

**2021 Class of the NASA Glenn Hall of Fame**

1  
00:00:01,440 --> 00:00:07,920

Our 80th anniversary has been a time to reflect\h  
on the history of NASA Glenn's effort to push\h\h

2  
00:00:07,920 --> 00:00:14,080

boundaries and break barriers. Perhaps the\h  
most important part of that reflection\h\h

3  
00:00:14,080 --> 00:00:20,400

is acknowledging those who came before us and\h  
the contributions and examples they left for us\h\h

4  
00:00:20,400 --> 00:00:28,880

to build on. With a legacy in mind as a part of the\h  
ongoing 80th-anniversary celebration I am pleased\h\h

5  
00:00:28,880 --> 00:00:36,160

to introduce the third class of inductees to the  
NASA Glenn hall of fame. I hope you will\h\h

6  
00:00:36,160 --> 00:00:42,240

take time to learn more about their careers and\h  
achievements. Congratulations to our inductees\h\h

7  
00:00:42,240 --> 00:00:57,840

and I look forward to joining all of you for an\h  
official induction ceremony in the near future.
