

1
00:00:00,386 --> 00:00:02,966
>> Here at NASA Glenn Research
Center, I am the Chief Safety

2
00:00:03,026 --> 00:00:05,676
and Mission Assurance Officer
for the Space Communications

3
00:00:05,676 --> 00:00:07,176
and Navigation Project Office.

4
00:00:07,786 --> 00:00:10,036
And that means that I help
coordinate the activities

5
00:00:10,086 --> 00:00:13,336
that we need to do and the
personnel required to do them

6
00:00:13,676 --> 00:00:15,506
from a safety and mission
assurance standpoint.

7
00:00:16,006 --> 00:00:18,676
I've worked at NASA
for almost 15 years.

8
00:00:18,776 --> 00:00:22,136
And almost on a daily basis,
I'm humbled by situations

9
00:00:22,136 --> 00:00:25,226
that I'm put in where I can
learn from my behaviors.

10
00:00:25,226 --> 00:00:26,556
Learn how to communicate better.

11
00:00:26,866 --> 00:00:28,076

Learn how to be more professional.

12

00:00:28,546 --> 00:00:31,416

So when we're not afraid to show our successes in front of people

13

00:00:31,756 --> 00:00:33,816

and to show our failures, we can all learn from each other.

14

00:00:34,406 --> 00:00:36,866

As far as challenges that I face on a daily basis,

15

00:00:36,956 --> 00:00:37,896

I mean, they're numerous.

16

00:00:38,136 --> 00:00:39,996

There are big ones, project related.

17

00:00:39,996 --> 00:00:41,856

And there are some that are personal related.

18

00:00:41,856 --> 00:00:42,956

Just getting along with people.

19

00:00:42,956 --> 00:00:44,936

And it's really taking a step back

20

00:00:45,566 --> 00:00:47,596

and assessing the situation.

21

00:00:48,126 --> 00:00:49,036

And not overreacting.

22

00:00:49,036 --> 00:00:50,416

And I think that's
the hardest part.

23

00:00:50,416 --> 00:00:52,786

And I think we continue to learn
that throughout our careers.

24

00:00:52,786 --> 00:00:55,806

So navigating slowly and
meticulously through challenges
