

1

00:00:05,520 --> 00:00:08,960

we're out here with Joby Aviation right\h
now taking some acoustic measurements\h\h

2

00:00:10,240 --> 00:00:13,124

really what we're trying to learn is is get a\h
good data set \h

3

00:00:13,124 --> 00:00:15,997

for an initial characterization\h of these new type of vehicles \h

4

00:00:15,997 --> 00:00:19,360

we're also\h
looking at performance data and how we will\h

5

00:00:19,360 --> 00:00:27,280

prepare terminal operations for these vehicles as\h
they come into a helipad or vertaport and we're\h\h
