

1
00:00:02,056 --> 00:00:05,846
>> What I really like most
about my job is the people--

2
00:00:06,026 --> 00:00:09,186
people from different
cultures, different disciplines,

3
00:00:09,186 --> 00:00:12,096
and every day I see these
people strive for success.

4
00:00:12,486 --> 00:00:15,386
It's very humbling and
awe inspiring to work

5
00:00:15,386 --> 00:00:17,746
with this very talented
group of individuals.

6
00:00:18,036 --> 00:00:20,626
We live in an era of
advanced technology,

7
00:00:21,156 --> 00:00:24,246
and the Orion spacecraft
will be going further

8
00:00:24,456 --> 00:00:26,886
than ever before with humans.

9
00:00:27,536 --> 00:00:29,816
And we'll need these
technologies

10
00:00:29,846 --> 00:00:31,436
to enable a successful mission.

11
00:00:31,436 --> 00:00:34,826

I think this mission really
makes science exciting,

12

00:00:34,906 --> 00:00:39,526

and because of that we
are inspiring people.

13

00:00:40,646 --> 00:00:42,316

We enable people to dream.

14

00:00:42,766 --> 00:00:45,746

And eventually we'll produce our
next generation of explorers.

15

00:00:45,806 --> 00:00:51,316

I would hope to be remembered as
a manager that guided her teams,

16

00:00:52,046 --> 00:00:55,756

encouraged her teams,
and appreciated them,
