NASA

BOEING

1
00:00:00,316 --> 00:00:03,303
[music]

2
00:00:05,005 --> 00:00:05,872
Endeavour was a big

3
00:00:05,872 --> 00:00:06,656
part of the space

4
00:00:06,656 --> 00:00:07,490
shuttle program's

5
00:00:07,490 --> 00:00:09,659
remarkable 30 year history.

6
00:00:09,659 --> 00:00:11,327
25 missions to help us build

7
00:00:11,327 --> 00:00:11,961
the International

8
00:00:11,961 --> 00:00:12,812
Space Station.

9
00:00:12,812 --> 00:00:14,364
It laid the foundation

10
00:00:14,364 --> 00:00:15,648
for an even more exciting

11
00:00:15,648 --> 00:00:16,833
future for NASA

12
00:00:16,833 --> 00:00:19,319
and America's space program.

13
00:00:19,319 --> 00:00:20,103

We are delighted that

14

00:00:20,103 --> 00:00:21,237
the California Science Center

15

00:00:21,237 --> 00:00:22,172
will use Endeavour

16

00:00:22,172 --> 00:00:23,640
to inspire a new generation

17

00:00:23,640 --> 00:00:25,558
of scientists and explorers.

18

00:00:25,558 --> 00:00:26,960
And we thank you for helping

19

00:00:26,960 --> 00:00:28,078
tell the story of NASA's

20

00:00:28,078 --> 00:00:28,912
historic past

21

00:00:28,912 --> 00:00:29,479
as we begin

22

00:00:29,479 --> 00:00:30,480
to write the stories

23

00:00:30,480 --> 00:00:31,831
of the future today.

24

00:00:31,831 --> 00:00:33,450
The first point is going to be

25

00:00:33,450 --> 00:00:34,651
the California Science Center.

26

00:00:34,651 --> 00:00:36,386

It's going to be on the left.

27

00:00:36,419 --> 00:00:38,538

Copy. Two.

28

00:00:46,096 --> 00:00:48,498

It is a great day for NASA,

29

00:00:48,798 --> 00:00:50,216

for America,

30

00:00:50,216 --> 00:00:50,867

and for

31

00:00:50,867 --> 00:00:51,751

the people who live here

32

00:00:51,751 --> 00:00:53,036

in southern California.

33

00:00:53,036 --> 00:00:53,403

The fact

34

00:00:53,403 --> 00:00:54,287

that the space shuttles

35

00:00:54,287 --> 00:00:55,321

were developed

36

00:00:55,321 --> 00:00:56,790

here, built here

37

00:00:56,790 --> 00:00:57,707

just down the road

38

00:00:57,707 --> 00:00:58,308

and Endeavour's

39

00:00:58,308 --> 00:00:59,726

coming back on her last

40

00:00:59,726 --> 00:01:02,128

ferry flight on the 747

41

00:01:02,128 --> 00:01:02,979

is a wonderful thing.

42

00:01:02,979 --> 00:01:04,230

It's a beautiful day.

43

00:01:04,230 --> 00:01:04,914

And I know

44

00:01:04,914 --> 00:01:05,782

the pilots are having

45

00:01:05,782 --> 00:01:06,499

a great time

46

00:01:06,499 --> 00:01:08,251

showing her off to

47

00:01:08,251 --> 00:01:09,419

the United States

48

00:01:09,419 --> 00:01:11,454

all the week and today

49

00:01:11,454 --> 00:01:13,440

to Californians.

50

00:01:13,440 --> 00:01:15,708

Enjoy the view.

51
00:01:15,708 --> 00:01:16,342
Your look

52
00:01:16,342 --> 00:01:17,393
at the shuttle Endeavour

53
00:01:18,411 --> 00:01:19,496
as it flies

54
00:01:19,496 --> 00:01:20,880
over Mount Hollywood

55
00:01:20,880 --> 00:01:23,500
and Griffith Observatory.

