1

00:00:00,530 --> 00:00:02,900

We have some of the antenna farms up on

2

00:00:02,900 --> 00:00:05,059

the hill there and as we looked at where the

3

00:00:05,059 --> 00:00:07,180

antennas were pointing you could actually maybe

4

00:00:07,180 --> 00:00:09,860

get an idea of about where the Shuttle

5

00:00:09,860 --> 00:00:11,600

might be seen. And all at once it was

6

00:00:11,600 --> 00:00:13,740

There it is...There it is...and everybody

7

00:00:13,740 --> 00:00:15,890

pointing up to the sky and stuff and then

8

00:00:15,890 --> 00:00:18,000

the double boom was happening and everybody

9

00:00:18,000 --> 00:00:20,200

[Gasps]...Oh and you're going

10

00:00:20,340 --> 00:00:21,760

"Wow...What happened...what happened?"

11

00:00:21,820 --> 00:00:22,860

and you could see the streak.

12

00:00:22,860 --> 00:00:23,620

Man, this thing can land.

13

00:00:23,620 --> 00:00:25,380

You know that's the first time

14
00:00:25,380 --> 00:00:27,520
somebody's come back and actually landed.

15
00:00:27,520 --> 00:00:28,720
and you know it's like,

16
00:00:28,720 --> 00:00:30,860
"Did they really get up there and orbit?"

17
00:00:31,640 --> 00:00:33,020
"And are they going to come down?"

18
00:00:33,020 --> 00:00:35,040
and sure enough here they came down and

19
00:00:35,200 --> 00:00:37,200
it was just...just gorgeous coming down

20
00:00:37,200 --> 00:00:37,735
and it landed.

21
00:00:37,740 --> 00:00:40,260
And that looks like it was almost coming right at you.

22
00:00:40,760 --> 00:00:42,000
[heavy breath]

23
00:00:42,220 --> 00:00:45,020
I still get chills...[Laughter]...but uh

24
00:00:45,020 --> 00:00:48,160
I think like Nancy said, I mean, everybody out there

25
00:00:48,170 --> 00:00:51,180
was just...just in awe that you could see

26

00:00:51,180 --> 00:00:53,540

this thing that actually took off from

27

00:00:53,540 --> 00:00:56,060

Kennedy and landed at Edwards.

28

00:00:56,060 --> 00:00:59,030

I mean, that was...that was just phenomenal!
