

1
00:00:10,440 --> 00:00:06,980
okay so you have this acidic water and

2
00:00:12,359 --> 00:00:10,450
with gas coming up through the rock it

3
00:00:13,740 --> 00:00:12,369
alters a rock to form the clay and of

4
00:00:16,710 --> 00:00:13,750
course you start mixing play with water

5
00:00:19,950 --> 00:00:16,720
you get mud and but so you have this

6
00:00:21,900 --> 00:00:19,960
nice monkey muddy bowl basin basically

7
00:00:25,470 --> 00:00:21,910
but then you still have co2 bubbling up

8
00:00:27,210 --> 00:00:25,480
through it so so you get these gases

9
00:00:30,779 --> 00:00:27,220
coming up and they form a bubble at the

10
00:00:33,660 --> 00:00:30,789
top and a sort of tops top and it's very

11
00:00:35,220 --> 00:00:33,670
fun to watch and the face you that's it

12
00:00:37,380 --> 00:00:35,230
it's a bubbling mud pot so it's

13
00:00:41,639 --> 00:00:37,390

basically on a mud formed by altered

14

00:00:44,069 --> 00:00:41,649

rock and water and with co2 making the

15

00:00:46,649 --> 00:00:44,079

bubbles and it's a wonderful thing to
