

1
00:00:02,160 --> 00:00:05,440
About 50 followers of NASA Social
Media websites got an

2
00:00:05,440 --> 00:00:09,099
up-close-and-personal behind-the-scenes
look at NASA's Dryden Flight Research

3
00:00:09,099 --> 00:00:14,980
Center during a NASA social on May 4th. The social media visitors along with several

4
00:00:14,980 --> 00:00:19,360
news media representatives were briefed
on what Dryden is and does by Center

5
00:00:19,360 --> 00:00:24,160
management, project engineers and
technicians. Well we're responsible for that collision avoidance

6
00:00:24,160 --> 00:00:29,170
stewardship throughout aviation. They also toured various facilities, viewed

7
00:00:29,170 --> 00:00:33,579
research and support aircraft, had their
photos taken in the cockpit of a NASA

8
00:00:33,580 --> 00:00:38,140
F/A-18 and were even regaled by a low-level flyover

9
00:00:41,420 --> 00:00:45,700
and the sonic boom [cheers and screams]

10
00:00:45,920 --> 00:00:49,500
that occurred during a scheduled research mission support flight.

11
00:00:49,660 --> 00:00:50,760
The NASA social attendees
