
it was the department of Army's gravity

954  
00:42:56,329 --> 00:42:52,800  
gravity drop atomic bombs

955  
00:42:59,950 --> 00:42:56,339  
um in the 1950s before we built uh

956  
00:43:02,089 --> 00:42:59,960  
ballistic missiles uh we we also had

957  
00:43:03,530 --> 00:43:02,099  
nuclear-powered ships that we also had

958  
00:43:05,690 --> 00:43:03,540  
uh

959  
00:43:08,030 --> 00:43:05,700  
nuclear-powered submarines and we also

960  
00:43:11,450 --> 00:43:08,040  
had ballistic missiles along with the

961  
00:43:13,849 --> 00:43:11,460  
Air Forces uh early ballistic missiles

962  
00:43:15,290 --> 00:43:13,859  
carrying nuclear warheads but the Navy

963  
00:43:17,150 --> 00:43:15,300

has been there from the very beginning

964

00:43:19,550 --> 00:43:17,160  
because of their history with the

965

00:43:22,130 --> 00:43:19,560  
phenomenon as structured craft under the

966

00:43:24,230 --> 00:43:22,140  
sea and the fact that you know I mean

967

00:43:26,630 --> 00:43:24,240  
Chi whiz uh

968

00:43:30,170 --> 00:43:26,640  
the these these aircraft carriers and

969

00:43:32,630 --> 00:43:30,180  
these ships are capable of

970

00:43:34,910 --> 00:43:32,640  
carrying nuclear weapons I have to be

971

00:43:38,329 --> 00:43:34,920  
very careful the Navy likes for me to

972

00:43:39,950 --> 00:43:38,339  
say capable of not that they are

973

00:43:41,809 --> 00:43:39,960  
um but you know these cruise missiles

974

00:43:44,210 --> 00:43:41,819  
that are launched uh they could easily

975

00:43:45,109 --> 00:43:44,220  
have a nuclear warhead in a strategic

976  
00:43:47,089 --> 00:43:45,119  
mode

977  
00:43:49,430 --> 00:43:47,099  
but usually what you see is the Tactical

978  
00:43:52,250 --> 00:43:49,440  
Warheads so the Navy has a lot of

979  
00:43:53,750 --> 00:43:52,260  
nuclear capability and that's why there

980  
00:43:55,849 --> 00:43:53,760  
might be interested in what's under the

981  
00:43:58,790 --> 00:43:55,859  
sea and that's why maybe submarines are

982  
00:44:00,829 --> 00:43:58,800  
able to detect them under the sea what

983  
00:44:04,190 --> 00:44:00,839  
we hear from the Air Force a craft like

984  
00:44:06,470 --> 00:44:04,200  
that hovered over a maelstrom on March

985  
00:44:08,390 --> 00:44:06,480  
16 1967.

