

ASTROBIOLOGY at NASA  
LIFE IN THE UNIVERSE

You've had a very  
prestigious career.

**#AskAstr**  **Bio**

1  
00:00:03,530 --> 00:00:01,790  
you've had a very prestigious career

2  
00:00:05,510 --> 00:00:03,540  
you've done so many incredible things

3  
00:00:08,030 --> 00:00:05,520  
but if you could take the knowledge you

4  
00:00:10,070 --> 00:00:08,040  
have now and go back to meet yourself at

5  
00:00:11,870 --> 00:00:10,080  
the beginning of your career what kind

6  
00:00:13,970 --> 00:00:11,880  
of advice would you give yourself what

7  
00:00:17,150 --> 00:00:13,980  
I'd give advice to younger faculty or

8  
00:00:19,250 --> 00:00:17,160  
early career scientists is you know find

9  
00:00:20,990 --> 00:00:19,260  
your colleagues your students Junior and

10  
00:00:24,109 --> 00:00:21,000  
senior to you colleagues your family

11  
00:00:26,570 --> 00:00:24,119  
find your support group and find your

12  
00:00:28,730 --> 00:00:26,580  
colleagues that you respect and trust

13  
00:00:31,250 --> 00:00:28,740

and who trust and respect you and and

14

00:00:33,110 --> 00:00:31,260

hold on to those people and I think it

15

00:00:35,270 --> 00:00:33,120

is about the people you interact with

16

00:00:37,850 --> 00:00:35,280

not the institutions you go to but
