

1
00:00:00,010 --> 00:00:03,990

A wind-driven wildfire in the foothills just outside Boulder, Colorado

2
00:00:04,010 --> 00:00:08,000

has spread to over seven thousand acres.

3
00:00:08,020 --> 00:00:12,000

These images were captured by the MODIS instrument on NASA's Terra and Aqua

4
00:00:12,020 --> 00:00:16,010

satellites on Monday, September sixth and Tuesday the seventh respectively.

5
00:00:16,030 --> 00:00:20,020

Fire activity is outlined in red. The fire began

6
00:00:20,040 --> 00:00:24,030

on Monday in Four Mile Canyon, northwest of Boulder, and gusting winds
