

1  
00:00:03,126 --> 00:00:05,616  
>> Gosh, I like almost  
everything that has to do

2  
00:00:05,616 --> 00:00:07,006  
with being the center  
director here.

3  
00:00:07,006 --> 00:00:09,566  
There are so many cool  
people to work with.

4  
00:00:09,566 --> 00:00:12,746  
You can see the pride the people  
have in the work that they do

5  
00:00:12,746 --> 00:00:14,396  
and the places where they work,

6  
00:00:14,846 --> 00:00:18,046  
and the incredible  
facilities that we have.

7  
00:00:18,236 --> 00:00:20,866  
I think almost everything  
NASA does affects people's

8  
00:00:20,896 --> 00:00:21,706  
daily lives.

9  
00:00:21,736 --> 00:00:22,876  
They just don't always know it.

10  
00:00:23,076 --> 00:00:24,456  
For instance, the  
wind tunnel work

11  
00:00:24,486 --> 00:00:27,726  
that we do here helped make

flying safer for everyone.

12

00:00:27,726 --> 00:00:29,436

The other area is  
space research.

13

00:00:29,476 --> 00:00:32,236

There's so much work going on on  
the International Space Station

14

00:00:32,236 --> 00:00:33,426

that we have a part of here.

15

00:00:33,836 --> 00:00:37,236

We do research on cancer,  
we do research on fitness,

16

00:00:37,306 --> 00:00:40,196

and cardiovascular  
health, and osteoporosis.

17

00:00:40,196 --> 00:00:42,446

And all of those things  
directly affect the people

18

00:00:42,536 --> 00:00:43,236

on this planet.

19

00:00:43,486 --> 00:00:44,626

If anything, I would hope

20

00:00:44,666 --> 00:00:47,276

that I've helped make  
NASA a better place.

21

00:00:47,716 --> 00:00:50,656

I've helped make Glenn  
Research Center a better place,

22

00:00:51,126 --> 00:00:53,446

and that we're all

able to contribute more