986  
00:44:10,670 --> 00:44:08,400  
that hovered over Maelstrom and so

987  
00:44:13,309 --> 00:44:10,680  
because of again there was a nuclear

988  
00:44:16,250 --> 00:44:13,319

## Minuteman 2 missiles

989

00:44:18,290 --> 00:44:16,260

uh in those two launch control centers

990

00:44:20,030 --> 00:44:18,300

so I think that's the reason why the

991

00:44:22,390 --> 00:44:20,040

Navy has been involved in it it's just

992

00:44:25,849 --> 00:44:22,400

that the ocean is an easy place to hide

993

00:44:27,470 --> 00:44:25,859

we haven't mapped a lot of it and if you

994

00:44:29,750 --> 00:44:27,480

want to hide something I would put it in

995

00:44:31,490 --> 00:44:29,760

the ocean and if these non-human

996

00:44:34,069 --> 00:44:31,500

intelligence beings would want to hide

997

00:44:38,030 --> 00:44:34,079

from us I would go under the water

998

00:44:40,130 --> 00:44:38,040

yeah it is pretty amazing when you hear

999

00:44:42,829 --> 00:44:40,140

about what they call them fast Walkers

1000

00:44:44,870 --> 00:44:42,839

or fast movers or whatever they are uh

1001  
00:44:47,930 --> 00:44:44,880  
the capabilities of whatever it is that

1002  
00:44:51,530 --> 00:44:47,940  
they've caught on radar sometimes uh you

1003  
00:44:53,569 --> 00:44:51,540  
know 200 knots which is crazy to think

1004  
00:44:56,450 --> 00:44:53,579  
about the displacement how they could

1005  
00:44:59,630 --> 00:44:56,460  
move that fast and uh but you know I

1006  
00:45:02,410 --> 00:44:59,640  
mean as you mentioned Lou Elizondo a few

1007  
00:45:06,370 --> 00:45:02,420  
times as he talks about the

1008  
00:45:09,349 --> 00:45:06,380  
intermedia travel uh it just seems

1009  
00:45:12,230 --> 00:45:09,359  
bizarre that there's no Sonic booms

1010  
00:45:14,210 --> 00:45:12,240  
there's no uh you know there's no like

1011  
00:45:16,130 --> 00:45:14,220  
splashes people don't talk about

1012  
00:45:19,250 --> 00:45:16,140  
splashes and things like that I mean it

1013  
00:45:22,250 --> 00:45:19,260

or uh the movement underwater is just at

1014

00:45:24,050 --> 00:45:22,260

crazy speeds it's really quite amazing I

1015

00:45:26,630 --> 00:45:24,060

know I know there are Torpedoes that can

1016

00:45:28,790 --> 00:45:26,640

go that fast under the water and in fact

1017

00:45:31,370 --> 00:45:28,800

they actually repel some of the water

1018

00:45:34,370 --> 00:45:31,380

ahead of the torpedo which is why they

1019

00:45:36,589 --> 00:45:34,380

can like basically fly under the water

1020

00:45:38,809 --> 00:45:36,599

uh they're flying in air under the water

1021

00:45:41,690 --> 00:45:38,819

because of the repelling factor in front

1022

00:45:45,109 --> 00:45:41,700

of the torpedo so 200 knot Torpedoes not

1023

00:45:47,870 --> 00:45:45,119

science fiction there are there are ASW

1024

00:45:50,690 --> 00:45:47,880

or anti-submarine Warfare weapons that

1025

00:45:53,270 --> 00:45:50,700

can go that fast under the water oh how

1026  
00:45:56,030 --> 00:45:53,280  
about that and have how long have those

1027  
00:45:58,849 --> 00:45:56,040  
been known to exist

1028  
00:46:01,670 --> 00:45:58,859  
uh that's the Fairly old technology I

1029  
00:46:04,190 --> 00:46:01,680  
mean I believe me it takes it takes a

1030  
00:46:05,870 --> 00:46:04,200  
long time to bring a weapon system into

1031  
00:46:08,569 --> 00:46:05,880  
what we call Initial operating

1032  
00:46:11,750 --> 00:46:08,579  
capability or ioc it takes like

1033  
00:46:14,450 --> 00:46:11,760  
sometimes decades to work on a weapon

1034  
00:46:17,450 --> 00:46:14,460  
system by the time it goes to ioc uh

1035  
00:46:18,710 --> 00:46:17,460  
it's almost like ready to be replaced uh

1036  
00:46:20,270 --> 00:46:18,720  
with another weapon that will take

