

1  
00:00:00,031 --> 00:00:02,031  
>> [Background Music]

2  
00:00:02,056 --> 00:00:05,986  
My work in management  
involves collaborating

3  
00:00:05,986 --> 00:00:08,616  
across organizations,  
which is very important

4  
00:00:08,906 --> 00:00:11,776  
because it takes many types  
of expertise to come together

5  
00:00:12,346 --> 00:00:14,346  
to achieve the goals of NASA

6  
00:00:15,046 --> 00:00:17,666  
and to develop breakthrough  
technologies in areas

7  
00:00:17,696 --> 00:00:19,116  
that we didn't even  
think were possible.

8  
00:00:19,916 --> 00:00:23,056  
I enjoy coming to work  
every day with a passion

9  
00:00:23,126 --> 00:00:24,696  
for materials engineering.

10  
00:00:24,796 --> 00:00:27,216  
That was where I got my  
education was in materials,

11  
00:00:27,486 --> 00:00:29,726  
and I find it very

exciting knowing

12

00:00:29,726 --> 00:00:32,136

that I am making a  
difference in materials

13

00:00:32,216 --> 00:00:34,176

and structures for  
NASA missions.

14

00:00:34,656 --> 00:00:37,436

Some of the work we do includes  
developing new materials

15

00:00:37,496 --> 00:00:39,826

technologies for more  
efficient aircraft,

16

00:00:40,706 --> 00:00:42,406

including hybrid-electric  
aircraft.

17

00:00:43,096 --> 00:00:45,536

As a supervisor, I  
want to be remembered

18

00:00:45,946 --> 00:00:49,026

for selecting passionate  
and talented employees.

19

00:00:49,436 --> 00:00:51,996

I want to be seen as someone  
who inspires collaboration,

20

00:00:52,496 --> 00:00:54,636

where teams can come  
together to achieve things
