THE AVIATION REPORTING
SAFETY SYSTEM, OR ASRS

1
00:00:00,000 --> 00:00:04,440
(As text over video) NASA and the FAA have been working to improve air transportation safety.

2
00:00:05,840 --> 00:00:08,400
Created 40 years ago as a partnership,

3
00:00:09,340 --> 00:00:12,060
the Aviation Reporting System, or ASRS,

4
00:00:12,060 --> 00:00:16,180
provides a confidential method for reporting observed risks.

5
00:00:17,600 --> 00:00:20,320
Over 1.6 million reports were submitted

6
00:00:20,320 --> 00:00:24,180
from flight crews, controllers, ground personnel, and others

7
00:00:24,180 --> 00:00:26,620
and resulted in over 6,200 safety alerts.

8
00:00:27,640 --> 00:00:29,720
ASRS accomplishments include

9
00:00:29,720 --> 00:00:33,020
identifying fire hazards from lithium ion batteries

10
00:00:34,220 --> 00:00:37,020
and health hazards from de-icing fluids.

11
00:00:37,020 --> 00:00:42,700
(Spoken by Charlie Bolden) "The Aviation Safety Reporting System has really become a vital part of aviation s

12
00:00:42,700 --> 00:00:47,840
Our partnership with the Federal Aviation Administration is really helping to set a high standard
