

Amy R. Quarles
Special Assistant to the Administrator

1
00:00:03,066 --> 00:00:05,156
>> My job is an electrical
engineer

2
00:00:05,506 --> 00:00:07,696
in a flight project
called Orion,

3
00:00:08,036 --> 00:00:11,366
which is our next generation
flight system for astronauts

4
00:00:11,506 --> 00:00:13,316
and space travel
and exploration.

5
00:00:14,716 --> 00:00:18,016
What I enjoy most about
my job are the challenges,

6
00:00:18,376 --> 00:00:21,306
the excitement, and the new
things that I get to work

7
00:00:21,306 --> 00:00:23,066
on while I am here at NASA.

8
00:00:23,906 --> 00:00:27,586
There are external forces from
space that affect our world.

9
00:00:27,816 --> 00:00:30,516
As we better understand
those forces,

10
00:00:30,636 --> 00:00:34,546
we can make better decisions in
our lives, in our homes today.

11

00:00:35,106 --> 00:00:37,256

At work I'd like to be
remembered as somebody

12

00:00:37,256 --> 00:00:39,566

who gave all she
had and did the best

13

00:00:39,626 --> 00:00:41,026

that she could in every aspect.

14

00:00:41,806 --> 00:00:44,296

On a personal note, I
would like to be remembered

15

00:00:44,386 --> 00:00:45,846

for improving the
lives of others.

16

00:00:46,486 --> 00:00:50,106

I work at a local food pantry
where I not only bag groceries,

17

00:00:50,466 --> 00:00:53,566

but I organize diaper
drives and clothing drives
