

Skywatch Display

1
00:00:01,520 --> 00:00:04,940
Proteus has the level traffic about 11 o'clock

2
00:00:07,240 --> 00:00:11,360
Base concurs. Starting a descent at
this time heading three-four-zero.

3
00:00:11,360 --> 00:00:12,140
Go Proteus go!

4
00:00:12,840 --> 00:00:14,420
Go...yes...yes.

5
00:00:14,420 --> 00:00:16,420
OK...Yes...go...go...down

6
00:00:16,420 --> 00:00:18,920
They got the inside. Boy, that would have been a midair.

7
00:00:18,920 --> 00:00:19,740
Look at that.

8
00:00:19,740 --> 00:00:20,980
Wow, that was great.

9
00:00:21,880 --> 00:00:23,420
OK, five hundred feet at the merge, end of point.

10
00:00:23,560 --> 00:00:24,180
you have the airplane.

11
00:00:24,360 --> 00:00:26,180
Skywatch was able to detect aircraft aircraft

12
00:00:26,180 --> 00:00:28,180
out to 35 nautical miles

13

00:00:28,640 --> 00:00:31,160

Giving us much greater visibility than even the