1037  
00:46:23,809 --> 00:46:20,280  
another 10 years

1038  
00:46:25,849 --> 00:46:23,819

um you know that that ASW capability has

1039

00:46:29,089 --> 00:46:25,859

been around for a long time as well as

1040

00:46:32,829 --> 00:46:29,099

uh I would address this uh non-acoustic

1041

00:46:35,990 --> 00:46:32,839

ASW detection that is non-sonar

1042

00:46:38,030 --> 00:46:36,000

anti-submarine Warfare detection and so

1043

00:46:40,609 --> 00:46:38,040

that's an area that the Navy considers

1044

00:46:43,069 --> 00:46:40,619

to be extremely sensitive and I can't

1045

00:46:45,950 --> 00:46:43,079

address it other than to say that there

1046

00:46:49,010 --> 00:46:45,960

are ways to detect objects under the

1047

00:46:50,270 --> 00:46:49,020

ocean without the use of sonar and I'll

1048

00:46:52,370 --> 00:46:50,280

leave it at that

1049

00:46:54,530 --> 00:46:52,380

and so if you're wondering how the Navy

1050

00:46:57,050 --> 00:46:54,540

can find these things or maybe if the

1051  
00:46:59,150 --> 00:46:57,060  
Navy detected these things uh that's

1052  
00:47:02,270 --> 00:46:59,160  
non-acoustic ASW and that's something

1053  
00:47:05,329 --> 00:47:02,280  
that I say Wikipedia is your friend just

1054  
00:47:06,710 --> 00:47:05,339  
Wiki non-acoustic ASW and you can read

1055  
00:47:08,270 --> 00:47:06,720  
all about it

1056  
00:47:11,210 --> 00:47:08,280  
I wonder if anyone ever puts up

1057  
00:47:14,150 --> 00:47:11,220  
classified stuff up there anonymously

1058  
00:47:16,790 --> 00:47:14,160  
they do I've read what I would think

1059  
00:47:19,250 --> 00:47:16,800  
that needed to be portion marked at

1060  
00:47:21,589 --> 00:47:19,260  
least confidential Secret in some of

1061  
00:47:23,750 --> 00:47:21,599  
these Wikipedia articles

1062  
00:47:26,870 --> 00:47:23,760  
yeah because you you can kind of remain

1063  
00:47:29,210 --> 00:47:26,880

anonymous when you're posting things in

1064

00:47:32,089 --> 00:47:29,220

a roundabout way I imagine

1065

00:47:33,650 --> 00:47:32,099

so yeah that uh they but they could

1066

00:47:35,569 --> 00:47:33,660

probably the government I'm sure could

1067

00:47:37,190 --> 00:47:35,579

figure it out if they wanted to track

1068

00:47:39,050 --> 00:47:37,200

someone down here's an interesting

1069

00:47:41,690 --> 00:47:39,060

question if you were released from all

1070

00:47:43,550 --> 00:47:41,700

ndas do you have information you are

1071

00:47:45,230 --> 00:47:43,560

currently unable to share that you

1072

00:47:48,290 --> 00:47:45,240

believe would radically change the

1073

00:47:52,069 --> 00:47:48,300

general population skepticism of the UAP

1074

00:47:54,050 --> 00:47:52,079

UFO phenomena uh without saying what

1075

00:47:56,750 --> 00:47:54,060

that might be my answer is yes

1076  
00:47:59,630 --> 00:47:56,760  
as I said before I I do know something

1077  
00:48:01,309 --> 00:47:59,640  
that I did share uh with people

1078  
00:48:03,349 --> 00:48:01,319  
authorized to receive that information

1079  
00:48:05,450 --> 00:48:03,359  
in a secure location

1080  
00:48:07,069 --> 00:48:05,460  
and they concurred that they also know

1081  
00:48:09,050 --> 00:48:07,079  
this information as well so I wasn't

1082  
00:48:13,490 --> 00:48:09,060  
telling them anything new what that

1083  
00:48:19,490 --> 00:48:17,270  
but it would change I sort of got this

1084  
00:48:21,470 --> 00:48:19,500  
I sort of got the same answer or a

1085  
00:48:23,390 --> 00:48:21,480  
similar answer from Lu Elizondo when I

1086  
00:48:27,109 --> 00:48:23,400  
asked I asked him that question

1087  
00:48:29,150 --> 00:48:27,119  
so yeah and it's kind of like we really

1088  
00:48:30,650 --> 00:48:29,160

would love to know but I I totally

