1100

1
00:00:00,320 --> 00:00:03,119
I've been honored, privileged, and blessed

2
00:00:03,120 --> 00:00:04,959
to interview presidents,

3
00:00:04,960 --> 00:00:08,239
politicians, sports celebrities, over the

4
00:00:08,240 --> 00:00:08,879
years.

5
00:00:08,880 --> 00:00:10,879
But the one interview I always mentioned

6
00:00:10,880 --> 00:00:12,319
actually was coordinated by

7
00:00:12,320 --> 00:00:15,758
NASA Glenn, and that's Gene Krantz,

8
00:00:15,759 --> 00:00:18,159
for years the director of flight control

9
00:00:18,160 --> 00:00:19,038
at NASA.

10
00:00:19,039 --> 00:00:20,879
Of course the movie Apollo 13 with the

11
00:00:20,880 --> 00:00:22,719
vest and all - we know that story.

12
00:00:22,720 --> 00:00:25,198
But having a chance to interview him was

13
00:00:25,199 --> 00:00:26,079

fascinating.

14

00:00:26,080 --> 00:00:28,239

I've loved space my whole life thinking

15

00:00:28,240 --> 00:00:29,438

about the Moon,

16

00:00:29,439 --> 00:00:31,438

and I remember talking to him about the

17

00:00:31,439 --> 00:00:32,959

team he put together

18

00:00:32,960 --> 00:00:35,679

years ago. He looked for midwestern guys

19

00:00:35,680 --> 00:00:36,718

as he said. Bill,

20

00:00:36,719 --> 00:00:38,558

I like midwestern guys that know how to

21

00:00:38,559 --> 00:00:40,959

fix things, guys that grew up on the farm.

22

00:00:40,960 --> 00:00:42,078

They had to be patient

23

00:00:42,079 --> 00:00:44,558

and fix things because I knew we'd have

24

00:00:44,559 --> 00:00:46,159

to fix stuff.

25

00:00:46,160 --> 00:00:48,558

And boy they did - so we're so proud in

26

00:00:48,559 --> 00:00:49,759

Cleveland to call

27

00:00:49,760 --> 00:00:51,759

NASA Glenn a part of this community and
