

1
00:00:02,046 --> 00:00:05,606
>> I am a project manager at
NASA Glenn Research Center.

2
00:00:05,966 --> 00:00:08,886
I work with a team of
researchers, engineers,

3
00:00:09,286 --> 00:00:12,396
technicians and business
personnel to plan

4
00:00:12,516 --> 00:00:14,566
and implement aeronautic
projects.

5
00:00:15,116 --> 00:00:16,756
I have a very good job.

6
00:00:16,896 --> 00:00:19,056
I get to work with
brilliant friends.

7
00:00:19,456 --> 00:00:22,076
They make work fun
and challenging.

8
00:00:22,466 --> 00:00:24,596
And we get to do
important things.

9
00:00:24,656 --> 00:00:28,296
We try to improve
aircraft engine efficiency.

10
00:00:28,356 --> 00:00:29,196
Make them faster.

11
00:00:29,196 --> 00:00:31,896

Safer. And we never
have a boring day.

12

00:00:32,416 --> 00:00:36,726

My project team works with
NASA researchers and industry

13

00:00:37,176 --> 00:00:40,896

to really push the limit
on aircraft efficiency.

14

00:00:41,346 --> 00:00:44,396

So eventually the end product
of that would be faster,

15

00:00:44,636 --> 00:00:47,976

better and more affordable
air travel for everyone.

16

00:00:48,276 --> 00:00:50,086

I like to be remembered
as a person

17

00:00:50,206 --> 00:00:52,326

who loves what I do
and do what I love.

18

00:00:52,586 --> 00:00:55,106

And hopefully make
it a bit easier