1089

00:48:33,770 --> 00:48:30,660

understand how much trouble you would

1090

00:48:37,250 --> 00:48:33,780

get in and also uh he would get in and

1091

00:48:39,410 --> 00:48:37,260

uh you know so you just have to you have

1092

00:48:41,329 --> 00:48:39,420

to think about all that before you you

1093

00:48:42,650 --> 00:48:41,339

know you don't want to end up in jail I

1094

00:48:44,089 --> 00:48:42,660

don't know what I don't know what the

1095

00:48:47,390 --> 00:48:44,099

penalties are

1096

00:48:48,410 --> 00:48:47,400

if you disclose something you lose your

1097

00:48:51,410 --> 00:48:48,420

pension

1098

00:48:54,230 --> 00:48:51,420

well uh what it would be is a all

1099

00:48:56,170 --> 00:48:54,240

expense paid vacation to the Allen wood

1100

00:48:59,210 --> 00:48:56,180

Federal correction unit in Pennsylvania

1101

00:49:01,309 --> 00:48:59,220

and I don't want to go there

1102

00:49:04,490 --> 00:49:01,319

so that's what it would be and it'll

1103

00:49:06,530 --> 00:49:04,500

probably be for 20 years oh isn't that

1104

00:49:09,349 --> 00:49:06,540

something wow

1105

00:49:12,170 --> 00:49:09,359

uh let's see uh here's another question

1106

00:49:14,150 --> 00:49:12,180

by the same person did the orbs have a

1107

00:49:15,890 --> 00:49:14,160

defiant spherical surface or were they

1108

00:49:18,609 --> 00:49:15,900

just bright objects

1109

00:49:20,930 --> 00:49:18,619

uh I would say that they were spherical

1110

00:49:24,470 --> 00:49:20,940

uh whether there's something solid

1111

00:49:27,589 --> 00:49:24,480

underneath the 600 nanometer light

1112

00:49:29,210 --> 00:49:27,599

around it that was shining from it uh I

1113

00:49:31,730 --> 00:49:29,220

don't know I don't know if we were able

1114

00:49:35,390 --> 00:49:31,740

to discern anything solid I would say

1115

00:49:39,109 --> 00:49:35,400

that it was a circular spherical objects

1116

00:49:42,410 --> 00:49:39,119

uh and the the they were able to measure

1117

00:49:43,370 --> 00:49:42,420

the radiance the how bright it was

1118

00:49:45,710 --> 00:49:43,380

um

1119

00:49:47,930 --> 00:49:45,720

and they were able to measure where in

1120

00:49:50,329 --> 00:49:47,940

the color spectrum where in the electro

1121

00:49:53,390 --> 00:49:50,339

Optical Spectrum it fell it was 600

1122

00:49:55,370 --> 00:49:53,400

nanometers which is uh orange red

1123

00:49:57,650 --> 00:49:55,380

so are you you're basically answering

1124

00:49:59,390 --> 00:49:57,660

this question how does an orb show up on

1125

00:50:01,550 --> 00:49:59,400

instruments or visually differently from

1126

00:50:04,069 --> 00:50:01,560

say a metallic use more or less just

1127

00:50:05,809 --> 00:50:04,079

answered that question right yeah the

1128

00:50:09,109 --> 00:50:05,819

metallic sphere would reflect uh

1129

00:50:11,270 --> 00:50:09,119

electromagnetic energy uh Radar Radar uh

1130

00:50:13,970 --> 00:50:11,280

wave waveforms

1131

00:50:15,890 --> 00:50:13,980

so you know you shine uh you paint it as

1132

00:50:18,050 --> 00:50:15,900

we say we paint the object with a radar

1133

00:50:21,170 --> 00:50:18,060

beam and you might get some reflection

1134

00:50:22,430 --> 00:50:21,180

back from it so that's how you know that

1135

00:50:24,950 --> 00:50:22,440

there's something metallic something

1136

00:50:27,470 --> 00:50:24,960

that is able to reflect electromagnetic

1137

00:50:29,690 --> 00:50:27,480

energy having said that that sometimes

1138

00:50:31,490 --> 00:50:29,700

if you have a plasma feel around that

1139

00:50:34,670 --> 00:50:31,500

type of object you will not get that

1140

00:50:36,829 --> 00:50:34,680

deflection back a reflection back

1141

00:50:38,630 --> 00:50:36,839

um in a way that you can see it but you

