1
00:00:00,506 --> 00:00:03,646
[Music]

2
00:00:04,146 --> 00:00:06,226
>> I am the Integration
Business Manager

3
00:00:06,296 --> 00:00:09,206
for the European Service Module
at Glenn Research Center.

4
00:00:09,756 --> 00:00:13,106
I track schedules, budget
and the configuration

5
00:00:13,106 --> 00:00:16,246
of the data products which come
along with the service module.

6
00:00:17,026 --> 00:00:20,436
I love the challenge of
working on space flight systems.

7
00:00:20,716 --> 00:00:23,106
It's recognizable
across the agency

8
00:00:23,106 --> 00:00:24,746
and outside of the agency.

9
00:00:25,146 --> 00:00:26,696
I like the challenge of working

10
00:00:26,696 --> 00:00:29,226
with multi partners
internationally

11
00:00:29,226 --> 00:00:30,206
and domestically.

12
00:00:30,636 --> 00:00:34,926
And I love the challenge of
trying to meet a schedule

13
00:00:35,436 --> 00:00:37,316
which all of America is watching

14
00:00:37,446 --> 00:00:39,766
because everybody is
ready for the next launch.

15
00:00:40,276 --> 00:00:43,826
I'd like to be remembered as
the non-engineer that wanted

16
00:00:43,826 --> 00:00:45,816
to learn everything
I could about NASA

17
00:00:46,426 --> 00:00:48,796
to make an impact
on what we do today.

18
00:00:49,506 --> 00:00:53,426
Be able to integrate all
the data and put it together