56
00:01:32,358 --> 00:01:33,093
What a sight

57
00:01:33,093 --> 00:01:35,278
to see.

58
00:01:40,400 --> 00:01:42,619
Look at her.

59
00:01:42,619 --> 00:01:43,937
Very cool

60
00:01:44,838 --> 00:01:46,856
look at that.

61
00:01:46,856 --> 00:01:48,591
Oh it's wonderful.

62
00:01:49,409 --> 00:01:52,395
USA. USA. USA

63
00:01:54,798 --> 00:01:55,982

You know, you can't help

64

00:01:55,982 --> 00:01:57,000

but get choked up

65

00:01:57,000 --> 00:01:58,351

when you see that.

66

00:01:58,351 --> 00:01:59,636

Yeah, it's very moving.

67

00:01:59,636 --> 00:02:00,737

It's really wonderful.

68

00:02:00,737 --> 00:02:02,155

My heart is definitely pounding

69

00:02:02,155 --> 00:02:03,139

much more than I thought.

70

00:02:03,139 --> 00:02:03,807

And I'm

71

00:02:03,923 --> 00:02:05,008

emotionally stirred

72

00:02:05,008 --> 00:02:07,827

in a way I didn't anticipate.

73

00:02:08,628 --> 00:02:09,412

This is one of the things

74

00:02:09,412 --> 00:02:11,181

you'll remember, just powerful.

75

00:02:11,181 --> 00:02:12,232

It's just so huge.

76

00:02:12,232 --> 00:02:14,534

a747 on its own is enormous.

77

00:02:14,551 --> 00:02:15,568

But to see a shuttle

78

00:02:15,568 --> 00:02:16,469

on top of it

79

00:02:16,469 --> 00:02:17,387

is just spectacular.

80

00:02:17,387 --> 00:02:17,871

It just brings

81

00:02:17,871 --> 00:02:18,688

a tear to your eye.

82

00:02:18,688 --> 00:02:19,289

People

83

00:02:19,289 --> 00:02:21,141

shoulder to shoulder here.

84

00:02:21,141 --> 00:02:24,711

I mean,

this is a shuttle party.

85

00:02:27,564 --> 00:02:29,449

This is a moment in the history

86

00:02:29,449 --> 00:02:30,466

of Southern California.

87

00:02:30,466 --> 00:02:31,651

People will never forget.

88

00:02:31,651 --> 00:02:32,402
They'll never forget

89
00:02:32,402 --> 00:02:33,453
where they were

90
00:02:33,453 --> 00:02:34,587
when they saw this.

91
00:02:34,587 --> 00:02:35,972
It will never happen again.

92
00:02:35,972 --> 00:02:37,707
It's never happened before.

93
00:02:37,707 --> 00:02:39,843
Rarely does science

94
00:02:39,843 --> 00:02:41,177
and technology intersect

95
00:02:41,177 --> 00:02:42,562
with culture and society.

96
00:02:42,562 --> 00:02:43,129
And that's what

97
00:02:43,129 --> 00:02:44,214
happened here today.

98
00:02:48,918 --> 00:02:49,219
What a

99
00:02:49,219 --> 00:02:52,005
magnificent view.

100
00:02:53,840 --> 00:02:56,125
The space shuttle Endeavour

101
00:02:56,793 --> 00:02:59,062
has flown 25 missions

102
00:02:59,395 --> 00:03:02,282
with 154 astronauts.

103
00:03:02,749 --> 00:03:03,266
Traveled

104
00:03:03,266 --> 00:03:06,686
more than 123 million miles.

105
00:03:07,220 --> 00:03:08,071
Transported

106
00:03:08,071 --> 00:03:10,223
the first American segment

107
00:03:10,456 --> 00:03:11,958
of the International Space

108
00:03:11,958 --> 00:03:12,892
Station.