1142

00:50:40,730 --> 00:50:38,640

won't be able to like track it with

1143

00:50:43,210 --> 00:50:40,740

radar there are ways to track these

1144

00:50:46,430 --> 00:50:43,220

things using passive coherent location

1145

00:50:48,170 --> 00:50:46,440

PCL that's another thing that Wikipedia

1146

00:50:50,690 --> 00:50:48,180

is your friend uh you can look at

1147

00:50:54,890 --> 00:50:50,700

passive coherent location or passive

1148

00:50:58,069 --> 00:50:54,900

radar where uh I'm of the age that I

1149

00:51:00,710 --> 00:50:58,079

remember with our uh TVs with the

1150

00:51:03,710 --> 00:51:00,720

antenna on the roof uh that every time a

1151  
00:51:05,870 --> 00:51:03,720  
plane would fly over our town that the

1152  
00:51:08,329 --> 00:51:05,880  
TV would go all wonky for a while and

1153  
00:51:10,970 --> 00:51:08,339  
that's known as multi-path that plane

1154  
00:51:13,549 --> 00:51:10,980  
was reflecting the TV signal not only

1155  
00:51:15,349 --> 00:51:13,559  
the TV signal coming from directly from

1156  
00:51:17,390 --> 00:51:15,359  
the transmitter antenna of the station

1157  
00:51:20,990 --> 00:51:17,400  
but the single reflected off of that

1158  
00:51:22,910 --> 00:51:21,000  
plane back to uh our antenna on the roof

1159  
00:51:25,609 --> 00:51:22,920  
and so if you have a lot of these

1160  
00:51:28,370 --> 00:51:25,619  
receivers with these antennas if you

1161  
00:51:30,650 --> 00:51:28,380  
have something flying through that field

1162  
00:51:33,049 --> 00:51:30,660  
of energy you should get some

1163  
00:51:35,770 --> 00:51:33,059

Reflections back and the more receivers

1164

00:51:39,470 --> 00:51:35,780

you have you ever able then triangulate

1165

00:51:43,010 --> 00:51:39,480

and locate and track where that object

1166

00:51:46,010 --> 00:51:43,020

might be going and so uh that was

1167

00:51:48,950 --> 00:51:46,020

something of interest to our good friend

1168

00:51:51,950 --> 00:51:48,960

Dr Ronald s pandolfi

1169

00:51:55,849 --> 00:51:51,960

um he was working with Lockheed Martin

1170

00:51:58,250 --> 00:51:55,859

on a project called Silent Sentry to do

1171

00:52:01,309 --> 00:51:58,260

just that to use non-cooperative

1172

00:52:03,049 --> 00:52:01,319

emitters to be able to track stealthy

1173

00:52:05,569 --> 00:52:03,059

Airborne objects

1174

00:52:07,970 --> 00:52:05,579

and to be able to triangulate and

1175

00:52:11,569 --> 00:52:07,980

correlate that so you can have a pretty

1176  
00:52:14,270 --> 00:52:11,579  
good track of where that object might be

1177  
00:52:16,190 --> 00:52:14,280  
and then you can then by doing that you

1178  
00:52:17,150 --> 00:52:16,200  
can apply other sensors toward that

1179  
00:52:20,390 --> 00:52:17,160  
object

1180  
00:52:22,549 --> 00:52:20,400  
to redefine it a little bit better and

1181  
00:52:25,069 --> 00:52:22,559  
that is the context that I met Dr

1182  
00:52:28,250 --> 00:52:25,079  
pandolfi at a meeting at the defense

1183  
00:52:32,270 --> 00:52:28,260  
intelligence agency uh the it's called

1184  
00:52:35,150 --> 00:52:32,280  
Dia uh d as in delta T as in Tangled DT

1185  
00:52:38,510 --> 00:52:35,160  
that's the Science and Technology side

1186  
00:52:39,890 --> 00:52:38,520  
of the DIA and they they do mazzant

1187  
00:52:42,349 --> 00:52:39,900  
something known as measurement and

1188  
00:52:45,049 --> 00:52:42,359

signature intelligence and that whole

1189

00:52:47,510 --> 00:52:45,059

field is is considered a sub-discipline

1190

00:52:49,609 --> 00:52:47,520

of mazzant and that was his uh interest

1191

00:52:51,470 --> 00:52:49,619

when I when I met him

1192

00:52:53,809 --> 00:52:51,480

you know we I can't believe this the

1193

00:52:55,910 --> 00:52:53,819

