

1
00:00:09,640 --> 00:00:12,800
Really good, the crowd's lovin' it.

2
00:00:12,900 --> 00:00:14,520
We really appreciate all the folks over the years

3
00:00:14,520 --> 00:00:15,940
that have supported the airplane.

4
00:00:16,180 --> 00:00:19,300
Arrived here, and I don't know, 94 or so

5
00:00:19,640 --> 00:00:23,680
and flown 251 flights since it's been here.

6
00:00:24,160 --> 00:00:26,240
And that's not including about four years

7
00:00:26,240 --> 00:00:28,140
that it sat on the ground in storage.

8
00:00:28,800 --> 00:00:30,620
So, about 11 years worth there,

9
00:00:30,620 --> 00:00:32,280
11 or 12 years worth of flying.

10
00:00:32,860 --> 00:00:34,280
Did a lot of interesting programs
and

11
00:00:34,280 --> 00:00:36,020
we did vector on the last flight

12
00:00:36,480 --> 00:00:37,860
that we did for research.

13

00:00:37,860 --> 00:00:40,900
[applause]

14

00:00:40,920 --> 00:00:44,420

So, that's what the airplane was designed to do and and it

15

00:00:44,420 --> 00:00:45,700

it did everything I was supposed to do,

16

00:00:45,700 --> 00:00:47,480

and right now it's flying better than it's

17

00:00:47,480 --> 00:00:50,120

flown...probably since we got it.

18

00:00:50,120 --> 00:00:52,760

[laughs]
