

1  
00:00:01,530 --> 00:00:04,510  
You think the drought in California

2  
00:00:04,510 --> 00:00:09,750  
might be ending?

3  
00:00:09,750 --> 00:00:12,840  
Images from NASA's Earth Observatory from 2014

4  
00:00:12,840 --> 00:00:17,780  
and 2017 may hold the clue.

5  
00:00:17,780 --> 00:00:21,160  
Dramatic imagery from NASA shows the

6  
00:00:21,160 --> 00:00:25,850  
"Pineapple Express" that brought floods to the state.

7  
00:00:25,850 --> 00:00:28,990  
NASA's measurements show the total accumulation

8  
00:00:28,990 --> 00:00:33,840  
of water over just 3 days.

9  
00:00:33,840 --> 00:00:36,840  
You can see the major differences in the

10  
00:00:36,840 --> 00:00:41,830  
snow pack in the Sierras.

11  
00:00:41,830 --> 00:00:44,670  
NASA plays a critical role in helping to track