time has gone by so fast of course I've

1194

00:52:58,190 --> 00:52:55,920

been out of it for a little bit but um

1195

00:52:59,750 --> 00:52:58,200

we only have a minute left uh

1196

00:53:02,450 --> 00:52:59,760

unfortunately I feel like I need to get

1197

00:53:04,910 --> 00:53:02,460

you back on to talk to talk some more

1198

00:53:07,670 --> 00:53:04,920

but um I I just don't trust this

1199

00:53:10,190 --> 00:53:07,680

internet to keep going and uh one of the

1200

00:53:11,690 --> 00:53:10,200

one of the uh questions I wanted to ask

1201

00:53:14,569 --> 00:53:11,700

you and I don't know you can't really

1202

00:53:17,210 --> 00:53:14,579

answer in a minute but um don't we have

1203

00:53:19,670 --> 00:53:17,220

or would you even know this if we have

1204

00:53:24,290 --> 00:53:19,680

satellites that would be able to uh

1205

00:53:29,390 --> 00:53:26,049

of course

1206

00:53:31,790 --> 00:53:29,400

and who has who gets that information

1207

00:53:35,809 --> 00:53:31,800

or right now U.S space force

1208

00:53:37,549 --> 00:53:35,819

space forces space situational awareness

1209

00:53:40,069 --> 00:53:37,559

and so

1210

00:53:42,470 --> 00:53:40,079

um they have uh you know the Air Force

1211

00:53:44,329 --> 00:53:42,480

has wings they have deltas

1212

00:53:45,589 --> 00:53:44,339

and so they have a Delta for

1213

00:53:47,809 --> 00:53:45,599

intelligence surveillance and

1214

00:53:51,049 --> 00:53:47,819

reconnaissance they have a Delta for

1215

00:53:53,750 --> 00:53:51,059

orbital Warfare and so they also have a

1216

00:53:56,450 --> 00:53:53,760

Delta for ballistic missile defense and

1217

00:53:58,849 --> 00:53:56,460

so the combination of these Deltas

1218

00:54:01,069 --> 00:53:58,859

um as part of you know our space

1219

00:54:04,190 --> 00:54:01,079

situational awareness uh they will be

1220

00:54:06,950 --> 00:54:04,200

able to detect these types of objects uh

1221

00:54:09,230 --> 00:54:06,960

by the way a ballistic missile

1222

00:54:12,589 --> 00:54:09,240

when it's launched it's basically a

1223

00:54:15,650 --> 00:54:12,599

space rocket it goes up about 700 miles

1224

00:54:17,750 --> 00:54:15,660

above the surface of the Earth and so

1225

00:54:20,750 --> 00:54:17,760

that's above where some of our

1226

00:54:22,609 --> 00:54:20,760

satellites are are orbiting in low earth

1227

00:54:25,510 --> 00:54:22,619

orbit but we have other satellites that

1228

00:54:28,730 --> 00:54:25,520

are able to detect that primarily the

1229

00:54:32,030 --> 00:54:28,740

space-based infrared system Seavers

1230

00:54:34,970 --> 00:54:32,040

um sbirs which replaced the old defense

1231

00:54:36,410 --> 00:54:34,980

support program the DSP program and so

1232

00:54:37,970 --> 00:54:36,420

these satellites are able to detect

1233

00:54:41,270 --> 00:54:37,980

objects like that

1234

00:54:43,790 --> 00:54:41,280

hmm interesting well it went way too

1235

00:54:46,309 --> 00:54:43,800

quickly and uh I apologize for the

1236

00:54:48,829 --> 00:54:46,319

internet issues and it's always a great

1237

00:54:50,510 --> 00:54:48,839

pleasure to to speak with you John yeah

1238

00:54:54,230 --> 00:54:50,520

I apologize because uh there's no such

1239

00:54:57,109 --> 00:54:54,240

thing as a short answer from me no I

1240

00:55:00,470 --> 00:54:57,119

love it so yeah yeah all right you take

1241

00:55:02,569 --> 00:55:00,480

care all right bye-bye bye now

1242

00:55:04,069 --> 00:55:02,579

all right everyone so thank you so much

1243

00:55:07,190 --> 00:55:04,079

we'll be back next week with Charles

1244

00:55:07,980 --> 00:55:07,200

Lear and remember to keep your eyes to

1245

00:55:15,109 --> 00:55:07,990

the sky

1246

00:55:15,119 --> 00:55:19,200

foreign
