SILICON VALLEY

LIVE

1
00:00:00,560 --> 00:00:02,080

Matt: Hey everyone, I'm Matt.

2
00:00:02,080 --> 00:00:03,990

Abby: And I'm Abby and if you're a fan of the

3
00:00:03,990 --> 00:00:06,120

NASA in Silicon Valley podcast, you might

4
00:00:06,120 --> 00:00:07,490

recognize our voices.

5
00:00:07,490 --> 00:00:09,600

Matt: But if you didn't know, the NASA in Silicon Valley

6
00:00:09,600 --> 00:00:12,770

podcast series is a conversational podcast.

7
00:00:12,770 --> 00:00:14,700

This is where we talk to the various researchers,

8
00:00:14,700 --> 00:00:18,110

scientists, engineers, and all around cool people

9
00:00:18,110 --> 00:00:20,140

throughout NASA, but specifically here at

10
00:00:20,140 --> 00:00:23,110

NASA's Ames Research Center in Silicon Valley.

11
00:00:23,110 --> 00:00:24,450

Abby: Yeah and this week we're trying something

12
00:00:24,450 --> 00:00:26,350

a little bit different with the podcast.

13
00:00:26,350 --> 00:00:27,710

Matt: Yeah. We're teaming up with our friends to

14

00:00:27,710 --> 00:00:31,380

the north, over at Twitch TV to bring you the

15

00:00:31,380 --> 00:00:36,020

NASA in Silicon Valley podcast, but on video and live.

16

00:00:36,020 --> 00:00:38,560

And you can even participate with us,

17

00:00:38,560 --> 00:00:40,760

by participating in the live chat.

18

00:00:40,760 --> 00:00:43,590

Abby: Yeah, so join us this Friday, January 12th

19

00:00:43,590 --> 00:00:47,530

at 2 pm Pacific on twitch dot tv slash NASA.

20

00:00:47,530 --> 00:00:49,100

Matt: We'll have two special guests.

21

00:00:49,100 --> 00:00:50,800

Straight from NASA Headquarters, we'll have

22

00:00:50,800 --> 00:00:52,700

Dr. Jim Green, who heads up

23

00:00:52,700 --> 00:00:54,940

NASA's Planetary Science Division.

24

00:00:54,940 --> 00:00:57,390

But also here locally, Dr. Greg Schmidt, who is a

25

00:00:57,390 --> 00:01:00,070

part of NASA's Solar System Exploration

26

00:01:00,070 --> 00:01:02,170

Research Virtual Institute.

27

00:01:02,170 --> 00:01:03,720

And we're going to be talking about how we're

28

00:01:03,720 --> 00:01:05,310

going back to the moon.

29

00:01:05,310 --> 00:01:07,280

Abby: So, see you all on Friday for our
