

1
00:00:00,026 --> 00:00:02,026
>> [Background Music]

2
00:00:02,046 --> 00:00:03,756
I am a computer engineer lead

3
00:00:04,226 --> 00:00:06,886
and we basically do
investigating the research

4
00:00:07,266 --> 00:00:10,856
on space communication systems
to make them autonomous --

5
00:00:11,496 --> 00:00:15,426
that's self-aware, learned
from previous sections and act

6
00:00:15,896 --> 00:00:16,906
on unknown environments.

7
00:00:18,186 --> 00:00:21,946
What I enjoy most about my job
is that we can do research.

8
00:00:22,296 --> 00:00:24,096
We can start from
an initial concept

9
00:00:24,096 --> 00:00:27,996
and actually something fly
and be able to see it and work

10
00:00:27,996 --> 00:00:29,346
in different space environments.

11
00:00:30,926 --> 00:00:33,736
The work we do affect people
in their everyday life is

12

00:00:33,826 --> 00:00:36,586

because we use new
technology in the research

13

00:00:37,036 --> 00:00:38,976

for space communication systems

14

00:00:39,056 --> 00:00:40,916

to make it more reliable
and autonomous.

15

00:00:41,746 --> 00:00:44,036

I want to be remembered
as an effective leader.

16

00:00:44,386 --> 00:00:47,416

I want to be a good role
model for everybody,

17

00:00:47,856 --> 00:00:51,276

that is approachable, and
that you can count on.

18

00:00:51,726 --> 00:00:53,716

I have been challenged,
so I want those people