109
00:03:12,892 --> 00:03:14,027
Repaired

110
00:03:14,027 --> 00:03:16,346
the Hubble Space Telescope

111
00:03:16,346 --> 00:03:17,297
and enabled

112
00:03:17,297 --> 00:03:19,499
hundreds of wonderful

113

00:03:19,499 --> 00:03:21,768
experiments.

114
00:03:33,179 --> 00:03:34,347
This is a great day

115
00:03:34,347 --> 00:03:36,299
for our city and our region.

116
00:03:36,299 --> 00:03:37,467
It's a tremendous honor

117
00:03:37,467 --> 00:03:38,718
and a privilege

118
00:03:38,718 --> 00:03:39,569
to welcome home

119
00:03:39,569 --> 00:03:41,905
this crown jewel of NASA's

120
00:03:42,088 --> 00:03:43,706
space fleet.

121
00:03:43,823 --> 00:03:45,024
Endeavour is a marvel

122
00:03:45,024 --> 00:03:45,992
of technology

123
00:03:45,992 --> 00:03:47,577
and human ingenuity,

124
00:03:47,577 --> 00:03:48,361
and we're thrilled

125
00:03:48,361 --> 00:03:49,712
to have it back here

126
00:03:49,712 --> 00:03:51,631
in Los Angeles.

127
00:03:54,901 --> 00:03:55,368
Astro nine-five

128
00:03:55,368 --> 00:03:57,203
heavy flight is back with you.

129
00:03:57,203 --> 00:03:58,071
Vectors for left downwind

130
00:03:58,071 --> 00:03:58,621
for a ten mile

131
00:03:58,621 --> 00:04:01,324
straight-in, full-stop.

132
00:04:03,142 --> 00:04:04,110
The upclose image set over

133
00:04:04,110 --> 00:04:05,161
the ocean left

134
00:04:05,161 --> 00:04:05,995
many of us

135
00:04:05,995 --> 00:04:07,797
with few words, breathless

136
00:04:07,797 --> 00:04:09,032
from the significance

137
00:04:09,032 --> 00:04:09,882
of this moment.

138

00:04:09,882 --> 00:04:11,851
Oh, it's beautiful.

139
00:04:11,851 --> 00:04:13,553
It is awesome to see it

140
00:04:13,553 --> 00:04:14,487
come here.

141
00:04:14,487 --> 00:04:15,355
That was crazy.

142
00:04:15,355 --> 00:04:16,589
It's like on top of the plane

143
00:04:16,589 --> 00:04:17,040
and stuff.

144
00:04:17,040 --> 00:04:17,724
It's so cool.

145
00:04:17,724 --> 00:04:18,891
It's very exciting.

146
00:04:18,891 --> 00:04:19,592
It's just something

147
00:04:19,592 --> 00:04:20,243
we've never seen

148
00:04:20,243 --> 00:04:21,444
before, something we remember

149
00:04:21,444 --> 00:04:22,428
for the rest of our lives

150
00:04:22,428 --> 00:04:23,329
and tell our children.

151

00:04:25,131 --> 00:04:25,932

LA Tower, Astro

152

00:04:25,932 --> 00:04:26,983

95 Heavy Flight.

153

00:04:27,600 --> 00:04:29,702

Coming in for a full-stop -

154

00:04:29,702 --> 00:04:30,536

two-five right.

155

00:04:32,488 --> 00:04:33,289

Astro nine five heavy.

156

00:04:33,289 --> 00:04:34,674

L.A. Tower.

157

00:04:34,674 --> 00:04:35,875

Good afternoon.

158

00:04:35,875 --> 00:04:37,310

Wind two, five, zero, one, two.

159

00:04:37,310 --> 00:04:38,511

Runway two five right

160

00:04:38,511 --> 00:04:39,595

clear to land.

161

00:04:39,963 --> 00:04:41,698

Astro nine-five heavy,

162

00:04:41,698 --> 00:04:44,334

clear to land, two-five, Right.

163

00:04:48,538 --> 00:04:50,223

Welcome home, Endeavour.

164

00:04:50,223 --> 00:04:53,609

Welcome to California.
