1
00:00:03,146 --> 00:00:07,056
>> I enjoy working daily with
people and solving problems

2
00:00:07,176 --> 00:00:10,316
and implementing solutions
to any problems that crop

3
00:00:10,316 --> 00:00:11,876
up over the course of a project.

4
00:00:12,136 --> 00:00:14,856
Being a part of the facility's
infrastructure division means

5
00:00:14,856 --> 00:00:16,866
that a lot of the work
we do impacts people

6
00:00:16,866 --> 00:00:18,606
across Glenn Research Center.

7
00:00:18,976 --> 00:00:21,976
Some examples would be replacing
the domestic waterlines

8
00:00:21,976 --> 00:00:24,736
across the lab, building
new buildings,

9
00:00:25,146 --> 00:00:27,716
installing a generator,
doing simple repairs

10
00:00:27,856 --> 00:00:30,096
to existing buildings,
roof replacements,

11
00:00:31,296 --> 00:00:33,606

new test facilities, and
things of that nature.

12
00:00:34,186 --> 00:00:37,516
I take a great deal of pride in
seeing successful implementation

13
00:00:37,786 --> 00:00:40,966
of a project, and I
take a great deal of joy

14
00:00:41,286 --> 00:00:45,016
from seeing my project teams be
successful and solve problems,

15
00:00:45,406 --> 00:00:48,766
and implement successful
projects to completion.

16
00:00:49,126 --> 00:00:51,406
I hope that my legacy is
that I made a difference

17
00:00:51,606 --> 00:00:54,266
at NASA Glenn Research Center,
and that I was a positive mentor
